Notes :

1 The above Financial Results were reviewed by the Audit Committee and approved by the Board of Directors at their meeting held on June 23, 2021.

2 These financial results of the Company have been prepared in accordance with the Indian Accounting Standards (IND AS) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act 2013 read with rule 3 of the Companies (Indian Accounting Standard) rules, 2015, Companies (Indian Accounting Standards) amendment rules 2016 and in terms of regulation 33 and 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, SEBI Circular No. CIR/CFD/CDM1/44/2019 dated March 29, 2019 and other accounting principles generally accepted in India.

3 The Chief Operating Decision Maker "CODM" reviews the operations of the Company as a whole, i.e. single primary business segment viz. product and systems for electricity distribution, hence, there are no reportable segments as per Ind AS 108 "Operating Segments".

4 Exceptional items represent expenses incurred towards organizational restructuring for improving efficiency in line with change in product lines and related employees settlement cost.

5 The global pandemic outbreak had impacted the Company's business in early part of the financial year 2020-2021. However, the Company has been able to recover the business during the course of the year. Basis the assessments and valuations of current assets as on the date of reporting, the Company does not anticipate any material impact emanating from the non-recoverability of the carrying values of those assets. The management has also estimated future cash flows for the Company and believes that there is no impact on its ability to continue as going concern and meeting its liabilities as and when they fall due. However, considering the unpredictability of the pandemic and inherent uncertainty on the potential future impact of the COVID 19 pandemic, the Company's financial statements may differ from that estimated as on the date of approval of these financial results.

6 As at the end of year, the Company has total accumulated losses aggregating to MINR 3,565.71 which has resulted in substantial erosion of Company's net worth. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. However, the management has evaluated availability of sufficient funding to meet the Company's obligations and for such evaluation, the management has considered various factors which include estimated future cashflows, availability of working capital facilities sanctioned by the banks and borrowings sourced from group companies. Basis such evaluation, the management is confident that the Company will be able to realise its assets and discharge its liabilities in the normal course of business. Therefore, these financial results have been prepared based on going concern assumption.

7 The figures of the quarter ended March 31, 2021 are the balancing figures between audited figures in respect of the full financial year up to March 31, 2021 and the unaudited published year-to-date figures up to December 31, 2020, being the date of the end of the third quarter of the financial year which were subjected to limited review.

8 Prior period figures have been reclassified/regrouped wherever necessary, to correspond with those of the current period classification.

9 The full format of the Financial Results are available on the websites of Stock Exchanges at www.bseindia.com and www.nseindia.com and can be accessed on Company's website at www.schneider-infra.in.

Tax on Dividend:

Pursuant to the provisions of the Income-Tax Act, 1961, as amended by the Finance Act, 2020, dividend paid or distributed by a company on or after 1 April 2020, shall be taxable in the hands of the members. Therefore, the Company shall be required to deduct Tax at Source (TDS) at the time of payment of dividend and deposit the same to the credit of the Central Government.

Tax rate applicable to a shareholder depends on the availability of PAN, residential status, category of shareholder and the documents submitted by them and accepted by the Company in accordance with the applicable provisions of the Income-Tax Act, 1961. Accordingly, the dividend will be paid after deducting applicable TDS, if any.

All shareholders are thereby requested to update any change in PAN, residential status and / or category with DPs (in case of shares held in electronic form) or with the Company's RTA (in case of shares held in physical form), as may be applicable, on or before the Cut-off date, i.e. July 12, 2021.

Further, pursuant to the Finance Act, 2021, Section 206AB of the Income-Tax Act, 1961 is applicable with effect from July 1, 2021, whereby tax would be required to be deducted at twice the applicable rate in respect of any sum or amount or income paid or payable or credited to a 'specified person'.

Pursuant to the Income-Tax Act, 1961, 'specified person' shall mean:

- A person who has not filed returns of income for both of the two assessment years relevant to the two previous years immediately prior to the previous year in which tax is required to be deducted and the time for filing tax return under section 139(1) of the Act has expired for both these assessment years; and
- Aggregate of tax deducted at source and tax collected at source in his / her case is Rs 50,000 or more in each of these two previous years.

However, the aforementioned withholding at higher rate shall not apply to a Non-Resident who does not have a Permanent Establishment / fixed base in India. Accordingly, a Non-Resident should submit a No Permanent Establishment Declaration.

A detailed email communication explaining the process on withholding tax on dividend paid to the members at prescribed rates along with the necessary annexures and guidance on updating PAN/ bank account details has been sent by the Company on June 24, 2021 to those Members, whose email IDs are registered with the DPs or with the RTA, as the case may be.

Application forms for claiming NIL or less rate of TDS by Resident members (such as Form 15G / Form 15H in case of individuals and self-declaration by entities) and by Non-Resident members (such as Form 10F and self-declaration) can be downloaded from the website of the Company www.kirloskarpneumatic.com or by sending an email request to the Company at sec@kirloskar.com from your registered email Id.

To enable us to determine applicable rate of TDS / withholding tax, you should upload necessary documents at https://linkintime.co.in/formsreg/submission-of-form-15g-15h.html on or before Monday, July 12, 2021.

No communication on tax determination / deduction shall be considered after the said date.

Further the details are also available on the Company's website www.kirloskarpneumatic.com and Stock Exchange website www.bseindia.com

Jio-Google's 'most affordable' smartphone to debut in Sept

Will enable 300 m 2G users to upgrade to 4G

SHUBHRA TANDON
Mumbai, June 24

"2G-MUKT AND 5G-Yukt." These are the two goals Reliance Industries (RIL) chairman Mukesh Ambani outlined for the group's digital venture while speaking at the company's 44th annual general meeting (AGM) on Thursday. While the 2G-Mukt objective will be achieved with the launch of the most affordable 4G smartphone, developed in partnership with Google, on September 10; the 5G road map would be a combination of Google Cloud and Jio's home-grown technological solutions.

"JioPhone Next is powered by an extremely optimised version of the Android operating system. While being ultra-affordable, JioPhone Next is packed with cutting-edge features like the Google Assistant, automatic read-aloud of screen text, language translation, smart camera with augmented reality filters and much more.

This is testimony to a global technology company and a national technology champion working jointly to make a break-through product," Ambani told shareholders.

Though Ambani did not reveal the price of the affordable smartphone, it is expected to be within the ₹5,000 bracket. He said he was hopeful that with the launch of the phone, the 300 million subscribers who are still on 2G feature phones would migrate to 4G services.

Massive green push: RIL to invest ₹75k cr in 3 yrs

ANUPAM CHATTERJEE
New Delhi, June 24

STICKING TO ITS plan to achieve net-zero carbon status earlier than its global peers by 2035, Reliance Industries (RIL) on Thursday unveiled a mega plan for green and clean energy business. The company would make initial investments of ₹75,000 crore out of its internal resources in the burgeoning area over the next three years, chairman Mukesh Ambani announced at the 44th AGM.

Stating work had already begun on developing the Dhirubhai Ambani Green Energy Giga Complex on 5,000 acres in Jamnagar, he said the facility would include manufacturing units for solar cells and modules, a battery unit for energy storage, a fuel cell-making factory and an electrolyser plant to produce green hydrogen. The business would provide end-to-end solutions for building and running large renewable plants, rooftop solar and decentralised solar installations in villages, he added.

"Reliance will establish and enable at least 100 gigawatt (GW) of solar energy by 2030," Ambani said. India has set a target to raise renewable energy capacity to 450 GW by 2030 from 95 GW at present.

In sync with the global commitment among countries and firms to reduce the use of high-emitting fossil fuels and cut carbon footprints, global energy majors like BP, Total and Royal Dutch Shell announced plans to get net-zero carbon tag by 2050.

UP discom asked to pay ₹7,245 cr

ANUPAM CHATTERJEE
New Delhi, June 24

THE UTTAR PRADESH electricity regulator has asked state-run power utility Uttar Pradesh Power Corporation (UPPCL) to deposit ₹7,244.7 crore in a regulatory fund by January 2022 to meet the renewable purchase obligations (RPO) for FY22 and clear the past dues. The move would give the much-needed payment assurance to solar, wind and hydel power producers supplying electricity to the state.

The amount to be deposited by UPPCL includes ₹1,459.3 crore for not meeting its RPO targets till FY21, while the balance amount is towards meeting FY22 RPO obligations. This is for the first time the UP utility has been asked to pay the RPO funds in advance.

Uttar Pradesh's 'overdues', pending receivables of 45 days or more, to power producers stood at ₹5,688 crore at FY21 end.

USIBC finds India's e-comm plans worrying

ADITYA KALRA & ABHIRUP ROY
New Delhi, June 24

THE US-INDIA Business Council (USIBC), part of the US Chamber of Commerce, believes India's proposed new e-commerce rules are a cause for concern and will lead to a stringent operating environment for companies, according to an email reviewed by Reuters.

India this week spooked online retailers like Amazon and Walmart's Flipkart by outlining plans to limit 'flash sales', reining in a private label push and mandating them to have a system to address grievances.

The Washington-headquartered USIBC, of which Amazon and Walmart are members, described the rules as concerning in an internal email, saying some provisions were in line with New Delhi's stance on other big digital companies.

India's draft plan "includes several concerning policies, including significant limits on platforms' ability to organise sales and handle grievances", USIBC said in an email to its members.

PRICE PRESSURE

KV Subramanian, chief economic adviser

"Some of the increase in food inflation in the recent print has been because of the restrictions that have been placed...So, I think that's (lockdown) a contributing factor and given that now a lot of the restrictions are getting eased, I do expect that food inflation should moderate."

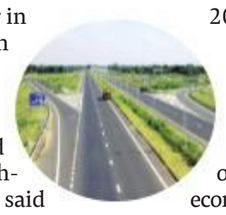
Highway build target raised by manifold

Stiff target to build roads worth ₹15L cr

FE BUREAU
New Delhi, June 24

DESPITE THE PANDEMIC and the elusive private investor, the government has set a ambitious target to build roads worth ₹15 lakh crore over the next one-two years. This is a stiff rise from ₹1-1.3 lakh crore per year spent on constructing highways in recent years; while the amount hovered around ₹1 lakh crore between FY18 and FY20, analysts estimate that around ₹1.4 lakh crore was spent in the last fiscal, given the 30% jump on year in the highway length added in the year.



Announcing the ambitious goal, minister for road transport and highways Nitin Gadkari said on Thursday that that the process related to land acquisition and environmental clearances were being expedited.

Gadkari, who had set a 40 km/per day highway construction target for the current fiscal, up from 36 km/day achieved in the last fiscal, had on March 18 informed Parliament that "expenditures incurred on the development works on the national highways" were ₹1,00,178 crore in 2017-18, ₹1,27,993 crore in 2018-19 and ₹1,03,258 crore in 2019-20.

While the highway sector has been a silver lining when other sectors of the economy are languishing, analysts discounted the possibility of road construction worth ₹15 lakh crore in a couple of years, even if the construction of roads other than highways, including village roads under the PM Gram Sadak Yojana (annual spend of roughly ₹15,000 crore) is included. Obviously, the Centre is expecting larger private sector participation through the HAM and BOT routes, while also trying to augment government expenditure by pooling in resources including the proceeds of toll-operate-transfer projects.

The National Infrastructure Pipeline had pegged spend on roads at ₹20.34 lakh crore between 2020 and 2025. As on March 31, 2021, works on 2,108 highway projects with a cumulative length of 64,010 km, costing ₹9,22,404 crore, were ongoing, according to the ministry of road transport and highways.

Providing the highest-ever ₹1.18-lakh-crore capital outlay for the ministry for 2021-22, finance minister Nirmala Sitharaman said in the latest Budget that more than 13,000 km length of roads, at a cost of ₹3.3 lakh crore, has already been awarded under the ₹5.35-lakh-crore Bharatmala Pariyojana. Of this, 3,800 km of the roads have been constructed.

By March 2022, another 8,500 km projects would be awarded and an additional 11,000 km of NH corridor would be completed, she said.

The increasing pace of highway construction, analysts believe, is the result of a slew of measures the government initiated in recent times like shifting from milestone-based billing (typically ranging between 45-75 days) to monthly billing and release of retention money, performance security in proportion to the work already executed which have helped in reducing cash conversion cycle favouring the contractors.

S&P trims India's FY22 growth forecast to 9.5%

PRESS TRUST OF INDIA
New Delhi, June 24

S&P GLOBAL RATINGS on Thursday cut India's growth forecast for the current fiscal to 9.5%, from 11% earlier, and warned of risk to the outlook from further waves of Covid.

The agency lowered the growth outlook saying that a severe second Covid-19 outbreak in April and May led to lockdowns imposed by states and sharp contraction in economic activity. "We forecast growth of 9.5% this fiscal from our March forecast of 11%," S&P said.

Stating that permanent damage to private and public sector balance sheets will constrain growth over the next couple of years, it projected India's growth at 7.8% in the next fiscal ending March 31, 2023. "Further pandemic waves are a risk to the outlook given that only about 15% of the population has received at least one vaccine dose so far, although vaccine supplies are expected to ramp up," S&P said.

Indian economy contracted by 7.3% in FY21 as the country battled the first wave against a 4% growth in 2019-20. GDP growth in the current fiscal was estimated to be in double digits initially, but a severe second wave has led to various agencies cut growth projections.

CEA says food inflation likely to ease with unlock, good monsoon

KUMAR DIPANKAR
New Delhi, June 24

ATTRIBUTING THE RISE in food prices to restrictions imposed by several states during April-May to deal with the second wave of Covid-19, chief economic adviser KV Subramanian said food inflation is likely to moderate on account of the twin impact of opening up of economic activities and good monsoon.

Moreover, Subramanian asserted that high food inflation has not impacted a large section of population as they are being given free ration under the Pradhan Mantri Garib Kalyan Yojana.

"Some of the increase in food inflation in the recent print has been because of the restrictions that have been placed...we even saw last year when the lockdown happened and the supply side was affected, impacting food inflation, which in turn then led to an impact on CPI inflation.

"So I think that's a contributing factor and given that now a lot of the restrictions are getting eased, I do expect that food inflation should moderate," he told PTI in an interview.

Pandemic won't deliver a big shock to banking system, says Sanyal

FE BUREAU
Kolkata, June 24

THE INDIAN BANKING system would not be hit by the pandemic as much as feared by many, Sanjeev Sanyal, principal economic adviser, said. "The IBC (Indian Bankruptcy Code) process related cases are getting solved. The NCLT system has continued to function. The banking channels mostly remained muted for financing. Some NPAs will pop up but the shock will be smaller than feared," Sanyal said at a session of the Merchants' Chamber of Commerce and Industry.

He said as the government was opening up more and more avenues for private investments. The booming stock markets could be a source for meeting the financing needs through more equity participation.

The capital expenditure, which the government started ramping up from October last year onwards to create more assets, has resulted in a strong economic recovery for the January-March quarter last fiscal. Sanyal said the FY22 Budget focussed on expanding the economy and that's what the government is implementing.

SANJEEV SANYAL, principal economic adviser

The second wave of Covid has a deeper psychological impact on people with the number of deaths being significantly higher than the first wave. But a national lockdown would have been "blunt and costlier and so lockdown by the states have given a headroom to deal with the economy more efficiently". Response to the situation was more adequate through faster creation of the required health infrastructure, though the country is still dealing with a lot of uncertainties, Sanyal said.

While he refrained from commenting on the preparedness of a probable third wave, he said a better surveillance and a situational awareness was required rather than prejudging how the economy would behave in case of a third wave. Though there could be many possibilities, the government at present was viewing three possibilities depending on which the economy would behave.

Some H-1B visa applicants allowed to resubmit pleas

The H-1B visa allows US companies to employ foreign workers in speciality occupations that require theoretical or technical expertise. Technology companies depend on it to hire tens of thousands of employees each year from countries like India and China.

"If your FY 2021 petition was rejected or administratively closed solely because your petition was based on a registration submitted during the initial registration period, but you requested a start date after Oct. 1, 2020, you may re-submit that previously filed petition, with all applicable fees," USCIS said on Wednesday.

Green power: UP discom asked to pay ₹7,245 cr

In March, the regulator had directed UPPCL to route all payments to renewable power generators through the RPO regulatory fund to ensure these developers are paid on time. More than ₹709 crore have already been paid to such developers in the first three months of the ongoing fiscal from the RPO fund. Keeping in mind the liquidity flow of the discoms, the regulator has allowed UPPCL to deposit the fund in the account in 10 equal instalments between July 2021 and January 2022. The required amount is equivalent to about 10% of the state's annual power purchase cost, experts pointed out.

For the cumulative shortfall of RPO targets, the deposit amount has been calculated at ₹1/unit for the electricity not procured by the state discoms till FY21. For the FY22 consumption estimate, it is calculated at ₹4.37/unit which is the average power purchase cost of the UP discoms. UPPCL will also have to submit quarterly compliance reports on these deposits to the RPO fund, the regulator stated. As the RPO target shortfall till FY21 was significantly higher for non-solar and hydel sectors compared with solar power procurement, the regulator has directed UPPCL to "revisit their renewable power purchase strategy".

Stating that much lower tariffs have been discovered in recent solar auctions in other states, UP has recently cancelled the auction for 184 MW of solar plants conducted in February 2020 where the tariff of ₹3.17/unit was discovered. Of the 40,000 MW of installed solar capacity in the country, UP houses around 1,700 MW.

Solar power tariffs reached a record low of ₹1.99/unit in December 2020 under auctions held by Solar Energy Corporation of India (Seci) in Gujarat. In November 2020, a tariff of ₹2/unit was discovered in Seci's solar auctions for Rajasthan.

The Centre prescribed RPOs that mandates the discoms to purchase a minimum share of renewable power to meet their supply obligations as per the long-term RPO trajectory set by the Union power ministry. "We are pressuring the states to achieve their RPO targets," Power minister RK Singh recently said, adding that "right now penalties for RPO failures are mild, in the Electricity Act amendments we are proposing to increase the penalties". "We already have RPO targets, valid till 2022 and we will be extending the RPO targets to 2030," Singh stated.

Jio-Google's 'most affordable' smartphone to debut in Sept

Through its earlier JioPhone which was not exactly a smartphone but offered some features which conventional feature phones didn't, Jio was able to ramp up its subscriber base substantially. However, a saturation point was reached and it started lagging Bharti Airtel in terms of monthly subscriber additions for several months, a trend which got overturned only since February when it came out with a slew of new tariff packages.

Analysts maintain that an affordable smartphone would not only help Jio garner more subscribers but also help improve its average revenue per user (Arpu). Rival, Bharti Airtel also feels that an affordable smartphone would create a better ecosystem and help competitors too. "Airtel welcomes the low-end smartphone initiative from Reliance Jio and Google. We support every effort that triggers the upgrade of feature phones to smartphones so as to bring more Indians online," a Bharti Airtel spokesperson told *FE*. "Our experience has shown that as customers with entry-level devices upgrade to quality smartphones priced over ₹7,000, they demonstrate a strong preference for Airtel's brand and network," the spokseperson added.

Sundar Pichai, CEO, Google and Alphabet who joined the AGM virtually said, "Our vision is to bring affordable access to information for Indians in their own language, to build new products and services for India's unique needs, and to empower businesses with technology. I'm excited that today, we can announce the next steps in this vision, starting with a new, affordable Jio smartphone, created with Google. It is built for India and it will open up new possibilities for millions of new users who will experience the internet for the very first time". The partnership with Google for developing an affordable smartphone was announced by RIL in its AGM last year.

On 5G services, Ambani said Jio has developed a fully homegrown and comprehensive 5G solution which is fully cloud native, software defined, and digitally managed. "Jio is not just working to make India 2G-Mukt...but also 5G-Yukt," he said.

Massive green push: RIL to invest ₹75k cr in 3 yrs

Reliance, despite being a hydrocarbon-intensive company, had announced a more ambitious target last year to met the coveted goal by 2035. Tech giants like Microsoft and Apple aim to meet the target by 2030.

"We will use green hydrogen and carbon dioxide as raw materials to develop a road map for new green chemicals, green fertilisers and e-fuels", Ambani said. Solar and wind plants can produce green hydrogen using electrolysers through the electrolysis process, wherein the electricity generated from renewable energy is put in water to create hydrogen and oxygen.

RIL will invest over ₹60,000 crore in the next three years in these plants in the Jamnagar complex alone. RIL's announcement follows the government approving the ₹4,500-crore solar PLI scheme in April to boost the domestic solar and cell manufacturing capacity. Beneficiaries will be selected on the basis of manufacturing capacity proposed to be set up and the extent of elementary products required for manufacturing solar panels they promise to make in the country.

RIL would start with raw silica, convert it to poly silicon, which would be further converted to ingot and wafers, These subsequently would be used to make solar cells and modules. Polysilicon, wafers and cells are the basic building blocks for making solar modules, and the minuscule manufacturing base of these products result in continued reliance on imports.

In May, the Centre had also approved PLI on ACC battery storage, with an outlay of ₹18,100 crore, for achieving manufacturing capacity of 50 gigawatt-hour (GWh). "We will collaborate with global leaders in battery technology to achieve the highest reliability for round-the-clock power availability through a combination of generation, storage, and grid connectivity," Ambani stated.

