RBL Bank raises ₹1,566 crore

The funds, raised through preferential allotment of shares, to be invested in new products

PRESS TRUST OF INDIA
Mumbai, November 13

SMALL-SIZED PRIVATE sector lender RBL Bank on Friday said it has raised ₹1,566 crore in fresh capital through a preferential allotment of shares to a group of investors led by Baring Private Equity Asia.

After the fund-raise, the bank intends to invest in newer products like affordable housing loans to strengthen its presence In the semi-urban and rural markets, it's MD and CEO Vishwavir Ahuja said.

The bank had last month received the Reserve Bank of India's nod, allowing Baring to hold up to 9.99% of its capital.

Baring Private Equity Asia (BPEA) through its vehicle Maple II BV invested ₹999 crore to hold 9.44% of the Bank, an official statement said. Other investors in the preferential allotment were ICICI Prudential Life Insurance Company, which invested ₹330 crore, and existing investors Gaja Capital which invested ₹150 crore, and CDC Group with ₹86 crore, the statement said.

"The completion of the fund raise strengthens the Bank's balance sheet and at the same time it allows us to further accelerate our investments in enhancing our capabilities and delivery platforms, both in digital and physical infrastructure," Ahuja said.

Use reserves to pay dividends, CPSEs told

FE BUREAU
New Delhi, November 13

HARD-PRESSED FOR FUNDS, the Centre has asked the companies owed by it to desist from offering just mandatory 'minimum dividend' to it, and dip into even their accumulated reserves to boost the payout this fiscal.

The directive has come at a time when their profits have plunged and the cash balances have shrunk due to the Covid-19 pandemic.

"CPSEs are advised to strive paying higher dividends taking into account relevant factors like profitability, capex requirements with due leveraging, cash/reserves and net worth," department of investment and public asset management (Dipam) noted in an office memorandum dated November 9. The department also asked profitable companies to pay dividend on quarterly basis, instead paying the interim dividend for full year in February-March.

"Reserves can also be used (by the CPSEs) to pay dividends," Dipam secretary Tuhin Kanta Pandey told a TV channel on Friday.

The government has also asked 8-9 CPSEs to undertake buyback of their shares as per the new rules that mandated each PSU with a net worth of above ₹2,000 crore and cash and bank balance of over ₹1,000 crore to exercise the option.

Don't let the coming Budget be tight: Pronab Sen

Tata Steel taps SSAB for Dutch unit sale

Company's Q2 profit falls 60% at ₹1,635 crore

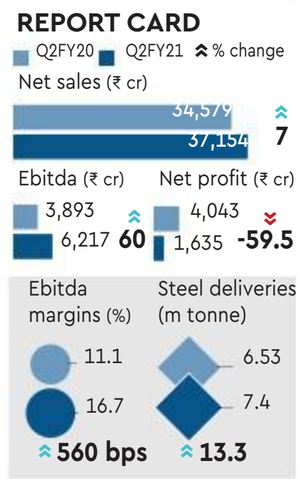
FE BUREAU
New Delhi, November 13

IN A MOVE that will help deleverage its balance sheet, Tata Steel on Friday said it had initiated discussions with SSAB Sweden for the sale of its Netherlands business, including Ijmuiden steelworks.

The company said it had also commenced discussions with the supervisory board and the board of management of Tata Steel Netherlands so that the process would move to the next stage that would include due diligence and stakeholders' consultations.

"The company is committed to deploy proceeds of any strategic restructuring towards additional deleveraging of the balance sheet," the statement said.

The company also said it had initiated the process to separate Tata Steel Netherlands and Tata Steel UK business. This is being done because Tata Steel will pursue separate strategic paths for the Netherlands and UK business in the future.



SSAB also issued a statement about holding discussions with the Tata Steel for a potential deal in the Netherlands business, however, it indicated that the discussions were preliminary and no decision had been reached yet.

November 13

SOME INVESTORS IN Amazon's Indian partner Future Group are getting cold feet as a dispute between the two drags on.

More signs of creditor unease emerged this week. Major money manager Kotak Mutual Fund said it had sold part of its bond holdings of group firm Future Lifestyle Fashions at a 25% discount in the secondary market.

Amazon and Future Group, whose assets Reliance Industries recently agreed to buy, are locked in a disagreement over that deal.

The Delhi High Court adjourned hearings this week involving the matter until November 19. Amazon says Future violated a contract with the sale to its rival and wants to halt it, while the indebted Mumbai-based firm says it would collapse if the transaction were to fail.

The dollar bonds of Future Retail, the group's flagship company, are still trading in stressed territory after tumbling last month on the spat.

BSNL mobile services in Delhi, Mumbai

KIRAN RATHEE
New Delhi, November 13

THE GOVERNMENT HAS decided against the merger of BSNL and MTNL and instead opted for transferring the mobile services of the latter to the former.

What this would mean is that BSNL, which till now provides mobile services across the 20 circles of the country but not in Delhi and Mumbai, will start doing the same in these two circles also. MTNL, meanwhile will be limited to providing only the wireline services in these two circles. This arrangement will begin from January, 2021, sources said.

Though the Union Cabinet, while approving the over ₹70,000-crore revival package for the two ailing state-owned telecom operators last year in November, had said the two should be merged, the idea has been deferred for now.

Why merger postponed

■ It would lead to combined outstanding debt of over **₹45,000 crore**

■ **Stamp duty cost** on transfer of real estate to merged entity to be very high

■ **Pay scales at MTNL** are a level higher; average pay drawn by officials in MTNL also higher by 10-15%

BIG HIT

With some of its cheapest plans, Disney+ is hot star in India

CHRISTOPHER PALMERI
November 13

THE GROWTH OF Walt Disney's streaming service in India and Indonesia has been staggering, with the countries now accounting for more than a quarter of its 73.7 million customers globally.

What's less staggering is the price most of the subscribers pay: Even the premium plan is just $20 a year. That's a fraction of the $70 that US customers shell out and illustrates the challenge the company faces as it takes its streaming platform to more countries.

The growth of Disney+, which launched a year ago, has far exceeded the expectations of both Wall Street and the company itself. It was a bright spot in Disney's latest quarterly results, released on Thursday. But keeping up its pace will mean tapping markets with less spending power.

"If you get enough sheer volume, you can make it work even at a relatively low price per subscriber," said David Heger, an analyst at Edward Jones.

The company serves India and Indonesia with a product called Disney+ Hotstar, a rebranded platform born out of a business acquired from Fox last year. Those two developing countries now represent 18.4 million Disney+ subscribers.

Hotstar was rechristened with the Disney+ name on April 3 in India. The product launched in Indonesia in September. Since the streaming platform had 33.5 million subscribers globally at the end of March, that means the two countries accounted for almost half of new customers over the past six months.

India, with its massive population, has the potential to become the biggest market for Disney+, Heger said.

"When you look at a country with 1.3 billion people, your potential is significant," he said. An additional 270 million people live in Indonesia.

REALTY CHECK

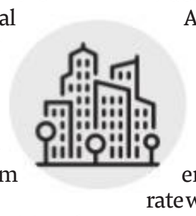
I-T relief to help developers liquidate unsold inventory

Sale of property at lower than circle rate to be exempt from tax

FE BUREAU
New Delhi, November 13

THE GOVERNMENT ON Friday said it would amend the income-tax law to exempt real-estate developers and homebuyers from tax liability if the actual consideration for an asset is lower than the stamp duty value (circle rate) by not more than 20%. The changes would be applicable only to primary sale of residential properties not exceeding ₹2 crore in value

Without the relaxation, the developer selling the flat at a price lower than the circle rate would be liable to pay tax on profits calculated on the basis that the flat/home was sold at the circle rate. Similarly, the buyer would be taxed on differential amount between the circle rate and the actual consideration under section 56(2)X — which is an anti-evasion provision and brings to tax consideration that deviates from fair market value.



Till 2018, section 43CA of the Income Tax Act, 1961, provided for deeming of the stamp duty value (circle rate) as sale consideration for transfer of real estate inventory in the case the circle rate exceeded the declared consideration. Consequently, the stamp duty value was deemed as purchase consideration in case of buyer under section 56(2)(x) of the Act.

"In order to provide relief to real estate developers and buyers, the Finance Act, 2018, provided a safe harbour of 5%. Accordingly, these deeming provisions triggered only where the difference between the sale/purchase consideration and the circle rate was more than 5%," the government said.

Further, it added that Finance Act, 2020 increased this safe harbour from 5% to 10%. Therefore, currently, the circle rate is deemed to be the sale/-purchase consideration for real estate developers and buyers only where the variation between the agreement value and the circle rate is more than 10%.

In order to boost demand in the real estate sector and to enable the developers to liquidate their unsold inventory at a rate substantially lower than the circle rate and giving benefit to the homebuyers, it has been decided to further increase the safe harbour from 10% to 20% under section 43CA of the Act for November 12 to June 30, the government said. "Consequential relief by increasing the safe harbour from 10% to 20% shall also be allowed to buyers of these residential units under section 56(2)(x) of the Act for the said period. Therefore, for these transactions, circle rate shall be deemed as sale/purchase," the government added.

Budget 2021: Industry bodies and experts to submit ideas via e-mail

THE GOVERNMENT WILL conduct virtual pre-Budget consultation for the annual Budget 2021-22 where industry association, trade bodies and experts can send their suggestions to a dedicated e-mail which would be soon be communicated. The Budget is typically presented on February 1, the second half of Parliament's winter session.

The consultations for Budget would be made more participatory and democratic by taking it closer to the general public. "The government has launched a micro-site (online portal) on MyGov platform which will go live on November 15, 2020, to receive ideas for the Budget," the government said in a statement.

These submissions will be examined by the ministries and departments concerned.

Don't let the coming Budget be tight: Sen

A clutch of IPOs may allow Indian markets to self-correct, says ex-chief statistician

FE BUREAU
New Delhi, November 13

FORMER CHIEF STATISTICIAN Pronab Sen on Friday cautioned against any short-term obsession with fiscal conservatism as it would delay an economic recovery, keeping fiscal deficit at elevated levels for a much longer period, in turn, exacerbating the crucial debt-GDP ratio. Given the lower-than-expected fiscal stimulus rolled out so far, the Centre appears to be looking at the immediate deficit figure, while it should have acted with a long-term horizon, he said.

Making a case for more aggressive government expenditure at this juncture, Sen said the chances of a strong economic rebound in FY22 hinge on how the government firms up its Budget for FY22.

Sen was speaking at the Idea Exchange programme of the Indian Express Group, Sen said the Covid-19 may have caused an economic loss of ₹18-20 lakh crore (or 9-10% of GDP) this fiscal from a year before; the household sector has borne the brunt, owing to wide-scale job losses.

If public spend (by Centre/-states/PSUs) is not scaled up, GDP might shrink not just this fiscal but even in the second and third quarters of FY22 once the favourable base effect wanes. He believes private investments would recover at a much slower pace than consumption, as there is still huge idle capacity.

The fiscal impact of the measures announced so far by India make for just about 2% of GDP (about ₹4 lakh crore) if all things go as planned, lower than the average of about 2.5% of GDP for similar-rated peers. Also, expenditure control measures being enforced are leading to considerable savings (an estimated ₹4 lakh crore in April-December alone). It has been a massive expenditure rejig, rather than a big fiscal expansion.

The stock market boom, meanwhile, is triggered by the abundance of liquidity injection globally when the asset base for investments in the real economy has barely expanded. If a clutch of IPOs are announced, the Indian stock market may self-correct, Sen said. He, however, cautioned against unscrupulous elements that tend to proliferate during this period to take advantage of the boom.

Sen called for a more holistic reading of the perceived resurgence of rural India, which partly made up for the crisis in urban areas. Rural areas of only 6-7 states that rely less on remittances and have seen bumper rabi harvest are probably recording good FMCG or consumer durables sales; sales in the rest, mainly those that have seen a return of migrants, may still be faltering.

The surge in retail inflation while wholesale price inflation remains well within the comfort zone has brought to the fore the role traders play in the supply chain, Sen said. CPI inflation hit a 77-month peak of 7.61% in October and has remained above the Monetary Policy Committee's tolerance band of 4 (+/-2)% for 10 of the past 11 months. However, wholesale price inflation has remained below 2% in recent months.

Sen feels while the MSME sector has proved its resilience in the past, it may take at least 1-2 years to return to normalcy this time around.

Centre should borrow ₹1.8 lakh cr this year under special GST window: Mitra

FE BUREAU
New Delhi, November 13

WEST BENGAL FINANCE minister Amit Mitra has urged the Centre to borrow an additional ₹72,000 crore under the special window to make good the states' estimated GST revenue shortfall in FY21, in addition to ₹1.1 lakh crore the latter had agreed to.

In a letter to the Union finance minister Nirmala Sitharaman, Mitra pointed out that the Centre has been able to borrow the initial compensation funds from the special window of the RBI at a low rate of 5%, whereas the interest rate paid by the states for competitively borrowing from the RBI auctions is as high as 6.8%.

Mitra has not made any public statement on this issue after the last GST Council meeting, where the Centre expressed its willingness to borrow for bridging the states' GST shortfall.

"In other words, by asking the states to borrow one-third of the potential compensation funds from the competitive auction market of the RBI, a lot more debt servicing burden will be generated for the states, to be paid from cess collection. This huge differential in interest rates between the GoI special window rate and the market borrowing rate of the states, provides a cogent reason for GoI to borrow the whole amount from its special window," Mitra wrote. He pointed out that the Centre "will neither have the burden of additional fiscal deficit nor the burden of debt servicing".

With Rajasthan joining the bandwagon recently, 22 states and 3 union territories (UTs) (Delhi, J&K and Puducherry) have so far chosen the Option 1 to receive compensation from the Centre under the special window.

The Centre has borrowed ₹18,000 crore on behalf of the states in two instalments, so far and has passed the funds on eligible states and UTs on October 23 and November 2 and November 9.

Cabinet to mull mining laws reform soon

SURYA SARATHI RAY & INDRONIL ROYCHOWDHURY
New Delhi/Kolkata, November 13

A CLUTCH OF proposals to reform the rules governing non-coal minerals will likely come under the consideration of the Cabinet soon. According to a draft Cabinet note prepared by the mines ministry, introduction of mining licences that offers with certainty tenure, ranging from the exploration to production stages, and removal of the distinction between captive and non-captive mines will be among the salient features of the new regime. The changes will also pave the way for re-auction of some 500 odd leases that are embroiled in legal disputes and legacy issues.

There is also a proposal to develop a comprehensive and broad-based mineral index for determination of levies and taxes on the lines of recently launched National Coal Index. The objective of these changes is to attract more investments in the sector, including from foreign players.

"As regards the policy announcements under the Atmanirbhar Bharat Abhiyan, a comprehensive Cabinet note containing all proposals is already under submission to higher authority and on approval, would be put up for the cabinet," the mines ministry said in the note, reviewed by *FE*.

Coal secretary Anil Kumar Jain, who also holds the charge of the mines secretary, said in Kolkata on Friday the roll-out of the reforms in the mining sector would take 6-8 weeks.

The first set of coal mines under the commercial mining policy has been auctioned off recently — most winning bidders offered handsome amounts as revenue share to the government, in some cases 40-40%. Jain said, "We expect commercialisation of mines to bring competitiveness and a level-playing field between PSUs and private players." In the next 5 to 6 years, the mining sector is said to increase direct employment by 7 lakh and indirect employment by over 20 lakh, Jain said.

The proposal to introduce seamless exploration-cum-mining-cum-production regime of virgin areas had been among the long-pending wish-lists of the mining industry.

Centre asks CPSEs to pay higher dividends

Dividend receipts of the Centre from CPSEs have been on a declining trend in recent years mainly due to reduction in the Centre's stake in many profitable companies via disinvestment. While the Budget estimate for the current fiscal is an ambitious ₹65,747 crore, only ₹10,000 crore has been received this far. Dividends from CPSEs are a major part of the Centre's non-tad receipts, with RBI surplus transfer and telecom spectrum receipts being other major components.

In FY20, CPSE dividends were just ₹35,000 crore, much lower than the revised estimate (RE) of ₹48,256 crore, going by the Controller General of Accounts data.

Reserves and cash surplus usually consist of capital reserves (to offset capital losses), securities premium reserve (can be used to buyback shares), general reserves (can be used for any useful purposes including dividend or working capital) and surplus cash (can be used for dividend). Unlike surplus, reserves are earmarked for specific purposes and are usually parked in term deposits of various maturities and current accounts, besides mutual funds.

The surplus is cash and cash equivalent instruments like current and savings bank balance and liquid instruments of less than three-months maturity. Cash and bank balance are around a fifth of the total reserves and surplus in aggregate. The reserves and surplus of CPSEs (about 250 at last count) have increased from ₹9.2 lakh crore in FY17 to ₹9.27 lakh crore in FY18 and to ₹9.93 lakh crore in FY19. Buybacks and liberal dividends have depleted the surplus cash of the CPSEs from as high as ₹2,63,502 crore in FY14 to ₹1,94,802 crore in FY17 and further to ₹1,71,107 crore in FY18 and ₹1,68,691 rore in FY19.

According to Dipam guidelines, CPSEs would pay a minimum annual dividend of 30% of profit after tax or 5% of net worth, whichever is higher.

The Dipam letter to CPSEs said: "It has further been observed that most CPSEs pay interim dividend in February/March of the year concerned. Such bunching of interim dividend payouts by CPSEs in February-March may compete with their cash availability for year — end payments to suppliers as well as towards advance tax. In view of this, the CPSEs, especially companies that pay relatively higher dividend (100% dividend or ₹10 per share as the case may be) may consider paying interim dividend every quarter after quarterly results. Other CPSEs may consider paying interim dividend usually on half-yearly basis."

Only companies which do not have possibility of dividend payout as per the minimum prescribed are advised to pay interim dividend annually during October/November each year based on projected PAT, with the declaration of second quarter (Q2) results, it said. Further, all CPSEs should consider paying at least 90% of projected annual dividend, in one or more instalments, as interim dividend, the department added. The CPSEs were also asked to pay final dividend of last financial year soon after the AGM is over in September of every year in cases where interim dividend has not been paid out fully during the last FY and there is a balance to be paid out as final dividend.

In some cases, the dividend payouts have exceeded the net profits of these state-run firms in the past: Coal India, for instance, paid ₹12,353 crore as dividend in FY17, a whopping 133% of its net profit after the government asked the PSUs to pay liberal dividends to bridge the revenue gap from telecom spectrum. NMDC had paid 144% and 51% of its net profit as dividend in FY16 and FY17, respectively.

Besides, higher dividends, the government have also asked 8-9 CPSEs to undertake buyback of shares as per the new rules that mandated each PSU with a net worth of above ₹2,000 crore and cash and bank balance of over ₹1,000 crore to exercise the option.

From Jan: BSNL mobile services in Delhi, Mumbai

This is based on the recommendation of a government-appointed consultant, Deloitte Haskins & Sells LLP, which has suggested that 2G and 4G spectrum should be allocated to BSNL in Delhi and Mumbai so that the company can start providing pan-India services before MTNL is merged with it. According to the consultant, MTNL first becoming a subsidiary or an immediate merger between the two may lead to an outstanding debt of over ₹45,000 crore for the combined entity, which will be unsustainable or unserviceable.

The outstanding debt liability of MTNL for financial year 2018-19 was about ₹20,000 crore, its finance cost was ₹1,703.18 crore. BSNL, too, has similar amount of outstanding debt and financing cost. Thus, in the event of subsidiarisation, followed by the merger, would make the combined debt burden of over ₹45,000 crore, which will be unserviceable and unsustainable.

"The stamp duty cost on transfer of real estate to merged entity on immediate merger is also very high and therefore monetisation of real estate to pare debt of MTNL should be priority along with delisting of MTNL before merger," Deloitte has said.

Also, pay scales in MTNL is one level higher and the average pay drawn by the officials in MTNL is also higher by 10-15%. This would need to be addressed before merger to avoid additional cost of nearly ₹1,000 crore per annum on BSNL as well as due to pressure for upgrading the pay scale in BSNL also at par with MTNL.

Further, the issue of reconciliation and settlement of unreconciled inter-company balances of MTNL/BSNL also needs to be addressed.

WHO to set up traditional medicine centre in India, PM says matter of pride

PRESS TRUST OF INDIA
New Delhi, November 13

THE WORLD HEALTH Organization announced on Friday that it will set up a Global Centre for Traditional Medicine in India, with Prime Minister Narendra expressing confidence that just like the country has emerged as the 'pharmacy of the world', the WHO institution will become the centre for global wellness.

WHO director general Tedros Adhanom Ghebreyesus made the announcement in a video message at an event in which Prime Minister Modi dedicated two future-ready Ayurveda institutions in Jaipur and Jamnagar to the nation via video conferencing on the occasion of the 5th Ayurveda Day.

The Institute of Teaching and Research in Ayurveda (ITRA), Jamnagar (Gujarat) and the National Institute of Ayurveda (NIA), Jaipur (Rajasthan) are both premier institutions of Ayurveda in the country.

The Jamnagar institute has been conferred the status of an Institution of National Importance (INI) by an act of Parliament and the one at Jaipur has been designated an Institution Deemed to be University (De novo Category) by the University Grants Commission (UGC), according to the AYUSH ministry.

In a message, Ghebreyesus said, "This new centre will support WHO's efforts to implement the WHO traditional medicine strategy 2014-2023 which aims to support countries in developing policies and action plans to strengthen the role of traditional medicine as part of their journey to universal health coverage and a healthier, fairer and safer world," he said.

Modi said all Indians will be happy to see that the country's traditional knowledge is enriching other countries. "It is a matter of pride for all Indians that the WHO has chosen India for establishing its Global Centre for Traditional Medicine. Now work will be done in this direction from India," Modi said.

Calamity aid of ₹4,382 cr approved for six states

PRESS TRUST OF INDIA
New Delhi, November 13

A HIGH-LEVEL COMMITTEE, headed by Union home minister Amit Shah, has approved the release of nearly ₹4,382 crore to six states as central assistance for the natural calamities they faced this year. The funds will be released to West Bengal, Odisha, Karnataka, Madhya Pradesh, Maharashtra and Sikkim as assistance for the damage caused by cyclone, floods and landslides during the year.

The high-level committee has approved an additional central assistance of ₹4,381.88 crore to six states from the National Disaster Response Fund (NDRF), a statement by the home ministry said.