The RIL chief also said Yasir Al-Rumayyan, chairman of Saudi Aramco, will join RIL's board as an independent director. In August 2019, RIL said it has signed a non-binding letter of intent to sell a 20% stake in its O2C business to Saudi Aramco. The O2C business includes RIL's refining and petrochemical divisions, and RIL's 51% stake in its fuel marketing business. "I expect our partnership to be formalised in an expeditious manner during this year, after obtaining required regulatory clearances," Ambani said.

IBA applies for bad bank incorporation

No private bank has yet agreed to put in capital but talks are still on.

While Canara Bank has announced it would be the sponsor of the NARCL and hold a 12% equity, other large banks are expected to pick up just about 10% each. Punjab National Bank (PNB) MD and chief executive SS Mallikarjun Rao has said his bank would hold under 10% in the bad bank, while Union Bank of India MD & CEO and IBA chairman Rajkiran Rao G has said the lender would buy 9%. PNB and Union Bank have identified bad loans worth about ₹8,000 crore and ₹7,800 crore, respectively, for transfer to the NARCL. Meanwhile, the IBA has finalised the article of association as well as memorandum of association for the NARCL so that the asset reconstruction company takes off quickly.

Sources had earlier told *FE* that the finance ministry could soon seek Cabinet approval for a plan to offer sovereign guarantee on the security receipts (SRs) issued by the NARCL while acquiring bad loans from lenders. This would cost the government ₹30,600 crore over five years. A top banker had last week said the cost to the exchequer won't exceed ₹30,600 crore, as estimated by the IBA, as the prospects of recovery from some of the bad loans looked promising.

Ghaziabad assault case: Twitter India MD gets relief, no coercive action, says HC

PRESS TRUST OF INDIA
Bengaluru/Ghaziabad, June 24

IN A RELIEF TO Twitter India head Manish Maheshwari, the Karnataka High Court on Thursday restrained the Ghaziabad police, who have summoned him in connection with a probe related to the assault of an elderly Muslim man there, from initiating coercive action against him.

The single bench of Justice G Narender said the police can examine Maheshwari through virtual mode. "If the police desire to examine the petitioner (Manish Maheshwari), they may do so through virtual mode," the court said.

"If the matter requires consideration, we list it on June 29.In the meanwhile restraining the respondents from initiating any coercive action against the petitioner," the court said.

"It is case of petitioner that he has replied to notice under section 160 of CrPC to join through virtual mode.The respondent (Ghaziabad police) taking objection to the request has turned around and issued notice under section 41(A) virtually putting him in shoes of accused," it observed.

CRUDE CONCERNS

Pradhan urges Opec to raise oil output

FE BUREAU
New Delhi, June 24

REITERATING HIS REQUEST of phasing out production cuts, Union minister of petroleum and natural gas Dharmendra Pradhan, in a high-level consultation meeting with Opec secretary general Mohammed Sanusi Barkindo on Thursday, said that high crude prices is adding a significant inflationary pressure on India. "Crude prices should remain within a reasonable band, which will be in the collective interests of both consumers and producers and will encourage a consumption-led recovery," Pradhan said.

The price of Indian basket of crude is currently at $73.2/barrel, up from $50/barrel in end-December, supported by global demand recovery and voluntary production cuts until July-end from major oil exporting nations."Global crude oil prices are expected to hover in the range of $75-80/barrel until at least September 2021, but may revert to $75/barrel in case of higher Iranian supply and OPEC countries," analysts at CARE Ratings said on Thursday.

Crude oil import of India in May was 17.3 million tonne (MT), recording an annual rise of

18.5%. Due to the increase in global crude oil rates, the value of the import was $8.3 billion, 261% higher than May 2020.In the first two months of FY22, the value of crude import, at $16.8 billion, was 217% higher than the same period last year though import volumes were up only 13.8% to 35.5 MT.

On Thursday, retail petrol price in Delhi touched an all-time high of ₹97.76/litre, rising by ₹4.55/litre since the same day a month ago, as state-run oil marketing companies gradually increased the base-price of the products amid rising international crude prices. The base price comprise 39% of the retail petrol rates in Delhi, while state VAT makes up 23% and central excise account for 34% of the final fuel price paid by the end consumer. Freight charges and dealer commission make up for the rest of the price.

MEA: Will keep making efforts to pursue Nirav Modi's early extradition

PRESS TRUST OF INDIA
New Delhi, June 24

AFTER FUGITIVE DIAMOND merchant Nirav Modi lost the first stage of his extradition appeal in the UK High Court, the Ministry of External Affairs on Thursday said it has noted the decision and will continue its efforts to pursue his early extradition to India.

The High Court's decision came over two months after the wanted diamond merchant's extradition to India was ordered by UK Home Secretary Priti Patel in the Punjab National Bank scam case.

Asked about Nirav Modi's extradition at an online media briefing, Ministry of External Affairs spokesperson Arindam Bagchi said, "We have noted yesterday's decision of the United Kingdom (UK) High Court against his plea to appeal against the extradition order." "We will continue our efforts to pursue his early extradition to India to face justice," he said.

A high court official confirmed that the permission to appeal was "rejected on paper" on Tuesday, which left the 50-year-old jeweller with a chance for his lawyers to make his case at a brief oral hearing in the high court with a renewed "leave to appeal" application for a judge to determine if it can proceed to a full appeal hearing.

Yes Bank case: CBI books former CG Power chairman Thapar, others

PRESS TRUST OF INDIA
New Delhi, June 24

THE CBI ON Thursday carried out searches at six locations after registering a fresh case of fraud of ₹2,435 crore in Yes Bank and other consortium banks against former CG Power and Industrial Solutions chairman Gautam Thapar, who is already under probe in more such cases, officials said.

CG Power and Industrial Solutions was earlier Crompton Greaves. The searches took place at locations in Mumbai, Delhi and Gurgaon.

This is a new case against Thapar, who was booked recently in a ₹466-crore fraud case in Yes Bank, the officials said. Thapar faces multiple Central Bureau of Investigation (CBI) FIRs for alleged bank fraud and corruption.

This is a new case against Thapar, who was booked recently in a ₹466-crore fraud case in Yes Bank, officials said

The present case is based on a complaint from the State Bank of India on behalf of the consortium of 11 other lender banks, including Yes Bank.

Besides Thapar, the CBI has also booked CG Power and Industrial Solutions and the then executives, including chief executive officer and managing director K N Neelkanth, executive director and chief financial officer (CFO) Madhav Acharya, director B Hariharan, non-executive director Omkar Goswami and CFO Venkatesh Rammoorthy.

"It was alleged that the s aid accused had cheated SBI and other consortium member banks, including Bank of Maharashtra, Axis bank, Yes Bank, Corporation Bank, Barclays Bank, IndusInd Bank etc...," the CBI said in a statement.

Apeda working towards recognition in Canada, several other countries

FE BUREAU
New Delhi, June 24

CANADA IS IN the process of designating India's agri export promotion agency Agricultural and Processed Food Products Export Development Authority (Apeda) as a 'conformity verification body', which will help Indian certified organic produce to get recognition, potentially boosting exports, Apeda said.

"We are negotiating with Japan, Australia, UAE, New Zealand and China for mutual recognition with their organic standards. This will help our certified organic products to have direct access to these markets without going through another round of certification process separately in the importing country," Apeda chairman M Angamuthu said.

Negotiations with Taiwan for mutual recognition are at a concluding stage, while with South Korea they are at an advanced stage, Angamuthu said.

To ease the procedure for export and reduce the financial burden on producers and exporters due to multiple certifications as per regulation of various countries, Apeda has been negotiating with major organic produce importing countries for mutual recognition.

Currently, 32 certification bodies are accredited under the National Programme for Organic Production (NPOP) run by Apeda, of which 12 are state government agencies and the remaining 20 are in the private sector.

The NPOP standards have been recognised as equivalent to the regulations of European Commission and Switzerland for unprocessed plant products. India is already negotiating a bilateral agreement with the European Union.

NHIDCL takes charge of alternative mobility solutions

FE BUREAU
New Delhi, June 24

STATE-OWNED NATIONAL HIGHWAYS & Infrastructure Development Corporation (NHIDCL) has been entrusted with the job of co-ordination, research, standards and policy matters in respect of ropeways and other mobility solutions.

"The subject of coordination, research, standards and policy matters in respect of ropeways and other innovative/alternative mobility solutions has been entrusted to the ministry of road transport and highways and to say that this subject will be dealt by the NHIDCL cell of the ministry with immediate effect," MoRTH said in a notification on Thursday.

NHIDCL, a company fully-owned by the MoRTH, had constructed 628 km highways and recorded a ₹87.61-crore net profit in 2019-20.

Amending the Government of India (Allocation of Business) Rules, 1961, the government had earlier this year entrusted MoRTH with the job of looking after the development of ropeways and alternative mobility solutions.

The move was aimed at giving a boost to the sector, by setting up a regulatory regime, and facilitating research and new technology to come into this sector.

Reacting to the development, Gadkari had said the move "will go a long way in developing sustainable alternative mobility solutions in transport sector for urban, hilly and last mile connectivity".

Regulatory constraints pose headwinds for open access renewable energy projects: Icra

PRESS TRUST OF INDIA
New Delhi, June 24

REGULATORY CONSTRAINTS ARE posing headwinds for open access-based renewable energy (RE) projects, rating agency Icra said on Thursday.

Independent power producers (IPPs) in the renewable energy sector selling electricity in the open access route (third-party or group captive mode) are faced with increasing regulatory constraints such as upward revision of open access charges, denial of open access approvals, and tightening of energy banking norms, Icra said in a statement.

Further, it said with improving tariff competitiveness of renewables, particularly in the solar and wind power segments, the renewable power policies in several states have been amended over the past three-four years.

States have either completely withdrawn or reduced the concessions or incentives on open access charges, in respect of procuring power from solar and wind power projects under the open access route, it added.

Icra senior vice-president and co-group head (corporate ratings) Girishkumar Kadam said, "The overall open access charges for third-party-based IPPs vary widely across the key states ranging between ₹2 and ₹5 per unit, and have shown an increasing trend over the period."

16 new distilleries worth ₹1,250 cr to come up in UP this year

DEEPA JAINANI
Lucknow, June 24

IN A MOVE that will help both sugar millers and over 45 lakh farmers in Uttar Pradesh, 16 new distilleries are being set up or expanded in the state at a cost of ₹1,250.44 crore.

Companies that are investing in the distillery business include DCM Shriram, Balrampur Chini, Dhampur Sugar, Dalmia Bharat, Dewan Sugars and Rana group.

The move to expand the distillery business comes at a time when the Centre is push-

ing for higher ethanol blending to help keep the sugar inventory under control.

As more and more sugar mills have started giving preference to manufacturing ethanol instead of producing sugar, the country's sugar production is set to decline, thereby averting a glut.

According to credit rating agency Icra, high sugar exports for the second sugar season in a row, coupled with increased supply of ethanol for blending with petrol, will improve the operating profitability of integrated sugar mills by 75-100 basis points to 13-14% this fiscal.

"Sugar closing stocks are expected to decline to their lowest levels in the past four SSs to 9-9.5 million tonne in SS 2020-21, resulting in lower working capital borrowings. The improvement in profitability and controlled debt levels will, in turn, bolster the credit profiles of integrated mills this fiscal," it said.

Crisil: States' revenues set to cross pre-Covid level this fiscal

HIGH TAX BUOYANCY, led primarily by fuel taxes, and increase in grants from the Centre under the Finance Commission package will help revenue growth of states cross the pre-pandemic level in the current fiscal, provided there is no third Covid wave, a report said.

Given the higher prices of fuels, revenue from this segment is set to grow 50% to 30% in the current fiscal from 20% last year, even though the overall volume will fall, Crisil said in a report on Thursday.

The tax on fuels constitute 10% of the revenues of states. Revenue of the top 10 states had plunged 600 basis points (bps) last fiscal but is set to exceed the pre-pandemic level this financial year, driven by higher tax buoyancy, rise in sales tax collections from petroleum products coupled with increase in grants following 15th Finance Commission recommendations, it said.

The assessment is based on projections for 10 large states which account for almost 70% of the aggregate gross state domestic product. — PTI

RELIANCE AGM

Reliance Retail aims to grow three-fold in next 3-5 years

FE BUREAU
New Delhi, June 24

RELIANCE RETAIL AIMS to record at least three-fold growth in the next three to five years and will make deeper investments to bolster its research, design, product development capabilities. The company will also build state-of-the-art supply chain infrastructure across India and continue to acquire suitable businesses to power its growth.

Reliance Retail will also focus on a multi-fold expansion of its store footprint this year to reach more merchants and customers while boosting its sourcing ecosystem by working closely with a host of partners including MSMEs, local and international brand companies.

"Growth in the retail sector will usher growth across the value chain — from raw material producers to large and small manufacturers, from logistics service providers to merchants, to consumers," Mukesh Ambani, chairman & managing director, RIL said. "Reliance Retail continues to be amongst the fastest growing retailers in the world. We are committed to grow our business so that we are among the top 10 retailers globally. I am confident that Reliance Retail is on a hyper growth trajectory to grow at least three times in the next 3-5 years," he said.

Reliance Retail plans to set up design, research, technology and innovation centres in key domestic and global locations to "develop differentiated offerings" for its

"diverse customer groups".

Analysts at Goldman Sachs are betting on RIL's retail business (including e-commerce) to drive the next growth engine for the conglomerate. Retail Ebitda has the potential to grow as much as ten times over the next 10 years, they said. Analysts at the firm expect RIL core retail revenues to grow at a 36% CAGR over the next four years to $44 billion and e-commerce revenues to be 35% of total retail revenues in FY25, at $15 billion.

Reliance Retail reported revenues of ₹1,53,818 crore in FY21, a marginal decline over revenues of ₹1,63,029 crore posted in FY20, the firm said in its annual report.

Reliance Retail that took on e-tailers Amazon and Walmart-backed Flipkart with the launch of JioMart last year has set a daunting target to onboard over one crore merchant partners over the next three years to power its e-commerce venture. JioMart claims to have already partnered with over three lakh shopkeeper partners across 150 cities. The firm registered over 6.5 lakh peak orders (across categories) in a single day last year.

"JioMart's growth is a testament to its already loyal customer base, 80% of whom are repeat shoppers," Ambani said. Initially limited to grocery, JioMart has scaled up, expanding its offerings to cover more segments including electronics and fashion.

Reliance Retail has crafted a strategy of partnerships and acquisitions to grow its digital business and strengthen its omni-channel play. For instance, JioMart's partnership with Facebook-owned WhatsApp, that has a user base of more than 400 million in India, gives the company the much needed leverage to deepen its network of kirana stores and consumer reach. The firm also acquired controlling stakes in Urban Ladder, Netmeds among others.

"We have launched an initial set of integrations between WhatsApp and JioMart on a trial basis and the response from WhatsApp and JioMart customers is encouraging. Our joint teams are actively developing the full New Commerce solution linking merchants and consumers, and we plan to progressively launch these over the next few quarters," Ambani said.

The retailer said it currently employs over two lakh people and aims to generate employment for more than ten lakh people over the next three years.

Saudi Aramco chairman to join Reliance board

PRESS TRUST OF INDIA
Mumbai, June 24

Harvard-educated Al-Rumayyan, 51, will replace Yogendra P Trivedi, 92, who has expressed a desire to retire

SAUDI ARAMCO CHAIRMAN and head of the Kingdom's cash-rich wealth fund PIF Yasir Othman Al-Rumayyan will join the board of Reliance Industries as an independent director in a precursor to a $15 billion deal.

Reliance chairman and Asia's richest man Mukesh Ambani, who had two years back disclosed the talks to sell a 20% stake in the company's oil-to-chemical unit to Saudi Aramco, announced the appointment of Al-Rumayyan at the company's annual meeting of shareholders.

Harvard educated Al-Rumayyan, 51, will replace Yogendra P Trivedi, 92, who has expressed a desire to retire, Ambani said. On the sale of a 20% stake in the O2C business, he said the deal is likely to conclude this year.

"Despite several challenges due to Covid-19, we have made substantial progress in the past in our discussions (with Saudi Aramco)," he said. "This continued engagement and resolve from both sides, even during this pandemic, is a testimony of strong relationship between Saudi Aramco and Reliance."

Ambani said RIL is looking forward to "welcoming Saudi Aramco as a strategic partner in our O2C business".

"I expect our partnership to be formalised in an expeditious manner during this year," he added.

In 2019, he had announced a $75 billion valuation of the O2C venture, which houses the group's oil refineries and petrochemical units as well as fuel retailing. A 20% stake to Aramco was valued at $15 billion. But, on Thursday, he did not put any value.

"I am delighted to welcome Yasir Al-Rumayyan, chairman of Saudi Aramco and the Governor of the Public Investment Fund, to join the board of Reliance Industries as an independent director," Ambani said. Besides bringing his vast financial experience, the induction of Al-Rumayyan, who also sits on the board of SoftBank Group Corp and Uber Technologies, will bring down the average age of the board of directors of Reliance.

Over the past years, the oil-to-telecom conglomerate has segregated businesses into separate verticals - Jio Platforms houses the company's digital and telecom unit, retail is a separate unit and oil refining and petrochemical segments have been carved into the O2C sector to attract strategic partnerships.

Under Al-Rumayyan, PIF has invested billions of dollars in RIL ventures.

In June last year, PIF bought a 2.32% stake in RIL's digital unit Jio Platforms for ₹11,367 crore. Five months later, it picked up a 2.04% stake in RIL's retail venture for ₹9,555 crore. PIF has also invested ₹3,779 crore in an infrastructure investment trust (InvIT), Digital Fibre Infrastructure Trust (DFIT) that holds RIL's fibre-optic assets.

Tata Motors expands ambulance portfolio as demand soars

GEETA NAIR
Pune, June 24

TATA MOTORS HAS expanded its ambulance portfolio, as the demand for ambulances has been going up through the pandemic. Tata Motors has seen a doubling of its ambulance sales in FY21 and it is expected to grow in FY22 because of the second wave and on the back of the recent cut in GST from 28% to 12% for ambulances till September 2021. The company has reduced prices which is expected to fuel demand further.

The company launched two new ambulance models this year. The LP 410 ambulance was launched in June 2021, while the Magic Express ambulance was launched in March 2021. The Winger BS-6 facelift ambulance was launched last June. The Winger ambulance has been in the market since August 2007. The company also offers the Xenon 4x4 ambulance for the defence forces. Ambulance sales at Tata Motors has gone up from 1,621 units in FY19-20 to 3,541 units in FY20-21.

Vinay Pathak, vice president, product line – Small Commercial Vehicles, Vans & Pick-Up, Tata Motors, says sensing an urgency, the company started the Pune plant to manufacture ambulances. The company had already developed the BS-VI Winger so they could start manufacturing immediately. Since then, the demand for ambulances shot up across the country.

The Winger ambulance is priced in the ₹15 lakh to ₹23 lakh range. During the first wave of the pandemic, Pathak said,

they realised that the market was looking for smaller ambulances. So they worked on the Magic Express, which is priced in the ₹7 lakh to ₹8 lakh range and met this emerging demand. Governments remain the largest customer in the country's ambulance market but during the pandemic, the demand from the private markets grew at a faster rate, says Pathak. The total market for ambulances is very low compared to the geography and population and remains an underserved segment in the country, says Pathak.

Anand S, head – sales & marketing, passenger commercial vehicles, Tata Motors said they now have three different products with Magic at the base level, Winger at the next level and the LP 410 at the high end. The last 12 months, they saw an increase demand for ambulances with advanced equipment and life saving devices.

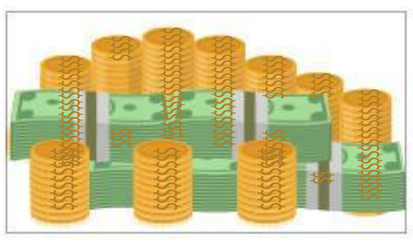
Edtech start-up Classplus raises $65 million led by Tiger Global

FE BUREAU
New Delhi, June 24

CLASSPLUS, AN EDTECH START-UP has raised $65 million in fresh funding led by Tiger Global. The investment which is part of the company's series C financial round also saw participation from GSV Ventures and existing investors Alpha Wave Incubation, Blume Ventures and RTP Global.

This is the fourth round of funding raised by the company in the last 15 months, it said in a statement on Thursday. The firm's total fund tally now stands at about $90 million. Founded by Mukul Rustagi and Bhaswat Agarwal in 2018, Classplus runs a mobile platform that enables educators to take their offline institutes online. The company that counts Sequoia Capital's Surge and Times Internet as its early backers allows tutors to run all their coaching, communication and student engagement programmes through mobile solutions. Besides, it also allows educators to sell their online courses, thereby helping them grow their businesses beyond their areas of operation.

The company plans to deploy the funds to expand geographically, build advanced



products for educators, grow its engineering team and hire new talent.

"With Classplus, educators have been able to build and expand their online presence, and monetise their content without any major investment and effort," said CEO and Co-Founder Mukul Rustagi.

The company claims to have already digitised over one lakh tutors across 1,500 cities catering to 20 million students. Academic and non-academic content creators, specialising across subjects ranging from Maths and Astronomy to Photography have used the platform's service. A typical educator is able to grow its student base from 100 to 1200 students within 8-10 months of using Classplus, the firm said. Over 80% of the start-up's user base comes from tier-two cities and beyond.

Adani's Bravus pushes ahead with new Australian thermal coal mine

ADANI ENTERPRISES' BRAVUS Mining said on Thursday it had broken ground on its new thermal coal mine in northern Australia, as banks and insurers pull out of financing new such projects to curb global carbon emissions.

The International Energy Agency (IEA) warned last month that investors should not fund new oil, gas and coal supply projects if the world wants to reach net zero emissions by mid-century.

But Australia, the world's top coal exporter, is considered a global laggard in climate change policy as, unlike many other developed countries, its Prime Minister Scott Morrison has not set out a path to zero emissions by 2050.

Bravus Mining and Resources CEO David Boshoff said Bravus had already secured customers for the 10 million tonne per annum of coal produced at the Carmichael Mine.

"Bravus has now struck coal and exposed the first of the coal seams at our Carmichael Project," it said in a statement.

The project is on track to export its first coal in 2021. — REUTERS

Goodricke's white tea fetches above ₹27,000 per kg at special auction

INDRONIL ROYCHOWDHURY
Kolkata, June 24

The auction price commanded a near 450% premium with the reserve price for the variety kept at ₹6,000 per kg

TEA BOARD OF India's special auction for 'one bud two leaves' tea, plucked on the International Tea Day, fetched a record price of ₹27,560 per kg. Siliguri based Golden Tea House picked up 2 kg of the handcrafted white tea plucked from Goodricke's Badamtam garden in Darjeeling, leading to a price discovery of a never before range.

The auction price commanded a near 450% premium with the reserve price for the variety kept at ₹6,000 a kg.

The Orthodox tea from the Chauba garden in Assam fetched the second highest price of ₹24,010 a kg in the special e-auction with the Kolkata based Golden Tips Tea Company picking up the same quantity.

For the CTC variety Goodricke's Amgoorie Tea garden got the highest price of ₹2,510 a kg with the Kolkata based Uniworld Tea Cheers being the buyer.

Goodricke Group's managing director and CEO Atul Asthana told *FE* that the variety that fetched such a record price is very delicate and customised. The variety cannot be nurtured in high quantity since it isn't commercially viable. But such a brew magnifies the visibility of the brand and connoisseurs from across the world would look at Goodricke more closely.

There are a whole lot of Indian connoisseurs, especially in eastern India, for such handcrafted delicate variety and this could be the reason the Kolkata and the Siliguri based bidders paid the highest price for the finest of varieties, Asthana said.

The e-auction for the specially plucked tea to commemorate the International Tea day, was held in all the eight centres across the country and offered 33,381 kg in the platforms. The sold volume was 24,761 kgs, fetching an average price of ₹327 a kg above the average reserve price of ₹273 a kg, across categories including Orthodox, CTC, Green and White Tea, Rajanigandha Seal Naskar, the Tea Board controller of licensing said.

The average premium price was excluding the prices fetched from the mjunction controlled Jorhat Tea Auction Centre, whose modus operandi is different from other seven auction centres, including Guwahati, Siliguri, Kolkata, Cochin, Coonoor, Coimbatore and Tea Serve, she said.

Tea Board roped in mjunction to operate in a separate auction module with value added services for sale of tea under the tea board framed detail rules and regulations.

Homebuyers want Suraksha to provide ₹300 crore interim fund for construction of stalled JIL projects

PRESS TRUST OF INDIA
New Delhi, June 24

SURAKSHA GROUP, WHICH has won the bid to acquire debt-laden Jaypee Infratech (JIL), should infuse ₹300 crore interim funds to start construction of stalled projects as promised in its resolution plan, according to stuck homebuyers.

On Wednesday, financial creditors of JIL chose Mumbai-based Suraksha group over state-owned NBCC for taking over the insolvent firm, giving hopes that thousands of homebuyers may finally get possession of their flats after many years of delay.

The 10-day-long voting process on the takeover proposals submitted by NBCC and Suraksha group ended on Wednesday afternoon. In a tight finish, Suraksha group got 98.66% votes compared to NBCC's 98.54%.

The deal will now have to be cleared by the NCLT.

This was the fourth round of bidding to find a buyer for JIL, which went into Corporate Insolvency Resolution Process (CIRP) in August 2017. Anuj Jain is the Interim Resolution Professional (IRP) of JIL. In its final resolution plan to take over JIL, Suraksha group has made a provision for interim finance of ₹300 crore at a coupon rate of 12% from the CoC (Committee of Creditors) approval date till NCLT approval date.

This amount is meant for construction of projects. Over 20,000 homebuyers are stuck in stalled projects of JIL in Noida and Greater Noida, Uttar Pradesh.

"Homebuyers read the bids properly and understood the challenges...Though it was SREI who assented for Suraksha and

dissented for NBCC but even 7,796 homebuyers voted for Suraksha, unlike last time's 3,514.

"Now we just pray for the smooth approval of plan in NCLT (National Company Law Tribunal) so that the construction starts with full swing," said Ashish Mohan Gupta, who owns a flat in Wish Point project in the Wish Town township.

Gupta, which also petitioned in NCLT, NCLAT and the Supreme Court against approval of the NBCC's resolution plan last year, said Suraksha group should provide interim finance with the approval of the CoC and IRP Anuj Jain.

However, Gupta said the interest rate of 12% is high and asked Suraksha group to lower the rate to 8%.

Another home buyer Sanjeev Sahani echoed the views, saying Suraksha group should provide interim funds for construction of projects. Rashmi Singhal, a home buyer, said the resolution plan of Suraksha was better than that of NBCC.

She also said the management of Suraksha regularly held webinars with homebuyers and incorporated many changes in its bid to protect the interest of homebuyers.

Singhal hoped the construction work will start immediately as per the plan. "We have been stuck for last 10-11 years. We hope to get our apartments this time," she added.

Mukesh Gupta, who has an apartment Kenigston Boulevard, expressed relief that homebuyers have got resolution now.

He said Suraksha group is giving 150 acres land for delay penalty and is also including all claims of homebuyers submitted till the approval of the NCLT.

Twitter partners Razorpay for Tip Jar

Tip Jar appears as an icon on iOS and Android

PRESS TRUST OF INDIA
New Delhi, June 24

MICROBLOGGING PLATFORM TWITTER on Thursday said it has added an Indian payment gateway Razorpay for its Tip Jar feature that allows users to send and receive money.

The company had launched the feature last month, wherein a limited group of people globally - including creators, journalists, experts, and nonprofits - using Twitter in English could add Tip Jar to their profile and accept tips.

"Through Razorpay's interface, you will be able to support individuals and organisations across India via multiple modes of payment, including UPI, credit and debit cards, net banking, wallets and more. We are also working to add more payment providers to the feature around the world," Twitter said in a blogpost.

This is the first of several upcoming ways for creators to monetise their content and earn money from their biggest supporters, it added.

Previously, the feature supported payment providers, including Bandcamp, Cash App, Patreon, PayPal and Venmo.

"Everyone can send tips to applicable accounts on Twitter for iOS and Android via third-party payment services...It is an easy way, and a first step towards creating new ways for people to receive and show support on Twitter - with money. Soon, more people will be able to add it to their profile in India and across the world," the blog said.

While Tip Jar appears as an icon on iOS and Android, the feature is also accessible within Spaces on Android only.

"With Tip Jar, you can select whichever payment service you prefer and you'll be taken off Twitter to the selected app where you can show your support in the amount they choose. Twitter takes no cut," it said.

Shapoorji Pallonji co sees sales double to ₹1,100 cr in FY21

PRESS TRUST OF INDIA
New Delhi, June 24

BUSINESS CONGLOMERATE SHAPOORJI Pallonji's housing platform Joyville sold properties worth around ₹1,100 crore in the last financial year, double from the previous year, on strong demand for its apartments amid low-interest rates on home loans, a top company official said.

Joyville, which is a ₹1,240 crore platform established by Shapoorji Pallonji, ADB, IFC and Actis, has so far launched six housing projects in four major cities.

In an interview, Joyville Shapoorji Housing Managing Director Sriram Mahadevan said the financial year 2020-21 was "the best year" for Joyville despite the Covid-19 pandemic.

"In terms of volume, we sold around 2,000 properties during the 2020-21 fiscal, up 150% from the previous year in which we sold 800 units," he said.

Mahadevan said the sales bookings in value terms doubled to ₹1,100 crore last financial year from ₹550 crore in the 2019-20 financial year.

He attributed various factors for the company's robust performance during the last fiscal year.

EU MUST TALK TO RUSSIA

German chancellor Angela Merkel

"The European Union must also seek direct contact with Russia and the Russian president. It is not enough for the US president to talk to the Russian president. I very much welcome that, but the EU must also create forums for dialogue"

Jet needs more wind beneath its wings

Resolution notwithstanding, too many regulatory hurdles before the airline can take off, govt must come to its aid

THE NATIONAL COMPANY Law Tribunal (NCLT) may have cleared the resolution plan for the bankrupt Jet Airways but it is far from certain the airline will take off soon. For one, the NCLT's nod is accompanied by a caveat that the airline must win the landing slots within 90 days. It won't be fair to re-allot the carrier all the erstwhile slots, but a more sensible way to have attempted closure would have been to rope in the government authorities and ensure it would get at least some of those quickly. Also, it is not enough to just take off, the operations need to become profitable soon enough. It is not quite certain that the new promoters—ML Jalan, a Dubai-based businessman who dabbles in real estate and his foreign partner, the London-based financial advisory firm, Kalrock Capital—have it in them to revive the business. Given the state of the economy and the aviation sector in particular, Jet Airways needed a strong promoter with deep pockets to be able to strengthen the balance sheet and sustain the operations until the carrier becomes profitable. A businessman who knows his way around the corridors of power and can convince the government to give the airline the necessary clearances quickly would probably have been more suited to the task.

But, it is not surprising there were no contenders to buy what was once a flourishing enterprise with a strong, loyal clientele. It is true not too many business groups have cash lying around, and the airline business can be tricky in the best of times. But, more than that, businessmen are weary of the government's constant policy flip-flops and micro-management on everything, from travel routes to pricing tickets. Indeed, had the rules and regulations for foreign carriers been more friendly, a couple of them might have thrown their hat in the ring. An Arcelor Mittal kind of promoter is what Jet needed, and given the strong brand franchise that the airline enjoyed, it would not have been too difficult to get one had the various stakeholders worked harder.

While the corporate insolvency resolution process is no doubt coming along nicely, simply calling for bids and assessing them is probably not always enough. In this instance, the leader of the consortium of lenders, State Bank of India, needed to have worked more closely with the government to make the deal more attractive in terms of assurances on the landing slots. Indeed, the lender came across as over-confident in the early days of the process only to discover there were hardly any good suitors.

The new promoters, who own close to 90% of the airline's equity capital, are now at the mercy of the establishment's munificence. They will need to get the regulators to restore the bilateral rights, the airport authorities to give them landing slots, and codeshare agreements with other airlines to come up with a viable flight plan. It is almost like starting from scratch, except that the brand recall would be high. Even if the broader strategy is to cater more for travellers from the smaller cities and towns, and not focus on the lucrative Delhi-Mumbai route alone, some metro routes will be needed to bring in the bread and butter. It was, after all, the heavy-traffic routes that helped Jet corner market-share before it was toppled by Indigo. The government must help the new promoters restart operations quickly. Even if it is a grim reminder of how the country's banks have allowed good businesses to go belly up by not being vigilant enough, Jet Airways deserves a second chance.

Mind the language

Andhra's 'English medium compulsory for UG' stand is pragmatic

ONE WOULD HAVE thought the Andhra Pradesh government's decision to make English the medium of instruction for all undergraduate courses (save, of course, the language subjects) would have been welcomed. On the contrary, critics contend this would leave many students, especially from the rural areas and from economically weaker sections who are likely to have been educated in Telugu medium schools thus far, seriously disadvantaged. Forcing such students to shift to English so late in their academic pursuit, critics fear, may cause sub-optimal learning vis-a-vis the students' actual competence and aptitude. Given the quick gains from language-politics polemics, opposition parties, including the BJP, have sought to position the decision as an attack on Telugu culture also. However, the bare facts are that the language of instruction in post-graduate courses is English, and the state government has maintained that Telugu will remain a compulsory subject at the school level so that students get to learn the language. Indeed, the late-shift argument against the decision seems counter-intuitive, since continuing with Telugu as the medium of instruction at the UG level would further delay the shift for a set of students; it would be tantamount to indirect gate-keeping of PG education. Also important, the set of students from a Telugu-medium background who opted for the same medium at the UG level in 2020-21 was merely a quarter of the pool that joined degree courses, and the state government says the larger share of Telugu-medium students entering UG courses have themselves opted for English instruction.

The National Education Policy (NEP) 2020 argues for teaching in a child's mother in the early years; wherever possible, the medium of instruction until Grade V—and even until Grade VIII—should be the mother tongue or the local or regional language. A 2016 research study published in *Science Direct* that found significant gains in learning outcomes from early-years teaching being done in the mother tongue would make a strong case of the NEP stance. But, there is an equally strong case for teaching in English in the later years. It is *de facto* the language of white-collar employment. ASER findings over the years show how handicapped English-learning in government schools is, which means if students are not forced to pick it up as they near employment, the continued handicap will impact prospects. Indeed, in Karnataka, teachers are resisting a move to cut years of English-learning at the undergraduate level from the current three years to one, citing the impact on employability of students. A study by Aimee Chin, a US-based labour economist, and others (published by the University of Chicago Press) shows that English fluency results in a difference of up to 34% in hourly wages for Indian men, with the advantage going up commensurately with the degree of relative fluency. English skills are likely to become far more important in the future; IT-sector experts Remi Abere and Panos Constantinides recently wrote in the *MIT Sloan Management Review* that, for future jobs in the technology sector, English proficiency, among others things, will become as key as technical training. The state, of course, has to ensure that students get all the support needed to transition from Telugu to English.

DIGITAL MONEY

THE PANDEMIC MAY HELP DEVELOP A SOLUTION FOR HOW TRAVELLERS CAN SPEND THEIR COUNTRY'S DIGITAL CURRENCY ABROAD

Digital IDs for digital currencies

ANDY MUKHERJEE

Bloomberg

DIGITAL CURRENCIES ARE almost here, with China's e-CNY possibly off the block as early as the 2022 Beijing Winter Olympics. But among the many things we still don't know about these new payment instruments is their usage overseas: How helpful will one country's electronic cash be in another?

All we know is that digital cash will be a direct claim on a central bank, just like its physical counterpart. But there the similarity ends. There's a whole money-changing industry ready to swap—for a fat fee—our banknotes for different ones that can be used where we're going. However, when the cash resides in a wallet on our smartphones, tourists may not be able to spend it at a coffee shop or a curio store overseas if merchants aren't allowed to receive foreign digital currencies.

Commercial banks have solved this problem. By using intermediaries like Visa and PayPal Holdings, they've made our claims acceptable as payments in other countries. But for monetary authorities to do this, every one of them will need a way to verify the identities of 8 billion people. That's because, in theory, anyone on the planet can land in any country with purchasing power acquired abroad.

Unlike cash, or cryptocurrencies like Bitcoin, digital money issued by central banks won't be pure tokens. Either the issuing monetary authority, or some private players it tasks with the job, will keep debit and credit accounts. Accounts involve identities, and—when the setting is international—questions of money laundering, terrorist financing and national security arise.

China's digital yuan trials with foreign athletes next year will probably involve giving them some e-CNY to spend locally. That's just marketing. It's when the Chinese try to use it overseas that the challenges of sharing identities across borders will become more complex. Beijing wants to promote the currency internationally as an alternative to the all-important dollar. But will it be comfortable if the Federal Reserve wants access to a database that would check the identities of all Chinese visitors in the US, potentially tracking what they're buying with digital yuan, where and when? Will Washington tolerate the same when a digital dollar is ready?

> Cryptocurrency is already a headache for central banks; they won't want their legal tender to lose out to these stablecoins

There are three ways out of the logjam, according to the latest annual economic report by the Bank for International Settlements. The simplest solution may be for two different payment authorities to enhance compatibility of their technical and regulatory standards. Going a step further, they can interlink their systems and share some interfaces, eliminating middlemen. Finally, several can get together on one platform for their independent digital currencies. Each of the three approaches "would require increasingly intertwined identification schemes, but in all cases, ID would remain at a national level," the BIS says.

The third model—a jointly operated payment system supporting multiple central bank digital currencies—is the most promising from a user's perspective. After the Hong Kong Monetary Authority began experimenting with the Bank of Thailand to develop a common platform, they were joined by the People's Bank of China and the central bank of the United Arab Emirates. The project is now called m-CBDC Bridge. Even in such a highly cooperative setup, a single ID system would not be needed, the BIS says.

It's unlikely that the US and China will agree to join their digital currencies at the hip, given their growing mutual distrust. What to do then? In some ways, the pandemic may be offering clues to solve the problem.

My vaccination certificate in Hong Kong sits on my Apple Wallet, with name and identity numbers partially masked. It has a tamper-proof QR code, which can be read by immigration authorities anywhere. To achieve this, Apple and the health authority had to verify my identity via my phone number and my unique Hong Kong ID. It took only a few seconds, because both of them independently know a lot about me, though only a tiny bit is to be shared with border control officials. As long as other countries recognise Hong Kong's vaccination certificates, the electronic version, protected by the phone's facial or fingerprint recognition feature, would be accepted for international travel.

A similar system could work for international payments with digital cash. For a cup of coffee, it should be sufficient that a competent national authority has verified that you are who you say you are, and you have what you say you do: unspent money. As long as the country accepting foreign digital cash is satisfied with the issuing authority's anti-money-laundering standards, nothing more is required. The Fed can credit the cafe's wallet with FedCoin and the People's Bank of China can debit e-CNY from yours, and the two can settle their accounts without telling each other anything more about you. Travellers save on high foreign-exchange conversion costs built into card payments.

Without this level of coordination, e-CNY, FedCoin, Britcoin and the digital euro will all remain trapped in silos, making them complete non-starters in a globalised world and paving the way for the likes of Diem, synthetic private-sector tokens backed by reserves maintained in one or several official currencies. The growing popularity of cryptocurrencies is already a headache for central banks; they won't want their legal tender to lose out to these so-called stablecoins. So they'll cooperate—even if they don't collaborate. Your country's digital cash may be more welcome in some places than others. But it'll work everywhere.

Banning old vehicles is retrograde

Vehicle's fitness, not age, should be the criterion for scrapping

UTTAM GUPTA

The author is a policy analyst
www.uttamgupta.com

ON MARCH 18, 2021, minister Nitin Gadkari announced a 'voluntary' vehicle scrappage policy to (1) mitigate vehicular pollution and (2) more than double the turnover of Indian automobile industry from the current ₹4.5 lakh crore to ₹10 lakh crore in a few years.

At present, there are 51 lakh vehicles older than 20 years, 34 lakh older than 15 years but less than 20 years, and 17 lakh less than 15 years' old but without a renewed fitness certificate. The policy architecture is founded on two pillars (incentivise their scrapping and disincentivise hanging on to these).

The owner going for scrap gets 4-6% of the ex-showroom price of the new vehicle as compensation; 5% discount on purchase of new vehicle; and rebate on road tax at 25% for personal vehicle (states levy this tax at 4%, so 25% rebate is 1%). The policy moots waiver of registration fee for new vehicle purchased on production of 'scrap certificate' issued against scrapped vehicle. As for disincentives for hanging on, it proposes hike in fee for renewal of registration (₹5,000 for a car less than 15 years' old, up from ₹600) and fitness certificate renewal fees, stiff penalties for delay in renewals and imposition of the so-called 'green tax' by states on such vehicles.

All personal vehicles will have to undergo mandatory automated fitness test after 20 years to ply on the roads (for commercial vehicles, the threshold is 15 years). If they don't pass, those vehicles will be de-registered and impounded by transport authorities, pronouncing these as 'end of life vehicles'.

Even as the extant law in majority of the states provides for re-registration of, say, a private car (run on petrol) for five years on completion of initial registration of 15 years, the policy leaves the choice to the owner, of course, subject to the vehicle being fit to run (depending on the fitness, registration may be extended even beyond 20 years). Incentives/disincentives are only intended to galvanise him/her take a decision that strikes a balance between his/her special needs and environmental concerns. The policy will kick-off with notification of the rules (expected in October 2021).

Meanwhile, the 2018 Supreme Court order validating a National Green Tribunal (NGT) order that barred petrol vehicles older than 15 years from plying in the NCR—for diesel cars, the threshold is 10 years—has put a spanner in the works. It gives rise to four anomalies.

First, the order negates the extant law that provides for renewal of registration on completion of 15 years from the date of first registration and takes retrospective effect. For instance, a person who bought a car, say, on January 1, 2007, on the basis that she would be able to run it for 20 years (15 plus five), i.e. till January 1, 2027—in sync with the law—will now have to junk it on January 1, 2022.

Second, it presumes that all cars become unfit for plying after completing 15 years. Whether a vehicle is fit to run or otherwise, a lot depends on how well it is maintained, its timely upkeep; this needs to be tested instead of pronouncing it as unfit merely because it has reached a certain age.

Third, it leads to patent discrimination of vehicle owners in the NCR vis-à-vis those in other states. While the former have no option but to dump their cars after 15 years (even when these are fit to run and meet pollution norms), the latter can continue to run their cars up to 20 years and even beyond.

Fourth, the order renders the 'voluntary' vehicle scrappage policy infructuous in so far as the NCR is concerned. When there is prohibition on running the car beyond 15 years, the very mention of the word 'voluntary' is laughable.