For cyclone 'Amphan', ₹2,707.77 crore has been approved for West Bengal and ₹128.23 crore for Odisha. For cyclone 'Nisarga', ₹268.59 crore has been approved for Maharashtra. For floods and landslides during the South-West monsoon, ₹577.84 crore has been approved for Karnataka, ₹611.61 crore for Madhya Pradesh and ₹87.84 crore for Sikkim.

Farm Bills: Centre's talk with protesting Punjab farmers remains inconclusive

FE BUREAU
New Delhi, November 13

Farmer leaders said that they would decide their next course of action on November 18 at a meeting in Chandigarh

THE DIALOGUE WITH protesting Punjab farmers by the Centre remained inconclusive as both sides did not budge from their stated positions on the controversial farm laws, but agreed to continue the discussion in future. After a 7-hour meeting with agriculture minister Narendra Singh Tomar and railway minister Piyush Goyal, farmer leaders said that they would decide their next course of action on November 18 at a meeting in Chandigarh.

"As many of the farmers organisations were opposed to allowing passenger trains, a decision could not be taken in the meeting. We told the ministers that we would get back to them after discussing among us," said a farmer leader of Krantikari Kisan Union. All the representatives of the 30 farmer unions who participated in the meeting wanted revocation of the three Central laws reforming agricultural marketing.

While the Centre indicated to set up a committee to look into their demands, farmer leaders wanted immediate restoration of goods trains movement in the state as they face severe shortages of fertilizers delaying rabi sowing.

The Centre asked them to allow movement of both goods and passenger trains. The agriculture ministry said in a statement that the talks were held in a cordial atmosphere and both sides agreed to continue to hold further discussions.

PM-KUSUM scope expanded to aid greater solar generation by farmers

PRESS TRUST OF INDIA
New Delhi, November 13

THE RENEWABLE ENERGY ministry has expanded the scope of PM-KUSUM scheme to enable greater solar energy generation in the farm sector. The ministry has amended the guidelines of the scheme based on the learning from its implementation during the first year, an official statement said.

Now, besides barren, fallow and agricultural lands, solar power plants can also be installed on pasture land and marshy land of farmers.

To support small farmers, solar projects smaller than 500 kW may be allowed by states based on techno-commercial feasibility, the ministry of new and renewable energy statement said.

Lucknow Municipal Corp's ₹200-cr maiden municipal bond oversubscribed by 225%

THE LUCKNOW MUNICIPAL Corporation (LMC) launched its maiden municipal bond issue of ₹200 crore on BSE on Friday. The total issue (including green shoe option) was over-subscribed by 225% (₹450 crore) and closed at a coupon rate of 8.5% for a ten-year bond. "This is UP government's first attempt at floating a municipal bond under the AMRUT Scheme and is also the first municipal bond issue from north India. The considerable investor interest evinced by the over-subscription of this issue, especially in the times of Covid, is indicative of improving economic environment in the country," LMC chief finance officer Maha Milind Lal said. — FE BUREAU

Indians join festivities with higher shopping intensity: Deloitte survey

PRESS TRUST OF INDIA
New Delhi, November 13

DELOITTE'S 90-DAY ANALYSIS of the ongoing Global Consumer Tracker survey across 18 countries shows Indian consumers are gearing up for the festival season as the overall anxiety index is at 31%, a reduction of 17% compared with the previous update in July.

"This reflects green shoots in multiple spending parameters during the upcoming festival season," the survey said.

With reduced anxiety, Indian consumers are open to spending more on convenience (73%) whilst they are scouting for better deals and bargains (55%), exercising caution towards health, hygiene and environment safety.

Indian consumers are positive about visiting stores (58%), restaurants (47%), and in-person service providers (52%). Seventy-nine per cent of consumers (the highest among the 18 countries surveyed) would prefer to keep their current vehicles for a longer period than they had earlier expected.

The survey said Indian consumers are less anxious about their physical well-being, health of their families, and making upcoming payments and large purchases, compared with the start of the pandemic and the lockdown. This is further reflected by a decrease in the fear of losing jobs.

In-store visits have increased now with the advent of the festive season.

While there is largely an inclination to shop online for convenience and safety, festive deals and the wedding season show a shift towards in-store shopping for both non-discretionary items, such as groceries (61%) and household (62%), as well as discretionary items, such as clothing (47%) and electronics (46%). As many as 70% consumers prefer locally sourced items and would not hesitate to spend more on responsible and local brands, it said.

The findings indicate consumers' intent to stick to their current vehicles for a longer period than they had originally expected (79%, the highest among the 18 countries surveyed). Thirty-seven per cent feel safe staying in a hotel and 42% feel safe while travelling.

Deloitte said the Global State of the Consumer Tracker is a survey fielded using an online panel where consumers over 18 years are invited to complete a questionnaire via an e-mail.

It is fielded in 18 countries such as India, Chile, China, Mexico, Australia, the UK, the US, Ireland, South Korea, South Africa, Canada, Japan, France, Poland, Spain, the Netherlands, Germany and Italy.

Porus Doctor, partner and consumer industry leader, Deloitte India, said, "Our survey results reflect the Indian consumer behaviour that shows positivity in view of the upcoming festive season."

Doctor added that there is a decline in people's concerns over the fear of losing jobs as compared with survey results in July and August. "This could be attributed to the positive sentiment as well as reduced anxiety levels that Indian consumers experience."

Over the past months, Indian consumers have prioritised non-discretionary expenditure with a tilt towards using the digital and e-commerce platforms, largely to avoid visits to grocery stores to ensure health and safety. "This trend shows that consumers have gravitated towards online shopping for essentials and discretionary items. This trend is likely to continue in the foreseeable future," Doctor said.

Zomato raises $195m; valuation touches $3.6 bn

PRESS TRUST OF INDIA
New Delhi, November 13

INFO EDGE ON FRIDAY said in a regulatory filing that its investee company Zomato has raised $195 million (about ₹1,455.4 crore) in funding from six investors including Luxor, Kora and Steadview, valuing the online food ordering platform at $3.6 billion.

Upon closing of the fund raise, Info Edge's shareholding in Zomato shall stand reduced to about 20.8% on fully converted and diluted basis, it said.

Comments from Zomato could not be elicited immediately.

Of the $195 million, $60 million was raised from Luxor Capital Group, through its different investment vehicles, while $50 million came from Kora Management, through its investment vehicle Kora Investments and/or any of its affiliates, the filing said.

Mirae Asset, through its investment vehicle Mirae Asset Naver Asia Growth Investment and/or any of its affiliates, invested $40 million, it added.

Steadview Capital and Bow Wave Capital Management each invested $20 million, while $5 million came from Baillie Gifford, through its investment vehicle Pacific Horizon Investment Trust and/or any of its affiliates, the filing said.

In September, Info Edge had informed

the stock exchanges about Zomato raising $160 million (about ₹1,173 crore) in funding from Tiger Global and Temasek Holdings subsidiary MacRitchie Investments, valuing the online food ordering platform at $3.3 billion. Post the September transaction, Info Edge's shareholding in Zomato was at 22.2%.

Zomato, which competes aggressively with Prosus-backed Swiggy in the Indian market, plans to go for an initial public offering (IPO) in the first half of 2021, its founder and CEO Deepinder Goyal had told its employees at that time.

The online food delivery segment has seen significant growth in the last few years with Zomato and Swiggy competing head-on to grab market share.

Earlier this year, Zomato acquired the Indian business of Uber Eats in an all-stock deal that will give the ride hailing company 9.99% stake in Zomato.

Future Retail posts Q2 net loss of ₹692 cr; net sales dip 74%

PRESS TRUST OF INDIA
New Delhi, November 13

FUTURE RETAIL ON Friday reported a consolidated net loss of ₹692.36 crore for the second quarter ended September 2020, hit by disruptions caused due to the Covid-19 pandemic.

The company, whose promoter had announced a ₹24,713 crore deal to transfer the retail business to Reliance Industries-owned Reliance Retail Ventures, had posted a net profit of ₹165.08 crore in the July-September quarter in 2019, Future Retail (FRL) said in a BSE filing.

Its revenue from operations was down 73.86% at ₹1,424.21 crore during the quarter under review as against ₹5,449.06 crore in the corresponding quarter last year.

"The Covid-19 pandemic has had a significant impact on the business operations and the financial results of the company for the quarter and six months ended September 30, 2020," said FRL.

FRL, which operates retail stores such as Big Bazaar, fbb, Foodhall, Easyday and Nilgiris, saw its total expenses during the quarter under review dropping to ₹2,181.85 crore as against ₹5,304.80 crore a year ago, down 58.87%.

For the first half (April-September), FRL has reported a net loss of ₹1,254.31 crore as against a net profit of ₹324.32 crore in the year-ago period.

Patanjali revenue up marginally in FY20, net profit rises 22%

New Delhi, November 13

PATANJALI AYURVED'S REVENUE from operations increased marginally to ₹9,022.71 crore in the year up to March 31, 2020, the company's filings sourced from business intelligence platform Tofler showed. Revenue stood at about ₹8,522.68 crore in FY19.

Net profit increased 22% to ₹424.72 crore in FY20. The company managed to keep a check on total expenses, which increased by a mere 5.34% to ₹8,521.44 crore during the year.

In an interview to *FE* last year, managing director and co-founder Acharya Balkrishna had said the company was working to plug gaps in the supply chain and expected to post decent revenue in FY20. "We have had fast growth, but we did not have proper planning and strategy in place to sustain that," Balkrishna had said.

Revenue from operations had grown by nearly 140% in FY16 and by 86% in FY17, but had dipped by 9% in FY18 and has since been growing only marginally. "Our competitors have pushed natural and Ayurved products into the market, which did impact sales to a certain extent. But we are recovering," the MD & CEO had said.

"In the next five years, we would have a turnover of around ₹50,000 crore to ₹1 lakh crore and will become the largest FMCG company, replacing HUL," yoga guru Baba Ramdev had said earlier this year.

The firm expects a three-fold growth after the acquisition, becoming a major player in the edible oil category, according to media reports.

Reliance to invest $50 m in Bill Gates' Breakthrough Energy Ventures

PRESS TRUST OF INDIA
New Delhi, November 13

RELIANCE INDUSTRIES WILL invest $50 million in Breakthrough Energy Ventures, a climate change company owned by Microsoft co-founder Bill Gates. In a filing to stock exchanges, Reliance said it will make the investment in tranches over the next eight to 10 years.

"The capital contribution commitment of $50 million constitutes 5.75% of the size of the fund contemplated at present," the company said.

The transaction is subject to approval from the Reserve Bank of India (RBI).

The oil-telecom-to-retail conglomerate said it has "entered into a definitive agreement, for making a capital contribution, up to USD 50 million, in Breakthrough Energy Ventures II, L.P. (BEV), a limited partnership, newly incorporated under the Delaware State Laws, United States of America."

Breakthrough Energy Ventures is attempting to find solutions to the climate crisis through breakthrough energy and agriculture technologies. It will invest the funds raised, to support innovation in clean energy solutions.

Toyota Kirloskar suspends 39 union members; lockout at Bidadi continues

PRESS TRUST OF INDIA
New Delhi, November 13

TOYOTA KIRLOSKAR MOTOR (TKM) on Friday said it has suspended 39 union members at its Bidadi plant in Karnataka for involvement in acts of misconduct and in line with the company's disciplinary rules, even as the facility remained closed for the fourth consecutive day.

The company had declared a lockout at its two plants in Bidadi on November 10 following workers' union members resorting to a sit-in strike at the factory premises to protest against the suspension of a worker. "Today being the fourth day since the declaration of the lockout, the union and the members have continued to strike by sitting outside the company premises

The company had declared a lockout at its two plants in Bidadi on November 10 following union members resorting to a sit-in strike at the factory premises to protest against the suspension of a worker.

and indulging in slogan shouting against the management and the company," TKM said in a statement.

TKM has identified 39 members who were involved in acts of misconduct and in line with the company's disciplinary rules, decided to place them under suspension pending inquiry, it said.

Nevertheless, as per extant service rules and keeping in mind the principles of natural justice, all possible opportunities will be provided to these employees to prove their innocence, the automaker said.

Communication and dialogue with relevant stakeholders, including a conciliation meeting between TKM management and the employees' union, are ongoing to restore normalcy in its plant, under an atmosphere of safety, at the earliest, it said.

The company said it is deeply committed to the wellbeing of all its stakeholders, including its employees. "However, despite its numerous and continuous efforts to maintain a cordial and healthy working environment, TKM had to declare a lockout at both its plants in Bidadi as a result of an illegal sit-in strike called upon by the TKM Workers Union and its members," the maker of Innova Crysta and Fortuner said.

INTERVIEW: **ANAND BHASKAR,** MD, service providers, Cisco India & SAARC

'OpenRAN can help telcos reduce capex by almost 50%'

Although 5G rollout has been delayed in India due to high spectrum costs, the Covid-19 pandemic has created motivation for fast-forwarding deployment. A pan-India 5G rollout would require an investment of about $30 billion from telcos. **Anand Bhaskar**, *managing director, service providers, Cisco India & SAARC, tells* **Kiran Rathee** *that the concept of an open, virtualised mobile infrastructure — or OpenRAN — can reduce capex by almost 50%. Excerpts.*

Recently, mobile operators in India have started to talk about OpenRAN, and some trials are also happening. Can you provide some insights into cost savings if telcos adopt OpenRAN compared to proprietary networks?

As the pandemic accelerates digital transformation across industries, service providers, globally and in India, are looking to fast-track their 5G deployments. However, given the challenges that the Covid-19 crisis has created — liquidity crunch, ARPU to support investments, quality of service, growing demand for contactless services and new use cases especially in the enterprise space — service providers are looking for new and more cost-effective ways of deploying and managing these networks quickly. This is where the concept of an open, virtualised mobile infrastructure, or OpenRAN, becomes critical. Typically, RAN makes up the majority of the network cost. O-RAN enables telecom service providers to diversify supply chains, bring in unprecedented levels of interoperability and agility, which can help reduce their capex by almost 50%. A recent study found that 5G deployments that leveraged OpenRAN saw capex savings of as high as 49%, while another study projects average savings for cloud network deployments to be 37% over five years. Additionally, O-RAN will allow service providers to offer a plethora of new cloud-delivered services to enterprises and end-consumers, reduce their time-to-market, and create new revenue streams.

Can you share details about capex requirements for telecom operators for

rolling out 5G networks in India?

A comprehensive, secure and efficient 5G infrastructure requires investments in fibre, network densification and specialised base stations, which equates to significant capex investments for telecom players. Investments are needed in three key components — spectrum, sites and fiberisation on mid/low-band spectrums — which would require an investment of about $30 billion for pan-India coverage.

Spectrum is a scarce resource, but the requirement for 5G is enormous. Can you speak about the minimum quantum of spectrum required by a telco for offering a whole bouquet of 5G services?

5G needs spectrum across low-, mid- and high-spectrum ranges to ensure maximum coverage and enable a plethora of use cases.

For instance, low bands of sub-1GHz are better suited to support coverage of larger and remotely located areas. Mid-sized bands — 3.3-3.8 GHz — offer benefits of both coverage and capacity, while high bands, like 40 MHz, are required for incredibly high broadband speeds. While both bands have sufficient quantity available for seamless 5G service, the mid-band spectrum is best suited in terms of cost as well as quantity. Though plans for 5G rollout in India seem delayed due to high spectrum costs, the pandemic has certainly created motivation for fast-forwarding deployment.

What kind of opportunity does Cisco see in India for 5G?

5G is not just about access technology and more throughput, but about a new framework to cater to the evolving needs of consumers, small businesses, enterprises and the government. If 4G was about speeds and feeds, 5G will be about creating experiences and opens up a world of opportunities for telecom service providers. Additionally, many companies are looking to redistribute and automate their supply chains to make them more agile and impervious to future crises. At Cisco, we are already working towards helping service providers get their networks 5G-ready by building the internet of the future. Additionally, we recently launched a programmable chipset, called Silicon One, built for high-performance networking for future 5G applications. Globally, we have committed $5 billion in funding to help build 5G networks over the next three years to support our customers in accelerating their 5G deployments.

FITCH REPORT

PLI scheme to benefit auto sector for 5 years

PRESS TRUST OF INDIA
New Delhi, November 13

FITCH SOLUTIONS COUNTRY Risk and Industry Research on Friday said the government's decision to extend the production-linked incentive (PLI) scheme to the automobile industry would provide significant benefits to the sector over the next five years.

It, however, noted that some of the operational risks present in the country would still remain a challenge for many investors despite the incentive.

Fitch noted that some operational risks present in the country would still remain a challenge for many investors despite the incentive

"We believe that this policy provides significant upside potential for India's autos manufacturing industry over 2020-2025, especially in the field of electric vehicles (EVs) and the associated supply chains," Fitch Solutions Country Risk and Industry Research said in a statement.

Citing Federation of Automobile Dealers Associations (FADA), it noted that the domestic automotive industry is set to receive a large portion of this incentive fund over the five-year period, around ₹570 billion.

"However, we note that the elevated operational risks present in the country will remain a challenge for many investors. Our operational risk team believes that businesses operating in the country will continue to face additional structural risks stemming from legal risks, security gaps, excessive bureaucracy and patchy utility infrastructure, all of which currently increase the costs of operating in India, particularly compared with China," Fitch Solutions said.

This means that while these incentives have the potential to provide a significant boost to the automotive industry, it will continue to fall short in realising its full potential given the limited progress in tackling the structural challenges in the country, it added.

OIL makes Assam gas discovery

OIL INDIA (OIL), the nation's second-largest state oil producer, on Friday said it had made a natural gas discovery at a well drilled in Tinsukia, Assam. "The discovery will open up new areas for further oil and gas exploration in Assam and would help in enhancing the gas production with future appraisal and development activities," the company said in a statement. OIL said well Dinjan-1 in Tinsukia petroleum mining lease in the upper Assam basin struck hydrocarbons.

Sun TV to spend ₹400 crore for making 8 flicks in 12 months

SAJAN C KUMAR
Chennai, November 13

SENSING HUGE SCOPE for movies in the theatrical and OTT space, Kalanithi Maran-owned Sun TV Network is planning to produce at least eight big-ticket movies in the next 12 months with an investment of ₹300 to ₹400 crore. The South-based media house is betting big on its OTT business, SunNxt, which, it thinks, has the scope for investment of around ₹200 crore every year.

Participating in an earnings call, Sun TV management, represented by group CFO S L Narayanan and MD Mahesh Kumar told the analysts that they would invest in eight blockbuster movies, featuring actors like Rajnikanth, Dhanush, Suriya and Vijay, among others.

Sun Group is planning to release the movies starting from January 2021 till next Diwali. The movies will be released through theaters, its own channels and the OTT platform, depending upon the business viability of the mode at that given point of time

The company's strategy would be to retrieve the entire cost of the movies from theatrical releases, broadcasting and digital rights.

DEDICATED LABOUR

Chief minister of Uttar Pradesh Yogi Adityanath

When a youth gets selected through a transparent manner that honesty is seen in his work. He gives his best ... but when anyone gets employment through pressure and pull, it leads to corruption

Not spending will also raise deficits as GDP will slow

Vital to halt permanent damage to the economy by spending more; if this is not done, deficits/debt will rise anyway

THE GOVERNMENT HAS so far provided a fiscal stimulus of about ₹4 lakh crore, across three tranches of its Atmanirbhar package, which works out to a shade under 2% of GDP. While one doesn't expect India to be making the kind of trillion-dollar spends made by large economies like the US, the amounts are way below the infusion levels of 2.5% provided by peer economies or those rated Baa3, the lowest investment grade by Moody's. More pertinently, it is grossly inadequate to kickstart growth, which contracted 24% y-o-y in Q1FY21 and is expected to de-grow both in Q2 and Q3. Indeed, the government appears to be agonising a bit too much over the deficit because, going by the trend so far, government expenditure for the year may actually turn out to be contractionary. That is very worrying because it is now evident states will need to cut back substantially on capital expenditure this year and perhaps even on revenue expenditure.

The Centre's reluctance to spend appears to stem from the anxiety that the debt-GDP ratio, currently hovering at a little over 70%, could shoot up to the 90% level. A bloated fisc, the government probably fears, might prompt the ratings agencies to downgrade India—which, in turn, could stymie foreign capital flows.

To be sure, a consolidated fisc of close to 15% and an elevated debt-GDP ratio are never desirable. But, the economy has suffered a massive shock and, unless resuscitated quickly, might turn comatose. In fact, in mid-October, following the announcement of the second round of stimulus measures that involved a budgetary support of just 0.2% GDP, Moody's had observed the small scale of the stimulus reflected limited budgetary firepower to support the economy and was, in fact, credit negative. Other economists too have pointed out that a small and ineffective stimulus might well wreck the recovery, resulting in bigger deficits in the coming years. As Dr Pronab Sen pointed out on Friday, it is important to understand that a lower deficit today could result in growth sliding or picking up very slowly, which then would result in a high deficit persisting for a longer period. Instead, a bigger deficit today could boost the economy, resulting in faster growth and smaller deficits in the future. The government, Sen believes, should not view the deficit from a one-year perspective but rather from a long-run perspective, say over three-four years.

While a step-wise approach to injecting stimulus might sound rational, it could be ineffective. Indeed, unless the highly vulnerable small and mid-sized businesses are given immediate relief, a large number of them might go bankrupt, and the shutdowns would inevitably result in huge losses of capital and thousands of jobs. More critically, it could hurt banks and other lenders, causing a loss of capital and making them even more risk-averse. A calibrated stimulus, based on an assessment of the strength of the recovery, might not deliver the desired outcomes. Saving ammunition for later might seem like a good idea, but will not work and will cause more damage.

Temper the Pfizer euphoria

Vaccine too expensive; requires facilities India doesn't have

THOUGH MARKETS THE world over are euphoric over Pfizer's announcement that its Covid-vaccine had a 90% efficiency—Russia has done one better, and claims a 92% efficiency for its Sputnik—there is good reason to be cautious. For one, the efficiency levels being claimed are on extremely small samples, and the detailed data needs to be examined thoroughly before reaching any conclusion; it is also not clear how long the immunity will last. For a country like India, there are additional factors that need to be kept in mind. Pfizer has already entered into an agreement for 100 million doses with the US and another 300 million with the EU; since this is a two-shot vaccine, India would need 2.8 billion doses if it was relying on only Pfizer. At around $40 for a two-dose vaccine, this would cost India around ₹400,000 crore!