The government should take urgent steps to correct this anomaly. It may either approach the top court to relent; alternatively, it must bring about necessary amendments in the Motor Vehicles Act to reflect the policy intent, i.e. using fitness as the sole criterion irrespective of the vehicle's age for determining whether it can be allowed to run or not.

Unfettering microfinance

The recent RBI Consultative Document frees MFIs from the shackles imposed by the 2011 regulations

P SATISH

The author is executive director, Sa-Dhan (SRO of microfinance sector). Views are personal

THE WORLD OVER, microfinance grew, in a large measure, due to benign neglect on part of central banks. Regulations were introduced only when the sector attracted a substantial number of clients. India is no different. RBI first allowed informal self-help groups to open savings accounts in banks and bank lending to these groups in 1991-92. In 2000, it permitted all types of institutions to offer microcredit, and bank loans extended to these institutions for on-lending were treated as part of the priority sector lending. Beyond these, RBI was unwilling to bring in any regulations on the plea that as long as these are not deposit-taking institutions, there is no need to regulate them. It was the stand of various RBI-appointed committees too, including the Vyas Committee of 2004.

RBI started taking increasing interest in the sector since the crisis in Krishna district of Andhra Pradesh in 2006, and events leading to the AP Microfinance Ordinance in 2010, which culminated in the constitution of the Malegam Committee. On its recommendations, RBI came out with detailed guidelines for microfinance institutions (MFIs)—not the microfinance sector—in 2011. These guidelines introduced a new category of NBFCs, viz NBFC-MFIs, and set norms for income criteria for clients of MFIs, repayment period, borrower loan limits, interest rate norms and caps, limits on number of lenders to a borrower and a host of other criteria. The microfinance industry welcomed these guidelines as these brought in a modicum of order to the sector and prescribed a framework within which institutions could operate.

This continued till 2015-16. By then a couple of private sector banks started increasing their exposure to microfinance through separate verticals and a big MFI became a universal bank. It was followed by the entry of small finance banks (eight of which were MFIs) into the microfinance space. MFIs discovered to their dismay that while they had to adhere to a set of regulations, it was a free-for-all for non-MFIs (banks, SFBs and NBFCs). The microfinance sector started petitioning the central bank on the absence of level-playing field for MFIs. The main issue was that non-MFIs need not adhere to the norm of number of lenders (two in the case of NBFC-MFIs) and per-borrower loan limits. It prompted non-MFIs to target borrowers identified and nurtured by MFIs with higher loan amounts, leading to high levels of borrower indebtedness. MFIs were left high and dry, while others enjoyed freedom of operation without fetters. In addition, the interest rate cap (2.75 times the base rate declared quarterly by RBI) was squeezing the margins of small and medium MFIs, as none of them get loans from the biggest banks.

RBI's recent Consultative Document frees MFIs from the shackles imposed by 2011 regulations and gives them a level-playing field, which was hitherto available only to non-MFIs. The centrality of this document is the need for lenders to adhere to the norms of lending based on borrower household indebtedness. This would imply lending institutions investing more time and energy on assessing the borrower households' finances. While technology would be a great help, MFIs would be better placed to do this as their client connect is closer and deeper.

Another important feature for MFIs is that by doing away with the 50%-income-generation loans criteria and the repayment period norms, RBI is facilitating credit flow into needs like housing, water-sanitation, education, health, renewable energy, etc, which are now as important as income generation. On the interest rate front, initially, some upward correction could be there by medium and small MFIs based on their borrowing rates. But over the long run, rates of bigger institutions—banks as well as MFIs—would come down if they adhere to the transparent pricing norms as indicated in the document.

The document enhances the role for the regulator as the adoption of Board-approved policies to determine the norms of household indebtedness and to fix a transparent rate of interest by each institution and their implementation need a rigorous supervisory oversight. Further, self-regulatory organisations will have to reframe the existing code of conduct in tune with the new guidelines and ensure adherence to these norms.

INTERVIEW: PRASHANT PITTI, Co-founder and Executive Director, EaseMyTrip

'Our business does not rely on corporate bookings'

The travel and tourism sector, reeling under the second wave, is pinning hopes on pent-up demand for a slow revival. In an attempt to boost bookings, EaseMyTrip is incentivising vaccinated travellers, and has tied up with Justdial recently. **Prashant Pitti** *talks to* **Sheena Sachdeva** *about what it entails to stay profitable, its 'no convenience fee' policy, and more.*

> There is pressure on other companies to become profitable soon. In our industry, there are only a few ways to become profitable: decrease discounts and marketing costs, and increase convenience fees. We will be the beneficiaries of these phenomena in the future if our competitors move in this direction

EaseMyTrip has been growing 50% y-o-y since 2016. Will your 'no convenience fee' policy help scale up further?

Since 2008, EaseMyTrip has seen tough competition from companies that are deeply funded. As an OTA, we have always been bootstrapped. We had to create a lean cost centre. A convenience fee is nothing but a number that can be jotted down in the company's books. In the last few years, companies in our industry have been increasing the convenience fee, while we have kept our policy intact. We charge a convenience fee only when a customer is using a discount coupon on the platform.

Also, our cost and expenditure on all fronts are lower compared to others on a GMV basis. In the travel and tourism industry, companies have only four costs: discounts, marketing, employees and other admin expenses. EaseMyTrip has primarily grown through word of mouth. Other companies are caught up in the vicious cycle of becoming profitable through extra convenience fees; whereas we see convenience fee as a tool to go viral and retain our customers for a long period. In the last four to five years, our repeat transaction rate has been 86%.

On other OTA platforms, customers feel cheated when after booking a ticket, including meals, seats, etc, an extra convenience fee is charged. However, from a customer's point of view, EaseMyTrip comes across as having integrity.

What has been the pandemic's impact on your business? How much did bookings pick up in Q3 FY21?

The second wave has impacted the entire tourism industry, though the third and fourth quarters of FY21 have been good. In FY21, our revenues were down by 31% compared to FY20, on account of travel restrictions during the first half of 2020. In the fourth quarter of FY21, EaseMyTrip recorded a net profit of ₹30.5 crore, as opposed to a profit of ₹3.6 crore in the same period of FY20.

How much has the dip in corporate bookings affected your business?

Corporate bookings play a minuscule part in EaseMyTrip's business model. Overall, in FY20, 87% of our business came from consumer bookings, 10% from travel agents and 3% from corporate bookings. However, for other OTAs, 80% of the business is dependent on corporate bookings, because of which they are facing issues. We have recently launched a chatbot for consumers to book flight tickets through WhatsApp. This feature gives a notification about any surge in the price of a flight ticket, once the flight option is selected.

In 2019, you had plans for international expansion. How has that panned out?

EaseMyTrip has set up small subsidiaries in London, Singapore and Dubai — these places have a huge Indian population. Due to Covid, international travel is hit. But we are positive that it will bounce back. There is huge pent-up demand.

The travel and tourism industry expects recovery to be slow. How do you foresee the growth path for EaseMyTrip?

We have been able to go public even as our competitors are witnessing losses. There is pressure on other companies to become profitable soon. In our industry, there are only a few ways to become profitable: decrease discounts and marketing costs, and increase convenience fees. We will be the beneficiaries of these phenomena in the future if our competitors move in this direction.

In FY20, we grew at 47% in terms of gross booking revenue. According to Goldman Sachs, the OTA industry is bound to grow 15-20% every year for the next five years. Due to the pandemic, people are less dependent on travel agents and tailwinds are expected as more hotels and airports are coming up. We are giving additional discounts to customers who are getting vaccinated. We are seeing a good response to that.

Furthermore, through our partnership with Justdial, we are opening up avenues for serving more customers. We have also recently partnered with Intermiles.com, a platform to redeem flight points.

Swimming against the tide

Why the pandemic could be a good time to start a business

Suveer Bajaj

THE INDIAN ECONOMY was already struggling well before the onset of the pandemic last year. As the Covid-19 crisis hit, consumer spending in several sectors came to a grinding halt. Sectors dependent on interpersonal interactions, such as hospitality, travel, and retail suffered badly. Several industries like entertainment, fitness, and (non-essential) e-commerce had to forcefully shut down. Though 2021 was expected to be the year of recovery, government estimates released recently indicate that India's GDP contracted by 7.3%. This is a clear reflection of the loss of business confidence.

However, history has witnessed the emergence of some of the strongest businesses during difficult times — global market leaders such as Burger King, General Motors and FedEx to name a few. Thus, for agile entrepreneurs with an appetite for innovation, the pandemic could serve to be one of the best times to start a business.

Seize the opportunity

Many Indians were stuck in the country due to travel restrictions, or laid off as a result of the pandemic. With second and third generation entrepreneurs returning to run family businesses, companies profited from their global exposure. The start-up community leveraged India's 'reverse brain drain' efficiently, with companies like Zomato and Ixigo drawing talent at senior leadership levels. Even domestic organisations powered through by optimising the resources at their disposal.

Smart entrepreneurs can notice unexpected opportunities from a mile away. These opportunities can either be qualitative or quantitative. Let's analyse this briefly.

Qualitative opportunities: Staying indoors meant that many of us had to let go of our previous liberties and form 'new habits'. These could be based on necessity, accessibility, convenience, mindspace, wallet share — all opening up a massive floodgate of possibilities. This led to many consumers redefining their ecosystem and reprioritising the environment. Companies like Meesho, which offered small businesses the chance to scale up online, leveraged this change in consumer behaviour to create sustainable business opportunities.

Quantitative opportunities: As technology formed the focal point of most business activities, our screen time increased. Limited social interactions created room for virtual touchpoints to replace the 'touch and feel' aspects of human interaction. It resulted in brands like Pumble, Blue Jeans, etc, taking off with a vigour like never before.

Several established industries capitalised on changing consumer behaviour. Take the case of online pharmacy companies like PharmEasy and 1MG, or edtech platforms like Unacademy and upGrad. A lot of new business opportunities also emerged as a direct result of the lockdown. Whether most of these businesses will sustain after life resumes, remains to be seen. For instance, we have seen growth in online fitness classes, online nutrition and even retail diagnostics. Personal hygiene, and plant and animal care have also seen hockey stick growth.

Role of the entrepreneur

A common denominator for all these businesses is the ability of the entrepreneurs to create a new narrative. Remote working offered the chance to work with talent from around the world. The rapid and continued success of the timeshare industry is a testament to this. The job-sharing economy, led by the emergence of platforms like Upraised, offered consumers a much-needed bridge between employers and job opportunities. This will eventually accelerate decentralisation and digital transformation.

However, the challenges that surround entrepreneurs during the pandemic are aplenty — from category creation to lack of interpersonal relationships and the struggle to rally motivation. Visionary entrepreneurs have spotted multiple opportunities in these newly emerged industries. Some have managed to scale existing businesses to new heights with their adaptable personalities.

AFTER HOURS

SATISHWAR BALAKRISHNAN
MD & CEO, AEGON LIFE INSURANCE

The Job

I STARTED MY career in life insurance, and I can honestly say that it has been an extremely fulfilling and gratifying journey. I am proud to be working in an industry that is proactively trying to address the social security gap in this country. All Indians should have access to adequate protection to cover their families and loved ones in the case of unforeseen circumstances (like this pandemic has shown) — and this has been a driving force for me, personally.

Life insurance is a necessity, but this is not very well understood by many. I will admit, there has been a change in sentiment this past year with a heightened desire for safety, security and sustainability. Yet, most Indians do not have any life insurance coverage, or their coverage is inadequate, and this is something I would like to see changed.

The Weekdays

WE ARE IN the midst of a massive digital transformation at Aegon Life. This means that most of my days are spent in conversations with the team — internal brainstorming and driving the new strategy. At the same time, we have been conscious of the prevailing environment and have introduced a 'work from anywhere' policy to ensure safety of all our employees. All our initiatives are designed keeping our employees at the centre, to ensure their mental and emotional wellbeing. For example, we have introduced 'core interaction hours' for all employees, restricting such interactions to five hours a day. This works well for me as it gives me uninterrupted time to focus on activities to be done individually.

My favourite part about work is our people. In the current work scenario, it is easy to feel burnt out. So, each day when we come together to do our jobs, we try to find a few moments to make sure everyone feels appreciated. I also make sure to 'disconnect' even on the busiest of days. I switch off all my gadgets when I am done to spend time with my family or just find some quiet time for myself.

The Weekend

I PREFER TO spend my weekends with family. We watch movies together. I enjoy gardening, and listening to music.

The Toys

I AM NOT really one for gadgets, but, like many of us nowadays, the two devices I use the most are my laptop and my cellphone.

The Logos

I AM NOT particularly brand conscious. However, I would prefer Apple over any other brand of cellphone.

Check whether your bank deposits are safe

There are two implied aspects on safety of bank deposits apart from DICGC insurance cover— government ownership of the bank or whether it is too big a bank to fail

Joydeep Sen

ILLUSTRATION: SHYAM KUMAR PRASAD

WHILE DEPOSITS IN banks up to ₹5 lakh are now insured under the Deposit Insurance Credit Guarantee Corporation Act (DICGC), the DICGC cover should not be the logic for your investments; go with a bank that does not require the DICGC insurance cover.

The reason is, despite DICGC being there, some co-operative banks have gone bust and the cases are dragging on in the courts. In the case of Punjab and Maharashtra Cooperative Bank (PMC), Reserve Bank of India gave in-principle approval to a takeover by Centrum Financial Services, which would be a positive development. However, in these cases, the DICGC cover is yet to be activated.

What to look at

The first and most important criterion to look at is the ownership of the bank. As per RBI's schedule of banks, available on the RBI website, there are 12 nationalised banks, including State Bank of India, which are also known as public sector banks. This is the safest category, due to the ownership of the government of India, at least more than 50%. Though it is not a stated guarantee on deposits, like that of DICGC, it is an implied aspect of safety.

This has worked in the past; when a PSU bank is in trouble, the RBI has stepped in and merged it with a relatively stronger PSU bank. In any case, depositors' money was safe and DICGC coverage was not required. The underlying rationale is, central government-owned banks are an extension of the central government and cannot default, even if the fundamental quality is not good.

After PSU banks, come private sector banks. There are 22 private sector banks in RBI's schedule. Most of them, at least the leading ones, are in good shape. The RBI has named three banks as systemically important, which are State Bank of India, HDFC Bank and ICICI Bank. Recently, one private sector bank, Lakshmi Vilas Bank, was in trouble and the RBI allowed it to be taken over at a favourable valuation by DBS of Singapore.

Equity shares of the bank were written off. However, depositors' money was safe. In Yes Bank, additional tier I perpetual bonds were written off, but depositors' money was safe. Hence in private sector banks, you have to take note, whether you are with a leading private sector bank or one like Lakshmi Vilas Bank. The better quality private sector banks are not just the two systemically important ones mentioned above, there are other relatively better ones too.

Similarly, for foreign banks—there are 46 of them in the RBI schedule— you have to take note whether it is a leading multinational bank or a relatively small one with some presence in India. There are other categories like small finance banks, payment banks, regional rural banks, etc. Deposits may be safe in these banks, but before placing your deposits, you may do your basic checks like whether they have paid their DICGC insurance premium, the quality and size of their balance sheet, etc. In the co-operative bank segment, there are state level co-operatives ones and there are the mid or small sized or local ones. There have been issues in some small sized and local banks earlier.

Conclusion

The message is, you should not blindly go for a higher rate in deposits as the 'better' one. A simple framework for a perspective on safety has been discussed above. There are two implied aspects on safety apart from DICGC: (a) government ownership and (b) too big to fail (TBTF). In the non-PSU segment, we have seen Yes Bank and Lakshmi Vilas Bank deposits being 'saved' but a few co-operative banks have not been given the long rope.

How to compute working capital for target firms

Compute non-cash working capital for past five years to understand the trend and use it to predict its future course

YOUR MONEY

N SIVASANKARAN

ILLUSTRATION: SHYAM KUMAR PRASAD

WORKING CAPITAL IS a key result area (KRA) for firms operating in manufacturing and trading sectors. Therefore, it is prudent to know how to calculate working capital for target firms for investment.

Hypothetical illustration

Let us assume the following figures (amount in ₹crore) for Sharad Tejas Ltd (ST) for its latest financial year: Current assets 600; Trade receivables 200; inventories 300; cash and cash equivalent 50; other current assets 50; current liabilities 400; trade payables 140; accrued expenses 60; current portion of long-term debt 100; short-term bank loan 50; other current liabilities 50; total assets 700; long term debt 200; shareholders' funds 100; sales revenue 1,000.

Working capital refers to the requirement of funds for meeting the operating activities of an entity.

Conventional working capital

Working capital is defined as the excess of total current assets over the total current liabilities of a firm. For ST, it is ₹200 crore. As a percentage of total assets, WC for ST is 28.57% and it is 20% of sales.

This definition is not rational as it considers cash and cash equivalent in the working capital computation. Cash and cash equivalents are already in the liquid form with the firm and hence it should not be considered in the computation of the requirement of funds. Further, WC is dealing with requirement of funds invested in unproductive assets. For instance, ST has blocked capital of ₹500 crore in trade receivables and inventories which are yet to be realized in cash and the firm pays the cost of this ₹500 crore till the time it is realised in cash. However, cash and cash equivalents are productive assets as the firm invests it in avenues that are expected to earn the required rate of return. Therefore, we should exclude cash and cash equivalent in the computation of WC.

Further, conventional practice of considering the entire amount of current liabilities in the computation of WC is not appropriate as it considers interest bearing current liabilities such as short term borrowings and current portion of long term debt (i.e., principal amount of long term borrowings which are due for payment in the next 12 months). These are already included in the computation of cost of capital. Therefore, to avoid double counting, we should exclude interest bearing current liabilities in computing WC.

Non-cash working capital

It is the excess of non-cash current assets over the non-interest-bearing current liabilities. For ST, it is ₹300 crore. As a per cent of total assets, non-cash WC for ST is 42.86%, and it is 30% of sales.

One could compute the non-cash WC of a firm for the past five years to understand the trend and use it for predicting the WC for its future.

HISTORIC RECOVERY IN US

Joe Biden, US President

This is historic progress, progress that's pulling our economy out of the worst crisis it's been in 100 years. No other major economy in the world is growing as fast as ours. None of this success is an accident. It isn't luck. Employers should raise wages to lure reticent workers back to their jobs.

CONCERNS OVER SECRECY

Wuhan coronavirus sequences removed from database: US

The disappearance of data raises questions about what else from the Wuhan outbreak has been shielded

Politicians and scientists from around the world have grown increasingly frustrated by China's efforts to deflect an investigation into the origins of the coronavirus FILE PHOTO

BLOOMBERG

DETAILS OF THE genetic makeup of some of the earliest samples of coronavirus in China were removed from an American database where they were initially stored at the request of Chinese researchers, US officials confirmed, adding to concerns over secrecy surrounding the outbreak and its origins.

The data, first submitted to the US-based Sequence Read Archive in March 2020, were "requested to be withdrawn" by the same researcher three months later in June, the US National Institutes of Health said in a statement Wednesday. The genetic sequences came from the Chinese city of Wuhan where the Covid-19 outbreak was initially concentrated.

The reason cited at the time for withdrawal was that the sequence information had been updated and was being submitted to another database, the agency said. The researcher asked that the data be removed "to avoid version control issues," it said. "Submitting investigators hold the rights to their data and can request withdrawal of the data," the agency said. "NIH can't speculate on motive beyond the investigator's stated intentions."

The disappearance of the genetic sequences from the database raises questions about what else from the Wuhan outbreak has been shielded, said American virologist Jesse Bloom, who publicised his discovery that they were missing earlier this week. Bloom, who subsequently recovered the information, said it didn't provide definitive details on where or how the virus originated.

Politicians and scientists from around the world have grown increasingly frustrated by China's efforts to deflect an investigation into the origins of the coronavirus, especially the possibility that it leaked from a Wuhan laboratory. Though a World Health Organization expert team visited China earlier this year for an investigation, they were not allowed access to raw data and their conclusion, that the virus likely crossed over from animals, has been criticised as being premature.

US President Joe Biden has ordered American intelligence agencies to probe the issue again, while China has strenuously denied that the Wuhan laboratory had any link to the outbreak.

"I don't think we can say very much with high confidence," said Bloom, an evolutionary biologist at the Fred Hutchinson Cancer Research Center.

Siemens raises targets, plans $3.6 billion share buyback

BLOOMBERG
June 24

SIEMENS RAISED FINANCIAL targets and announced its first share buyback since 2015 as the German industrial giant's new chief executive officer pivots toward software to boost shareholder returns.

Siemens will buy back as much as 3 billion euros ($3.6 billion) of shares over a five-year period starting from 2022, the Munich-based manufacturer said Thursday in a statement. The company also hiked targets for revenue and profit over its three- to five-year business cycle with an expected boost to earnings per share of just under 10% annually.

"Digitalisation, automation and sustainability are growth engines for our business," CEO Roland Busch said in the statement accompanying Thurday's capital markets day. "As a focused technology company, we want to strengthen our position in all our markets."

Siemens said it's targeting acquisitions to break into "highly attractive" new markets "adjacent" to its existing businesses that offer as much as 120 billion euros in potential revenue. In May, the company agreed to pay $700 million to buy supply-chain management firm SupplyFrame that provides intelligence on factory outages and material-cost changes.

Siemens reversed an initial gain to fall 1.2% in early Frankfurt trading. The shares have gained 15% this year.

The new financial goals and share buyback mark the first significant step by Busch, 56, who took the helm in February to succeed long-term leader Joe Kaeser. After an era marked by spin offs and disposals that streamlined Siemens' conglomerate structure, Busch is working to boost profitability and close a valuation gap with rivals, a feat that eluded his predecessor.

While the company's share price has gained amid the spinoffs of Siemens Healthineers and Siemens Energy, profit margins continue to lag those of competitors like Schneider Electric. Siemens on Thursday confirmed its earnings guidance for fiscal 2021. It raised its targets last month on the back of a booming Chinese economy and a recovery in the global automotive sector.

The manufacturer serving customers in transportation, healthcare and infrastructure is also betting on growing demand for so-called software-as-a-service offerings to spur higher recurring revenues.

THE GLOBAL INVESTMENT cycle is set to become less dependent on China and more broadly supported as countries around the world ramp up spending to offset coronavirus damages, Citigroup Inc. said.

China alone contributed to 47% of global investment growth on average in the years from 2010 through 2019, and 33% of global GDP, Citigroup economists led by David Lubin wrote in a report. But that era of China-dependence will come to an end, they say, given the strong fiscal and monetary policy stimulus elsewhere. The contribution of advanced economies to global GDP will surpass that of emerging markets in 2021 for the first time since 2006, Citi estimates.

One important factor driving the new pattern of investment spending is the growth in economic nationalism, reflecting a desire for governments to reduce vulnerabilities in their supply chains, the economists said. This change means the link between investment and global trade will be weaker, they said.

"Considering this in the context of the sharp rise in protectionism globally, the spillovers to trade from rising global investment spending are likely to be weaker than in the past," the economists wrote.

"The flipside of a global investment cycle less dependent on China will be one less friendly to global trade."

China is focused on its 'dual-circulation' strategy to boost its domestic market in the face of rising hostility from the West, while governments elsewhere are trying to localise supply chains or make them more resilient.

Delta variant now reported in 85 countries globally, expected to become dominant lineage: WHO

PRESS TRUST OF INDIA
United Nations, June 24

THE DELTA VARIANT, the significantly more transmissible strain of Covid-19, is expected to become a "dominant lineage" if current trends continue, the WHO has warned after it was reported in 85 countries and continues to be detected in more places around the world.

The Covid-19 Weekly Epidemiological Update released on June 22 by the World Health Organisation (WHO) said that globally, the variant Alpha has been reported in 170 countries, territories or areas, Beta in 119 countries, Gamma in 71 countries and Delta in 85 countries.

"Delta, now reported in 85 countries globally, continues to be reported in new countries across all WHO Regions, 11 of which were newly reported in the past two weeks," the update said.

WHO said the four current 'Variants of Concern' being monitored closely, Alpha, Beta, Gamma and Delta, are widespread and have been detected in all WHO regions. "The Delta variant is significantly more transmissible than Alpha variant, and is expected to become a dominant lineage if current trends continue."

The update said that India reported the highest numbers of new Covid19 cases, 441,976 over the past week (June 14-20, 2021), a 30 per cent decrease as compared to the previous week.

The highest numbers of new deaths were reported from India (16,329 new deaths; 1.2 new deaths per 100,000; a 31 per cent decrease).

- Top US health officials tout vaccines after reports of heart risks
- Double vaccine will reopen UK travel
- Seychelles says Beta variant caused most cases
- Masks back in Israel, off in Hungary

Covid-19 cases in Tokyo are creeping up with a month to go to the Olympics. The capital found 570 new cases on Thursday versus 452 cases the same time last week.

Britons who have received both doses of a coronavirus vaccine will be given extra freedom to travel around the world, Prime Minister Boris Johnson said, as the UK prepares to set out new rules on foreign trips.

Seychelles, which has suffered a surge in Covid-19 cases despite fully vaccinating 68% of its people, said genetic sequencing of samples shows that the so-called beta variant, first discovered in South Africa last year, is dominant.

Israelis can expect to start donning masks again and the country has put off the reopening of its borders to foreign tourists, after its bid to return to a post-Covid normal was hobbled by a surge in infections linked to the highly transmissible delta variant.

Singapore said it plans to give a first Covid-19 vaccine shot to most of its population by July after securing more supplies, flagging the prospect of looser travel and social-distancing rules for inoculated residents.

The more-contagious Delta variant of Covid-19 will be dominant in Germany within weeks and that makes it even more important for people to get vaccinated, according to Chancellery Minister Helge Braun.

Airline industry to weigh goal of net-zero emissions by 2050

THE AIRLINE INDUSTRY'S global trade group will propose eliminating carbon emissions on a net basis by 2050, as pressure builds to improve the climate goals of a segment that's come under increasing criticism for its use of fossil fuels. The International Air Transport Association will ask carriers to adopt the target at its annual meeting in Boston in October, Willie Walsh, its director general, said in an interview Thursday. While airlines including British Airways owner IAG, Delta Air Lines and United Airlines Holding have all made net-zero commitments, IATA hasn't updated its own target since 2009. At that time, airlines pledged to cut CO_2 output 50% by mid-century, compared with 2005 levels. But emissions have surged since then, driven by a boom in air travel that was only cut short last year by the coronavirus pandemic.

US initial jobless claims at 411,000 till June 19

APPLICATIONS FOR US state unemployment insurance fell slightly last week, though were higher than forecast, as the labour market meanders toward a full recovery. Initial claims in regular state programmes decreased by 7,000 to 411,000 in the week ended June 19, Labour Department said.

China's unemployment fall masks a lack of jobs

CHINA'S UNEMPLOYMENT RATE has steadily dropped from last year's pandemic peak though a lack of jobs for graduates point to underlying problems. The urban jobless rate fell to a 2-year low of 5% in May but unemployment for those between the ages of 16-24 which captures graduates from school and college, was more than double that at 13.8%.

Apple Daily owner Lai punished for exercising rights: UN

REUTERS
Hong Kong, June 24

UN HUMAN RIGHTS chief Michelle Bachelet took aim on Thursday at the "negative consequences" she said Apple Daily owner Jimmy Lai faced for exercising his rights, criticising the tycoon's detention as his pro-democracy tabloid printed its last edition.

Apple Daily closed down on Thursday, forced to end a 26-year run amid a national security crackdown that froze the company's funds. Its closure prompted snaking queues of hundreds of loyal readers at news stands across the city.

Lai, its owner and staunch Beijing critic, has been in jail since December over unauthorised rallies during Hong Kong's mass pro-democracy protests in 2019 and faces national security charges.

Speaking via video link at the 2021 Society of Publishers in Asia press awards ceremony held in Hong Kong, Bachelet said the new national security law was leading journalists to "self-censor" to avoid clashing with "vaguely formulated offences."

In pre-recorded remarks, she singled out Lai and award-winning Maria Ressa in Philippines, whose Rappler website has put President Rodrigo Duterte under tough scrutiny and who was convicted of libel last year.

"Maria Ressa and Jimmy Lai have faced negative consequences for the exercise of their fundamental human rights," Bachelet said. Hong Kong's government did not immediately respond to a request for comment outside office hours.

Apple Daily was an unapologetic tabloid that mixed pro-democracy discourse with celebrity gossip and investigations of those in power.

China plans its first crewed mission to Mars in 2033

CHINA AIMS TO send its first crewed mission to Mars in 2033, with regular follow-up flights to follow, under a long-term plan to build a permanently inhabited base on the Red Planet and extract its resources, Reuters reports.

The ambitious plan, which will intensify a race with the United States to plant humans on Mars, was disclosed in detail for the first time after China landed a robotic rover on Mars in mid-May in its inaugural mission to the planet.

Crewed launches to Mars are planned for 2033, 2035, 2037, 2041 and beyond, the head of China's main rocket maker, Wang Xiaojun, said. Before the crewed missions begin, China will send robots to Mars to study possible sites for the base and to build systems to extract resources.

Pfizer shot fights Delta and Kappa variants

COVID-19 VACCINES made by AstraZeneca and the Pfizer-BioNTech alliance remain broadly effective against Delta and Kappa variants of the Covid-19 causing virus, which were first identified in India, according to a scientific study, underpinning a continued push to deliver the shots.

The study by Oxford University researchers, published in the journal Cell, investigated the ability of antibodies in the blood of people, who were vaccinated with the two-shot regimens, to neutralize the highly contagious Delta and Kappa variants, a statement said. "There is no evidence of widespread escape suggesting that the current generation of vaccines will provide protection against the B.1.617 lineage," the paper said, referring to the Delta and Kappa variants by a commonly used code. However, the concentration of neutralising antibodies in the blood was somewhat reduced, which may lead to some breakthrough infections, they cautioned. Last week, an analysis by the Public Health England (PHE) showed that vaccines made by Pfizer and AstraZeneca offer high protection of more than 90 per cent against hospitalization from the Delta variant.

Top American officials consulted with BlackRock as markets melted down

NEW YORK TIMES
June 24

AS FEDERAL RESERVE Chair Jerome H. Powell and Treasury Secretary Steven Mnuchin scrambled to save faltering markets at the start of the pandemic last year, America's top economic officials were in near-constant contact with a Wall Street executive whose firm stood to benefit financially from the rescue.

Laurence D. Fink, the chief executive of BlackRock, the world's largest asset manager, was in frequent touch with Mnuchin and Powell in the days before and after many of the Fed's emergency rescue programs were announced in late March. Emails obtained by The New York Times through a records request, along with public releases, underscore the extent to which Fink planned alongside the government for parts of a financial rescue that his firm referred to in one message as "the project" that he and the Fed were "working on together."

The world's largest asset manager was central to the pandemic crisis response. Emails and calendar records underscore that critical role. FILE PHOTO

While some conversations were previously disclosed, the newly released emails, together with public calendar records, show the extent to which economic policymakers worked with a private company as they were drawing up a response to the financial meltdown and how intertwined BlackRock has become with the federal government.

Mnuchin held 60 recorded calls over the frantic Saturday and Sunday leading up to the Fed's unveiling on Monday, March 23, of a policy package that included its first-ever programme to buy corporate bonds. Mnuchin spoke to . Fink five times that weekend, more than anyone other than the Fed chair, whom he spoke with nine times. Fink joined . Mnuchin, . Powell and Larry Kudlow, who was the White House National Economic Council director, for a brief call at 7.25 the evening before the Fed's big announcement, based on Mnuchin's calendars.

"They're about as close to a government arm as you can be, without being the Federal Reserve," said William Birdthistle, a professor at the Chicago-Kent College of Law and the author of a book on funds.

On March 24, 2020, the New York Fed announced that it had again hired BlackRock's advisory arm, which operates separately from the company's asset-management business but which . Fink oversees, this time to carry out the Fed's purchases of commercial mortgage-backed securities and corporate bonds.

BlackRock's ability to directly profit from its regular contact with the government during rescue planning was limited. The firm signed a nondisclosure agreement with the New York Fed on March 22, restricting involved officials from sharing information about the coming programmes. But how the Fed and Treasury devised their rescue package mattered to BlackRock. The company makes a profit by managing money for clients in an array of funds, generally charging a preset fee. It earns more when it grows its assets under management. In the early days of the coronavirus crisis, as people converted financial holdings into cash, parts of its asset base were contracting and its business outlook hinged on what happened in certain markets.

Russia warns Britain it will bomb ships next time

REUTERS
June 24

RUSSIA WARNED BRITAIN on Thursday that it would bomb British naval vessels in the Black Sea if there were any further provocative actions by the British navy off the coast of Russia-annexed Crimea.

Russia summoned the British ambassador in Moscow for a formal diplomatic scolding after the warship breached what the Kremlin says are its territorial waters but which Britain and most of the world say belong to Ukraine. Britain said Russia was giving an inaccurate account of the incident. No warning shots had been fired and no bombs had been dropped in the path of the Royal Navy destroyer Defender, it said. In Moscow, Russia summoned Ambassador Deborah Bronnert for a reprimand over what it said were Britain's "dangerous" action in the Black Sea. "We can appeal to common sense, demand respect for international law, and if that doesn't work, we can bomb," Deputy Foreign Minister Sergei Ryabkov told Russian news agencies.

Robust buying in IT stocks sparks rally in markets

A rebounding rupee and positive global cues also bolstered the investor sentiment

PRESS TRUST OF INDIA
Mumbai, June 24

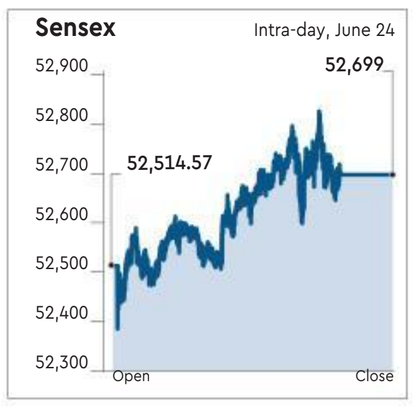
THE EQUITY INDICES regained footing on Thursday after a day's pause as robust buying in IT counters more than made up for a fall in market major Reliance Industries. A rebounding rupee and positive global cues further bolstered the sentiment, traders said.

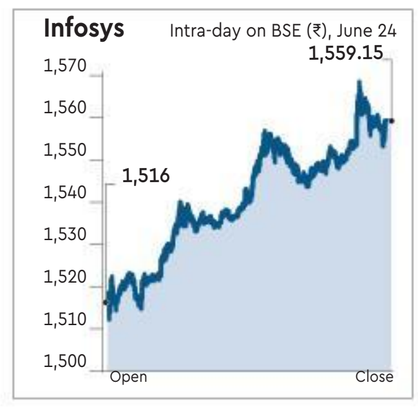
The Sensex ended 392.92 points, or 0.75%, higher at 52,699. The Nifty surged 103.50 points, or 0.66%, to 15,790.45.

Technology shares led the rally, a day after the government liberalised guidelines for voice-based BPOs to cement India's position as a preferred global outsourcing hub.

Infosys topped the Sensex gainers' chart with a leap of 3.75%, followed by TCS, Tech Mahindra, HCL Tech, Asian Paints, L&T and Nestle India.

On the other hand, Reliance Industries was the top drag on the index, slumping 2.35%, after chairman Mukesh Ambani announced massive capex plans in green energy and other sectors at its annual general meeting.





Bharti Airtel, PowerGrid, SBI, HDFC and Dr Reddy's were among the other laggards, shedding up to 0.99%.

"Supported by positive global equities and strong buying interest in IT stocks, the domestic market sparked a rally today. Total FDI inflow in April rose 38% YoY, led by a 60% YoY rise in equity inflow, reassuring continued liquidity support in the Indian market.

"Global investors have digested the comments from Fed officials and are looking ahead to key data releases like US jobless claims and Bank of England's decision on interest rates," said Vinod Nair, head of research at Geojit Financial Services.

Deepak Jasani, head of retail research, HDFC Securities, said the benchmark equity indices rose on the monthly F&O expiry day, led by buying in IT stocks. "Volumes on the NSE were the lowest on an F&O expiry day in six months, suggesting light positions being carried in the F&O segment awaiting higher volatility."

BSE IT, teck, bankex, metal, capital goods and finance indices ended up to 2.92% higher, while energy, oil and gas, power, utilities and telecom indices fell as much as 2.15%.

Broader BSE midcap and smallcap indices underperformed the benchmark and ended up to 0.51% lower.

Elsewhere in Asia, the bourses in Shanghai, Hong Kong, Seoul and Tokyo ended with gains. Equities in Europe were trading on a positive note in mid-session deals.

International oil benchmark Brent crude was trading 0.16% higher at $75.31 per barrel.

RBI comes out with guidelines for dividend distribution by NBFCs

FE BUREAU
Mumbai, June 24

THE RESERVE BANK of India (RBI) on Thursday came out with dividend distribution guidelines for non-banking finance companies (NBFCs) in order to infuse greater transparency and uniformity in the practice. The regulator has mandated that net NPA ratio of the NBFC concerned should be less than 6% in each of the last three years for declaring dividend.

Similarly, the RBI has prescribed applicable regulatory capital requirement in different types of NBFCs. For example, a deposit taking NBFCs will need to have a minimum capital adequacy ratio of 15%. However, for housing finance companies, the tier-I and tier-II capital should not be less than 13% as on March 2020, 14% as on March 2021 and 15% as on March 2022 for declaring dividend.

The guidelines also prescribe ceilings on dividend payout ratios for NBFCs. The maximum dividend payout ratio could be 60% for an NBFC which is a core investment company. However, there is no ceiling specified for NBFCs that do not accept public funds and do not have any customer interface. The proposed dividend

should include both dividend on equity shares and compulsorily convertible preference shares eligible for inclusion in Tier 1 capital, the RBI said.

The board will have to keep in mind long-term growth plans of the NBFC while declaring dividend. NFBCs will also have to report details of dividend declared during the financial year to the RBI. The board of directors of the NBFC, while considering the proposals for dividend, will take into account supervisory findings of the RBI on divergence in classification and provisioning for NPAs.

In December 2020, the RBI had invited suggestions on draft guidelines on dividend payout for NBFCs. The guidelines issued on Thursday shall be effective for declaration of dividend from the profits of the financial year ending March 31, 2022, and onwards.

SAT stays Sebi penalties on Cairn India, others

PRESS TRUST OF INDIA
New Delhi, June 24

THE SECURITIES APPELLATE Tribunal (SAT) has stayed the penalties slapped by Sebi on Cairn India and others for making a misleading announcement regarding buyback of shares in 2014.

While staying the penalties, the tribunal also directed Cairn India, which was merged with Vedanta in 2017, and others involved in the case to deposit ₹2.5 crore with Sebi within three weeks. If the amount is deposited, no further recovery will be made from them during the pendency of the appeal, the tribunal said in an order dated June 22.

In May, Sebi imposed a penalty of ₹5.25 crore on Cairn India for making a misleading announcement regarding the buyback of shares in 2014. Further, the regulator imposed a fine of ₹15 lakh each on P Elango, who was the CEO and director of Cairn India, along with Aman Mehta and Neerja Sharma, directors of the company at the time of violation.

According to the Sebi order, the buyback announcement made by the appellants in January 2014 was misleading without any intent to fulfill it and that it was designed to influence the decision of the investors and induce them to trade in the shares of the company.

"We also find that there was an internal note of the respondent (Sebi) which indicated that no fraud has been committed by the appellants," SAT said, adding that an amount of ₹143 crore which was collected through buyback arrangement was subsequently kept in an escrow account.

HDFC Bank's CEO identifies 5 key businesses for growth

FE BUREAU
Mumbai, June 24

HDFC BANK'S CEO Sashidhar Jagdishan said that bank was betting big on five key businesses, even as he acknowledged technical glitches that have impacted consumers.

In the annual report for the financial year 2021, Jagdishan said that the bank had identified corporate banking, lending to micro, small and medium enterprises (MSME), government banking, retail assets and payments as key focus areas going ahead and the growth strategy would be aided by digital channels. He also said that the last 28 months, the bank has been in the spotlight for the wrong reasons when it comes to technology. "As a bank we are certainly sorry for what has happened. And have taken this as an opportunity to improve and redouble our efforts to fix this problem for good," Jagdishan said in a message to shareholders.

The bank is awaiting directions from the regulator on the temporary halt on sourcing of new credit card customers and digital launches. In an interaction with media on June 17, chief information officer of the bank, Ramesh Lakshminarayanan, had said that the lender was hopeful of coming out of the restrictions imposed by the regulator soon. In December, RBI a had stopped HDFC Bank from issuing fresh credit cards and announcing new digital initiatives following multiple outages the bank witnessed over the past few years. The regulator also called for a third-party audit of the bank's IT infrastructure.

Sashidhar Jagdishan

In the annual report, HDFC Bank CEO confirmed that audit was over and the report has been submitted to the regulator.

Alluding to the issue of GPS device bundling with auto loans, HDFC Bank's chief executive Sashidhar Jagdishan said unscrupulous practices of a few people have made everyone resolve for far greater process controls. "I am personally determined to fix this," he said, while assuring shareholders in the annual report.

On May 28, RBI had a imposed a penalty of ₹10 crore on HDFC Bank due to deficiencies in regulatory compliance in the GPS case. The case pertains to marketing and sale of third-party non-financial products along with auto loan to bank customers.

During FY21, the net profit of the bank increased by 18.5% year-on-year (y-o-y) to ₹31,116.5 crore and balance sheet size grew by 14.1% y-o-y to ₹1,746,871 crore. Gross NPAs, however, increased to 1.32% in FY21 from 1.26% in the previous year (FY20). Net interest income (NII), an indication of the difference between interest earned and interest paid, grew by 15.5% year-on-year to ₹64,879.6 crore in FY21.

Rupee firms up by 9p to 74.18 against dollar

THE RUPEE ROSE for the second straight day and closed 9 paise higher at 74.18 against the US dollar on Thursday, tracking an upbeat domestic equity market. Besides, a weaker American unit also helped the rupee in consolidation of gains.

At the interbank forex market, the rupee opened at 74.20 and hit an intra-day high of 74.16 and a low of 74.25. It finally finished at 74.18, higher by 9 paise over its last close.

"The Indian rupee appreciated against the US dollar, aided by portfolio equity inflows and slightly weaker dollar. However, month-end dollar demand from oil companies kept gains in check," said Sriram Iyer, senior research analyst at Reliance Securities.

Other Asian currencies also remained range bound, and going forward could possibly be data dependent in the short run.