Then there is the issue of how to maintain the cold chain since the vaccine needs to be stored at -70°C; even the Moderna vaccine, which is also based on the same underlying technology (mRNA), requires a storage temperature of -20°C. India, as per the Comprehensive Multi Year Plan 2018-22 for the Universal Immunization Programme (UIP), has a little over 27,000 functional cold-chain points, and nearly 76,000 cold-chain equipment and 55,000 cold-chain staff; this is adequate to support the administration of 390 million doses of vaccines under the UIP. Considering the government hopes to administer 400-500 million doses of the Covid-19 vaccine by the middle of next year, in any case, India will need to double its cold-chain infrastructure since most require vaccines to be stored at 2-8°C; storage at -70°C requires a massive build-up of cold-chain infrastructure that may not even be possible in a year's time, especially in rural areas. While private firms like Snowman Logistics have the capacity to store 250-300 million doses—assuming, unrealistically, that is all that they store—the bigger bottleneck is the availability of refrigerated trucks to deliver it.

Like other developing countries, especially those that tend to experience warmer temperatures, India too will have to consider vaccines that don't require such expensive—and extensive—cold-chain infrastructure. Apart from the cold-chain hurdles, there are several others that government needs to jump over if it is to prepare for the roll-out. Anywhere, between 80,000 to 100,000 persons will be required for just administering the vaccine according to a Credit Suisse estimate. Syringe capacity will have to be increased by 30-40% immediately, ditto for vials, decisions will need to be taken on how much of the cold-chain infrastructure of agriculture, etc, will be kept aside for the vaccine; in most cases, capacities will need to be booked immediately and sizeable advances given to manufacturers to create capacity. While the BJP's pre-election promise to provide the vaccine free to Bihar's population should it win the elections suggests the vaccine is not going to be free for everyone, this seems a bad idea if the goal is to achieve universal vaccination; the better-off can be exhorted to voluntarily pay, but universal vaccination can't be put off if they don't.

FAO-forged coalition to fight hunger in the pandemic-stricken world serves an important need

WHILE 690 MILLION went hungry in 2019, as per the 2020 *State of Food Security and Nutrition* report, 130 million more will get pushed into chronic hunger by the end of this year, largely because of the pandemic. With malnourishment already being a top global concern, global pandemic-response has to be centred on controlling the spread of hunger. To that end, the Food and Agriculture Organisation (FAO) forging an international coalition for improving food security is a major step; Netherlands and Italy have already pledged and delivered technical and financial support.

The main purpose of this coalition is to help bring countries on track to achieve the UN Sustainable Development Goals—especially the one on ending poverty and hunger. FAO underscores the importance of nations, ensuring that their food value-chains remain intact and functional through the course of the pandemic and don't falter due to lockdowns and other restrictions. Also, countries must make sure that their agricultural labour force and poor consumers don't slip below the poverty line. To enable this, there will be a trust fund and a web-based hub for allowing participants to access funding. The coalition aims to eradicate hunger with international cooperation and will work towards solution-oriented plans and programmes. This is a sea-change from the approach that looks at hunger and malnutrition as national problems to be dealt with by respective national government, albeit with aid from multilateral agencies and developed countries' international aid bodies. It will also, with the help of all the countries, work towards a coordinated Covid-19 response. This will undoubtedly help increase the resilience of the agri-food systems and minimise the risks arising due to their disruption.

STIMULUS 3.0

WITHOUT ADDITIONAL RESOURCES, WE SEE A RISK OF A SHARP CONTRACTION IN OVERALL GOVERNMENT SPENDING TO MINIMISE FISCAL SLIPPAGE

The fiscal maths do not add up

Views are personal

THE GOVERNMENT'S FISCAL interventions are increasingly shifting from income support to a demand boost, with a firm eye on the fiscal bulge. Close on the heels of a conservative set of demand measures in October, the government announced another set of measures aimed primarily at stressed sectors and employment generation. Four key themes emerge as the focus areas of today's measures (see graphic):

■ Employment and livelihoods: For the formal economy, the government has announced a programme for firms to subsidise provident fund contributions of low wage workers that have been freshly recruited. For the rural informal economy, the government has expanded outlays for its public works programme. For farmers, it increased the budgetary outlay for fertiliser subsidies.

■ Construction and housing: Increased budgetary outlays for affordable housing and income tax sops to residential real estate developers and buyers. The government also relaxed norms for construction contractors to ensure ease of doing business.

■ De-stressing sectors: The government expanded the scope of its scheme of offering fully guaranteed and collateral-free credit to stressed sectors and entities—extending its duration, and now including more stressed sectors that are at the risk of restructuring. The aim is to ensure that the lack of liquidity does not lead to insolvency.

■ Boosting exports and reducing import dependence: The government intends to expand its existing Production-linked Incentive (PLI) scheme that offers incentives to manufacturing firms equivalent to 4-6% of incremental sales over the next five years, to include 10 more sectors (see graphic).

The fiscal cost of the measures announced totals ₹2.65 tn, i.e. ~1.4% of GDP. However, the fiscal incidence on this year's budget is likely to be much lower. The outlay of the PLI scheme is distributed over five years, and is unlikely to involve spending in the remaining five months of this fiscal year. The key item likely to affect the FY21 budget the most is the increase in the fertiliser subsidy of ₹650 bn (0.35% of GDP) if it comes over the already budgeted existing outlay of ₹713 bn. Overall, we expect the current year's budgetary impact from the measures announced today to be ₹1.2 tn (~0.64% of GDP).

We expect the central government's fiscal deficit to balloon to 8.3% of GDP in FY21 (year ending March 2021) vs the original budgeted target of 3.5% of GDP, with risks skewed towards an even higher deficit.

The latest round of announcements highlight three broad priorities of the government.

First, measures to incentivise job creation and credit guarantees for the stressed sectors are aimed at minimising the scarring effects of the pandemic (higher unemployment and bankruptcies). Second, with the pandemic under control, much of the economy having reopened and interest rates on housing loans also sharply lower, the government is using this opportunity to boost the housing sector, which is employment-intensive and has multiplier effects on sectors such as steel and cement. Third, the PLI scheme is a medium-term supply-side reform that takes advantage of global value chains diversifying away from China. Hence, the government has adopted a targeted strategy on both the demand and the supply-side.

The funding of these measures remains a key puzzle. At the press briefing, the FM maintained that the additional borrowing already announced (worth ₹4 tn or 2.1% of GDP) will be sufficient to fund all measures. In our view, the maths do not add up.

Across the three stimulus measures announced so far, total additional cash outgoings from the budget amount to 1.8% of GDP. Meanwhile, revenue collections on tax, non-tax and disinvestment proceeds are running 5% of GDP below the budgeted target, even after assuming a recovery in tax collection in the remaining months. Hence, the total budgetary shortfall (higher spending + lower revenues) is around 6.8% of GDP, much larger than the additional borrowing (2.1% of GDP) announced so far. Possibly reflecting the strained fiscal position, government spending is already in contraction mode; it fell -15.2% y-o-y in August and -26% in September. We believe that other sources of financing (small savings, T-bills) are unlikely to be enough to plug this funding gap, and the government is likely to choose between borrowing more, later in the year, cutting other expenditures, or a mix of both.

From an economic perspective, therefore, while the headline stimulus announcement in the third package is much larger than the second one, we see growing risks that overall expenditure will still be contractionary, and is unlikely to result in a positive growth impulse. However, the focus on the housing sector, at a time when banks are also keen on retail lending, could lead to some vigour in this sector. We maintain our growth forecasts, with GDP growth likely to improve to a still-weak -10.4% y-o-y in Q3 (July-September), from -23.9% in Q2, before averaging around -4.5-5% in Q4 and Q1 2020, due to contractionary fiscal policy, fading pent-up demand and weaker global growth due to rising infection cases in the US and Europe.

Stimulus 3.0: Reforms hold the key

The govt's additional fiscal support has a multi-sector focus, but a limited cash outgo for the current year. Also, to ensure stimulus yields result, focus on effective implementation of reforms

PRANJUL BHANDARI & AAYUSHI CHAUDHARY

Bhandari is chief India economist and Chaudhary is economist, HSBC Global Research. *Views are personal*

THE CENTRE ANNOUNCED an additional fiscal support package, calling it the Atmanirbhar Bharat Package 3.0. The package, comprising 12 schemes, had a multi-sector focus—across the labour market, stressed sectors, social welfare, manufacturing, housing, infrastructure, exports and agriculture. Some of the schemes are time-bound, while others have a medium-term focus. Some stood out in particular, for instance, the extension of the 100% credit guarantee to 26 stressed sectors with credit outstanding in the ₹0.5-5 bn range. Additional credit to these firms can be up to 20% of outstanding credit, payable over five years. The extension of the PLI scheme to 10 new sectors is also likely to boost manufacturing over the medium term.

Stringent qualifying conditions could blunt the uptake and economic impact. For instance, the job subsidy scheme is only focused on formal sector employees earning less than ₹15,000 per month. The income tax relief for home buyers is only limited to purchases of houses costing less than ₹20 mn. Much of the real estate sector stress is in houses over this threshold. The overall price tag of today's schemes is ₹2.7 tn (1.4% of GDP). But, the incremental cash outgo in FY21 is likely to be much smaller, given (1) some schemes have a multi-year focus (eg, PLI scheme), (2) some may face implementation delays (eg, additional capex outlays), (3) some may see a spill-over of expenditure into the next year (fertiliser subsidy), and (4) some may be funded by repurposing of expenditure. Recall that in the first half of the year, fiscal expenditure is contracting 1% y-o-y, vs a 13.2% expansion budgeted.

The fiscal support so far has had a cash outgo of 1.7% of GDP. With the latest announcement, it is likely to reach ~2% of GDP. We forecast the Centre's deficit to widen to 8.2% of GDP in FY21 vs 3.5% budgeted, led more by a shortfall in tax revenues than a rise in expenditure. The risk to our forecast is that the deficit comes in a shade narrower, given weak expenditure trends (-1% y-o-y y-t-d).

While the fiscal stimulus has been small, monetary policy has been extremely accommodative. There has been a meaningful pick-up in activity over the last few weeks. Some of this could be reflective of festival-led and pent-up demand. Urgent reforms are needed for this uptick to sustain. The focus should extend from announcement to effective implementation.

LETTERS TO THE EDITOR

Economic recovery

Apropos of the editorial "Economy remains in the ICU for now" (dated Nov 13). It has been said in the editorial that there is some recovery, but revenues won't really grow till FY 23. According to me, this is all true that our economy remains in the ICU for now. But I disagree that revenues won't really grow till FY 23. Revenue can grow every year, but the fact remains that the tax collected is not reaching the government because of faulty GST law. I could not follow what kinds of tax systems are in vogue in India? For example, a GST at 18% is being collected along with a bill from the citizens of India. But what to do when the tax collected on services at 18% is not reaching the government? Further what to do when the amount of input tax credit is (₹48 lakh crore) four times more than the GST collected (₹12 lakh crore) for the year ending (March 2019). Earlier when there was no reform in indirect tax laws and when there was no service tax, the contribution of indirect tax to central revenues used to be 80% and that of direct tax at 20%. But today, the contribution of indirect tax is less than 50%. If India makes GST on services out of GST, some people will start weeping. But we have to keep them happy to accept their model of taxation, howsoever injurious it may be to the revenue. In India, revenue will grow whether the economy is in ICU or not. What India needs today is to keep GST on services out of GST.

EDUCATION HIGH

'Destination India' for foreign students

The space vacated by China in higher education, owing to Covid-19, is India's for the taking. It must capitalise on this opportunity by strengthening its academic institutions to attract more international students.

THE HIGHER EDUCATION sector in India remains inwardly oriented despite the fact that the country is home to the world's second-largest population with proficiency in English after the United States (surprisingly, more than the United Kingdom). Out of over 53 lakh students studying overseas, as per the ministry of education, India attracted only a little over 45,000 students in 2018. A majority of these were from neighbouring or low-income countries, mainly comprising Nepal (24%), Afghanistan (9.6%), Bhutan (4.3%), Nigeria (4%), Bangladesh (3.5%), Iran (3.4%), Yemen (3.2%), United States (3.1%) and Sri Lanka (2.7%). On the other hand, China's ministry of education reported over 4.92 lakh foreign students studying in the country, mainly from South Korea (10.2%), Thailand (5.8%), Pakistan (5.6%), India (4.7%), the US (4.2%), Russia (3.9%), Indonesia (3%), Laos (2.9%) and Japan (2.8%). China receives a large number of students, over 25,800 for doctoral research and 85,000 for post-graduate education. In contrast, India receives merely 1,560 students for doctoral research, 4451 for post-graduate and merely 1,430 students for medical education.

Interestingly, India is the fourth-largest country sending students to China, with over 23,000 students enrolled in Chinese higher education institutions (over 21,000 are enrolled for medical degrees). Over 45 of China's medical colleges are approved to impart medical education in English to foreign students. Moreover, China has made commendable efforts to induce academic rigour and quality to put its educational courses and degrees on a par with international standards. As a result, a large number of degrees awarded to international students in China are recognised in many countries. For instance, China's medical degrees offered to Indian students are recognised by the Medical Council of India. Moreover, China has made its higher and technical education highly cost competitive as the average total cost to complete a six-year medical degree in China works out to about ₹20-30 lakh. In contrast, Indian private medical colleges charge exorbitant fees, a considerable part of which also constitutes hidden components such as capitation or donation. The number of students wanting to pursue medical education far exceeds the seat availability. So, despite the sub-standard quality of education and research in some privately-owned medical colleges, such colleges can command high fees.

However, Covid-19 has changed things. While Covid-19 has impacted trade and economy worldwide, it is also expected to impact the cross-border flow of socio-cultural goods and services, including cross-border education. A fear psychosis has been created in the minds of students, parents and governments alike not to be venture into countries like China, US and Europe for higher education. Such sudden turn of international events seems to radically impact not only the inward flow of international students across countries but also deter companies from cross-border recruitments.

Recently, the American International Recruitment Council (AIRC) cautioned recruiters against recruiting students from China. Many other countries are likely to be cautious in their recruitments and cross-border exchange with China as well.

Such unforeseen commotions in the post-COVID world would significantly transform the cross-border flow of students for higher education and could benefit countries, which are prepared to capitalise upon the emerging opportunities. India's ambitious New Education Policy 2020 holds promise in this regard. The new policy aims to open up India's highly constrained education system with a number of unprecedented steps such as flexibility of choice of subjects, multi-disciplinary and integrated learning, flexibility of exit at any stage of graduation with some certificate, diploma, degree or advance degree and accumulation of credits that could be used later. Moreover, it also paves the way for attracting top foreign universities into India and promote Indian universities and institutes to venture into foreign terrain.

Had we implemented these steps earlier, we could have taken advantage of the recent happenings in China and other countries. However, India can still capitalise upon the international scenario and become a major player in cross-border education. Focus on quality, international benchmarking and outward orientation hold the key to success in realising India's unexplored potential in higher education.

It shall require a strong commitment on the part of the government, its agencies, emerging academic entrepreneurs, academic administrators and professors alike, to uphold highest standards of academics and integrity. And, to make India a global hub in education so that it can regain its ancient glory as the centre of knowledge creation and dissemination.

Reining in the tech dragons

Why is China regulating big tech now?

GOVERNMENTS AROUND THE world put out consultation papers all the time. But only in China can one vaguely worded, 22-page document on antitrust regulations ignite a $290 billion equity selloff. As investors nurse their wounds, they want to know, why is China regulating Big Tech now? And what exactly does Beijing want?

Emerging out of the Covid-19 recession, China got whacked by a K-shaped rebound. The economy is running at two speeds: Large technology companies are thriving, while storefront businesses continue to struggle. A year ago, e-commerce accounted for about 25% of total retail sales; now, it's edging toward 30%. The pandemic has only exacerbated the discrepancy between online and offline. This widening inequality doesn't sit well with Beijing.

To make matters worse, Big Tech has been aggressive and unwilling to share profits with small businesses on their sites. In the antitrust draft, Beijing placed a heavy focus on the so-called "pick one of the two" tactic, the practice of forcing merchants into exclusive arrangements with one platform. Alibaba Group Holding Ltd and Tencent Holdings Ltd, longtime competitors, even asked powerful investment banks to pick sides. So where do mom-and-pop shops stand?

The tech sector's heavy-handedness caused quite a bit of social uproar earlier this year. In April, when China just came out of the lockdown, Guangdong Restaurant Association published an open letter to Meituan, decrying the food delivery super-app's ability to keep raising commission fees thanks to its 60% to 90% market share in the province. The company has made some concessions since.

But the broader problem hasn't gone away. If sales of offline goods remain shaky, services are still in the doghouse. In September, catering sales continued to contract, down 2.9% from a year earlier. Many jobs are at stake for Beijing. Last year, the hotel and catering industry employed 33 million.

Past consultation papers have also moved markets. Education stocks were all the rage until August 2018, when China decided to amend rules governing the country's lucrative private education sector.

But these papers are, by definition, drafts. Beijing does tweak them. For instance, China is allowing banks to grow online cash-loan businesses, after the final version of commercial-bank guidelines relaxed capital requirements for this type of lending in July. The two previous consultation drafts in November 2018 and April 2019 were stricter, notes CLSA Ltd's banking analyst Hans Fan.

So the billion-dollar question is the scope and extent of China's latest regulation. Don't get me wrong, Beijing recognises the economic benefit of natural monopolies. So if Alibaba wants to cross-sell cloud services, go ahead. But officials will baulk big time if hard-nosed tech companies exacerbate a K-shaped recovery. All win some, not some win all.

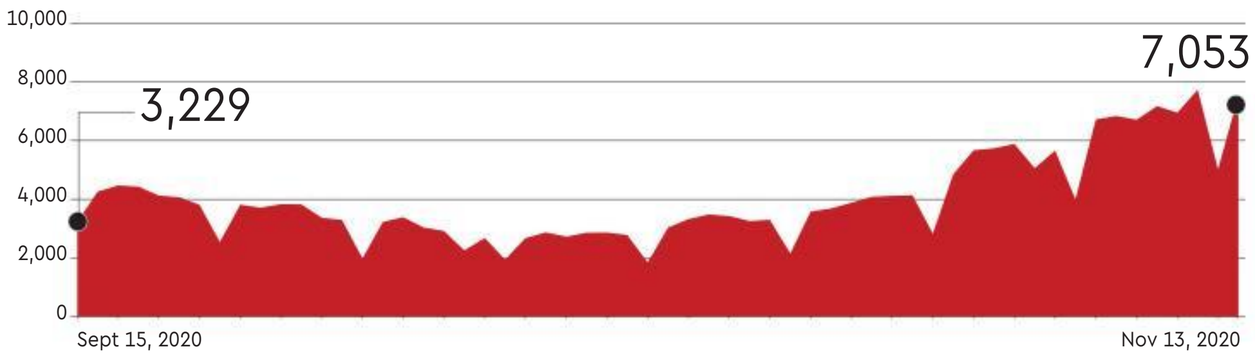
Running out of beds

WHILE DELHI ADDED fewer cases on Friday than it did on Thursday when it recorded 8,593 cases, the highest since the start of the crisis, it still risks running out of beds as rising infections have been putting stress on existing infrastructure. Capacity in terms of beds, ICUs and ventilators has increased, but cases over the last two months have increased at a faster pace. While Delhi has about half of the total hospital beds left, it has 85% occupancy in terms of ICU beds and 87% when it comes to ventilators. The national capital has nearly doubled the number of ICU beds since September 15, but occupancy has increased 140%. Its record in terms of hospital and ventilator additions has been poor. While the city added 14% more beds since September 15, cases have risen by 30%. In terms of ventilators, additions were 9% as against a 58% rise in occupancy. The city will need to add more infra if it is to cope with rising infections.

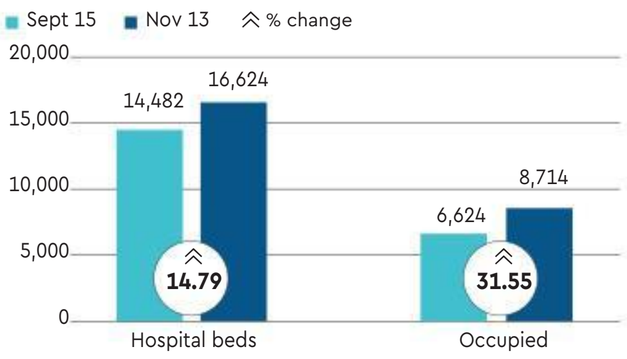
Although testing in Delhi has not changed

(seven-day rolling average)

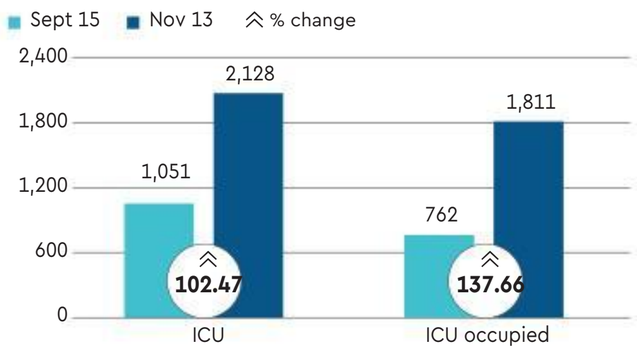
Daily infections have been increasing



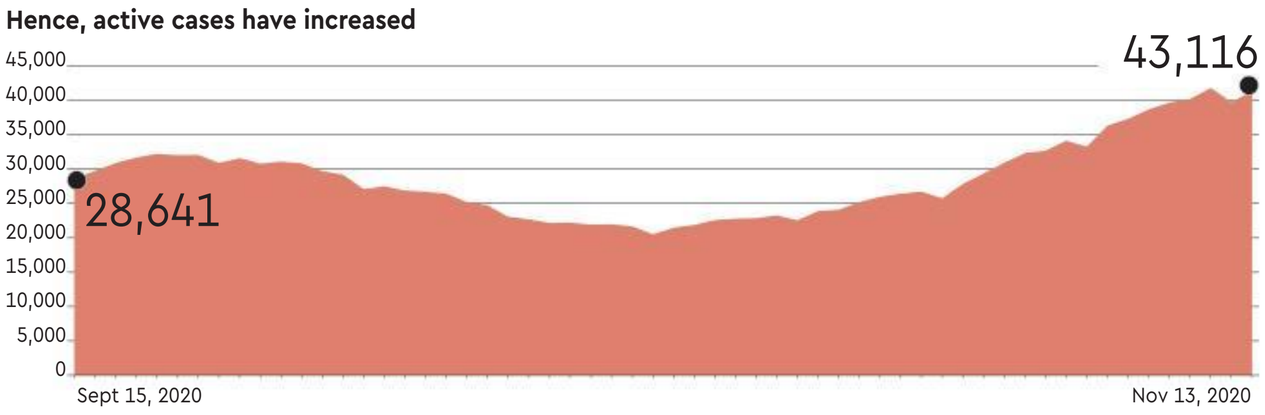
Hospital beds have not kept up with rising infections



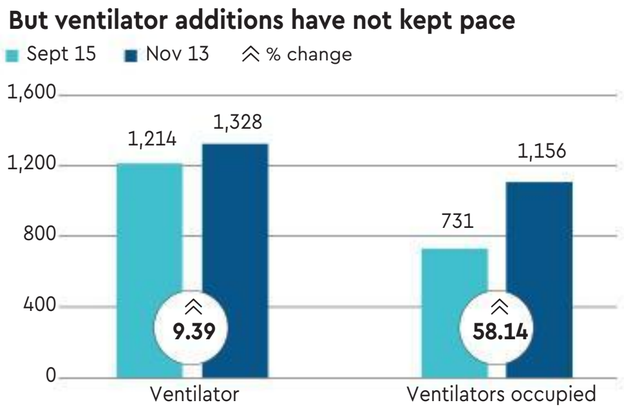
ICU additions have been somewhat better



Hence, active cases have increased



But ventilator additions have not kept pace



Hence, the city is running out of capacity

SpaceX, NASA ready first commercial taxi to space station

NASA WILL LAUNCH four astronauts aboard a SpaceX Dragon capsule this weekend in the company's first regular crew rotation to the orbiting lab. The trip, three months after SpaceX completed a high-profile trial run, will open a new era in human spaceflight for NASA as commercial firms start dominating US missions in low-earth orbit. "I hope people realise this isn't just another launch — this is something a lot bigger," Michael Hopkins, commander of the Crew-1 mission scheduled for Saturday, said in a NASA post on Tumblr.