Assign 'neutral' on Tata Steel with TP of ₹1,210

MOTILAL OSWAL

Rising carbon costs in Europe a key concern: Tata Steel (TATA)'s FY21 Annual Report highlights the ambition of the company to maintain leadership in volumes, cost, and sustainability. With improved cash flows, the focus is back on growing the India business, wherein it aims to double capacity to 35–40mt by 2030. However, it plans to tread cautiously on this path as debt repayment remains the focal point for the management. On Tata Steel Europe (TSE), the management palpably appears concerned about the tightening emission norms in Europe, rising carbon credit costs, and the resulting lower competitiveness against imports to Europe, which pose a key challenge in the longer term. While we expect deleveraging to continue on the back of higher prices, rising carbon costs and the burden of sustainability capex in TSE are key concerns, in our view. Thus, we assign a Neutral rating, with TP of ₹1,210.

Rising carbon costs and Brexit to structurally increase TSE's costs: While the near-term outlook for TSE is strong, driven by higher prices, then structural increase in costs from tightening emission norms and Brexit is a longer term concern for sustained profitability and cash-neutrality.

With carbon credit prices trading at €52/t (135% YoY) currently and then growing need for carbon credit purchases, we believe the burden of carbon costs on TSE is likely to increase in FY22 and beyond. While a part of this increase should be offset by the carbon surcharge of €12/t recently levied by Tata Steel UK, the sustainability would depend on demand-supply tightness.

Valuation and view: With the availability of captive iron ore, TATA's India operations are a play on steel prices which we believe should stay higher for longer. We therefore expect margins to stay high in the medium term (with standalone EBITDA/t likely at a new lifetime high of ₹33,000/t in 1QFY22). TSE's margin should also be strong in FY22 (we expectn >USD100/t), though sustenance of the same would be challenged by rising carbon costs. We expect consolidated revenue/EBITDA/PAT to grow 36%/94%/2.9x to ₹2,134b/₹592b/₹326b in FY22. Deleveraging should remain strong despite the resumption of growth capex. We expect net debt to decline a further ₹204b to ₹621b in FY22. We arrive at our TP of ₹1,210/sh on FY23E EV/EBITDA of 5x for its Indian operations and 4x for Europe.

Customer retention challenging for HFCs: Deepak Parekh

PRESS TRUST OF INDIA
New Delhi, June 24

CALLING FOR IRONING out of regulatory wrinkles, HDFC chairman Deepak Parekh has raised concerns about housing finance firms being able to retain customers as no prepayment penalty on floating rate loans is leading to other players luring away borrowers through lower rates and increased loan amounts.

Onboarding a home loan customer takes a great deal of effort and entails cost as well, Parekh said in his message to shareholders in the company's annual report 2020-21. Retention of customers is a niggling point for HFCs (housing finance companies), he said.

"Lenders are susceptible to losing their existing customers to other players who

often lure them through lower interest rates or increased loan amounts. As there are no prepayment penalties on floating rate loans, a lender can take over a home loan rather effortlessly," he said.

For selling agents who are not tied-agents, it is a win-win situation as long as they are getting paid a commission twice over the same borrower's loan, Parekh said.

The chairman of the country's largest mortgage lender further said balance transfer of loans only shifts assets from one player to another, and it does not increase the loan or home ownership at a system level.

"The issue is that onboarding a home loan customer takes a great deal of effort and entails costs as well. But certainly, an endeavour to retain a performing customer which could entail a change in the rate of interest is not akin to a loan being restructured. It would be of great comfort for all HFCs to have this issue put to rest," he said.

The company's individual loan disbursements performed well during FY21 and the demand pick-up was much faster than HDFC had anticipated in the latter part of the year, he added.

HDFC reported 3% growth in its individual loan disbursements during the year.

Additionally, in the current environment wherein the Covid-19 pandemic has laid bare how fragile life can be, he said there can be no better protection for a borrower than home loan insurance and home insurance.

Equally, given the risks around climate change and abrupt weather patterns, home insurance becomes a key risk mitigant.

He suggested that insurance loan for a home loan borrower should be considered as an integral component of a housing loan and be permitted to be classified accordingly, as it protects both the customer and the HFC.

Currently, an insurance loan given to a borrower is considered as a non-housing loan. Also, buying insurance is voluntary for a home loan borrower. Parekh also pointed out the issues that are arising out of large amount of liquidity, saying the current regulatory framework "may have the unintended consequence of penalising a HFC for maintaining excess liquidity".

If there is any change of address please update your address with NSDL by filling up the form for amendments/changes in PAN data and please intimate the said changes to the company also.

10) DEPOSIT CERTIFICATE:

Deposit certificate will be sent to branch for hand delivery or dispatched by speed post/courier at the given correspondence / communication address in the application form and the Company shall not be held responsible for any loss or delay in transit. If the deposit receipt is not received by the Depositor(s) for any reason, the Depositor(s) should write to the company for enquiry. In the event of the loss of deposit Receipt the Company may at its discretion issue a duplicate receipt, upon receiving an indemnity bond and other required documents from the depositor (s) in the form prescribed by the company. All expenses in this connection will be borne by the Depositor(s).

11) RENEWALS

a) Deposits can be renewed from the date of maturity only if renewal instructions along with deposit receipts are received within 6 months from the date of maturity. In such cases the rate prevailing on the date of maturity will be applicable. Otherwise the same will be renewed prospectively and in such cases interest ceases on maturity.
b) Renewal of deposit will be for an amount net of TDS if any.
c) If the depositor opts for auto renewal then the deposit shall continue to be auto renewed on maturity as per the instructions specified in the application form till such time instructions to the contrary are received at Service centre. In such cases the depositor need not submit the original certificate for renewal.
d) The Depositor would have the option of changing the mode from auto renewal to auto refund and vice versa by giving necessary instructions at least 15 days prior to maturity. If the Depositor makes multiple or no selection between auto renewal and auto refund then company will by default consider the deposit for auto renewal. In case if Depositor makes multiple or no selection within renewal for principal and renewal for principal with interest then company will by default consider and renew the deposit for principal with interest.
e) Cumulative deposits can be renewed for maturity value.
f) A deposit can be renewed for a lower multiple of Rs. 1,000/- by giving suitable instructions for repayment of balance amount.
g) A deposit can also be renewed for a higher multiple of Rs. 1,000/- by giving the differential amount. Such consolidations can be done only on the date of maturity and therefore, the necessary remittance should reach the company at least one day before the date of maturity.
h) In the case of A or S/s accounts, renewals retaining one of the depositor(s) as the first depositor are possible. However, renewals to persons other than the second / third depositors in A or S/s accounts are not possible. Renewal of deposits by a change in the first named depositor is not possible in the case of F or S/s accounts.
i) For Minor investments, if the Depositor has opted for auto renewal and the Guardian PAN has been submitted during investment and if the Minor has become Major during contract period or during the auto renewal process, then it is the responsibility of the Minor who has become Major and the Guardian who has signed the original application to submit the PAN of the Minor who has become Major.
j) In case of auto renewals, the Depositor has to submit the Tax declaration form (Form 15G/H as applicable) to the service centre within 15 days of fixed deposit issuance, failing which all the investments (RD and FD) in the specific customer ID will be treated as Taxable and appropriate TDS amount will be deducted and remitted to Income Tax Department, GOI.

12) LOAN ON DEPOSITS

a) The Company may grant at its sole discretion, loan up to 75% of the amount of deposit to the depositor after the expiry of three months from the date of deposit at rate of interest two percent points above the interest rate payable on the deposit. The relative term deposit receipt(s) and other documents have to be signed by both/all the depositors in case of A or S/s accounts and by the first depositor in case of F or S/s accounts, Cheque for loans will be drawn only in favour of the first depositor.
b) Renewal of deposit with loan outstanding is not permissible. Payment after adjustment of loan principle and loan interest will be made on maturity, if renewal instructions for the balance amount are not received at least 15 days in advance of the maturity.

13) REPAYMENTS

a) If the Deposit Receipt is held in physical form, then receipt duly discharged on a revenue stamp of one rupee must be surrendered to the Company for repayment. In the case of deposit with "F or S/s" clause, the discharge has to be made by the first named depositor only. However, in the case of deposit with "A or S/s" clause, any one of the depositor may give the discharge.
b) If the depositor has opted for auto refund, then the physical certificate need not be submitted for repayment.
c) The Company shall intimate the details of maturity of the deposit to the depositor at least two months before the date of maturity of the deposit.
d) Interest will cease on the maturity date of deposit, if the deposit is not renewed within six months from the date of maturity, or if the deposit is withdrawn after the maturity date.
e) Repayment of deposits will be made only by National Electronic Fund Transfer (NEFT).

14) PREMATURITY PAYMENT

a) The company reserves the right to allow, at its absolute discretion, withdrawal of Fixed deposit before maturity. Where a deposit is so allowed to be prematurely withdrawn the relative deposit receipt must be discharged by all the depositors in case of A or S/s deposit and by the first named depositor in case of F or S/s deposit.
b) As per the Directions of Reserve Bank of India currently in force: premature repayment:

Up to 3 months from the date of deposit/renewal (Lock-in-period)	No repayment (Not applicable in case of premature Repayment in the event of death of the depositor**)
After 3 months but before 6 months	No interest*
After 6 months but before the date of maturity	The Interest payable shall be 2 per cent lower than the Interest rate applicable to a Fixed deposit for the period for which the Fixed deposit has run or if no rate has been specified for that period, then 3 per cent lower than the minimum rate at which Fixed deposits are accepted by the Company*
**in the event of the death of a depositor, the Company shall repay the deposit prematurely, even within the lock-in-period, to the surviving depositor/s in the case of joint holding with survivor clause, or to the nominee/legal heir/s of the deceased depositor, on the request of the surviving depositor/s/nominee/legal heir, and only against submission of proof of death, and other necessary documents to the satisfaction of the Company. However no interest is payable on such repayments of deposits.	
*The above rates are also applicable for premature repayments in the case of death of a depositor.

TERMS AND CONDITIONS GOVERNING ACCEPTANCE OF RECURRING DEPOSITS (RD)

1) MINIMUM RECURRING DEPOSIT (RD)

Deposits will be accepted in multiples of Rs. 500/- subject to a minimum amount of Rs.500/-.

2) MODE OF ACCEPTANCE AND OPERATION

RD account can be opened by remitting the first installment through account payee cheque drawn in favour of "Shriram Transport Finance Company Limited" along with duly filled in application form and **National Automated Clearing House** (NACH) mandate form. The subsequent month's installments will be directly transferred through NACH (debit clearing) system. Monthly statement of account giving details of the transactions will be sent to the registered Email id.

3) PRE-DETERMINED DATE FOR INSTALLMENT PAYMENT

First receipt date will be considered as the installment date for subsequent installments or next working day in case the date falls on any bank holiday. If installment date falls on bank holiday NACH will be sent for presentation to the bank on the next working day.

4) SCHEME AND TENURE

Company accepts RD for different tenures as mentioned on the first page of the application form. Where the tenure is not indicated / selected in the application form or multiple selection made, the deposit will be treated as placed for 36 months.

5) INTEREST

Interest rate is fixed for the entire period of deposit. Interest will be computed on each installment amount from the respective deposit date until March 31st. Interest for the subsequent year/s would be computed on the accumulated balance (principal and interest [net of TDS, if any]) as of March 31st until the next March 31st or maturity date whichever is earlier. Interest [net of TDS, if any] will be credited to the depositor ledger on 31st March of each year.

6) IDENTIFICATION OF DEPOSITORS

b) Deposits pertaining to Karta of Hindu Undivided Family cannot be held jointly.

10) NOMINATION

a) The depositor and/or the depositors, where deposits are made by more than one person jointly may, at any time, nominate a person to whom his/their deposit in the Company shall vest in the event of his or all the joint holders' death. Notwithstanding anything contained in any other law for the time being in force or in any disposition, whether testamentary or otherwise in respect of such other deposit in the Company where a nomination made in the prescribed manner purports to confer on any person the right to vest in the deposit, the nominee shall, on the death of the depositor(s) become entitled to all the rights in the deposit in the Company to the exclusion of all other persons unless the nomination is varied or cancelled in the prescribed manner.
b) Nomination can be made only by individuals. Karta of HUF, holder of Power of attorney cannot nominate.
c) The nominee shall not be a trust, society, body corporate, partnership firm, Karta of Hindu Undivided Family or a Power of Attorney holder.
d) A minor can be a nominee represented by his natural/court appointed guardian.

11) INCOME-TAX PROVISIONS

a) **TDS Deduction:** As required under the Income Tax Act, 1961, tax at applicable rate will be deducted at source from the amount of interest paid and/or credited to a depositor if the gross interest exceeds the prescribed limit during the financial year under specific customer ID.
b) **Furnishing PAN:** if a Non-assessee depositor requires any exemption from tax deduction at source on interest payments a valid declaration in Form15G/15H, or any other form as may be prescribed under the Income Tax Act 1961 needs to be submitted. The depositors are presumed to be aware of the penal provisions of the said Act with respect to false declaration and the Company will in no way be responsible for such false declaration made by the depositor. PAN is mandatory where the deposit amount is equal or more than Rs. 50,000/- or aggregating all deposits {Fixed deposit (FD) and Recurring deposit (RD)} is equal or more than Rs. 500,000/- or the interest is crossing Rs. 5,000/-.
c) **Form 15G/H:** A new form 15G/15H has to be submitted again when any additional deposit is made even though the Depositors may have already furnished the forms for the current financial year.
d) **TDS Certificates:** In accordance with the CBDT Circular 03/2011 dated 13/05/2011 TDS Certificates in Form No. 16A will be downloaded by the Company from TIN Website and the same will be authenticated by means of digital signature (Circular under Section 119 of the Income Tax Act 1961). TDS certificates will not be generated from TIN Website if PAN is not furnished. While filling up the address of the applicant in the Deposit Application Form, please be informed that if the address as provided by you is the same address as the one updated with NSDL at the time of PAN application then the TDS certificate would be dispatched to that address. However, if both the addresses are different, then the TDS certificates would be printed with the address as updated with NSDL at the time of PAN application and would be sent by the company at the said address. If there is any change of address please update your address with NSDL by filling up the form for amendments/changes in PAN data and please intimate the said changes to the company also.

12) RENEWALS

a) RD will be converted into Fixed Deposits(FD), if the Depositor has opted for the same and the rate prevailing for Fixed Deposits on the date of maturity of RD will be applicable.
b) Conversion of maturity amount of RD into Fixed Deposits will be for an amount net of TDS, if any.
c) If the depositor opts for conversion to Fixed Deposit on maturity of RD then,
   i) the deposit shall continue to be auto renewed on maturity as per the instructions specified in the application form (under maturity instruction) till such time instructions to the contrary are received. In such cases the depositor need not submit any new request or application for conversion.
   ii) the Company will generate Fixed Deposit E-Receipt to the registered email id of the first applicant on conversion.
   iii) the interest will be credited to the bank account mentioned on the RD application form if the scheme opted is other than Cumulative.
   iv) the Depositor has to submit the Tax declaration form (Form 15G/H as applicable) to the service centre within 15 days of fixed deposit issuance, failing which the all the investments (RD and FD) in the specific customer ID will be treated as taxable and appropriate TDS amount will be deducted and paid to Income Tax Department, GOI.
   v) the interest rate considered for conversion of FD, will be the rate prevailing on the date of maturity of RD, including additional rate of interest for Senior citizen / Renewal / Employee benefit, if applicable.
   vi) For Minor investments where the Guardian PAN has been submitted during investment and if the Minor has become Major during contract period or during the conversion to Fixed Deposit process, then it is the responsibility of the Minor who has become Major and the Guardian who has signed the original application to submit the PAN of the Minor who has become Major.
d) The Depositor would have the option of changing the mode from conversion in Fixed Deposit to auto refund and vice versa by giving necessary instructions at least 15 days prior to RD maturity. If the Depositor makes multiple or no selection between conversion in Fixed Deposit and auto refund then company will by default consider the deposit for conversion in Fixed Deposit for a period of 12 months under cumulative scheme and will be auto renewed in FD, till the Depositor approaches the Company for change in maturity instruction.

13) LOAN ON RD

There will not be any loan on RD.

14) REPAYMENTS

a) RD will be refunded directly to the first applicant bank account on maturity.
b) The Company shall intimate to the registered mail ID of the depositor, the details of maturity of the deposit at least two months before the date of maturity of the deposit.
c) Repayment of RD will be made only by National Electronic Fund Transfer (NEFT).

15) PREMATURITY PAYMENT

a) The company reserves the right to allow, at its absolute discretion, withdrawal of RD before maturity. Where a deposit is so allowed to be prematurely withdrawn, a request from the registered mail id of the depositor or a request letter duly signed by the first named depositor in case of F or S/s deposit and request letter duly signed by all the depositors in case of A or S/s deposit is required.
b) As per the Directions of Reserve Bank of India currently in force: premature repayment:

Up to 3 months from the date of deposit/renewal (Lock-in-period)	No repayment (Not applicable in case of premature Repayment in the event of death of the depositor**)
After 3 months but before 6 months	No interest*

Adverse Opinion expressed by the Statutory Auditors on Standalone and Consolidated Financial Results

Attention is drawn by the Auditors to the following notes of the accompanying Audited Standalone and Consolidated Financial Results of the Company:

a) Inter Corporate Deposits (ICD) aggregating to Rs. 2,84,338 lakhs as on March 31, 2021 (including Interest of Rs. 1,942 lakhs accrued till March 31, 2019 and remaining unpaid as on March 31, 2021) given to certain companies is doubtful of recovery. In absence of provision there against, the loss for the period is understated to that extent. Impact in this respect have not been ascertained and disclosed in the financial results.

b) The Company had given advance to a body corporate aggregating to Rs. 1,400 lakhs which are outstanding as on March 31, 2021. In absence of appropriate audit evidence and status thereof, auditor is unable to comment on the validity and recoverability of such advances.

c) Interest on Inter Corporate Deposits taken by the company has not been recognised to the extent of Rs. 4,615 Lakhs (including Rs. 2,337 Lakhs for the year) pending finalisation of debt resolution process.

d) Reconciliation of certain debit and credit balances with individual details in the Company and confirmation thereof (other than borrowings) are pending. Adjustments/Impact in this respect are currently not ascertainable and as such cannot be commented upon by auditors.

e) The predecessor auditor in respect of the financial results for the year ended March 31, 2019 in respect of loans referred to in paragraph (a) above have not been able to ascertain if the aforesaid promoter companies could, in substance, be deemed to be related parties to the Company in accordance with paragraph 10 of IND AS-24 "Related Party Disclosures". Further certain ICDs as reported were in the nature of book entries and/or are prejudicial to the interest of the company.These loans are outstanding as on this date and uncertainty in this respect still exists. As represented by the management the parties involved are not related parties requiring disclosure in terms of said accounting standard and provisions of companies act 2013.The matter as reported is pending before regulatory authorities. Auditor is therefore, unable to ascertain the impact of non-compliance with the disclosure and other requirements in respect of related parties and consequential impact, if any, on the financial results of the Company.

NOTICE

TRANSFER OF EQUITY SHARES OF THE COMPANY TO THE INVESTOR EDUCATION AND PROTECTION FUND ("IEPF")

Section 124(6) of the Companies Act, 2013 ("Act") read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 as amended from time to time ("Rules") specifies that all equity shares in respect of which dividend has not been claimed for seven consecutive years or more are required to be transferred to the demat account of the IEPF Authority ("IEPF Account"). Further, companies are required to inform the shareholders, at the latest available address as per their records, whose equity shares are liable to be transferred to the IEPF Account ("Shareholders"), three months prior to the due date of transfer of equity shares and simultaneously publish a notice in the leading newspaper in English and regional language having wide circulation informing that the names of Shareholders along with their folio number or DP ID - Client ID are available on the website of the company.

This notice is published pursuant to the aforesaid provisions of the Act and Rules and is addressed to those shareholders whose shares are liable to be transferred to the Authority during the financial year 2021-22.

The Company / Registrar and Transfer Agent viz. Link Intime India Private Limited ("RTA"), have sent individual notices to the Shareholders at the latest available address as per records, in respect of the equity shares liable to be transferred to the IEPF Account.

The complete details of the Shareholders of the Company who have not claimed dividends for seven consecutive years and whose equity shares are due for transfer to IEPF Account are available on the website of the Company at https://www.ltfs.com/investors.html.

In case the Company does not receive any communication from the Shareholders of the Company concerned by August 29, 2021, for claiming all the unpaid dividend from financial year 2013-14 onwards, the Company shall in order to comply with the requirements of the Rules, transfer the equity shares to the IEPF Account by the due date as per the procedure set out in the Rules without any further notice to the Shareholders.

Please note that no claim shall lie against the Company in respect of dividend not claimed and equity shares transferred to the IEPF Account pursuant to the said Rules.

Shareholders of the Company may note that the equity shares transferred to IEPF Account including all benefits accruing on such equity shares, if any, can be claimed back from the IEPF Authority after following the procedure prescribed under the IEPF Rules.

NOTICE OF 35TH ANNUAL GENERAL MEETING AND REMOTE E-VOTING INFORMATION

NOTICE is hereby given that the 35th Annual General Meeting ("AGM") of Swaraj Engines Limited ("the Company") will be held on **Monday, 19th July, 2021 at 12:30 P.M.** through video conferencing ("VC") / Other Audio Visual Means ("OAVM") to transact the businesses, as set out in the Notice of the 35th AGM. In compliance with the General Circular No. 20/2020 dated 5th May, 2020 read with General Circular No. 14/2020, 17/2020 and 02/2021 dated 8th April, 2020, 13th April, 2020 and 13th January, 2021 respectively issued by the Ministry of Corporate Affairs ("MCA") and Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12th May, 2020 and SEBI/HO/CFD/CMD2/CIR/P/2021/11 dated 15th January, 2021 issued by Securities and Exchange Board of India (SEBI) (hereinafter collectively referred to as "the Circulars"), the Companies are allowed to hold AGM through VC / OAVM, without the physical presence of the Members at a common venue. Hence, the 35th AGM of the Company is being held through VC / OAVM only. Members attending the 35th AGM through VC / OAVM shall be counted for the purpose of reckoning the quorum under section 103 of the Companies Act, 2013.

In accordance with the Circulars, electronic copies of the Notice of the 35th AGM alongwith the Annual Report for FY 2020-21 have been sent to all the Members whose e-mail Ids are registered with the Company / Depository Participant(s). Members may note that these documents are also available on the Company's website at www.swarajenterprise.com, websites of the Stock Exchanges viz. BSE Limited at www.bseindia.com and National Stock Exchange of India Limited at www.nseindia.com and on the website of National Securities Depository Limited ("NSDL") at www.evoting.nsdl.com.

In compliance with Section 108 of the Companies Act, 2013 ('the Act') read with Rule 20 of the Companies (Management and Administration) Rules, 2014, Secretarial Standards - 2 issued by the Institute of Company Secretaries of India on General Meetings and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is providing to its Members the facility of remote e-Voting before the AGM and during the AGM in respect of the businesses to be transacted at the 35th AGM and for this purpose, the Company has appointed NSDL for facilitating voting through electronic means.

Members of the Company, holding shares either in physical form or dematerialized form, as on the cut-off date, the 12th July, 2021, may cast their vote electronically. The remote e-voting period will commence on 15th July, 2021 at 9.00 a.m. and end on 18th July, 2021 at 5.00 p.m. No remote e-voting shall be allowed beyond the said date and time. Any person who become Member after sending of the Notice of the 35th AGM and holding shares as on the cut-off date i.e. 12th July, 2021 may obtain the User ID and Password by sending a request at evoting@nsdl.co.in or Registrar and Share Transfer Agent of the Company at helpdeskdelhi@mcsregistrars.com. The procedure for obtaining the User ID and Password is also provided in the Notice of the 35th AGM.

Members attending the 35th AGM who have not cast their vote by remote e-voting shall be eligible to cast their vote through e-voting during the AGM. Members who have voted through remote e-voting shall participate at the 35th AGM through VC / OAVM, however, they shall not be eligible to vote at the AGM. The instructions for joining the AGM through VC / OAVM are provided in the Notice of the 35th AGM.

Members may go through the instructions mentioned in Note No. 21 of the AGM Notice related to voting through electronic means (remote e-voting) or visit NSDL's website www.evoting.nsdl.com and in case of queries, Members may refer to the Frequently Asked Questions (FAQ) and/or e-Voting User Manual available at the NSDL's aforesaid website or contact Ms. Pallavi Mhatre, Manager, NSDL at the designated e-mail IDs - evoting@nsdl.co.in or pallavid@nsdl.co.in or telephone nos. i.e. 1800 1020 990 or 1800 22 44 30 (Toll-free).

The Members holding shares in physical mode and who have not yet registered / updated their e-mail addresses with the Company are requested to register / update their e-mail addresses by writing to the Company at selinvestor@swarajenterprise.com along with the copy of the signed request letter mentioning the name and address of the Member, self-attested copy of the PAN and self-attested copy of any document (e.g. Driving License, Aadhaar Card, Election Identity Card, Passport) in support of the address of the Member. The Members holding shares in dematerialised mode are requested to register / update their e-mail addresses with the relevant Depository Participants.

Dividend and Book Closure:

The shareholders may note that the Board of Directors at their meeting held on 20th April, 2021 has recommended a dividend of Rs. 69.00 per share, subject to the approval of the Members. Pursuant to Section 91 of the Companies Act, 2013, and Regulation 42 of SEBI Listing Regulations, the Register of Members and share transfer books will remain closed from 3rd July, 2021 to 9th July, 2021 (both days inclusive).

The shareholders may note that the Income Tax Act, 1961, as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a Company after 1st April, 2020 shall be taxable in the hands of the shareholders. The Company shall therefore be required to deduct Tax at Source ("TDS") at the time of making payment of the dividend. In order to enable us to determine the appropriate TDS rate, as applicable, the shareholders are requested to submit the requisite documents in accordance with the provisions of the Income Tax Act, 1961 at selinvestor@swarajenterprise.com by 5th July, 2021.

This notice is given pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended ("the Rules").

The Rules, inter alia, contain provisions for transfer of shares in respect of which dividend has not been paid or claimed by the shareholders for seven consecutive years or more to Investor Education and Protection Fund (IEPF) established by Central Government.

Individual notice has been sent the shareholders whose shares are liable to be transferred to IEPF during the FY 2021-22 at the earliest possible under the current covid-19 / lockdown situation. Accordingly, the concerned shareholders are requested to lodge their claim for the said dividend on or before 10th August, 2021, failing which the shares shall be transferred to the IEPF on an appropriate date.

The Company has uploaded full details of such shareholders and shares due for transfer to IEPF Authority on its website at www.mcleodrussel.com. Shareholders are requested to refer to the web-link https://www.mcleodrussel.com/investors/iepf-suspense-account.aspx# to verify the details of unclaimed dividends and the shares liable to be transferred to IEPF Authority.

The concerned shareholders, holding shares in physical form and whose shares are liable to be transferred to IEPF, if any, may note that the Company would be issuing new share certificate(s) in lieu of original share certificates held by them for the purpose of dematerialization and transfer of shares to IEPF as per the Rules and upon such issue, the original share certificates will stand automatically cancelled and be deemed non- negotiable. The shareholders may further note that the details uploaded by the Company on its website shall be deemed to be adequate notice in respect of issue on new share certificate by the Company for the purpose of transfer of shares to IEPF Authority pursuant to the Rules.

Shareholders may note that both the unclaimed dividends and the shares transferred to IEPF Authority including all benefits accruing on such shares, if any, can be claimed back by them after following the procedure prescribed under the said Rules.

The said Shareholders who have query in respect of above, are requested to promptly contact Mr. S. K. Chaubey, Maheshwari Datamatics Pvt. Ltd., Registrar & Share Transfer Agent, at the email id - mdpldc@yahoo.com / Contact No. 70442 43107 & 033-22482248 /Address: 23 R.N Mukherjee Road, 5th Floor, Kolkata-700 001

Gujarat govt okays development of greenfield port at Nargol

GUJARAT CHIEF MINISTER Vijay Rupani has approved development of a greenfield port at Nargol in south Gujarat through the public-private-partnership with an extended build, own, operate and transfer (BOOT) period of 50 years.

As port projects have huge gestation lags, the Gujarat government is setting a precedent by keeping the initial BOOT period for Nargol port development at 50 years, rather than 30 years usually offered for greenfield port development in the state.

This presents the potential developer with an assurance for greater return on investment. The proposal also offers interested developers the flexibility to quote discounted waterfront royalty rate, in addition to the prevailing system of quoting premium on the base rates.

After two years, Modi assures top J&K leaders of polls first, statehood later

DEEPTIMAN TIWARY
New Delhi, June 24

PM Narendra Modi, home minister Amit Shah and L-G Manoj Sinha with J&K leaders ahead of the talks on Thursday ANI

IN HIS FIRST direct political engagement with leaders of Jammu and Kashmir in almost two years, Prime Minister Narendra Modi Thursday assured them his government was committed to kick-starting the democratic process through Assembly elections as soon as possible.

Separately, Union Home Minister Amit Shah said the Centre was bound by its assurances on elections and statehood to J&K. He also promised a review of detentions through a committee under Lieutenant Governor Manoj Sinha.

The meeting was attended by 14 political leaders — former Chief Ministers (Farooq Abdullah - National Conference, Ghulam Nabi Azad - Congress, Mehbooba Mufti - PDP, Omar Abdullah - NC), former Deputy CMs and heads of all parties in J&K.

The meeting lasted three-and-a-half hours and each political leader spoke without any reservations. The Prime Minister told them he wanted to meet them earlier, but could not due to Covid-19. He was keen that the exercise of the Delimitation Commission be completed at the earliest so that elections cold be held soon.

"The consensus was that the democratic system should be re-established in the region and the electoral process started. The PM said Assembly elections will happen after the delimitation process is completed. He sought cooperation from all parties in the delimitation process. On statehood, he said it will be given at the appropriate time," BJP leader and former Deputy CM of Jammu and Kashmir Nirmal Singh said.

While PDP raised the issue of Article 370 abrogation, other parties joined it on the demand for release of political leaders and youth under PSA. "On detentions, the Home Minister clarified that a wrong picture was being given that there are too many detainees. He gave data to show that numbers are not high. He also said that the LG will form a committee to review cases of all detainees," Nirmal Singh said.

Ghulam Nabi Azad of Congress said his party presented five key demands: early statehood, Vidhan Sabha elections at the earliest, guarantees to local people on government jobs, property and domiciles, rehabilitation of Kashmiri pandits, and release of all political prisoners. "On Article 370, most parties felt it would be appropriate to wait for the outcome of the case being heard in the Supreme Court," he said.

Apni Party's Altaf Bukhari said, "That the PM gave a patient hearing for over three hours is itself a big thing. He spoke about elections and the sought participation of all parties. On statehood, he said it will happen in due course."

Those present in the meeting included Farooq Abdullah, Omar Abdullah, and Davinder Singh from the National Conference; Mehbooba Mufti and Muzaffar Hussein Baig from PDP; Sajjad Lone from People's Conference; MY Tarigami from CPM; Ghulam Nabi Azad, Ghulam Ahmed Mir and Tara Chand from Congress; Dr Jeetendra Singh, Nirmal Singh, Ravinder Raina and Kavinder Gupta from the BJP; Bhim Singh of Nationalist Panthers Party; Altaf Bukhari from Apni Party.

This was the first major outreach towards mainstream political parties in Jammu and Kashmir since abrogation of the erstwhile state's special status in 2019.

The Centre had last week contacted all key political leaders and invited them for a meeting with PM Narendra Modi. While no agenda had been set by the Centre officially, sources had said that the meeting was being called to consult the parties on the delimitation process in the union territory and starting the democratic process through an Assembly election later this year.

The parties had welcomed the move saying that it showed the Centre had acknowledged their importance in the region and that dialogue was the right process to deal with the situation in the region.

Leaders of the People's Alliance for Gupkar Declaration (PAGD), a coalition of mainstream parties in Jammu and Kashmir, announced Tuesday that they would be attending the meeting called by Prime Minister Narendra Modi in New Delhi on June 24.

India's engineering, research & development mkt to reach $63 bn by 2025: Nasscom

PRESS TRUST OF INDIA
New Delhi, June 24

INDIA'S SHARE IN the global engineering and research and development (ER&D) market is expected to grow at a compound annual growth rate (CAGR) of 12-13% to reach $63 billion by 2025, according to industry body Nasscom.

Speaking at the Nasscom Engineering R&D Showcase 2021 event, Nasscom President Debjani Ghosh noted that the pandemic has altered the way consumers behave, interact with companies, and how businesses interact.

Contactless technologies, analytics, software-led systems are changing how products are designed, redesigned, engineered, and consumed, she added.

"...this represents a very unique opportunity for the ER&D companies in India that are primarily focusing on product design and innovation to partner with global enterprises and engineer the future, global megatrends like sustainability, create even more opportunities for product redesign and innovation and that is going to be tremendously important for the future of this industry," Ghosh said.

She said India"s share in the global engineering and research and development (ER&D) market is expected to grow at a CAGR of 12-13 per cent to reach USD 63 billion by 2025 from $31 billion in 2019.

"This growth is being driven by global enterprises across automotive, aerospace, consumer electronics, medical devices, industrial and energy, semiconductor, telecom who are tapping into Indian ER&D"s ability to power innovation, drive high impact service delivery by leveraging the think force of the future," she added.

NOTICE is hereby given that the Board of Directors the Company at its meeting held on May 20, 2021 has recommended a Final Dividend of ₹ 5.50/- per equity share for the FY 2020-21 subject to approval of the Members' at the ensuing Annual General Meeting (AGM) of the Company. The Final Dividend, if declared by the Members', will be paid to the Members' holding equity shares of the Company as on the Record Date fixed by the Company for the purpose i.e. Friday, June 25, 2021.

Pursuant to the amendments introduced by the Finance Act, 2020, the Company will be required to Withhold Tax at the prescribed rates on the Dividend paid to its Members' w.e.f. April 01, 2020. No tax will be deducted on payment of Dividend to the resident individual Member, if the total Dividend received / to be received during the Financial Year does not exceed ₹ 5,000/-. Rate of Withholding Tax would vary depending upon the residential status of the member and documents registered with the Company.

The Members' are requested to refer the detailed communication including applicable Withholding Tax Rate for Resident and Non-Resident Members' alongwith required formats on the website of the Company www.torrentpower.com.

The Finance Act, 2021, has inter alia inserted the provisions of section 206AB of the Income Tax Act ("the Act") with effect from July 1, 2021. The provisions of section 206AB of the Act require the deductor to deduct tax at higher of the following rates from amount paid / credited to 'specified person':

i. At twice the rate specified in the relevant provision of the Act; or
ii. At twice the rates or rates in force; or
iii. At the rate of 5.00%.

The 'specified person' means a person who has:
a. not filed return of income for both of the two assessment years relevant to the two previous years immediately prior to the previous year in which tax is required to be deducted, for which the time limit of filing return of income under section 139 (1) of the Act has expired; and
b. subjected to tax deduction / collection at source in aggregate amounting to ₹ 50,000 or more in each of such two immediate previous years.

The non-resident member who does not have the permanent establishment is excluded from the scope of a specified person.

Also, please note that:
1. Members' are requested to ensure Aadhar number is linked with PAN, as per the timelines prescribed. In case of failure of linking Aadhar with PAN within the prescribed timelines, PAN shall be considered inoperative and, in such scenario, tax shall be deducted at higher rate of 20.00%.
2. TDS to be deducted at higher rate in case of non-filers of Return of Income.

Primary Member can submit declaration as per Rule 37BA of the Income Tax Rules, 1962 to provide credit of TDS on dividend pay-outs by the Company, separately to the joint Members' (beneficiary Members') of the said shares on or before **July 01, 2021**. The said declaration received post **July 01, 2021** shall not be considered. The Company shall not be responsible for providing the TDS credit to the beneficiary Member, in any manner, in the absence of prior intimation by the primary Member to the Company.

The required documents viz. Form 15G / Form 15H / Form 10F, documents under Sections 196, 197A of the Income Tax Act, 1961, FPI Registration Certificate, Tax Residency Certificate, Lower Tax Certificate etc. can be uploaded on the link https://web.linkintime.co.in/formsreg/submission-of-form-15g-15h.html on or before **July 05, 2021** to enable the Company to determine the appropriate Tax Deductible at Source / Withholding Tax Rate. Any communication on the tax determination / deduction received post **July 05, 2021** shall not be considered by the Company / Registrar and Share Transfer Agent and Tax will be deducted on the applicable rate.

Notes :

1. The above is an extract of the detailed format of Quarterly and Annual Financial Results filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly and Annual Financial Results are available on the Stock Exchange website **www.bseindia.com** and on Company's website **www.duroply.in**
2. The current financial year has been a challenging year for our business. The year began amidst a strict lockdown post the emergence of the Coronavirus (COVID-19) towards the end of the last financial year. The economy gradually opened post June 2020 and the second half of the year was progressing towards recovery. However, a much stronger second wave of Covid-19 infections hit the country towards the end of year and has once again resulted in significant disruption to our business as several state governments have announced partial/ complete restrictions. The Company has made detailed assessment of the recoverability and carrying values of its assets comprising property, plant and equipment, inventories, receivables, other current assets, deferred tax assets, etc. as at the period end and on the basis of evaluation, has concluded that no material adjustments are required in the financial results. Given the uncertainties associated with nature, condition and duration of COVID-19, the impact assessment on the Company's financial statements will be continuously made and provided for as required.
3. The above results have been reviewed by the Audit Committee and subsequently approved by the Board of Directors at their respective meetings held on 24th June 2021.
4. The Figures for the quarter ended 31st March 2021 and 31st March 2020 are balancing figures between the audited figure for the full financial year and published year to date figures upto third quarter.
5. The Company has elected to apply the practical expedient of not assessing the rent concessions as a lease modification, as per MCA notification dated 24thJuly 2020 on IND- AS 116 for rent concessions which are granted due to COVID-19 pandemic. According to the notification, total rent concessions confirmed during the year ended 31st March 2021 of ₹12.03 Lakhs has been reported under head other Income.
6. On 24th September 2020 as a part of business reorganisation the company's board of directors had approved transfer of its Tea Processing Unit to Teloijan Techno Agro Limited, together with all tangible and intangible assets as specified in the business transfer agreement ("BTA") in relation to Tea Processing Unit at Jeypore, Dibrugarh Assam, (referred to as Tea Business), as a going concern through slump sale. The Divestment was approved by the shareholders of the company in their Annual General Meeting held on 17th October 2020. The said deal got concluded on 31st March 2021 and the profit of ₹ 810.44 Lakhs from the sale of Tea Business is shown as Exceptional Items.
7. Previous period's figures have been reclassified/regrouped/restated, wherever necessary.

Central Vista: Call for discussion in House panel turned down, Oppn to go to Speaker

LIZ MATHEW
New Delhi, June 24

TAKING THE STAND that the parliamentary panel on urban development cannot be kept in the dark on details of the Central Vista project, senior Congress leader Digvijaya Singh was said to have sought a discussion Thursday on the project already underway in the heart of the Capital.

It is learnt that Jagdambika Pal, chairman of the Standing Committee on Urban Development, turned down Singh's demand, pointing out that details of the project are already in the public domain.

Following the meeting, Opposition members are contemplating approaching Speaker Om Birla to let the committee take up the matter.

It is learnt that the ruling party members of the panel objected to any discussion on the project, but Opposition members pointed out that the CPWD, which undertakes the Central Vista development works, comes under the Ministry they are dealing with.

Panel chairman objects, says all details about project public

According to the Lok Sabha website, the committee was scheduled to take up Thursday 'Evidence of the representatives of: (i) Ministry of Housing and Urban Affairs; and (ii) Ministry of Finance -- Department of Financial Services, on the subject, Implementation of Street Vendors (Protection of Livelihood and Regulation of Street Vending) Act, 2014 with special emphasis on PM SVANidhi Scheme'.

Opposition MPs claimed that many street vendors have been displaced from the area in and around India Gate where construction works are underway.

Singh wanted the panel to especially discuss the ethical and financial parts of the project and the buildings to be demolished.

But the committee chairman, it is learnt, reminded Singh that the project had been given the go-ahead by the courts, and that the General Purpose Committee, chaired by the Speaker with members from every party, was consulted on every aspect of construction of the new Parliament building.

BJP's Sushil Modi and P C Mohan were among those who backed the chairman. Singh later suggested that members could approach the Speaker to get clearance.

It is learnt that Jagdambika Pal, chairman of the Standing Committee on Urban Development, turned down Singh's demand, pointing out that details of the project are already in the public domain

The Central Vista revamp, announced in September 2019, envisages, among others, a new triangular Parliament House with seating capacity for 900 to 1,200 MPs. It is to be constructed by August 2022 when the country will celebrate its 75th Independence Day. The project also includes construction of a common Central Secretariat, revamp of the 3-km Rajpath from Rashtrapati Bhavan to India Gate, a new residence and office for the Prime Minister, and a new Vice President Enclave.

Chinese actions of last year responsible for eastern Ladakh standoff: India

PRESS TRUST OF INDIA
New Delhi, June 24

INDIA ON THURSDAY said China's amassing of a large number of troops close to the border last year and attempts to unilaterally alter the status quo seriously disturbed peace and tranquillity in the region.

India's comments on the matter came a day after China said its military deployment in the region is a normal "defence arrangement" aimed to respond to actions by the "relevant" country.

"It is well recognised that it has been the Chinese actions over the last year, including amassing of a large number of troops close to border areas in the western sector and trying to unilaterally alter the status quo along the Line of Actual Control (LAC), which have seriously disturbed peace and tranquillity in the border areas," external affairs ministry Spokesperson Arindam Bagchi said.

He was responding to a question on the standoff at a media briefing. "These acts are in violation of our bilateral agreements, including the 1993 and 1996 agreements that mandate that the two sides shall strictly respect and observe the Line of Actual Control and that two sides will keep their military forces in the areas along the LAC to a minimum level," Bagchi said.

Andhra Pradesh, Assam, Bihar, Chhattisgarh, Delhi, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Rajasthan, Tamil Nadu, Telangana, Odisha, Uttar Pradesh and West Bengal have administered more than 10 lakh beneficiaries of the 18-44 years age group the first dose of Covid-19 vaccine, the ministry said

India records 54,069 new cases of Covid, 1,321 deaths in a day

INDIA REPORTED 54,069 I new cases of COVID-19 in a day which took the infection tally to 3,00,82,778 while 1,321 more fatalities pushed the death toll to 3,91,981, according to the Union health ministry data on Thursday.