China warns of action on Pompeo's 'Taiwan' talk

CHINA WILL STRIKE back against any moves that undermine its core interests, its foreign ministry said on Friday, after US Secretary of State Mike Pompeo said that Taiwan "has not been a part of China". China calls Taiwan the most sensitive and important issue in its ties with the United States, and has been angered by the Trump administration's stepped up support for the Chinese-claimed yet democratically ruled island, such as arms sales.

US consumer sentiment unexpectedly declines

US CONSUMER SENTIMENT unexpectedly declined in early November as an increase in Covid-19 infections and the election prompted Americans to reassess their outlooks for the economy and finances. The University of Michigan's preliminary sentiment index for November decreased to a three-month low of 77 from a final October reading of 81.8, data released on Friday showed.

Ghosn's legal woes deepen as Nissan sues for $95 mn

OUSTED NISSAN MOTOR chairman Carlos Ghosn's legal woes deepened on Friday with the start of a civil trial in Japan, where his former employer is seeking 10 billion yen in damages. "The legal actions initiated today form part of Nissan's policy of holding Ghosn accountable for harm and financial losses incurred by the company due to (his) misconduct," Nissan said in a statement.

TRUMP REFUSES TO CONCEDE

Biden cements victory by winning Arizona

JOSEPH AX
November 13

PRESIDENT-ELECT JOE BIDEN cemented his US electoral victory by capturing the battleground state of Arizona late on Thursday, but the official transition to his administration remains stalled as President Donald Trump refuses to accept defeat.

Biden was projected to win Arizona after more than a week of vote counting from the November 3 election, Edison Research said. He becomes only the second Democratic presidential candidate in seven decades to win the traditionally Republican state.

Biden's win in Arizona gives him 290 electoral votes in the state-by-state Electoral College that determines the winner.

Biden had already cleared the 270 vote threshold to win the election, setting him on course to be sworn in on January 20. Arizona's 11 additional electoral votes put any longshot challenge by Trump even further out of reach.

Biden also holds a lead of more than 14,000 votes in the uncalled state of Georgia, nearly certain to survive a manual recount. Nationally, Biden is winning the popular vote by more than 5.3 million votes, or 3.4 percentage points.

US President-elect Joe Biden

Trump, a Republican, has claimed without evidence that he was cheated by widespread election fraud, but his legal challenges have failed in court and state election officials report no serious irregularities.

In order to stay in office for a second term, Trump would need to overturn Biden's lead in at least three states, having failed to find evidence that could do so in any of them. States face a December 8 "safe harbor" deadline to certify their elections and choose electors for the Electoral College, which will officially select the new president on December 14.

Trump's refusal to accept defeat has stalled the process of transitioning to a new administration. The federal agency that releases funding to an incoming president-elect, the General Services Administration, has not yet recognised Biden's victory.

Biden's pick for White House chief of staff, Ron Klain, told *MSNBC* on Thursday that starting the transition is particularly crucial now, as the Biden administration will inherit a coronavirus vaccination campaign as soon as he takes office.

"The sooner we can get our transition experts into meetings with the folks who are planning a vaccination campaign, the more seamless the transition to a Biden presidency from a Trump presidency can be," Klain said.

Regardless of the impediments, Biden will sign a "stack" of executive orders and send high-priority legislation to Congress his first day in office, Klain said. **—REUTERS**

US election security officials reject Trump's fraud claims

PRESS TRUST OF INDIA
Washington, November 13

THERE IS "NO evidence" that the 2020 presidential election, the "most secure in American history," was compromised, US election security officials have said, rejecting President Donald Trump's fraud claims.

Republican President Donald Trump has repeatedly made unsubstantiated claims of electoral fraud and has not yet conceded. He has also launched a flurry of legal challenges to projected results in key states won by his Democratic rival Joe Biden.

"There is no evidence that any voting system deleted or lost votes, changed votes, or was in any way compromised," two committees within the Department of Homeland Security that worked on protecting US voting systems affirmed on Thursday.

"When states have close elections, many will recount ballots. All of the states with close results in the 2020 presidential race have paper records of each vote, allowing the ability to go back and count each ballot if necessary," members of committees, which include officials from the Election Infrastructure Government Coordinating Council Executive Committee (GCC) and the Cybersecurity and Infrastructure Security Agency (CISA) said in a joint statement.

US President Donald Trump

"This is an added benefit for security and resilience. This process allows for the identification and correction of any mistakes or errors. There is no evidence that any voting system deleted or lost votes, changed votes, or was in any way compromised," the statement said.

"While we know there are many unfounded claims and opportunities for misinformation about the process of our elections, we can assure you we have the utmost confidence in the security and integrity of our elections, and you should too," the statement added.

CISA, led by the top cybersecurity official, Christopher Krebs, runs a website that debunks misinformation about the election.

Trump's voter fraud claim another step in delegitimising democracy: Obama

PRESS TRUST OF INDIA
Washington, November 13

OUTGOING US PRESIDENT Donald Trump's unsubstantiated claims of election fraud is one more step in delegitimising not just the incoming Biden administration, but democracy generally, his predecessor Barack Obama has said.

"I'm more troubled by the fact that other Republican officials who clearly know better are going along with this, are humouring him in this fashion," Obama told *CBS News* in an interview.

"It is one more step in delegitimising not just the incoming Biden administration, but democracy generally. And that's a dangerous path," said the former popular president in his first interview after the November 3 presidential election.

Democrat Biden has won 290 electoral votes, 20 more than the required 270 in the election while his Republican rival received 217 votes from the 538-member Electoral College. Obama was responding to Trump's allegations of massive voters fraud and electoral malpractice in key battleground states. The mainstream American media and state officials have said that they have not found any evidence of it.

Former US President Barack Obama

"They (allegations) appear to be motivated, in part, because the president doesn't like to lose and never admits loss," Obama said.

Obama's latest book "A Promised Land" is scheduled to be released next week. In the book, the former president directly confronts Trump's racist politics, bluntly suggesting how he believes his own historic election in 2008 opened a wave of bitter and divisive turmoil that fuelled Republicans' obstructionism and ultimately changed the party, the *CNN* said in a report.

After long silence, China finally congratulates Biden

PRESS TRUST OF INDIA
Beijing, November 13

CHINA ON FRIDAY shed its initial hesitation and congratulated US President-elect Joe Biden and his deputy Kamala Harris for their victory in the 2020 US presidential election, saying Beijing respects the choice of the American people.

"We have been following reactions on the US elections from both within the US and the international community," Chinese foreign ministry spokesman Wang Wenbin told a media briefing here when pointed out that more world leaders as well as United Nations Secretary General Antonio Guterres have congratulated 77-year-old Biden.

"We respect the American people's choice and we extend congratulations to Biden and Harris and we understand that the result of the US presidential elections will be determined following the US laws and procedures," Wang said.

China initially hesitated to congratulate Biden, a Democrat, after Republican incumbent President Donald Trump refused to concede.

On November 9, Wang had declined to congratulate Biden on his victory, saying the outcome of the American election should be determined by the country's laws and procedures.

He, however, was more forthcoming on the victory of Harris as the first woman Vice President-elect.

When reminded about Chinese President Xi Jinping's statement calling for greater gender equality in a recent UN conference on women and does China have any comment on Harris, Wang quoted a Chinese saying which states women hold half of the sky.

"In China, there is a saying that women hold half of the sky. China has been committed to realising gender equality and advancing women's development around the world," he said.

Trump's four years in power were the worst phase in China-US relations as the ruling Communist Party of China headed by President Xi struggled to deal with what China's officials say is the most elusive and unpredictable American leader ever since the former US president Richard Nixon in 1972 established ties with the Communist nation.

Zuckerberg first tech giant head to acknowledge Joe Biden as next US president

FACEBOOK CEO Mark Zuckerberg has become the first head of a US tech giant who has acknowledged Democrat Joe Biden as the next president of the country, a media report has said. Zuckerberg told his employees that the outcome of the November 3 election is now clear and Biden was to take over as the new president of the country, Buzzfeed, which obtained an audio of the meeting, reported on Thursday. "I believe the outcome of the election is now clear and Joe Biden is going to be our next president," Zuckerberg was quoted as saying in the report on Thursday. The US media has projected Biden as the winner of the 2020 presidential election. **—PTI**

Brothers build $22 bn fortune on hope for Covid-19 vaccine

BEN STUPPLES & DEVON PENDLETON
November 13

THE STOCK RALLY sparked by Pfizer's promising Covid-19 vaccine trial results boosted many investors' fortunes, but none so dramatically as a pair of German brothers. Andreas and Thomas Struengmann have collectively added about $8 billion to their wealth this year thanks to their stake in BioNTech, the German firm that's developing the vaccine with Pfizer.

BioNTech's American depositary receipts surged this week after the US drug giant reported the shot they're working on prevented 90% of symptomatic infections in tens of thousands of volunteers.

At $22 billion, the twins have one of the world's biggest health-care fortunes, according to the Bloomberg Billionaires Index. The brothers, 70, formed their empire by reinvesting the proceeds of their family's generic drugs businesses.

They "have reshaped their fortune by simply believing in science," said Paul Westall, co-founder of family office recruitment firm Agreus Group.

The brothers set up their family office, Athos Service, soon after Novartis announced in 2005 it was buying their drugmaker, Hexal, along with their stake in affiliate EON Labs for a combined €5.7 billion ($6.7 billion). Thomas Struengmann said in a December interview with German newspaper *Handelsblatt* that the brothers initially promised themselves they wouldn't invest more than 1 billion euros in the biotech sector because of the risks and requisite patience. They ended up exceeding that cap after seeing glimpses of promise. **—BLOOMBERG**

Virus cases reach new highs in US

THE CORONAVIRUS PANDEMIC is spreading with frightening speed throughout the United States, shattering records on a daily basis, stretching medical resources to breaking point and once again prompting states, counties and cities to consider economically devastating lockdowns.

On Thursday, public health officials recorded more than 150,000 new cases in a day for the first time — more than 160,000, in fact.

It was only eight days earlier that the country had its first 100,000-case day. Six of the last nine days have set new records, and with colder weather driving people indoors, there is little reason to expect a respite soon.

Hospitalisations for Covid-19 also set a national record on Thursday for the third-straight day, reaching 67,096, according to the Covid Tracking Project. That figure has doubled in just five weeks.

The virus has killed more than 1,000 Americans a day in the past week, a toll that would shock the nation, were it not for the fact that people were dying twice as fast in April, when doctors knew less about how to treat them. **—NYT**

Walt Disney posts fiscal fourth-quarter loss due to Covid

WALT DISNEY REPORTED fiscal fourth-quarter loss on Thursday thanks largely to changes related to the Covid-19 pandemic. Its earnings were dragged by costs from restructuring related to its streaming services and lost revenue from its California theme parks, which remain closed amid surging coronavirus cases in the US.

But its results weren't as bad as feared and the company's shares advanced after hours.

Before the pandemic, Disney's profit soared as its wide array of media and entertainment offerings, from Marvel theatrical releases to Disney cruises, outperformed. But those businesses have been among the hardest hit during a pandemic that shows no sign of going away.

Even before the pandemic, Disney had been increasingly focused on its streaming services such as Disney Plus, which launched a year ago and now boasts 73.7 million subscribers, surpassing analysts' and the company's own expectations. **—AP**

VW boosts tech spending within $177 bn investment budget

CHRISTOPH RAUWALD
November 13

VOLKSWAGEN WILL RESERVE a bigger slice of its €150 billion ($177 billion) budget for electric cars and software in the next five years, stepping up technology spending to navigate a tectonic industry shift even as the Covid-19 pandemic continues to roil markets.

Investments in battery-powered vehicles, autonomous driving and related future technologies will rise to about €73 billion, or half the company's budget through 2025, VW said on Friday. That's up from €60 billion a year ago, or 40% of investments planned at the time.

"The transformation of the company and its brands as well as the strategic alignment on the core areas of mobility are implemented consequently," VW chairman Hans Dieter Poetsch said in a statement. Board members greenlighted the additional funds at their annual financial-planning meeting.

The world's best-selling automaker proved relatively resilient so far to the biggest industry slump since World War II, helped by its large presence in China where demand for cars bounced back from a sharp contraction earlier this year. But surging infections in Europe and the US risk undermining the recovery, and analysts have become increasingly worried about VW's ability to keep costs in check.

The group relies heavily on profits from the Porsche and Audi luxury-car brands and its Chinese joint ventures to fund its quest to challenge Tesla's electric dominance and keep incumbent rivals including Toyota Motor at bay. The main VW passenger-car brand, which accounts for roughly half of global deliveries, swung back to profit in the third quarter, but niche marques including Bentley and Seat suffered losses after nine months.

At times when other manufacturers "effectively managed their break-even levels down, VW struggles to effectively manage its cost base down," Sanford C Bernstein analyst Arndt Ellinghorst said in a note this week.

After massive investments in previous years, depreciation and amortisation charges are bound to creep up, but "there are plenty of other fixed and variable costs that VW seems to be missing to address," he said.

After overcoming software problems that delayed the ID.3 electric hatchback's rollout in Europe this year, VW will go global in 2021 with its crossover sibling, the ID.4. It will be manufactured in Germany and China next year and sold in the US, where production will start in 2022.

The premium Audi brand will flank its e-Tron SUV with sportback and higher-performance GT versions. Porsche will launch a more spacious iteration of the Taycan. And Czech brand Skoda will roll out the Enyaq, a sister model to ID.4.

Audi has also taken over the lead for a new car-software unit that's developing a standardised architecture and operating system for the entire group following a management shakeup. VW said it will double investments in digitalization efforts to about €27 billion by 2025. **—BLOOMBERG**

Chinese Prez Xi Jinping decided to halt Ant's $37-billion IPO

REUTERS
November 13

CHINA'S PRESIDENT XI Jinping personally decided to pull the plug on Ant Group's $37-billion (£28 billion) initial public offering, the Wall Street Journal reported on Thursday, citing Chinese officials with the knowledge of the matter.

The decision to stop what would have been the world's largest ever IPO, came days after the fintech giant's billionaire founder Jack Ma launched a public attack on the country's financial watchdogs and banks.

President Xi ordered Chinese regulators to investigate and effectively shut down Ant's stock market flotation, the report said.

Ant Group did not immediately respond to *Reuters* request for comment. The Information Office of the State Council, China's cabinet, could not be reached immediately for comment.

Ma had told a summit in Shanghai on October 24 that the regulatory system was stifling innovation and must be reformed to fuel growth. Earlier this month, *Reuters* reported the speech set off a chain of events that torpedoed the listing of Ant.

Soon after Ma's scathing speech, state regulators started compiling reports including one on how Ant had used digital financial products like Huabei, a virtual credit card service, to encourage poor and young people to build up debt.

The general office of the State Council compiled a report on public sentiment about Ma's speech and submitted it to senior leaders including President Xi, *Reuters* had reported.

Getting behind the wheel again

There are thousands of touristy places in India, but few unfrequented ones. Here are some we drove to a while ago

VIKRAM CHAUDHARY

WHILE THERE ISN'T enough clarity when international travel will open, there are thousands of places you can visit within India, and some unfrequented ones, too. These places are also quite approachable—most are near major cities, so renting a vehicle will be easy and there are enough places to stay—and have lovely and secluded roads around to drive. Remember, tourism rejuvenates the economy and supports local jobs as well. Your social interactions may look different, however.

The ageless Jarama GT

This iconic car was launched 50 years ago

FE BUREAU

THIS YEAR MARKS the 50th anniversary of the Lamborghini Jarama GT, presented for the first time at the Geneva Motor Show in 1970. The Jarama, whose name derives from an area north of Madrid famous for breeding fighting bulls, was the latest evolution of the company's 2+2 grand touring sedan concept, with a V12-cylinder, 4-litre front-mounted engine. Technically developed based on the previous 400 GT and Islero, it maintained the same mechanical layout but featured a silhouette designed by Marcello Gandini for Carrozzeria Bertone, much more in keeping with the stylistic trends of the 1970s, using taut and angular lines.

The engine, powered by six double-body Weber 40 DCOE carburettors, was the well-proven Lamborghini V12, with double overhead camshafts per bank, capable of delivering 350 horsepower for a top speed of 260 km/h (161 mph).

Its interior was luxurious, with leather upholstery, air-conditioning, and a comfortable passenger compartment for a sports car plus a spacious trunk.

Production of the Jarama, following the 1972 Geneva Motor Show, was expanded with the Jarama GTS (365 horsepower), featuring a transverse air intake on the hood and two air outlets behind the front wheel arches. It has a redesigned dashboard, and a different shaping of the front seats to improve roominess in the back.

The Jarama, of which a total of 328 units were produced, is an important model in Lamborghini's history, not only for its unique design, but also because it was the last front-engine grand tourer proposed by the company. From then on, except for the Super SUVs LM 002 and the Urus, Lamborghini cars only have the rear mid-engine layout.

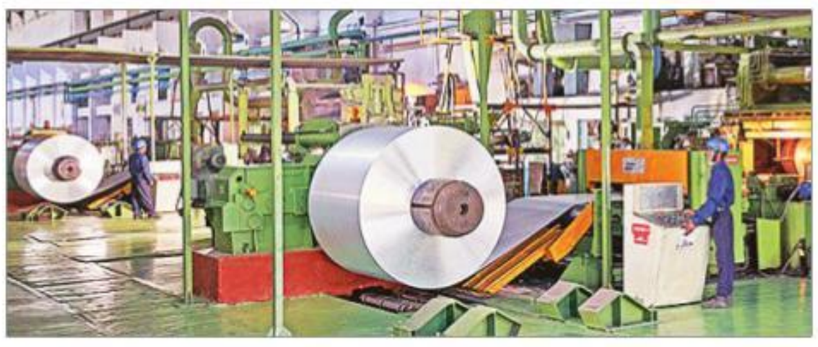
HINDALCO INDUSTRIES RATING: **BUY**

A strong performance in the quarter

India Ebitda up 15% y-y; higher LME & lower costs to boost profitability; valuations attractive; 'Buy' retained with TP of ₹275



HINDALCO'S (HNDL'S) Q2FY21 results were strong, as expected. India Ebitda increased 43% q-o-q to ₹12.7 bn on LME recovery. With integrated CoP guided flattish v/s Q2FY21 and improved LME, profitability is expected to remain high despite ~58% of LME being booked at lower LME for H2FY21. We broadly maintain our FY21/FY22 estimate. Hindalco remains our top pick in the Metals sector on expected deleveraging in FY22e. This would be supported by lower capex and strong FCF generation in Novelis on the back of volume growth and high margins.

Ebitda improves 15% y-o-y on lower costs: HNDL India (standalone + Utkal)'s Ebitda was up 15% y-o-y (43% q-o-q) on a higher rupee LME and lower costs (owing to input commodity deflation). Adj. PAT increased 100% y-o-y (2.5x q-o-q) to ₹3.8 bn. The Aluminum segment's Ebitda increased 32% y-o-y (25% q-o-q) despite lower volumes (303kt, -8% y-o-y), led by lower costs. Integrated CoP fell 20% y-o-y and was flattish q-o-q. Realisation fell 12% y-o-y (+9% q-o-q) to $2,111/t on ~3% decline in LME and lower share of VAP sales. Ebitda/t was up 34% y-o-y to $469/t.

The Copper segment's Ebitda declined 32% y-o-y to ₹2.1 bn on lower Tc/Rc (~23% lower for FY21), lower volumes (75kt; - 9% y-o-y), and lower by-product realisations. However, Ebitda improved 4.6x on a sequential basis owing to a 29% increase in volumes.

HNDL's consolidated rev/Ebitda stood at ₹312/51.7 bn (at +5%/+38% y-o-y).

Adj. PAT stood at ₹18.0 bn (+50% y-o-y). Consolidated net debt to Ebitda was at 3.52x as of 30th Sep 2020 (v/s 3.83x as of 30th Jun 2020). H1FY21 consolidated OCF/FCF (before acquisition) was at ₹39.1/14.0 bn, up 5%/85% y-o-y, respectively, primarily due to lower capex at ₹25.2 bn vs ₹29.9 bn in H1FY20.

Management commentary – Aluminum CoP guided to remain low: Management has guided for aluminum CoP to be largely flattish q-o-q in Q3FY21. It is likely to increase ~2% in Q4FY21 as coal and furnace oil costs are expected to increase. Hindalco has hedged ~59% of its aluminum volumes for H2FY21 at $1,716/t and hedged the ₹ at 76.45.

Novelis divested Aleris' Duffel facility during the quarter. However, it has received only EUR200 m v/s the agreed EUR310 m, with the differential being under arbitration. Hindalco has signed an agreement for the divestment of the Lewisport facility for a cash consideration of $171 m, valuing the facility at an EV of $330 m. Mgmt said the deal valuation was unfavourable due to the mandated divestment by the Department of Justice.

Management has increased its guidance for sustainable Ebitda/t at Novelis to $480–500 from earlier guidance of $450–475/t. It now expects higher synergy of $180 m from the Aleris acquisition v/s $150 m targeted earlier.

Valuation and view – Robust business with attractive valuation: HNDL is our preferred non-ferrous pick owing to its (i) robust volume recovery in both India and Novelis; (ii) strong primary aluminum business profitability; (iii) solid FCF generation, which should reduce leverage sharply; and (iv) reasonable valuation. The outlook for Novelis is positive due to resilience in the Beverage Can business and recovery in Auto demand. Moreover, with better cost control and accruing synergies from Aleris, we expect margins for Novelis to remain strong at $450+/t.

With >70% Ebitda contribution now coming from the non-LME business (Novelis), we also see relatively higher stability in HNDL's earnings. While aluminum prices have recovered ~30%, higher aluminum inventory is a cause for concern with regard to price sustainability. We factor in average LME of $1,725/t in FY21e and $1,750/t in FY22E. A $100/t change in aluminum impacts HNDL's FY22e EPS by 11% and our TP by 9%. The stock trades at 4.9x EV/Ebitda and 7.4x P/E on FY22e. We value it at ₹275/share on an SOTP basis. Reiterate **Buy.**

Q2FY21 Ebitda margin up 88-64% Y-o-Y/Q-o-Q to record high of ₹8.1/scm

GUJARAT GAS RATING: **BUY**

A stellar showing by the company

Ebitda margin soared; FY21-22e EPS up 26-7% & TP raised to ₹349; upgraded to 'Buy'

GUJARAT GAS' (GGL'S) H1 and Q2FY21 recurring EPS was up 14-117% y-o-y, driven mainly by jump in Ebitda margin. Q2 volumes are up 5% y-o-y and 138% q-o-q from lows of Q1 hit by lockdown. GGL's current volumes of ~10.5mmscmd are 7-11% higher than in Q2FY21 and FY20. Q3 Ebitda margin is likely to plunge from the lofty levels of Q2 given 9% cut in Morbi prices in Sep and surge in spot LNG prices. However, we still see upside to our FY21e margin.

We have raised our FY21-FY22e volumes and FY21e margin, which has led to 26-7% upgrade in FY21-FY22e EPS (up 9-19% y-o-y) and 11% rise in target price to ₹349 (16% upside). Implementation of NGT order of Jul'20 may mean upside to our FY22e volumes. Given the breakout Q2, we upgrade GGL to **Buy** from ADD.

Margin surge and 5% y-o-y volume rise drive 2.2x y-o-y jump in Q2 EPS: Q2FY21 recurring EPS is up 117% y-o-y, driven mainly by 88% y-o-y rise in Ebitda margin to record high of ₹8.1/scm. Q2 volumes at 9.85mmscmd are up 5% y-o-y, despite 13% y-o-y fall in CNG and 40% y-o-y fall in commercial volumes, driven mainly by 9% (0.7mmscmd) y-o-y rise in industrial volumes to record high of 7.9mmscmd. H1FY21 recurring EPS was up 14% y-o-y, despite 75% y-o-y fall in Q1, due to strong Q2.

Raise FY21-22e EPS & target price: Ebitda margin of ₹7.2/scm in H1FY21 means we expect FY21e margin to be at least ₹5.5/scm (16% up y-o-y) even after factoring in margin fall likely in Q3. FY21e margin may be as high as ₹6.25/scm. FY21e volume would be 8.8mmscmd if current volumes of ~10.5mmscmd sustain throughout H2. The company expects FY21e exit volumes at 11mmscmd. However, we are being conservative in upgrading FY21-FY22e volumes by 6% to 8.6-10.3mmscmd and FY21e margin by 9% to ₹5.5/scm. This has led to upgrade in FY21-FY22e EPS by 26-7%. Higher FY21e margin and FY21-FY22e volumes than now assumed are not ruled out.

BEST COASTAL ROADS

Some scenic road trips by the ocean

Forget California 101 or even South Africa's Garden Route; explore Puri-Konark marine drive, instead

VIKRAM CHAUDHARY

IF LONG DRIVES are your idea of tourism, nothing gets better than coastal roads, and if there are hills on one side, it's cherry on top. Again, in a post-lockdown world, forget South Africa's Garden Route or California's Route 101; instead, explore places around Karwar, Kasaragod, Dhanushkodi or Konark. These are some of the finest coastal roads India has:

Karwar to Mangalore: Starting from the south of Goa, this drive next to the Arabian Sea takes about six hours (280 km). Apart from the scenic beauty, this road also takes you to Udupi (famous for the Tuluva-Mangalorean cuisine).

Kasaragod to Kochi: This 370 km road takes about 11 hours to drive. This is perhaps the only road where you can drive on the beach, safely—it passes through the Muzhappilangad Drive-in Beach. It's also a seafood-lovers paradise.

Dhanushkodi to Chennai, via Pondicherry: This route is a mix of both inland drive and coast. An extensive drive (650 km; 12 hours), this route is extensive on history, too—from French history in India to medieval India (Mahabalipuram).

Konark to Satapada: It's a 90 km, two-hour drive along the coast of Bay of Bengal. The best time to be there is early morning when you can see the sun rise from literally under the sea. In Satapada, you can see Irrawaddy Dolphins leaping in the waters of the Chilika Lake.

Konark to Satapada is a 90 km, two-hour drive along the coast of Bay of Bengal. The best time to be there is early morning, when you can see the sun rise from literally under the sea

(We haven't included the Mumbai to Goa highway in the list, because it's not really a 'coastal' drive, but mostly inland.)

Markets back in green, post smart weekly gains

FE BUREAU
Mumbai, November 13

MARKETS WERE BACK in the green on Friday the gap of a day as banking and finance stocks rose amid mixed global cues. The Nifty ended the session higher by 29.15 points (0.23%) while the Sensex rose 85.81 points (0.20%). During the week, the Sensex rallied 1,549.94 points or 3.69%, while the Nifty soared 456.40 points or 3.72%.

The markets will have a special one-hour Muhurat trading session on Diwali (Saturday) to mark the beginning of Samvat 2077. Both the benchmarks closed Hindu calendar year Samvat 2076 with smart gains.

The strong show in the markets in November can be attributed to the robust inflows coming in from foreign portfolio investors (FPIs). FPI inflows so far in November are at $4.1 billion, the highest after August ($6 billion). On Thursday, FPIs bought stocks worth $201.8 million while domestic institutional investors sold stocks worth $298.5 million.

Bajaj Finserv was the top gainer in the Sensex pack on Friday, rising 3.32%, followed by Tata Steel, ICICI Bank, Axis Bank, Bajaj Finance, SBI and UltraTech Cement.

The broader markets outperformed the gains of the benchmark with the Nifty Midcap 100 and Nifty Smallcap 100 rallying by 0.94% and 0.62%.

Sanjeev Zarbade, vice-president – private client group research, Kotak Securities, said: "The BSE-30 Index gained 3.6% in the current week. Market mood gained further ground on news of successful testing of a Covid-19 vaccine, stable count of Covid cases in India, improvement in high frequency indicators and a better-than-expected 2QFY21 results."

Jefferies in its report said the focus of the government towards jobs after the finance minister's announcement on Thursday was an encouraging sign. The brokerage said, "Reallocating expenditure towards farmers is not a surprise; though increased attention to jobs, manufacturing (PLI scheme) and housing is encouraging. Expansion of the credit guarantee scheme to stressed sectors is a clear positive. House price cap on the new income tax benefit limits usefulness of the announced measure."

The futures and options segment saw a turnover of ₹14.57 lakh crore while the cash market saw a turnover worth ₹58,436.97 crore.

Analysts expect NBFCs' collection efficiency to be beyond 95% in October

SAJAN C KUMAR
Chennai, November 13

THE COLLECTION EFFICIENCY of non-banking financing companies or NBFCs had hovered between 87 and 95% in September and this gives the sector a reason to cheer. Analysts expect major players to further improve in October — the data for which are still in the process of compilation.

Many NBFCs like Cholamandalam Investment and Finance (Chola), Shriram Transport Finance and Shriram City Union Finance have done well on the collection front, especially after the lifting of the moratorium by August 31, thanks to the opening up of businesses and the early signs of revival in the economy.

Motilal Oswal, in an analysis on Chola, said that the company had seen 87% collection efficiency in September and this would improve to 105% in October. Of the total Chola's moratorium, customers close to 95% have paid at least one instalment, only 5% of moratorium accounts have not paid even a single EMI for the past 6-7 months and the number is a significant improvement from the 50% a quarter ago, the analyst said.

Arun Alagappan, MD, Chola, while releasing the Q2 results recently, said: "With the six-month moratorium ending in August 31, the focus was to scale up on-field collection efforts and the company has been able to make considerable improvement in the last two months."

Given the improvement in post-moratorium collection efficiency, the Chola management expects restructuring not to go beyond 5% of the portfolio, HSBC Global Research said in an analysis, adding consequently, the current standard loan provisions of 1.5% appear adequate at this juncture.

In an analysis, Credit Suisse on Chola said with provision coverage ratio 26% on potential stressed loans and improving collections outlook, the management believes current provision buffers are adequate and might consider reversing some of the excess from Q4 of FY21.

Shriram Transport Finance, an organised player in the financing of pre-owned trucks, said post-moratorium, the collections for September 2020 was at 95 % of the demand. According to Emkay Global Financial Services, Shriram Transport Finance has improved its collection efficiency to 95% in September with superior provision coverage of 39.7%. The firm has maintained its momentum in recoveries (part payments) and it expects the collection momentum to improve further, the analyst firm said, adding that the firm expects one-time restructuring to be opted by 3% of its portfolio.

Motilal Oswal in its analysis separately said Shriram Transport Finance could collect from 78% of borrowers in August as compared to 52% in June. However, collections in September were at 95% of demand and during the moratorium period, there were only 5% of customers who had not paid a single instalment. Some of these customers subsequently paid in September and October, it said.

The collection efficiency of Shriram City Union Finance improved to 95% in September, resulting in better asset quality and lower impairment by 35% quarter-on-quarter. With business revival and upcoming festivals, a larger proportion of small and medium enterprises, and gold AUM is expected to increase in the coming quarters, the company said.

YS Chakravarti, MD & CEO, Shriram City Union Finance, said during the Q2 results: "This has been a heartening quarter, with disbursement growth being seen across almost all our products. Our asset quality continues to get better with every quarter."

INTERVIEW: SIDDHARTHA MOHANTY,
MD & CEO, LIC Housing Finance

'We expect a minimum double-digit credit growth in current fiscal'

LIC Housing Finance (LIC HFL) expects to achieve a minimum double-digit credit growth for the whole financial year 2021. **Siddhartha Mohanty**, *managing director and chief executive officer, tells* **Ankur Mishra** *in an interview. Excerpts:*

How much boost will be there for you and housing finance companies (HFCs) after finance minister's announcements on tax relief for home buyers priced up to ₹2 crore?

The relief will help boost sales in the mid-price and affordable segments. Developers will benefit as it will enable them to reduce their finished inventory. Estimates put around 5 lakh unsold units across major markets in up to ₹2-crore price range. The increase in differential between circle rates and agreement values from 10-20% under section 43CA is a welcome move and augurs well for home buyers and developers.

You have seen a credit growth of 5% in the September quarter, compared to last year. Do you believe this momentum will sustain?

The way we are seeing good response in the market. And there is a strong demand, many initiatives have been taken by the government. At present, our disbursal growth is there. On a month to month basis, September registered a growth of 21%, similarly a 37% growth was registered in the month of October. We have already reached pre-covid levels. So, coming to year-on-year, I expect a minimum double-digit credit growth for the whole year.

Where is the demand coming from?

In the retail business, huge growth is there. Everytime, we talk of affordable housing, the growth continues here, but in addition to that new things have happened. This time in mid segment and upper-mid segment, we are also experiencing good growth. So, prices have stablised, people are taking interest in mid segment-upper mid segment.

What is the status of restructuring requests from borrowers? How many borrowers you expect to avail the scheme?

So far, we have received enquiries of 3-3.5% of our book size. These are the people who have just enquired. We are now working with that whether these people are eligible for restructuring or not. So, the numbers till December should remain under this limit.

Why do you think fewer people have opted for restructuring, despite 25% of your loan book being under moratorium till August, 2020?

Many people have started paying. Our collection efficiency shows 96% of the people have started paying. As much as 3-3.5% people have applied for restructuring. There has been some positive development, not that everybody wants to keep loan, take advantage, etc. So, those who have capacity have started paying.

Your NIM remained flat q-o-q at 2.34%. Do you believe same level will be maintained in the rest of financial year?

Overall, it will be maintained or it will be still better. It will not deteriorate because our cost of funds has come down. There has been 1% reduction in the cost of funds from the first quarter (Q1) to the second quarter (Q2) of financial year 2021. The spread has also gone up year-on-year (y-o-y) from 1.98% to 2.21%. I am hoping that accommodative stance of monetary policy committee will continue. We will have a stable interest rate regime. So, I believe our NIM will not go down, there may be some scope of improvement.

Is there any change in the consumer behaviour?

People now are not postponing their decisions for buying a house, we have observed from the second quarter onwards. They are immediately taking decisions, because somehow demand has been created and there is no dearth of supply of credit, easily loan is available at the rate of 6.9%.

What is your outlook on your non-performing assets?

We are experiencing a good collection and gradually economy is improving. I am very hopeful in the Q3 at least, there should not be any further deterioration. It will either be stable, or there will be some improvement.

Uniform structure to impose fine for non-compliance with disclosure requirement

PRESS TRUST OF INDIA
New Delhi, November 13

TO ENSURE EFFECTIVE enforcement of continuous disclosure obligations by issuers of listed debt securities, Sebi on Friday came out with uniform structure for imposing fines for non-compliance with disclosure requirements.

The stock exchanges will levy fine and take action in case of non-compliance with continuous disclosure requirements by issuers of listed non-convertible debt securities (NCDs), non-convertible redeemable preference shares (NCRPS) and commercial papers, Sebi said in a circular.

The fine ranging from ₹1,000-50,000 per day could be levied for non-compliance with disclosure norms related to payment obligations, non-submission of deviations in utilisation of issue proceeds, and failure to obtain prior approval of the bourses for any structural change in terms of NCDs or NCRPS.

Sebi said exchanges may deviate from imposing penalty, if found necessary, only after recording reasons in writing.

In case a non-compliant entity is listed on more than one recognised stock exchange, Sebi said the concerned exchanges will have to take uniform action in consultation with each other.

The exchanges will have to take necessary steps to implement this framework and will have to disclose on their website the action taken against the entities for non-compliance, including the amount of fine levied.

The amount of fine realised need to be credited to the "investor protection fund" of the recognised stock exchange concerned.

The fines would continue to accrue till the time of rectification of the non-compliance and to the satisfaction of the recognised exchange concerned, Sebi said.

ANALYST CORNER

'Add' rating on LIC Housing Finance with FV of ₹400

KOTAK INSTITUTIONAL EQUITIES

NII TAILWINDS; PROVISIONS, remain low. Improving growth in retail home loans coupled with falling funding costs will support LICHF's NII. However, the company continues to maintain low ECL coverage as compared to peers- our key concern; high leverage poses risk of dilution below book. Inexpensive valuation coupled with improving business environment drive ADD rating; FV of ₹400 (up from ₹375).

LICHF reported strong earnings (PBT up 18% yoy) on the back of lower provisions (down 60% on a high base); core PBT was flat yoy. PAT was up 2% yoy, due to a lower tax rate in the base. While loan book was up 5% (on the back of 5% growth in home loans), LICHF reported 22% growth in home loan disbursements in September followed by 38% growth in October.

LICHF reported stable stage 3 loans at 2.8% qoq. Stage 2 loans declined to 1.3% from 4%- an indication of improvement in collections which likely prompted LICHF to go slow on incremental provisions. The company had reported about 25% moratorium book in 1QFY21 (16% in retail segment and 80% in the developer segment); LICHF highlighted that its collection efficiency in the non-moratorium book was 96% (up from 90% in 1QFY21), lower than 99.5% for HDFC.

LICHF's tier-1 ratio is low at 12.3% with leverage of 12X in March 2020, this is higher than most peers. Recent relaxation in risk weights on higher-ticket home loans will improve its tier I ratio. However, the company is close to the regulatory cap of 12X leverage and may hence need to raise capital to support higher growth.

LICHF carries low coverage of 1 bps on stage 1 and 2 loans as compared to 1.6% for HDFC; its overall ECL coverage is 1.3% as compared to 2.6-6% for peers. While recent trends in the real estate sector are encouraging, we remain concerned on its higher retail NPLs (1.7% in 1QFY21) and developer loan NPLs (17.6% in 1QFY21) and believe that LICHF will overtime the need to beef up its coverage.

Retain 'buy' on Eicher Motors as good demand kicks in

JEFFERIES

EIM'S 2Q EBITDA was down 13% YoY but 20% ahead of our estimates. EBITDA/vehicle was flattish at RE and higher in CVs on YoY basis, despite lower volumes and BS6 cost push. Demand commentary was positive and RE has 125K bookings but company added the model specific supply constraints are limiting production rate. The new Meteor has 8K bookings so far and is seeing good traction for personalisation options. We raise FY21-23 EPS by 4-9% and retain Buy.

Weak 2Q but positive surprise on margins. Royal Enfield's (RE) 2Q volumes fell 10% YoY but EBITDA/vehicle was commendably flattish YoY despite lower volumes and BS6 cost push. RE's 2Q EBITDA margin came in at 22.8% (down 220bp YoY) while Ebitda was down 11% YoY. VECV (commercial vehicle business) volumes fell 28% YoY but EBITDA/vehicle was up 56% YoY driving 12% YoY growth in EBITDA; VECV remained loss making in 2Q though. EIM 2Q consolidated net profit was down 40% YoY pulled down by lower financial income and higher tax rate (2QFY20 was abnormally low).

RE seeing good demand and build-up of waitlist. Eicher said that RE is seeing good demand momentum and has 125K bookings, but model specific supply constraints are limiting production rate. Digital engagement has risen sharply amid Covid-19 and two out of every three inquiries are now online; conversion rates for digital inquiries has improved from ~3% in the past to 13-14% now.

Start of RE product cycle. RE launched a new 350cc cruiser motorcycle, Meteor, on 6 November, replacing the erstwhile Thunderbird model. Meteor has received 8K bookings in the first few days of launch is seeing good traction for its personalization options. The launch of Meteor marks the start of RE's aggressive product cycle where it plans to introduce 2-3 new platforms, along with product upgrades, variants, facelifts, and limited-edition vehicles in coming years.

A big dealer network expansion is also under way, mainly targeting semi-urban and rural markets, which should also boost growth.

Muthoot Finance's loan-to-value currently at 61%

RAJESH RAVI
Kochi, November 13

NBFC MUTHOOT FINANCE said its loan-to-value is currently placed at 61%, against the regulatory requirement of 75% and long-term average of 69-70%.

Managing director George Alexander Muthoot told *FE* that customers are not taking more amount per unit of gold. "We can lend up to 75% of the value of gold, but people take loans only according to their needs. LTV of some of our new loans is in the range of 50% because of higher gold prices. People take only what they want and come for a top-up if they need more," he said and added gold in custody has come down in the current quarter.

Total weight of gold pledged with the company stood at 163 tonne at the end of the second quarter, against 171 tonne in the corresponding period of last fiscal.

The Kerala-based NBFC is confident of exceeding its guidance of 15% growth for the current fiscal year with demand for gold loan seen good.

The company, which also operates home loan, microfinance and insurance broking subsidiaries, said the gold loan constitutes around 91% of the total business

Muthoot disbursed fresh loans to 4.40 lakh new customers amounting to ₹3,653 crore and to 4.67 lakh inactive customers amounting to ₹3,460 crore.

"Our assets growth has been ₹5,600 crore in the second quarter and it has made up for the lost business in the first quarter. Our gold loan portfolio grew 14% sequentially to ₹46,678 crore, while the non-gold portfolio remained flat," he said.

The company, which also operates home loan, microfinance and insurance broking subsidiaries, said the gold loan constitutes around 91% of the total business.

"Collections in non-gold loan portfolio have significantly improved month on month. Our collections in the home finance company is 84% and in the vehicle finance division it is 82%. In the microfinance, it is 86%. We have made COVID provisions in all the divisions," he said. George Muthoot said the average yield of the NBFC is 19% and likely to come down with the cost of funds coming down. "In the last three months, cost of our incremental borrowing has come down by 2%. But we still have legacy loans. We want to maintain our NIM at 9-10%."

Results getting delayed due to Covid-19: DHFL

PRESS TRUST OF INDIA
New Delhi, November 13

DEBT-LADEN DEWAN HOUSING Finance Corporation (DHFL) on Friday said there has been a delay in submitting results for the July-September period due to the coronavirus situation. The company is expected to submit the same by month end.

"In view of the COVID-19 pandemic situation, our offices are still working with thin strength, the company is not in a position to submit the audited standalone and consolidated financial statements for the second quarter/half year ended on September 30, 2020 within the time stipulated under regulation of Sebi," DHFL said in a regulatory filing.

The company shall, however, ensure to submit the financial statements for the quarter and half year ended on September 30, 2020 on or before November 30, 2020, it added.

In a separate filing on the progress of the corporate resolution process, DHFL said the 12th meeting of the committee of creditors (CoC) was convened on November 12, 2020 through video conferencing and was reconvened on November 13. The matters discussed in the meeting were on updates since the previous CoC meeting, discussion by the CoC on manner of distribution of proceeds and other resolution process-related matter, said the non-banking financial company.

DHFL is the first financial services company which has been sent to NCLT under the Insolvency and Bankruptcy Code. The company is facing claims of ₹87,031 crore from financial creditors.

Forex reserves at lifetime high

FOREIGN EXCHANGE RESERVES jumped by a massive $7.779 billion to touch a lifetime high of $568.494 billion for the week ended November 6, RBI data showed on Friday.

In the previous week ended October 30, reserves had increased $183 million to $560.715 billion. In the reporting week, the jump in reserves was mainly on account of an increase in foreign current assets, a major component of the overall reserves. **PTI**

GIC Re posts ₹230-crore net profit for Sept quarter

PRESS TRUST OF INDIA
New Delhi, November 13

GENERAL INSURANCE CORPORATION of India (GIC Re) on Friday reported a net profit of ₹230.06 crore for the quarter ended September 2020. The state-owned insurer had posted a net loss of ₹595.44 crore in the corresponding period of the previous financial year.