The number of active cases has declined to 6,27,057 and is 2.08 per cent of the total infections. The national COVID-19 recovery rate has also improved to 96.61 per cent, the data updated at 8 am showed.

A net decline of 16,137 cases in the Covid-19 caseload has been recorded in a day.

According to the inoculation data published at 7 am, India administered 64.89 lakh vaccine doses in a day taking the cumulative number of jabs given so far to 30.16 crore.

The daily positivity rate was recorded at 2.91%. It has been less than 5% for 17 days in a row. The weekly positivity rate has also declined to 3.04%, the ministry said. — PTI

Insurance firms settle 15.39 lakh Covid health claims as on June 22: Irdai member

PRESS TRUST OF INDIA
Mumbai, June 24

INSURANCE COMPANIES HAVE settled 80 per cent or 15.39 lakh Covid-19 health claims amounting to ₹15,000 crore as on June 22, an IRDAI member said.

Insurance players have received about 19.11 lakh Covid-19 health claims so far.

"Of the 19,11,384 Covid-health claims reported as on June 22, 15,39,434 have already been settled for an amount over ₹15,000 crore. This represents about 80% of the claims getting settled as far as medical insurance or hospitalisation is concerned," Insurance Regulatory and Development Authority of India (Irdai) member (Non-life) T L Alamelu said.

She was speaking at the 13th Global Insurance E-Summit organised by Assocham.

As far as death claims are concerned, which are handled by the life insurers, about 55,276 claims have been intimated. Of that, around 88% or 48,484 claims amounting to ₹3,593 crore have already been settled, she said. Alamelu said the repudiated claim for health insurance is around 4% and in life it is nearly 0.66%.

Speaking on the occasion, ministry of finance joint secretary Saurabh Mishra said that digitalisation is one factor that has contributed to the resilience of non-life as well as to a great extent in life businesses in every sphere of activity from distribution and sales to post-sales.

"In the new normal of technology, it is not just an important element for us to drive it out but is going to play pivotal role in transforming the insurance businesses to make them more digital and customer-centric, cutting across every sphere of customer experience — claims efficiency, fraud proofing etc," Mishra said.

Big Tech — WhatsApp and Twitter — and the Indian government are at war over the new Information Technology Rules that came into effect last month.

The government wants major social media platforms to appoint key officials in India, and to enable tracking the first originator of a message.

This, the government says, is to maintain law and order, ensure national security, and hold foreign entities accountable in India.

The platforms have argued that the demands encroach upon fundamental rights of free speech and privacy. Multiple issues are now under litigation.

There is another question: do citizens have the agency to keep both the state and Big Tech out of their personal space?

Listen to lawyer and public policy researcher Smriti Parsheera answer these questions and more at the next session of **Explained.Live.**

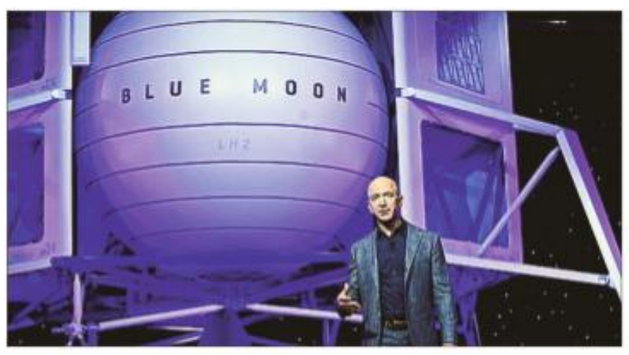
RISKY TRIP

Jeff Bezos' planned 2021 Space Odyssey a leap too far for insurers

NOOR ZAINAB HUSSAIN & CAROLYN COHN
June 24



LAUNCHING ONE OF the richest individuals on earth into orbit has proved a leap too far for insurers, who are not ready to price the risk of losing Jeff Bezos or his fellow space travellers.

Amazon CEO Bezos, a lifelong space enthusiast, has been vying with Elon Musk and Richard Branson to become the first billionaire to fly beyond the earth's atmosphere. And while insurers are well known for offering cover for even the most outlandish of risks, at a price, potential accidents in space are not yet among them.

"Space tourism involves significant risk, but is not an issue life insurers specifically ask about as yet because it is so rare for anyone to travel into space," Insurance Information Institute (III) spokesperson Michael Barry said.

There is a nearly $500 million market to insure satellites, rockets and unmanned space flight, but no legal requirement for an operator such as Blue Origin, which Bezos founded, to insure passengers for injury or death or for space tourists to have life cover, brokers and insurers said.

"We're not aware of a case where anybody is insured against passenger liability," Neil Stevens, senior vice president, aviation and space at Marsh, the world's biggest insurance broker, told Reuters.

Assuming they lift-off as planned next month, Bezos and the other wannabe astronauts on Blue Origin's New Shepard spacecraft will not only spend several minutes 62 miles (100 km) above the earth in a truck-sized capsule, they also have to get back. The only group that has regularly flown humans sub-orbitally since the 1960s is Branson's Virgin Galactic. All have been tests, with one failure in 2014 resulting in a death.

Blue Origin has flown 15 unmanned sub-orbital flights with no failures, Seradata SpaceTrak data showed on June 10.

Bezos, Blue Origin and Virgin Galactic did not respond to requests for comment from Reuters on their insurance plans and flight records

Being uninsured in space is nothing new. NASA and the US, in general, do not buy liability cover, with government launches basically insured by taxpayers, Richard Parker of Assure Space, a unit of insurer AmTrust Financial that provides space insurance, said.

NASA astronauts are eligible for government life insurance programmes, a NASA spokesperson said in an emailed response.

Charles Wetton, underwriting manager for space policies at insurer Global Aerospace, said astronauts on government-funded missions are carefully selected for their knowledge, skills and fitness and train for several years before blast off. "They and their families understand the risks of the work they do," Wetton said.

But commercial space cadets may only get a few days of training for a sub-orbital flight or a few months for a ride to the International Space Station (ISS), Wetton said, adding: "These represent two very different risk profiles that insurers will take into account."

Blue Origin on its website says the spaceflight passenger will receive training the day before the launch, including mission and vehicle overviews, safety briefings, mission simulation and instruction on in-flight activities. Virgin Galactic said participants will get three days of training and preparation before the launch.

Insurers expect iron clad waivers and contracts from commercial space travel firms, stating they will bear no burden if a passenger dies during a flight. — REUTERS

Strained ties: China sues Australia over tariffs

BLOOMBERG
June 24

The lawsuit relates to Australian anti-dumping and anti-subsidy measures on Chinese exports of railway wheels, wind towers and stainless steel sinks BLOOMBERG

CHINA SUED AUSTRALIA over anti-dumping measures on some Chinese goods, further ratcheting up tensions between the two nations.

China filed a lawsuit at the World Trade Organization (WTO) over Australian anti-dumping and anti-subsidy measures on Chinese exports of railway wheels, wind towers and stainless steel sinks, the Ministry of Commerce said Thursday in Beijing.

This would be the third recent WTO case between the two countries, after Australia sued over Chinese tariffs on wine and barley.

Relations between the sides have steadily worsened since 2018, when Australia barred Huawei Technologies from building its 5G network, and went into freefall last year as Prime Minister Scott Morrison led calls for an independent probe into the origins of the coronavirus that first emerged in the Chinese city of Wuhan.

Beijing has responded with tariffs and restrictions on imports of coal, barley, lobsters and wine.

China opposes nations abusing trade-remedy measures that damage the legitimate rights of Chinese companies and undermine the authority of WTO rules, Ministry of Commerce spokesman Gao Feng told reporters on Thursday in Beijing. China hopes Australia can avoid distorting goods trade, and bring it back to a normal track as soon as possible, he said.

Australia will "vigorously defend" the case, Trade Minister Dan Tehan told reporters after the announcement, repeating calls for ministers to discuss the bilateral disputes. "What we would like to be able to do is not only be able to sit down at the official level and resolve these disputes, but also at the ministerial level," he said. "But that is not an avenue which is available to us at this time."

The Chinese announcement comes after Morrison said earlier this month that his government wanted to restart dialog with Beijing. There "been no formal ministerial meeting between the two sides in almost two-and-a-half years.

Black Sea warship: Russia accuses UK of barefaced lies

GUY FAULCONBRIDGE & MAXIM RODIONOV
London/ Moscow, June 24

RUSSIA ACCUSED BRITAIN on Thursday of spreading barefaced lies over an incident in the Black Sea in which Moscow said it had fired warning shots and dropped bombs in the path of a British destroyer off the coast of Russia-annexed Crimea.

Russia summoned the British ambassador in Moscow for a formal diplomatic scolding after the warship breached what the Kremlin says are its territorial waters but which Britain and most of the world say belong to Ukraine.

Britain said Russia was sowing inaccuracies and disputed Russia's account, saying no warning shots had been fired and that no bombs had been dropped in the path of the Royal Navy destroyer Defender.

Russia's foreign ministry summoned ambassador Deborah Bronnert to deliver a "tough demarche" — diplomatic jargon for a telling off — and spokeswoman Maria Zakharova accused London of "barefaced lies".

British Foreign Secretary Dominic Raab told reporters du a visit to Singapore: "No shots were fired at HMS Defender. The Royal Navy ship was conducting innocent passage through Ukrainian territorial waters. We were doing so in accordance with international law and the Russian characterisation is predictably inaccurate."

Britain said Russia was sowing inaccuracies and disputed Russia's account, saying no warning shots had been fired and that no bombs had been dropped

Under international law of the sea, innocent passage permits a vessel to pass through another state's territorial waters so long as this does not affect its security.

Russia seized and annexed the Crimea peninsula from Ukraine in 2014 and considers areas around its coast to be Russian waters. Western countries deem the Crimea to be part of Ukraine and reject Russia's claim to the seas around it.

The Black Sea, which Russia uses to project its power in the Mediterranean, has for centuries been a flashpoint between Russia and its competitors such as Turkey, France, Britain and the United States. — REUTERS

Official warned Bolsonaro of pressure to buy Covaxin

RICARDO BRITO & MARIA CAROLINA MARCELLO
BRASILIA, June 24

A BRAZILIAN HEALTH Ministry official alerted President Jair Bolsonaro to internal pressure he was facing to buy Covaxin, the Covid-19 vaccine developed by India's Bharat Biotech, a Congressman who attended the meeting said on Wednesday.

A Senate panel probing the government's handling of the pandemic on Wednesday formally called the logistics department official, Luís Ricardo Miranda, to testify.

The Senate committee and prosecutors are investigating why the government sought to close a deal for more expensive vaccines from Bharat Biotech, while ignoring early offers last year from Pfizer.

Miranda has told prosecutors he was pressured by Alex Lial Marinho, an aide to one of Bolsonaro's closest allies, former Health Minister Eduardo Pazuello, according to documents seen by Reuters.

Miranda was first quoted in newspaper O Globo on Wednesday saying that he took his concerns, with documents, to Bolsonaro on March 20, and the president said he would speak with the head of the federal police. The meeting was brokered by Miranda's brother, Congressman Luís Miranda, who backed up the account in an interview with Reuters on Wednesday.

"It's a visible attempt to extract public money without a documented purpose, with an inflated value and ulterior motives," the congressman said.

The Health Ministry did not immediately respond to a request to interview Marinho, and Reuters was unable to independently contact him.

In a press briefing on Wednesday, Bolsonaro's Secretary of the Presidency Onyx Lorenzoni said there was no influence peddling, suggesting the allegations were based on forged documents.

The investigations pose a problem for Bolsonaro, with questions likely to follow on how he responded to Miranda's allegations. It also raises awkward questions for Pazuello, who is facing criminal and civil probes into his handling of the pandemic while minister.

Both Miranda brothers are expected to testify before Senate investigators on Friday.

Marinho, the aide to the former health minister, has also been called to testify before the probe, which has already unsealed his bank, telephone and tax records.

Brazilian federal prosecutors have opened an investigation into a contract worth 1.6 billion reais ($320 million) for 20 million doses of Bharat Biotech's vaccine. Prosecutors cited comparatively high prices, quick talks and pending regulatory approvals as red flags for the contract signed in February.

In a statement, Bharat Biotech said its vaccine pricing had been consistently $15-$20 per dose for foreign governments, a range in which the Brazil contract fell. Despite signing the deal with Brazil in February, the company said it had not shipped any vaccines as it awaited approvals and a formal purchase order.

In a statement on Tuesday, the ministry said it had not made any payment to Bharat Biotech, and the matter was under legal review. — REUTERS

Brazil crosses 500k deaths, no letup

THE NEW YORK TIMES
Rio De Janeiro, June 24

BRAZILIANS WERE RECOVERING from Carnival in the heady days of February 2020 when the first known carriers of the new coronavirus flew home from Europe, planting the seeds of catastrophe.

In Brazil, Latin America's largest nation, the virus found remarkably fertile ground, turbocharging the outbreak that has turned South America into the hardest-hit continent in the world.

Brazil recently surpassed 500,000 official Covid-19 deaths, the world's second-highest total behind the United States.

About one in every 400 Brazilians has died from the virus, but many experts believe the true death toll may be higher. Home to just over 2.7% of the world's population, Brazil accounts for nearly 13% of recorded fatalities, and the situation there is not easing.

President Jair Bolsonaro has led a strikingly lackadaisical, dismissive and chaotic response to a coronavirus crisis that has left Brazil poorer, more unequal and increasingly polarised. Social distancing measures have been spotty and badly enforced, the president and his allies have promoted ineffective treatments, and for months the government failed to acquire a large number of vaccines.

Home to just over 2.7% of the world's population, Brazil accounts for nearly 13% of recorded fatalities

"As a Brazilian, it's appalling to see the throwback following three decades of health achievements happening so fast, with devastating consequences," said Marcia Castro, the chair of the Department of Global Health and Population at Harvard University.

As the virus began spreading from large cities to remote corners of Brazil last year, it took an especially high toll in the Amazon region. By January, patients in the state of Amazonas were suffocating to death after the government was late to heed warnings about oxygen shortages.

Now as the country struggles to vaccinate people, the region's isolated villages, deep in the rainforest and often accessible only by river, still present a unique challenge.

Beta behind surge in most vaccinated Seychelles

ANTONY SGUAZZIN
June 24

SEYCHELLES, WHICH HAS vaccinated a greater proportion of its people than any other nation, said genetic sequencing of samples shows that the so-called Beta variant, first discovered in South Africa last year, is behind a surge in cases.

The Indian Ocean island nation has mainly offered Sinopharm and AstraZeneca vaccines, the latter made under licence in India and known as Covishield, to its 98,000 people. The health ministry has reported that at least two people fully vaccinated with Covishield have recently died of the coronavirus.

In February results of a study carried out in South Africa showed that the AstraZeneca shot had limited impact in preventing mild disease from Covid-19. It didn't make findings on serious disease and death.

"The Beta variant of concern was predominant in the sequenced samples from February 2021 going forward," the health ministry said in a presentation on Thursday.

The palm-fringed, Indian Ocean archipelago had raced to immunise its population so it could reopen to tourists who are the lifeblood of its economy. It has now had to reimpose curbs on activities and movement. On Wednesday Foreign Affairs and Tourism Minister Sylvestre Radegonde, said the "validity" of the vaccines used needs to be assessed.

On May 11 the health ministry said the number of active cases had doubled over a week to more than 2,400 and of those infected 37% had received two doses of vaccine. While the surge has eased since, with 1,426 active cases on June 23, the numbers have remained persistently high.

The country's health authorities had sent samples collected up to May 24 to the Kenya Medical Research Institute for sequencing. The so-called Alpha and Delta variants, first identified in the UK and India respectively, were also found. — BLOOMBERG

26/11: Tahawwur Rana's extradition hearing today

LALIT K JHA
Washington, June 24

A FEDERAL US court in Los Angeles has scheduled on its calendar the in-person extradition hearing of Tahawwur Rana, the Pakistani-origin Canadian businessman who is sought for his involvement in the 2008 Mumbai terror attack in India.

The hearing, at the request of the Indian government, will be held in the court of magistrate judge Jacqueline Chooljian.

Court records suggested that the US government submitted a set of sealed Indian documents before the court twice this week, the latest one being on Wednesday. On request, the content of the documents have been sealed. The extradition hearing is scheduled for 1.30 local time, which is 2 am IST on Friday, June 25.

"United States of America v Tahawwur Hussain Rana (In-Person CUSTODY," a Courtroom deputy clerk of US District Court, central District of California said in the court's calendar for Thursday. "Proceedings: Extradition Hearing," it said. — PTI

Sydney outbreak prompts travel ban mask-wearing

THE NEW YORK TIMES
June 24

A sign at Central Station notes the implementation of new public health regulations in Sydney on Wednesday REUTERS

A NEW COVID-19 cluster in Sydney has grown to 49 cases, prompting a travel ban for the five million residents of Australia's largest city and a return to mandatory mask-wearing, and infecting at least one state government minister.

Health officials in the state of New South Wales have been scrambling for more than a week to contain the outbreak, which began when a Sydney airport limousine driver tested positive for the highly contagious Delta variant. He was not vaccinated, in violation of public health guidelines, and is believed to have become infected while transporting a foreign airline crew.

As the police continue to investigate whether the driver and his employer should face criminal penalties or fines for not complying with Covid rules, Sydney has been forced to hunker down. Residents are being asked to work from home, where gatherings are now limited to five people.

The travel restrictions began late on Wednesday. Compounded by state border closures banning entry for anyone from Sydney, the stay-at-home orders have arrived at the start of winter break for schools, forcing tens of thousands of families to cancel travel plans.

Australia has all but eliminated community transmission of the coronavirus thanks to border closures, extensive contact-tracing and a practice of swiftly imposing local lockdowns for even small numbers of cases. The current outbreak in Sydney follows several months of near-zero Covid community transmission.

A stricter lockdown in the city has been avoided so far, officials said, because contact tracers have identified the source of nearly every case. Only three infections are still being investigated.

But with some of the cases being linked back to fleeting contact, with just a few seconds of shared air in a store or cafe, officials said they expect more cases and challenges to arise.

"Since the pandemic has started, this is perhaps the scariest period that New South Wales is going through," the state premier, Gladys Berejiklian, told a news conference on Thursday.

She said she had been identified as a casual contact herself and had gotten tested to confirm that she did not have an infection. Others in government were not so fortunate: state agriculture minister Adam Marshall said that he had tested positive after dining with three government colleagues on Monday at a Sydney restaurant.

John McAfee, software pioneer turned fugitive, dead at 75

BARBARA ORTUTAY
June 24

JOHN MCAFEE, THE outlandish security software pioneer who tried to live life as a hedonistic outsider while running from legal troubles, was found dead in his jail cell near Barcelona on Wednesday.

His death came just hours after a Spanish court announced that it had approved his extradition to the United States to face tax charges punishable by decades in prison, authorities said.

McAfee, who was among other things a cryptocurrency promoter, tax opponent, US presidential candidate and fugitive, who publicly embraced drugs, guns and sex, had a history of legal woes spanning from Tennessee to Central America to the Caribbean. In 2012, he was sought for questioning in connection with the murder of his neighbour in Belize, but was never charged with a crime.

McAfee's body was discovered at the Brians 2 penitentiary in northeastern Spain. Security personnel tried to revive him, but the jail's medical team certified his death, a statement from the regional Catalan government said.

"A judicial delegation has arrived to investigate the causes of death," the statement read. "Everything points to death by suicide."

McAfee's death was confirmed after Spain's National Court ruled in favor of extraditing McAfee, 75, who had argued in a hearing earlier this month that the charges against him by prosecutors in Tennessee were politically motivated and that he would spend the rest of his life in prison if returned to the US.

The court's ruling was made public on Wednesday and was open for appeal, with any final extradition order also needing to get approval from the Spanish Cabinet.

McAfee was arrested last October at Barcelona's international airport and had been in jail since then awaiting the outcome of extradition proceedings. The arrest followed charges the same month in Tennessee for evading taxes after failing to report income from promoting cryptocurrencies while he did consulting work, made speaking engagements and sold the rights to his life story for a documentary. The criminal charges carried a prison sentence of up to 30 years.

Nishay Sanan, the Chicago-based attorney defending him on those cases, said by phone that McAfee "will always be remembered as a fighter". "He tried to love this country but the US government made his existence impossible," Sanan said. "They tried to erase him, but they failed." — AP

Want my life back: Britney to judge

ANDREW DALTON
Los Angeles, June 24

AFTER 13 YEARS of near silence in the conservatorship that controls her life and money, pop star Britney Spears passionately told a judge Wednesday that she wants to end the "abusive" case that has made her feel demoralised and enslaved.

Speaking in open court for the first time in the case, Spears condemned her father and others who control the conservatorship, which she said has compelled her to use birth control and take medications against her will, and prevented her from getting married or having another child. "This conservatorship is doing me way more harm than good," the 39-year-old said. "I deserve to have a life."

She spoke fast and sprinkled profanity into the written speech that lasted more than 20 minutes as her parents, fans and journalists listed to an audio livestream. Many details Spears revealed have been carefully guarded by the court for years.

Spears told Los Angeles Superior Court Judge Brenda Penny that "I want to end this conservatorship without being evaluated." Penny thanked the pop star for her "courageous" words but made no rulings. A long legal process is likely before any decision is made on terminating the conservatorship.

Spears said she wants to marry her boyfriend Sam Asghari and have a baby with him, but she is not allowed to even drive with him. "All I want is to own my money and for this to end and for my boyfriend to be able to drive me in his (expletive) car," Spears said.