Its gross premium during July-September 2020 grew to ₹10,651.50 crore, compared with ₹9,459.21 crore in the year-ago period, GIC Re said in a regulatory filing.

Net premium was slightly up at ₹8,846.07 crore, from ₹8,798.70 crore.

However, for the first half ended September of 2020-21, the insurer had a net loss of ₹327.42 crore, which narrowed as compared to ₹486.86 crore in H1 of 2019-20.

Gross premium during July-September 2020 grew to ₹10,651.50 crore, compared with ₹9,459.21 crore in the year-ago period

Global scenario for the insurance industry for 2020-21 has shown weak trends due to the COVID-19 situation for most classes while benefitting a few. As compared to the first quarter of the current financial year, there was a growth in business volume during the second quarter, GIC Re said.

"GIC Re's financials for the half year ended September 30, 2020, have shown indications of positivity and signals turnaround in the near future. Investment income for the first half of 2020-21 has increased significantly. GIC Re's international business has shown a growth rate of 31%," the company said.

Veg oil import falls 13% to 6-year low in 2019-20

PRESS TRUST OF INDIA
New Delhi, November 13

IMPORTS OF VEGETABLE oil fell 13% for the oil year 2019-20 that ended last month at 135.25 lakh tonne, the lowest in six years, on lower demand of cooking oils from hotels, restaurants and cafeterias since April due to the COVID-19 pandemic, according to industry body SEA.

Import of vegetable oils (edible and non-edible oils) in October fell to 12,66,784 tonne, compared with 13,78,104 tonne a year ago. Import of vegetable oils during oil year 2019-20 (November to October) is reported at 135.25 lakh tonne, compared with 155.50 lakh tonne during 2018-19, the Solvent Extractors' Association (SEA) said in a statement.

The association attributed the fall in imports to "demand destruction since April 2020 from the HoReCa (hotel, restaurant and cafetaria) segment".

"COVID-19 is the main factor for reduction in demand and consumption," the SEA said, adding that the total import of vegetable oils is the lowest in the past six years.

According to the data, edible oil imports declined to 131.75 lakh tonne in the oil year 2019-20, from 149.13 lakh tonne in the previous year. Import of non-edible oils fell 45% to 3,49,172 tonne, compared with 6,36,159 tonne a year ago, thanks to higher domestic production and reduced demand.

India buys less palm oil as rising prices make soyoil attractive

RAJENDRA JADHAV
Mumbai, November 13

INDIAN EDIBLE OIL refiners are trimming imports of palm oil to make space for soyoil as a rally in the price of palm due to output worries reduced the spread between the two, industry officials said. Lower overseas purchases by the world's biggest edible oil importer could cap palm prices, which hit an eight-year high on Friday, but will support US soyoil futures trading near their highest level in four years.

"Indian buyers are reducing purchases of palm oil for November and December shipments, and replacing it with soyoil," said Govindbhai Patel, managing director of trading firm GG Patel & Nikhil Research Company.

Palm oil usually trades at a discount of $100 to $200 a tonne to soyoil, but a rally in Malaysian futures has reduced the spread to $80.

Role of construction sector for a growing economy

SUSHIM BANERJEE
Former DG, Institute of Steel Development and Growth

IT MUST BE recognised that the initial shock, disbelief and despair of the Covid 19 pandemic engulfing almost all the segments in the country have gradually paved way for a perception that although there is no overnight solution to end the crisis and we have to live with it for more months than thought initially, we can still look forward and prepare ourselves for a set of activities, not entirely different from those existing prior to the start of the crisis.

Last week, we discussed on the role of manufacturing in giving boost to Indian economy in the post covid scenario especially its significance with the call for Atmanirbhar Bharat.

Another critical sector that accounts for an average share of 7.7% in GVA in the last five years is construction. It is presumed that construction activities involved in real estate, ownership of dwelling and professional services are already reflected in GVA of the construction sector. More than 50 million people are engaged in construction sector and the recent poignant issue of migrant labours' journey back to their native places under the lockdown period is a grim testimony to the insecurity and transient nature of the job market they have entered into.

While exclusive construction activity comprises of real estate (residential building) and non-residential construction in commercial and industrial segments (industrial sheds, pre-fabricated buildings), the building of infrastructure assets that faces a massive deficit in India as a developing economy, the construction of these assets in roads (highways and bridges), railways, urban infrastructure, ports, shipping, civil aviation, coastal waterways, oil and gas (refineries, drilling and transportation) water transportation and sanitation, power projects, wind mills, power transmission, irrigation, space science, cellular operators etc also fall under the construction and Infrastructure sector which is to be considered as one critical sector only.

As the success of National Infrastructure Pipeline list of more than 6500 projects (undergoing, planned and conceptual stage) with maximum thrusts on energy, roadways, urban infrastructure and railways, crucially hinges on the performance of the construction sector, the nature and growth of the sector has attained much significance. Apart from the highly interdependent nature of this sector with a number of other segments of the economy, one unique feature of construction sector relates to its contribution to the growth of manufacturing.

The construction in mining sector requires excavators, dumpers, cranes of high capacity, construction of roads requires crash barriers, hand rails, steel beams, fabricated steel profiles, construction of oil drilling requires casing pipes with a number of attachments, the construction of power plants needs large civil construction and also power vessels apart from electrical equipment, transformer, etc. Thus, growth in construction is inextricably linked with growth in manufacturing of machinery and equipment, manufacturing of basic Metals, manufacturing of fabricated metals, manufacturing of electrical equipment.

The sector has grown by an average 5.2% in the last five years. However, it slipped to (-) 2.2% in Q4 of FY20 and then degrew by a huge margin in Q1 of FY21 under the pandemic and following full impact of prolonged lockdown period.

Huge stimulus expenditures have been undertaken by the US, the EU, Japan, South Korea, Russia and the West Asia to rejuvenate the sagging economies under the pandemic. The building up of infrastructure in these economies has already spruced up the demand for steel and cement and also contributed to rise in employment and income generation which in turn has generated demand for domestic appliances.

Indian construction sector must implement some of the pending reforms in real estate (Rera), hassle-free issuance of construction permits, upgradation of construction practices by inducting new technologies, use of quality raw materials to attract foreign investment.

As construction of offsite fabricated structures are always preferred for better quality, less site congestion and noise free erection, it is necessary that fabrication set up at various locations in the country by MSMEs is adequately incentivised by the government to enhance the contribution of construction sector to national economy.

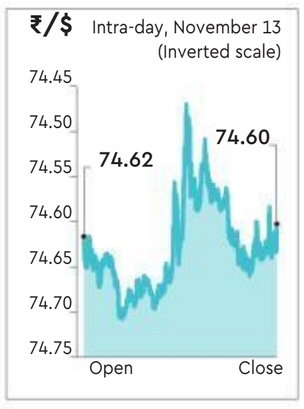
Rupee snaps 4-day losing run, ends marginally up

PRESS TRUST OF INDIA
Mumbai, November 13

THE RUPEE HALTED its four-session losing streak on Friday, settling with a marginal 2 paise gain at 74.62 to the US dollar, as stronger Asian peers against the greenback lent support to the domestic unit.

Forex traders, however, said that importers and banks' demand for the greenback continued to exert pressure on the Indian currency.

At the interbank forex market, the rupee opened at 74.63 a dollar and witnessed an intra-day high of 74.47 and a low of 74.71. It finally closed at 74.62 against the American currency, registering a rise of 2 paise over its previous close.



On a weekly basis, the rupee lost 54 paise or 0.72%.

"The rupee ended flat on Friday, however, for the week the currency depreciated against the US dollar amid persistent dollar purchases from state-run banks, likely on behalf of the central bank," said Sriram Iyer, senior research analyst at Reliance Securities.

Iyer said that most Asian currencies were stronger against the US dollar and lent support this Friday.

"However, risk appetite waned as a gloomy global economic outlook dampened sentiment due to rising COVID-19 infections in the US and Europe and kept appreciation bias limited," he said.

Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was down 0.15% to 92.82. Brent crude futures, the global oil benchmark, fell 0.60% to $43.27 per barrel.

Insurance policy for treatment of vector-borne diseases on anvil

PRESS TRUST OF INDIA
New Delhi, November 13

HEALTH AND GENERAL insurers will soon be permitted to offer specific insurance cover to the public for treatment of vector-borne diseases like dengue, malaria and chikungunya.

Regulator Irdai on Friday came out with an exposure draft on Standard Vector Borne Disease Health Policy under which general and health insurers will be encouraged to offer such policies for one year.

The objective is to make available a standard product addressing the needs of the public for getting health insurance coverage to specified vector-borne diseases, the Insurance Regulatory and Development Authority of India (Irdai) said.

As per the proposal, the product shall be offered for a fixed term of one year with a waiting period of 15 days.

The insurance policy will cover treatment of dengue fever, malaria, filaria (Lymphatic Filariasis), kala-azar, chikungunya, Japanese Encephalitis and Zika Virus, it said, adding the stakeholders can send their comments on the exposure draft to Irdai by November 27.

Commenting on the draft, Amit Chhabra, head — health insurance, Policybazaar.com, said the premium under this product will be on a pan India basis and no geographic location or zone based pricing is allowed.

"The cost of treatment for dengue can range anywhere from ₹25,000 to ₹70,000. Therefore, having a vector-borne disease plan in place will help the customers to protect themselves from the vector-borne disease," he said.

Nitish resigns as Bihar CM, recommends dissolution of assembly

PRESS TRUST OF INDIA
Patna, November 13

Decks were cleared on Friday for the formation of a new government in Bihar with Nitish Kumar, who is set to return as the chief minister, handing over to governor Phagu Chauhan the resignation of his ministry and the recommendation to dissolve the state assembly, officials said.

The governor accepted the resignation and asked Kumar to continue as the caretaker chief minister till the new NDA government is sworn in.

Earlier, leaders all the four constituents of the NDA Kumars JD(U), BJP, HAM and Vikassheel Insaan Party had met informally at 1, Anney Marg, the chief minister's official residence, where it was decided that all the newly elected NDA MLAs will meet on Sunday and formally elect Kumar as their leader.

"The meeting will start at 12:30 pm on Sunday, November 15 where all further decisions will be taken," Kumar had told reporters later.

He had also said the current state cabinet will be holding its last meeting in the evening where a decision on the dissolution of the assembly, the tenure of which expires on November 29, will be taken.

"These formalities have to be completed before the formation of a new government.

Governor Phagu Chauhan accepted the resignation and asked Kumar to continue as the caretaker chief minister till the new NDA government is sworn in

The cabinet's recommendations will be forwarded to the governor whose nod will be followed by other steps leading to the formation of a new government," Kumar added.

At the cabinet meeting, which lasted barely 10 minutes, the chief minister thanked all his cabinet colleagues for their cooperation, said Rana Randhir, a BJP leader who held the cooperatives portfolio in the dissolved cabinet and has returned as the MLA from Madhuban.

Despite the BJP emerging as the largest party in the ruling alliance with 74 seats, 31 more than the JD(U), the top leadership of the saffron party, including Prime Minister Narendra Modi, has emphatically endorsed Kumar as the next chief minister.

He was declared the ruling coalition's chief ministerial candidate much before the election process had started.

Informed sources also said issues discussed at the informal meeting of NDA leaders included the representation of each constituent in the new cabinet and election of the assembly Speaker.

Speculation is rife that the BJP might push for an EBC or a Dalit as a Deputy CM though it was not clear whether the insistence was on replacing veteran leader Sushil Kumar Modi, who has been holding the post for the most part since 2005, or replicating the experiment in adjoining Uttar Pradesh where two leaders share the post.

One of the names doing the rounds for the Deputy CM's post is that of Kameshwar Chaupal, a Dalit with deep roots in the Sangh who was famously chosen for laying the foundation stone at the Ram Janmabhoomi in Ayodhya in the 1990s.

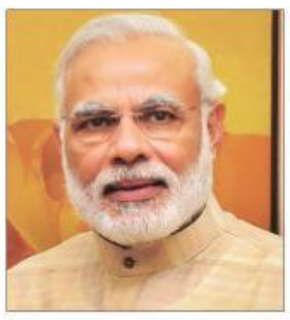
Supporters of Chaupal, a member of the legislative council, lent credence to speculations as they were noticed chanting slogans to the effect on the streets of the city.

Meanwhile, the NDA which has three more MLAs than the magic figure of 122, received a shot in the arm when Independent legislator from Chakai Sumit Singh met the chief minister and extended support.

Singh is the son of Narendra Singh, a former state minister and powerful Rajput leader from Jamui district.

PM: Light a *diya* as salute to soldiers

PRESS TRUST OF INDIA
New Delhi, November 13



ON DIWALI EVE, Prime Minister Narendra Modi on Friday appealed to the people to light a *diya* as a "salute to soldiers", saying words cannot do justice to the sense of gratitude for their exemplary courage.

"This Diwali, let us also light a Diya as a #Salute2Soldiers who fearlessly protect our nation. Words can't do justice to the sense of gratitude we have for our soldiers for their exemplary courage. We are also grateful to the families of those on the borders," he tweeted.

The prime minister also posted an audio clip of his recent 'Mann Ki Baat' broadcast in which he had first given a call to citizens to light a 'diya' for soldiers in Diwali.

He had urged people to light a 'diya' (lamp) while they celebrate the festival to honour security forces guarding the country's borders.

After Modi's appeal, the BJP urged people to post a photo with *diyas* for soldiers on social media.

"This Diwali, PM Narendra Modi has launched this special campaign to let us express our gratitude for our bravest of the brave soldiers. Request you to post a photo with diyas for our soldiers using #Salute2Soldiers on social media," the party said.

Since assuming office in 2014, the prime minister has been celebrating Diwali by spending time with soldiers in forward areas in states like Uttarakhand, Himachal Pradesh and Punjab, and the Union Territory of Jammu and Kashmir.

> "This Diwali, let us also light a Diya as a #Salute2Soldiers who fearlessly protect our nation. Words can't do justice to the sense of gratitude we have for our soldiers for their exemplary courage. We are also grateful to the families of those on the borders"
>
> —PM NARENDRA MODI

Though there is no official word about Modi's visit to any border post this Diwali, it is believed that he may keep up with this practice and spend time with soldiers in a forward area.

Ahead of Diwali, Delhi's air quality 'very poor', likely to turn 'severe'

PRESS TRUST OF INDIA
New Delhi, November 13

THE NATIONAL CAPITAL recorded its air quality in the 'very poor' category on Friday and it was likely to become 'severe' on Diwali night, according to government agencies.

Delhi recorded a 24-hour average air quality index (AQI) of 339. It was 314 on Thursday.

The neighbouring cities of Faridabad (319), Ghaziabad (382), Noida (337), Greater Noida (336) and Gurgaon (324), which fall in the National Capital Region (NCR), also recorded their AQI in the "very poor" category.

The India Meteorological Department (IMD) said a fresh western disturbance was likely to increase the wind speed and improve the air quality in Delhi-NCR post-Diwali.

Light rain is likely to occur on Sunday under the influence of a western disturbance. It remains to be seen if it is enough to wash away pollutants, Kuldeep Srivastava, the head of the IMD's regional forecasting centre said.

"However, Delhi-NCR's air quality is likely to improve post-Diwali due to an increase in the wind speed. On Sunday, the maximum wind speed is expected to be around 12 to 15 km per hour," he said.

VK Soni, the head of the IMD's environment research centre, said calm winds and firecrackers emissions may push the air quality to the 'severe' zone on Diwali night.

Wind speed is expected to pick up thereafter and the wind direction will be east-southeasterly. There will be a significant improvement in air quality by November 16, he said.

The ministry of earth sciences' air quality monitor, SAFAR, said the PM 2.5 concentration in Delhi on Diwali is likely to be the "lowest" in the last four years if no firecrackers are burnt.

Pak makes multiple ceasefire violations along LoC; 5 soldiers among 11 killed

PRESS TRUST OF INDIA
Srinagar, November 13

PAKISTAN ON FRIDAY indulged in heavy cross-border shelling along the Line of Control (LoC) in which five security forces personnel and six civilians lost their lives but Indian troops retaliated strongly, killing eight Pakistani soldiers and injuring 12 others besides causing extensive damage to its infrastructure, officials and sources said.

Srinagar-based defence spokesman Col Rajesh Kalia said Pakistan used mortars and other weapons and deliberately targeted civilian areas.

The troops retaliated strongly causing causalities and substantial damage to Pakistan Army's infrastructure across the LoC, he said.

"Several ammunition dumps, FOL dumps and multiple terrorist launch pads have been damaged," the defence spokesman said.

Four Indian Army personnel, a BSF sub-inspector and six civilians were killed while four security forces personnel and eight civilians were injured in the firing by Pakistan during the multiple ceasefire violations between Gurez and Uri sectors in Jammu and Kashmir, officials said.

Four Indian Army personnel, a BSF sub-inspector and six civilians were killed while four security forces personnel and eight civilians were injured

"Pakistan initiated unprovoked ceasefire violation along the LoC spread across multiple sectors to include Dawar, Keran, Uri and Naugam. Three Indian Army soldiers have been killed in action and three soldiers injured," Col Kalia said, adding the nation salutes their supreme sacrifice. A BSF sub-inspector was killed in Haji Peer sector while a jawan was injured, officials said.

Two civilians were killed in Kamalkote sector, also in Uri, while a woman was killed in Balkote area in Haji Peer sector, they added.

India, China close in on plan to end months of military standoff

SANJEEV MIGLANI & DEVJYOT GHOSHAL
New Delhi, November 13

SEEKING TO END a dangerous military standoff in the western Himalayas, India and China are formulating a plan that involves creating no-patrol zones, pulling back tanks and artillery, and using drones to verify the withdrawal, Indian officials say.

After months of fitful progress, the two sides are discussing a staggered disengagement from the high-altitude desert where temperatures have dipped to 18 degrees below Celsius, three Indian government officials said.

"We have a firm plan for disengagement on the table, it is being internally discussed on both sides," said one of the officials, speaking on condition of anonymity because of the sensitivity of the situation.

Under the plan that was shared during a meeting of top commanders last Friday, both sides will pull back from the contested Pangong Tso lake area and establish a buffer zone. Chinese soldiers will dismantle defence structures on several hilly spurs overlooking the lake and pull back, the officials briefed on the discussions said.

India, which has occupied heights on the lake's south bank, will also withdraw. Both sides will cease patrolling certain sections. The 3,800-km long India-China border is undemarcated, and the two countries went to war in 1962.

While there have been recurrent incidents down the years, troops from both sides have largely abided by a long-standing protocol to avoid firing weapons on the high altitude border, although some warning shots were fired in September.

India's defence and foreign ministries declined to comment on the specifics of the latest negotiations. **— REUTERS**

Tata Steel taps SSAB for Dutch unit sale

"The discussions with Tata are ongoing but no decisions have been made. There can be no certainty that any transaction will materialise, nor as to the terms of any such potential transaction. Further announcement will be made in due course," SSAB said in a statement.

If the deal goes through, Tata Steel will be able to stop the cash burn that is currently seen in its European business. Also, it will be a big step in the company's current efforts to deleverage. This move would allow Tata Steel to focus more on India business.

Separately, Tata Steel reiterated that it continues its dialogue with the UK government on potential measures to safeguard the long-term future of Tata Steel UK. "Tata Steel is also reviewing all options to make the business self-sustaining without the need for any funding support from Tata Steel India in the future," it said.

Back home, Tata Steel said it was undertaking a reorganisation exercise in its domestic business, folding its listed and unlisted subsidiaries into four clusters. These business clusters are long products, downstream, mining and utilities and infrastructure.

In this step towards consolidation and corporate simplification, the boards of Tata Steel Long Products, Tata Metaliks and Indian Steel and Wire Products, on Friday, approved the merger of Tata Metaliks and Indian Steel and Wire Products into Tata Steel Long products. "The proposed consolidation will create significant synergies and position the company towards future growth in the long products segment. We expect to complete the process in next 6-9 months, subject to necessary regulatory approvals," the statement said.

Meanwhile, with a significant improvement in product mix towards domestic sales, higher value-added products and a sharp reduction in costs, Tata Steel posted a strong operational performance. The consolidated net sales were up 7% on a year-on-year basis to ₹37,154 crore for the quarter ended September 30, 2020, while the consolidated Ebitda surged a sharp 60% y-o-y to ₹6,217 crore. Consequently, the Ebitda margins were up a good 560 basis points y-o-y to 16.7%.

The net profit, however, registered a decline of 59.5% year-on-year to ₹1,635 crore for the quarter. This is because the company had received a tax credit of nearly ₹4,050 crore in the corresponding quarter last year, which was absent this quarter. Compared with the preceding June 2020 quarter, the company's net profit jumped nearly twofold. Also, profit before tax in the September 2020 quarter stood at ₹2,248.26 crore much higher versus a loss before tax of ₹6.54 crore in the quarter ended September 2019.

Tata Steel's consolidated Ebitda per tonne jumped to ₹8,396 versus ₹5,963 in the corresponding quarter. On a standalone basis too the Ebitda margin crossed 29% with an Ebitda per tonne of ₹13,127. Commenting on the company's performance, TV Narendran, CEO and MD, Tata Steel said, "The resilience of our business model and the commitment of our teams has enabled us to ramp up capacity utilisation to normal levels and achieve highest ever sales despite the ongoing challenges due to the Covid-19 pandemic. We are now embarking on reorganising our Indian subsidiaries into four verticals to drive scale, synergies and simplification which we are confident will create value for our stakeholders."

The company reiterated that it is committed to deleveraging of $1billion annually and has reduced net debt by ₹8,197 crore during the quarter. Koushik Chatterjee, executive director and CFO, Tata Steel, said, "We continue to pivot the business decisions on cash while aggressively managing costs and being highly disciplined on capex to ensure we progress on our deleveraging journey. This quarter we reduced our consolidated net debt by ₹8,197 crore which is now below March 2019 levels. We ended second quarter with a liquidity buffer of ₹24,323 crore with about ₹17,824 crore in cash & cash equivalents which along with robust internal generation gives us enough headroom to further deleverage going forward."

3	Net Profit After Tax	639.08	644.2	404.64	1,283.28	883.61	-12,011.27

Note: The above unaudited results of Prabhat Dairy Ltd on a standalone basis for the above mentioned periods are available on Company's website www.prabhat-india.in and on the Stock exchange website www.nseindia.com and www.bseindia.com

4) The Company has entered into a Definitive Sale Agreement on January 21, 2019 with Tirumala Milk Products Private Limited (""The Buyer"") to sell the entire dairy business of Prabhat Dairy Limited vide a Business Transfer Agreement (BTA) and sale of its subsidiary Sunfresh Agro Industries Private Limited by way of a slump sale on a going concern basis for a total consideration of Rs. 1,70,000 Lakhs (excluding adjustment for net debt outstanding and working capital adjustment as agreed with the buyer). The aforesaid sale was subject to certain conditions precedent viz CCI, Shareholders, Bankers etc.
   During the previous year, the Company received all the critical approvals and post completing the conditions precedent to the deal, the transaction was closed on April 2, 2019.
   The Company has classified all its assets & liabilities of the dairy business as Held for sale w.e.f. January 21, 2019 as per the requirements of Ind AS 105 - Non-current Assets Held for Sale and Discontinued Operations. Similarly, the Company has also re-classified the results from discontinuing operations separately from the results from continuing operations as per the requirements of IND AS 105.
   Post completion of necessary formalities, the purchase consideration has been received by the Company in the designated Escrow Account on April 10, 2019. The net debt and transaction costs have been settled from the stated escrow account
   An amount of Rs.1316.79 Crores has been received as during the FY 2019-20 post certain adjustments as per the Business sale agreements. Due to COVID-19, there was a nationwide lockdown, and the company could not complete the working capital adjustments and complete the business transaction with the buyer. The management believes that the same will be completed in a short time during the FY 2020-21. The accounting impact will be given once the transaction is completed.
   The company has received Rs. 1,316.79 Crores as disclosed in the Annual report FY 2018-19 post debt repayment.
   Other obligations of the company related to the transaction have been calculated as follows:
   a. As per the indemnity clause in the Business Transfer Agreement (BTA) and Share Purchase Agreement (SPA) performance guarantee agreed with the buyer is 12% of the transaction consideration. This indemnity is applicable for periods of 3, 5 and 7 years, respectively, for various purposes – Rs.204.00 Crores
   b. As per management estimate transaction costs and taxes, calculations were verified by Statutory Auditors - Rs. 234.00 Crores"
5) The Company with Cheese Land Agro (India) Private Limited, a wholly owned subsidiary had filed an application for merger under Section 233 of Companies Act, 2013. However, scheme of Amalgamation and Arrangement involving merger of Cheese Land Agro (India) Private Limited with Prabhat Dairy Limited in accordance with the Section 233 of the Companies Act, 2013 was not approved by Hon'ble Regional Director of Western Zone and had advised to file a fresh application with National Company Law Tribunal (NCLT). The Board of directors of Prabhat Dairy Limited at its meeting held on 14th February, 2020 had considered and approved the Scheme of Amalgamation (Merger by Absorption) ('Scheme') of Cheese Land Agro (India) Private Limited ('Cheese Land' or 'Transferor Company') with Prabhat Dairy Limited ('PDL' or 'Transferee Company') and their respective shareholders under Section 230 to 232 and other applicable provisions of the Companies Act, 2013 and the rules framed there under. There after the company had filed application/ petition with NCLT and the said petition was scheduled for hearing on 12th August 2020 by NCLT, Mumbai. However, the NCLT bench did not take up the matter for hearing.
6) There is no multiple operating segment in the company. The Company has reported the single operating segment i.e. animal feeds and nutrition.
7) Previous period's figures have been regrouped / reclassified wherever necessary to correspond with the current period's classification/ disclosure.

High prices, Covid take sheen off Dhanteras; gold, silver sales down up to 35%

PRESS TRUST OF INDIA
Mumbai/New Delhi, Nov 13

THE SECOND DAY of pre-Diwali Dhanteras witnessed a tepid response from shoppers on Friday as gold and silver sales are likely to have been fallen by up to 35% year on year due to high prices and Covid-19-induced financial distress, jewellers said, adding many consumers, however, have moved to online buying to make most of the festival.

The buying was heavily restricted to light weight jewellery, coins and precious stones due to lower purchasing power and high gold rates, they said.

Due to the fear of coronavirus infection, many customers, who had booked in advance, were taking delivery of wedding orders on Friday, while some were seen buying safely through online brands like Tanishq and Melorra.

Those who could not afford precious metal shopped steel utensils to make most of the Dhanteras festival celebrated for two days this year, they added.

Dhanteras is an auspicious day for buying gold, silver and other valuables and is largely celebrated in north and west India.

Gold prices were ruling at ₹50,425 per 10 gm on Friday up by over 32% from ₹38,096 per 10 gm on Dhanteras day in 2019. Similarly, silver prices were ruling firm over ₹62,000 per kg.

Speaking to *PTI*, All India Gem and Jewellery Domestic Council chairman Anantha Padmanaban said though footfalls in retail stores across the country picked up in the second half of the day but were still lower than the year-ago period because of fear of Covid.

Gold prices were ruling at ₹50,425 per 10 gm on Friday up by over 32% from ₹38,096 per 10 gm on Dhanteras day in 2019

However, jewellers are expecting good business in north and western India as well as in cities like Hyderabad and Bengaluru, he said.

"Overall, the sales in terms of volumes are expected to be only 65-70% of the last year's business. In terms of value, we expect to do 80-85% of last year considering high prices," Padmanaban said.

According to World Gold Council managing director, India, Somasundaram PR, there was a clear trend of consumers moving to digital buying for investment related purchases like bars and coins this year.

"However, when it came to wedding and heavy purchases, people were still preferring physical buying because of their experiential nature," he said.

Quoting market reports, Somsundaram said, "In terms of volume, the industry is likely to do 60-65% of last year's business. In terms of value, it is likely to remain similar to last year as the gold prices have gone up."

PNG Jewellers chairman and MD Saurabh Gadgil said, "In terms of volume, we will be able to do 85-90% of last year's business and in terms of value it will be more than last year as the prices have gone up this year."

The purchase for gold and silver coins, bars has almost doubled compared to last year, while for light weight jewellery it has grown by 25-30%, he said.

However, for wedding jewellery even as the online browsing has doubled, the actual purchase is still happening through physical buying, he added.

Senco Gold and Diamonds CEO Suvankar Sen said the response for Dhanteras had been 70% YoY in sales through e-commerce and digital channels. There were also online advances and digital booking for store sales and use of other online tools was 15% of total business done.

NOTES:

1. The above is an extract of the detailed format of quarterly Financial Results filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing and Other Disclosure Requirements) Regulations, 2015. The above financial results were reviewed by the Audit committee on November 12, 2020 and approved by the Board of Directors at its meeting held on November 12, 2020.
2. On July 18, 2019, UFO Moviez India Limited ("the Company") and Valuable Digital Screens Private Limited (VDSPL), its wholly owned subsidiary company, had filed a joint application in relation to the Scheme of Arrangement between VDSPL and the Company and their respective shareholders with the Hon'ble National Company Law Tribunal ("NCLT"). NCLT vide its order dated November 21, 2019 sanctioned the Scheme for demerger of Caravan division of VDSPL with the Company with effect from April 1, 2019 (the Appointed date). The Scheme became effective from December 4, 2019.

   The Scheme was accounted using the 'pooling of interest' method and the figures (standalone) for each quarter beginning from April 1, 2018 were recasted as if the demerger had occurred from April 1, 2018 in accordance with the requirements of Appendix C of Ind AS 103 on Business Combinations. Pursuant to the Scheme, the carrying amount of all the assets, liabilities, income and expenses pertaining to the Caravan division were transferred to the Company.
3. Previous year / period figures have been regrouped / reclassified, where necessary, to conform to current period classification.
4. The full format of the Financial Results are available on the Company's website www.ufomoviez.com and on the website of the Stock Exchanges, www.bseindia.com and www.nseindia.com.

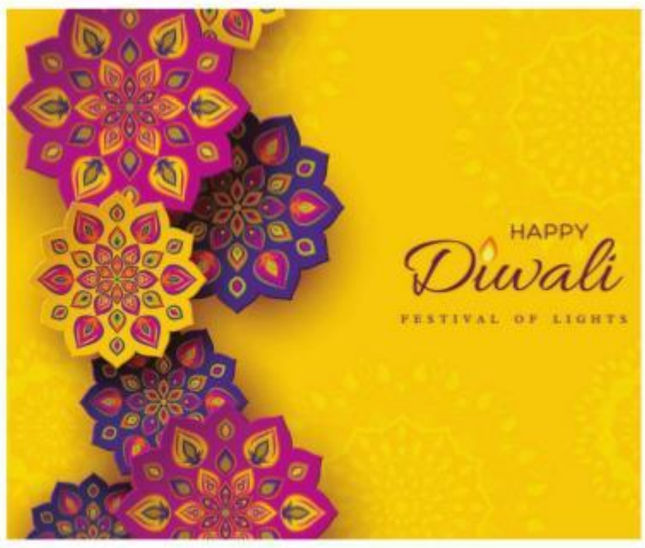
A moment of unity

Indians across all demographics and religious beliefs unite to rejoice in the return of Lord Rama to the kingdom of Ayodhya after more than a decade of exile

THE Deepavali festival is observed every year amid the Hindu Lunisolar month of Kartika. It is a celebration of the triumph of light over darkness and despair. The festival commemorates the return of Lord Rama to the kingdom of Ayodhya after more than a decade of exile.

Every year, Dhanteras marks the onset of the Diwali festival. The festival is a celebration of prosperity. The celebrations are marked by an exchange of gifts among friends and relatives, worship of Goddess Laksmi, shopping for new products, lighting up incense sticks and diyas inside the house. It is particularly considered to be an auspicious occasion for purchasing jewellery, appliances, gadgets, vehicles, clothes, kitchenware, silver and gold, among others.



The second day of Diwali is known as the Naraka Chaturdashi. It is a portmanteau of two words, 'naraka' (Hell) and 'chaturdashi' (fourteenth). On this day, Hindus traditionally commemorate for their deceased ancestors, and pray for the liberation of their souls. It is ideal for the celebrants to go on a shopping spree on this day.

The third day is celebrated with a lot of pomp and show by Indians of all demographics. The revellers ideally burn crackers and light up diyas and candles at home. Fireworks add to the conviviality of the day. The fourth day of the festival is colloquially referred to as 'Annaukat', which literally means a heap of grain. It is a day devoted to strengthening the bond between a man and his wife. A man is expected to spoil his better half with gifts.

The final day of the festival is celebrated in the form of Bhai Duj, a day that a girl dedicates to her brother. It is the biggest festival of the year in India. The five-day affair addsa dash of colour to our lives every year.

Donald Trump bans US investments in firms linked to Chinese military

REUTERS
Washington, November 13

THE TRUMP ADMINISTRATION on Thursday unveiled an executive order prohibiting US investments in Chinese companies that Washington says are owned or controlled by the Chinese military, ramping up pressure on Beijing after the US election.

The order, which was first reported by Reuters, could impact some of China's biggest companies, including China Telecom, China Mobile and surveillance equipment maker Hikvision.

The move is designed to deter US investment firms, pension funds and others from buying shares of 31 Chinese companies that were designated by the Defence Department as backed by the Chinese military earlier this year.

Starting January 11, the order will prohibit purchases by US investors of the securities of those companies. Transactions made to divest ownership in the companies will be permitted until November 11, 2021.

"China is increasingly exploiting United States capital to resource and to enable the development and modernisation of its military, intelligence, and other security apparatuses," said the order released by the White House.

The Chinese embassy in Washington did not immediately respond to a request for comment.

In a stock exchange filing, China Telecom said it estimated the executive order might impact the price of its shares, which closed down 7.8% in Hong Kong on Friday, and American depository shares, adding that it would "closely monitor" developments. Another telecom operator, China Unicom Hong Kong, said companies affected by the order would include its parent, China United Network Communications Group.

China Unicom also said in its filing, it expected an impact on its shares, which fell 6.7% on Friday, and American depository shares, adding it was "considering appropriate steps to protect its and its investors' lawful rights".

White House trade adviser Peter Navarro estimated that at least half a trillion dollars in market capitalisation was represented by the Chinese companies and their subsidiaries.

"This is a sweeping order designed to choke off American capital to China's militarisation," he told reporters on a call.

The move is the first major policy initiative by President Donald Trump since losing the November 3 election to Democratic rival Joe Biden and indicates that he is seeking to take advantage of the waning months of his administration to crack down on China, even as he has appeared focused on challenging the election result.

Ex-China finance minister says trade frictions with US could remain under Biden

REUTERS
Beijing, November 13

TRADE FRICTIONS BETWEEN the United States and China may not ease in the near term even if Joe Biden becomes president, former Chinese finance minister Lou Jiwei said on Friday.

Lou, who is now retired and serves as a member of a consultative body to the Chinese parliament, made the remarks during the Caixin Summit in Beijing.

Stocks in China and other parts of Asia rose on Monday on news that Biden had clinched enough votes to win last week's election, which investors hoped could lead to a thaw in frosty Sino-American ties. But President Donald Trump has not yet conceded.

When asked about the outlook for the US-China economic and trade relationship, the outspoken former minister Lou said: "Even if Biden is elected, the US suppression of China will be inevitable."

Lou called for pragmatism in US-China trade relations, saying it was difficult for Washington to cut its trade deficit, given the dollar's position as the dominant global currency.

"After four years, the trade deficit (with China) is still widening. We need to return to common sense and return to science. Everyone needs to be reasonable," said Lou.

Trump launched a trade war in the middle of 2018, demanding that China undertake sweeping structural reforms to open its markets and buy more from the US.

Since then, both countries have imposed tariffs affecting billions of dollars worth of goods, causing a severe shock to the global supply chains.

Talks hit make-your-mind-up time as Brexit deadlines pass

BLOOMBERG
London, November 13

EUROPEAN UNION OFFICIALS say it's make-your-mind-up time for Boris Johnson. Does he want a trade deal with the bloc, or not?

Another week of negotiations -- one that was supposed to be decisive -- will end Friday with little progress made in the main areas of disagreement, according to three EU officials familiar with the situation. While both sides can see what a final agreement would look like, Brussels officials insist that reaching one will require the UK prime minister to move first, a stance their British counterparts reject.

The exit of one of Johnson's top aide less than 50 days before the UK is due to leave the single market, and the planned departure of another, has injected fresh uncertainty into the process. EU officials have been left speculating whether the departure of two of the most senior figures from the Leave campaign increases or reduces the likelihood that the prime minister will walk away without a deal.

"I see what is happening now in Downing Street and see this as quite a chaotic situation," Manfred Weber, leader of the largest group in the European Parliament and an ally of German Chancellor Angela Merkel, told BBC Radio on Friday. "We need a clear idea from Boris Johnson now, and I think it's now time for leadership."

In the negotiating room, there was little movement this week on the three key issues that have bedeviled the talks for the past eight months -- the level playing field for business, access to UK fishing waters, and how any accord is enforced.

Progress on the first has been hampered by the UK's reluctance to make specific commitments to abide by any future changes in the bloc's rules, EU officials said. While both sides are inching closer to agreement on how any deal will be enforced, the UK is resisting EU calls for disagreements over the level playing field and fisheries to be included in any wider dispute-resolution system.

EU officials blame the lack of progress on Johnson, saying he hasn't decided whether he is prepared to compromise to reach a deal or not.

Trump floats improbable survival scenarios as he ponders his future

NEW YORK TIMES
November 13

Trump is simply trying to survive from one news cycle to the next, seeing how far he can push his case against his defeat and ensure the continued support of his Republican base

AT A MEETING on Wednesday at the White House, President Trump had something he wanted to discuss with his advisers, many of whom have told him his chances of succeeding at changing the results of the 2020 election are thin as a reed.

He then proceeded to press them on whether Republican legislatures could pick pro-Trump electors in a handful of key states and deliver him the electoral votes he needs to change the math and give him a second term, according to people briefed on the discussion.

It was not a detailed conversation, or really a serious one, the people briefed on it said. Nor was it reflective of any obsessive desire of Trump's to remain in the White House.

"He knows it's over," one adviser said. But instead of conceding, they said, he is floating one improbable scenario after another for staying in office while he contemplates his uncertain post-presidency future.

There is no grand strategy at play, according to interviews with a half-dozen advisers and people close to the president. Trump is simply trying to survive from one news cycle to the next, seeing how far he can push his case against his defeat and ensure the continued support of his Republican base.

By dominating the story of his exit from the White House, he hopes to keep his millions of supporters energised and engaged for whatever comes next.

The president has insisted to aides that he really defeated Joseph R. Biden Jr. on November 3, but it is unclear whether he actually believes it.

And instead of conducting discreet requests for recounts, Trump has made a series of spurious claims, seizing on conspiracies fanned on the internet.

The latest was on Thursday, when he falsely claimed on Twitter that Dominion voting machines switched hundreds of thousands of his votes to Biden, citing a report he had seen on the fringe network OANN, something even his supporters called ridiculous and a federal agency overseeing cybersecurity disavowed in a statement.

Advisers said his efforts were in keeping with one of his favourite pastimes: creating a controversy and watching to see how it plays out.

As a next step, Trump is talking seriously about announcing that he is planning to run again in 2024, aware that whether he actually does it or not, it will freeze an already-crowded field of possible Republican candidates. And, Republicans say, it will keep the wide support he showed even in defeat and could guarantee a lucrative book deal or speaking fees.

In the meantime, Trump has spent his days toggling between his White House residence and the Oval Office, watching television coverage about the final weeks of his presidency.

His mood is often bleak, advisers say, though he is not raising his voice in anger.

Tributes paid to Indian-origin doctor in UK

PRESS TRUST OF INDIA
London, November 13

A HOSPITAL IN eastern England on Friday paid moving tributes to a "dedicated and committed" Indian-origin doctor after his death from Covid-19.

Dr Krishnan Subramanian, a 46-year-old Consultant Anaesthetist at Royal Derby Hospital of the University Hospitals of Derby and Burton NHS Foundation (UHDB), passed away on Thursday at Glenfield Hospital in Leicester.

The trust said that a minute's silence will be held in his memory at the main entrance of Royal Derby Hospital at 11 am local time on Monday.

	Diluted :	(2.92)	(3.05)	(1.94)	(5.98)	(5.02)	(10.92)

Notes:
1) The above results have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on November 12, 2020 and have been subjected to Limited Review by the statutory Auditor.
2) The Company has incurred losses of Rs. 1403.9 Lakhs (before other comprehensive income) for the quarter ended 30th September, 2020 (quarter ended September 30,2019 – Rs. 931.44 Lakhs) The accumulated losses exceed its paid up capital and other equity as on September 30, 2020. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern and, therefore it may be unable to realise its assets and discharge its liabilities in the normal course of business. The Management is currently implementing a plan to increase turnover, improve profitability and financial position, sell certain non-core assets and has assessed that it will be able to meet the working capital requirements for the next 12 months. The Holding company has confirmed financial support to the Company to continue as a going concern. The Company is therefore being viewed as a going concern and the financial results have been prepared under the going concern assumption
3) The Company has only one reportable segment i.e. Garments.
4) For the quarter ended September 30, 2020, the application of Ind AS 115 has resulted in the the Finance costs being higher by Rs. 1,085.97 lakhs (Quarter ending June 20 -1,098.83 lakhs) and loss after tax being higher by a similar amount vis-à-vis the amounts if the replaced standard was applicable. The basic and diluted EPS would be Rs. (0.66) as against Rs. (2.92).

7	Reserves (excluding Revaluation Reserve) as shown in the Audited Balance Sheet of the previous year	22,857.78	
8	Earnings Per Share (of Rs. 100/- each) (for continuing and discontinued operations) -		
	1. Basic:	15.60	3.78
	2. Diluted:	15.60	3.78

Note: 1) The above unaudited financial results were reviewed by the audit committee and recommended for approval and a limited review of the standalone financial statements for the half year ended September 30, 2020 has been carried out by the Statutory Auditors. The unaudited financial statements for the half year ended September 30, 2020 has been approved by the Board of Directors at their meeting held on November 13, 2020.

2) The financial statements have been presented in accordance with the format prescribed for Non-Banking Financial Companies under the Companies (Indian Accounting Standards) Rules, 2015 in Division III of Schedule III as per Notification No.C.S.R. 1022(E) dated 11.10.2018, issued by Ministry of Corporate Affairs, Government of India.

3) The magnitude of disruption from the Covid-19 pandemic has significantly impacted organizations of all sizes, across all industry sectors which resulted in most countries announcing lockdowns and quarantine that have sharply stalled economic activities across the world. The Government of India too had imposed nationwide lockdown to contain the spread of the virus till June 08, 2020. The Indian economy is impacted and would continue to be impacted by the pandemic and the resultant restrictions due to the contraction in industrial and services output across small and large businesses. The impact of Covid 19 pandemic on the company's financial statements, including credit quality and provisions, remains uncertain and dependent on the current and further spread of Covid 19, steps taken by the government and the RBI to mitigate the economic impact and also the time it takes for economic activities to resume and reach the normal levels.

The company has assessed the impact of the Covid-19 pandemic on its liquidity and ability to repay its obligations as and when they fall due. Such an assessment has considered various stimulus packages announced by the Government of India which will directly or indirectly benefit NBFCs, current status and outcome of Company's lenders to extend moratorium and other financial support from banks and other agencies determining the Company's liquidity position over the next 12 months. Based on the sensitivity analysis conducted on stress scenarios, management believes that the company will be able to pay its obligations as and when these become due in the foreseeable future. The Company would continue to focus on maintaining adequate capital and ensuring liquidity at all points in time.

In accordance with the Reserve Bank of India's guidelines relating to Covid -19 Regulatory package dated 27 March 2020 and 17 April, 2020, the Company has granted moratorium of three months on the payment of all instalments falling due between 1 March, 2020 and 31 May, 2020 to all eligible borrowers for the moratorium, as per its moratorium policy. The RBI via press release dated 22 May, 2020 has permitted lending institutions to extend the moratorium by another three months, i.e. from 1 June, 2020 to 31 August, 2020. The Company has extended the moratorium to its eligible customers, as per its moratorium policy. In accordance with the guidance from the ICAI and in management's view, the extension of the moratorium to the Company's borrowers by the Company pursuant to the RBI guidelines relating to Covid 19 Regulatory Package dated 27 March, 2020 and 17 April 2020 and RBI press release by itself is not considered to result in significant credit risk to such borrowers. Based on an assessment of the situation, the company considers that the impairment loss/provision is adequate to cover any uncertainties.

4) Earnings per equity share for the half year ended September 30, 2020 and September 30, 2019 have been annualised.

5) The Company is engaged primarily in the business of financing and accordingly there are no separate reportable segments as per Ind AS – 108 dealing with Operating Segments.

6) Previous period /year figures have been regrouped /reclassified wherever necessary to conform to current period / year presentation.

(2) Ingersoll Rand Inc. (the ultimate holding company) along with Ingersoll Rand U.S. Holdco Inc. (the intermediate holding company) and Ingersoll Rand Industrial U.S. Inc. (the immediate holding company) had made an offer of INR 642.63 per fully paid-up equity share to the public shareholders of the Company to acquire upto 8,207,680 fully paid-up equity shares, constituting 26% of the fully diluted voting equity share capital of the Company. This Offer was mandatory in compliance with Regulations 3(1), 4 and 5(1) of the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011. The period for tendering of equity shares was between 22 June 2020 and 3 July 2020. Pursuant to the offer, Ingersoll Rand Inc. acquired 17,41,798 equity shares (equivalent to 5.52%) from the public shareholders of the Company. Consequently, the total shareholding of promoter and promoter group now stands at 79.52% of the total equity share capital of the Company. The Company is taking necessary steps to comply with the SEBI regulations for the minimum public shareholding.

(3) The Company has assessed the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of Receivables, Inventories and other assets / liabilities. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of the pandemic, the Company, as at the date of approval of these unaudited financial results has used available internal and external sources of information. The Company believes that the pandemic is not likely to have a significant impact on the recover ability of the carrying value of its assets. The Company is closely monitoring the developments and possible effects that may result from the current pandemic on its financial condition, liquidity and operations and is actively working to minimise the impact of this unprecedented situation. As the situation is continuously evolving, the eventual impact may be different from the estimates made as of the date of approval of these unaudited financial results.

(4) Figures for the previous period / year have been regrouped/ reclassified as necessary to conform to current period / year classification.

Notes:
1) The above results have been reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on 12th November 2020 and subjected to limited review by statutory auditors, pursuant to regulation 33 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.
2) The Covid-19 pandemic has affected several countries across the world, including India. The pandemic and consequent lockdown imposed by the Government has considerably impacted the Company's business operations for the half year ended 30th September 2020. Apart from other adverse effects, the pandemic has also resulted in a significantly lower business acquisition and put constraints on recovery of overdues from customers during the half year ended 30th September 2020. Further, in accordance with the RBI Guidelines relating to 'COVID-19 Regulatory Package' dated 27th March 2020 and subsequent guidelines on EMI moratorium dated 17th April 2020 and 23rd May 2020, the Company has offered EMI moratorium to its customers based on requests as well as on suo-moto basis.
3) The Company does not have any exceptional items to report for the above period.
4) Figures for the previous periods have been regrouped, wherever necessary, to make them comparable with the current period.

1. The above is an extract of the detailed Quarterly Financial Results which have been adopted by the Audit Committee in their meeting held on 13.11.2020, approved by the Board of Directors in their meeting held on 13.11.2020 and reviewed by the statutory auditors and filed with the Stock Exchange under regulation 33 of the SEBI (Listing and Other Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financials Results are available on the Stock Exchange Website i.e. www.mcx-sx.com and on the company`s website i.e. www.drfreshassets.com.
2. These financial results have been prepared in accordance with the Indian Accounting Standard (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standard) Rules, 2015 and relevant amendment rules thereafter.
3. Pursuant to outbreak of coronavirus disease (COVID-19) worldwide and its declaration as global pandemic, the Government of India declared lockdown on March 24, 2020 which led the temporary suspension of operations of the Company and has impacted the overall business activities of the Company. COVID-19 has impacted the normal business operations of the Company by way of interruption in production, supply chain disruption, unavailability of personnel, closure/lock down of production facilities etc. during the lock-down period. After resumption of operations, the management has made detailed assessment of its liquidity position and has prepared future cash flow projections and also assessed the recoverability of its assets and factored assumptions used in the annual impairment assessment of its cash generating units, using various internal and external information. The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of the COVID-19 which may be different from that estimated as at the date of approval of these financial statements. The Company will continue to closely monitor any material changes arising of future economic conditions and impact on its business.
4. During the period one subsidiary has entered into a contract for identification of land parcels in relation to set up of renewable energy/ warehousing business projects, however no activity has been carried out during the quarter and accordingly no income booked.
5. Figures of the previous period and/or year have been regrouped or rearranged wherever considered necessary.

Notes:
(1) The above results have been reviewed by Audit Committee and taken on record by the Board of Directors at its Meeting held on 12, November 2020. The Statutory Auditors have conducted a limited review of the above unaudited financial results and have expressed an unmodified report on the same.
(2) The above result results are prepared in accordance with Indian Accounting Standards ("Ind AS"), the provisions of the Companies Act, 2013 ("the Act"), as applicable and guidelines issued by the Securities and Exchange Board of India ("SEBI"). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.
(3) The IND AS compliant corresponding figures for the period as reported above have not been subjected to review. However, the Company's management has exercised necessary due diligence to ensure that such financial results provide a true and fair view of its affairs.
(4) The figures for the previous period/year have been regrouped/reclassified, wherever necessary, to conform to the current period/year classification
(5) As the Company's business activity falls within a single segment, therefore "Segment Reporting" are not applicable.
(6) The COVID -19 pandemic is rapidly spreading throughout the world. The operations of the Company were impacted, due to shutdown of all plants and offices following nationwide lockdown by the Government of India. The Company has resumed operations in a phased manner as per directives from the Government of India. The Company has evaluated impact of this pandemic on its business operations and financial position and based on its review of current indicators of future economic conditions, there is no significant impact on its financial results as at 30st September 2020. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial results. The Company will continue to monitor any material changes to future economic conditions.

Notes:
(1) The above results have been reviewed by Audit Committee and taken on record by the Board of Directors at its Meeting held on 12, November 2020. The Statutory Auditors have conducted a limited review of the above unaudited financial results and have expressed an unmodified report on the same.
(2) The above result results are prepared in accordance with Indian Accounting Standards ("Ind AS"), the provisions of the Companies Act, 2013 ("the Act"), as applicable and guidelines issued by the Securities and Exchange Board of India ("SEBI"). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.
(3) The IND AS compliant corresponding figures for the period as reported above have not been subjected to review. However, the Company's management has exercised necessary due diligence to ensure that such financial results provide a true and fair view of its affairs.
(4) The figures for the previous period/year have been regrouped/reclassified, wherever necessary, to conform to the current period/year classification
(5) As the Company's business activity falls within a single segment, therefore "Segment Reporting" are not applicable.
(6) The COVID -19 pandemic is rapidly spreading throughout the world. The operations of the Company were impacted, due to shutdown of all plants and offices following nationwide lockdown by the Government of India. The Company has resumed operations in a phased manner as per directives from the Government of India. The Company has evaluated impact of this pandemic on its business operations and financial position and based on its review of current indicators of future economic conditions, there is no significant impact on its financial results as at 30st September 2020. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial results. The Company will continue to monitor any material changes to future economic conditions.

Notes:

(1) The above results have been reviewed by Audit Committee and taken on record by the Board of Directors at its Meeting held on 12th, November 2020. The Statutory Auditors have conducted a limited review of the above unaudited financial results and have expressed an unmodified report on the same.

(2) The above result results are prepared in accordance with Indian Accounting Standards ("Ind AS"), the provisions of the Companies Act, 2013 ("the Act"), as applicable and guidelines issued by the Securities and Exchange Board of India ("SEBI"). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

(3) The IND AS compliant corresponding figures for the period as reported above have not been subjected to review. However, the Company's management has exercised necessary due diligence to ensure that such financial results provide a true and fair view of its affairs.

(4) The figures for the previous period/year have been regrouped/reclassified, wherever necessary, to conform to the current period/year classification

(5) As the Company's business activity falls within a single segment, therefore "Segment Reporting" are not applicable.

(6) The COVID -19 pandemic is rapidly spreading throughout the world. The operations of the Company were impacted, due to shutdown of all plants and offices following nationwide lockdown by the Government of India. The Company has resumed operations in a phased manner as per directives from the Government of India. The Company has evaluated impact of this pandemic on its business operations and financial position and based on its review of current indicators of future economic conditions, there is no significant impact on its financial results as at 30st September 2020. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial results. The Company will continue to monitor any material changes to future economic conditions.

Notes:
1. The Company is a Non-Banking Finance Company registered with the Reserve Bank of India.
2. The financial results of the Company have been prepared in accordance with Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and the other accounting principles generally accepted in India.
   These financial results have been prepared in the format prescribed under the notified schedule III of the Companies Act, 2013 for Non-Banking Financial Companies issued by Ministry of Corporate Affairs (MCA) on 11 October 2018.
3. The financial results for year ended 30 September 2020 has been reviewed by Audit Committee and approved by Board of Directors at its meeting held on 13 November 2020. In compliance with Regulation 52 of the Securities Exchange Board of India (SEBI) (Listing Obligations and Disclosure Requirements) Regulations, 2015 a limited review of financial results has been carried out by the Statutory Auditors of the Company.
4. The Indian Parliament has approved the Code on Social Security, 2020 which may impact the contribution by the Company towards Provident Fund and Gratuity. The effective date from which the changes are applicable is yet to be notified and the rules for quantifying the financial impact are yet to be framed. The Company will complete its evaluation and will give appropriate impact in the financial result for the period in which, the Code becomes effective and the related rules to determine the financial impact are notified.
5. Earnings per share for the half year ended period have been calculated for six months and not annualised.
6. The Company had allotted Secured Redeemable Listed Non-Convertible Debentures (NCDs) and Masala Bonds as follows :

Date of issue	No of Securities	Price per Security (absolute amounts)	Total amount (absolute amounts)	Rate of Interest	Previous due date for interest payment	Status	Next due date for interest payment
01-06-2017	1,000	10,00,000	1,00,00,00,000	7.60%	03-Aug-20	Paid	-
21-09-2017	1,000	10,00,000	1,00,00,00,000	7.70%	21-Sep-20	Paid	-
06-11-2017	100	1,00,00,000	1,00,00,00,000	7.47%	06-Aug-20	Paid	06-Nov-20

7. India Ratings & Research (Fitch group) have assigned "IND AAA" rating for Company's Long Term borrowings including NCDs & Masala bond and "IND A1+" rating for Company's Short term borrowings. All the rating are valid as on the date of Board meeting. There is no change in rating as compared to 31 March 2020.
8. The COVID -19 pandemic continues to have a considerable impact on economic activities across the globe and the recovery is likely to be slow given the uncertain timelines for the development of vaccination and the immunization roll out plans and hence the return to normalcy. In respect of accounts where moratorium benefit has been granted, the staging of those accounts at 30 September 2020 is based on the days past due status considering the benefit of moratorium period in accordance with the Covid-19 Regulatory Package announced by the Reserve Bank of India vide notifications dated 27 March 2020, 17 April 2020 and 23 May 2020. The RBI has further announced a Resolution Framework for addressing the continuing COVID-19 related stress on borrowers across the various sectors of the economy and the Company will be adopting a board approved policy to provide resolution to its customers under those guidelines.
   Based on the moratorium plan rolled out by the Company and other information available up to the date of approval of these financial results the Company assessed the impact on its assets, expected credit loss on its loan portfolio and liabilities including Asset Liability Management ("ALM") position.
   Based on the detailed evaluation, the Company has :
   a) made adequate provision for credit losses on its loan portfolio against the potential impact of COVID -19. The aggregate provisions are adequate vis-à-vis the minimum regulatory provisions prescribed by the Reserve Bank of India; and
   b) stress tested its ALM position and the Company has a comfortable liquidity outlook across all maturity buckets and has adequate liquidity position maintained in form of high-quality liquid assets and undrawn committed lines of credit.
   The final impact of the global health pandemic continues to be very uncertain and the actual impact on these financial results may be different than that estimated based on the conditions prevailing as at the date of approval of these financial results. The management will continue to closely monitor the material changes in the macro-economic factors impacting the operations of the Company.
9. The Government of India, Ministry of Finance, vide its notification dated October 23, 2020, had announced COVID-19 Relief Scheme for grant of ex-gratia payment of difference between compound interest and simple interest for six months to borrowers in specified loan accounts (Scheme), as per the eligibility criteria and other aspects specified thereon and irrespective of whether the moratorium was availed or not. The Company has transferred the amount into borrowers account under this Scheme.
10. The Company is primarily engaged in the business of financing and accordingly, there are no separate reportable segments as per Ind AS 108 dealing with operating segment.
11. The previous financial period figures have been regrouped / reclassified wherever necessary.

Notes :-

1. The above Financial Results have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on 12 November, 2020. The Statutory Auditors have also carried out Limited Review of the unaudited results for the quarter and half year ended 30 September, 2020
2. The above is an extract of the detailed format of the standalone and consolidated Financial Results for the quarter and half year ended 30 September, 2020, filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the standalone and consolidated Financial Results for the quarter and half year ended 30 September, 2020 are available on the Stock Exchange websites **(www.nseindia.com and www.bseindia.com)** and Company's website **(www.parsvnath.com)**.
3. The Company's total revenue from operations and profits for the current quarter/ relevant period were severely impacted due to COVID-19. The Company has considered the impact of this pandemic on its business operations and financial results based on its review of current indicators of future economic conditions and expects that the carrying amount of the assets will be recovered in the long term. However, the impact assessment of COVID-19 pandemic is a continuing process given the uncertainties associated with its nature and duration. The Company will continue to monitor any material changes to future economic condition and its impact on the business operations of the Company.
4. Subsequent to the earlier Order passed by SEBI dated January 4, 2019, SEBI has now issued a Show Cause Notice dated October 19, 2020 under various Sections of SEBI Act, 1992 and Securities Contracts (Regulations) Act, 1956, etc., to the Company and all the Directors & Chief Financial Officers (CFOs) who were holding office during the financial years 2009-10, 2010-11 and 2011-12 along with the Forensic Audit Report submitted by E&Y relating to certain transactions during the aforesaid financial years. The Company shall file its reply to the aforesaid Notice in due course and shall also take appropriate steps in this matter as may be considered proper in consultation with the legal counsels including seeking an opportunity of personal hearing with the SEBI.
5. Figures for the previous quarter / period have been regrouped, wherever necessary, for the purpose of comparison.

NOTICE

NOTICE is hereby given that HDFC Trustee Company Limited, the Trustee to HDFC Mutual Fund ("the Fund"), has approved the declaration of dividend / income distribution ("dividend") in **HDFC Arbitrage Fund**, an Open-ended Scheme investing in Arbitrage Opportunities ("the Scheme") and fixed **Thursday, November 19, 2020** (or the immediately following Business Day, if that day is not a Business Day) as the Record Date for the same as given below:

Name of the Scheme / Plan / Option	Amount of Dividend (₹ per Unit)#	Face Value (₹ per unit)	Net Asset Value ("NAV") as on November 12, 2020 (₹ per unit)
HDFC Arbitrage Fund - Wholesale Plan - Direct Plan - Normal Dividend Option (Payout and Reinvestment)	0.030	10.00	10.713
HDFC Arbitrage Fund - Wholesale Plan - Direct Plan - Monthly Dividend Option (Payout and Reinvestment)			10.461

The dividend will be subject to the availability of distributable surplus on the Record Date and may be lower.

Pursuant to payment of dividend, the NAV of the Dividend Option(s) of the above Scheme would fall to the extent of payout and statutory levy, if any.

Dividend will be paid, net of applicable tax deducted at source (TDS), to those Unit holders / Beneficial Owners whose names appear in the Register of Unit holders maintained by the Fund / Statements of Beneficial Ownership maintained by the Depositories, as applicable, under the Dividend Option(s) of the aforesaid Scheme on the Record Date (including investors whose valid purchase / switch-in requests are received by the Fund till cut-off timings in respect of the aforesaid Scheme, on the Record date, subject to realization of cheques / demand drafts). However, in respect of subscriptions for an amount equal to or more than ₹ 2 lakh (at Unit holders' PAN and holding pattern level), the Applicable NAV shall be based on realization of funds as per the provisions of SEBI Circular CIR/IMD/DF/21/2012 dated September 13, 2012 and No. CIR/IMD/DF/19/2010 dated November 26, 2010, as may be amended from time to time, on uniform cut-off timings for applicability of NAV.

Unitholders who have opted to receive dividend by way of physical instruments may experience delays on account of delivery constraints on the courier / postal services arising out of the unprecedented COVID-19 situation.

With regard to Unit holders of the aforesaid Scheme who have opted for Reinvestment facility under the Dividend Option(s), the dividend due (net of applicable TDS) will be reinvested, by allotting Units at the prevailing ex-dividend NAV per Unit (adjusted for applicable stamp duty) on the Record Date.

In view of individual nature of tax consequences, each investor is advised to consult their financial / tax advisor.

Notes to financial results:

1. A corporate insolvency resolution process ("CIRP") has been initiated against Castex Technologies Limited ('the Company') vide an order of Chandigarh bench of the National Company Law Tribunal (NCLT) dated December 20, 2017 under the provisions of the insolvency and bankruptcy code 2016 (Code). Pursuant to the order, the power of the Board of directors stands suspended and are exercisable by Mr Dinkar T. Venkatasubramanian, who was appointed as interim resolution professional (IRP) by the NCLT vide order dated December 22, 2017 and was consequently confirmed as Resolution Professional (RP) by the Committee of Creditors (CoC) in its meeting held on January 12, 2018. Hon'able National Company Law Tribunal ""Chandigarh Bench"" vide their order No, CP (IB) No.116/Chd/Hry/2017dated 13th June 2018, approved the extension of CIRP period by 90 days (i.e. from 180 days to 270 days). Further, the Committee of Creditors of CTL had approved the resolution plan submitted by Liberty House Group Pte Ltd (LHG) through e-voting process on August 30, 2018. The resolution plan, as approved by the Committee of Creditors of CTL, had also been subsequently submitted to Hon'ble National Company Law Tribunal 'Chandigarh Bench' for consideration and approval as per the provision of the Code. However, in view of the failure by LHG to comply with steps envisaged in the process memorandum post CoC approved its Resolution Plan as well as continuing default by Liberty in implementing NCLT approved Resolution plans in other CIRPs, the CoC filed an application on 6th of December 2018 to withdraw Liberty's Resolution Plan and sought directions for exclusion of time spent with LHG for negotiating and finalising Resolution Plan and allow a fresh process to identify new resolution applicants for CTL. Adjudicating Authority vide its Order dated March 15, 2019 has permitted the application for approval of the resolution plan to be withdrawn & excluded the period from the date of acceptance of LHG as the preferred bidder i.e. May 18, 2018 till the receipt of the certified copy of the Order dated March 15, 2019 for counting the 270 days, permitted for completion of the insolvency resolution process. The order also directed CoC to proceed with inviting fresh expression of interest from prospective investors. Accordingly, in terms of the said direction, the RP has invited a fresh expression of interest as on March 29, 2019.The CoC have vide another application dated 28.09.2019 sought exclusion/ extension from the Hon'ble NCLAT in view of Section 12(3) of the IBC Code. The honorable NCLAT vide order dated 11.12.2019 granted time for resolution till 31st January 2020. The resolution plan was submitted by Deccan Value on 17th January 2020 along with addendums dated 07th February 2020 , 18th February 2020 & 9th March 2020. The resolution plan was put to vote and approved by COC on 16th March 2020. The Government of India ordered a lockdown on account of COVID 19. As a result , the hon'ble NCLT was not functional during that period and thus the application for approval of resolution plan under section 30(6) of IBC was filed by Resolution Professional of Castex in NCLT on 16th June 2020 . The Hon'ble NCLT Chandigarh Bench heard the arguments for approval of the Resolution Plan for Castex Technologies Limited and reserved the order. The matter is pending before the Hon'ble Adjudicating Authority. In the meanwhile the Company is presently undergoing CIRP and the Resolution Process is underway in line with the provisions of IBC."
2. Post the commencement of CIR Process, the company is continuing to operate as a going concern in terms of the code. As the powers of the Board of Directors have been suspended, the above results have not been adopted by the Board of Directors.
3. Latest information revealed, Loans & Advances amounting to Rs. 125 Crores which was to be grouped under Investment in subsidiary had been shown under the head loans and advances. The management has accordingly reclassified the same under the head Investment in subsidiary w.e.f. Quarter ended 30th September 2020.
4. Debentures issued to LIC of India stands matured in June 2018. Therefore, the requirement of certificate in terms of regulation 52(5) of SEBI LODR 2015, is not applicable. The debenture holders has filed a claim with RP of the company.
5. As per the Code the RP has to receive, collate and all the claims submitted by the creditors of the company. The RP has verified and admitted the claims submitted by the creditors against the company as per the Code. Pending finalisation of resolution plan, the impact of such claims if any that also has not been considered in the preparation of the financial statements. Further, interest on the financial debt from the date of commencement of CIRP (i.e. from 20th December 2017 till 30th September 2020) has not been provided in the books of accounts and charged to the Profit and Loss account.
6. Considering the ongoing corporate insolvency resolution process (as mentioned in note 1 & 2), the uncertainty as to the realisation of unused tax losses and MAT credit available cannot be ascertained at this stage. Consequently, adjustments to defered tax (net) & MAT credit available have not been given effect to, during the period.
7. Considering the current operating levels of the Company, and the ongoing CIR Process it is not possible to determine: a. Impairment, if any, in the economic value of the fixed assets, and tools & dies; b. Diminution, if any, in the value of investments.
8. Trade receivables, loans & advances at September 30, 2020 (which are subject to confirmation & reconciliation), includes balances from the group entities, which are subject to confirmation/reconciliation and the recover ability assessment thereof is under process.
9. The company is in the business of Casting and Machining of steel products and hence has only one reportable operating segment as per Ind AS 108 "operating segments".
10. The consolidated financials of the company include financials pertaining to its overseas subsidiary (held for sale) , seven associate companies and a joint venture company. It may be noted that the RP of the Company has no control/ access over/ to the entities, which have been consolidated. The accounts of the overseas subsidiary and joint venture company are unaudited and have been considered on the basis of certification by the management of the entities being consolidated.
11. Amtek Global Technologies Pte Limited ('AGT'), in which the overseas subsidiary of the Company (i.e. Amtek Kuepper GmbH) holds stake, is under receivership in Singapore and receiver has been appointed. Since the latest financial results for 30th September, 2020 were not available/ accessible to the overseas subsidiary, the investment in AGT held by Amtek Kuepper GmbH, has been valued based on the financial statements for 31 March 2017 for AGT.
12. Previous period figures have been regrouped/rearranged wherever considered necessary to make them comparable with current period.
13. The Company has carried out its initial assessment of the likely adverse impact on economic environment and financial risk because of outbreak of Covid-19 pandemic. The Company is in the business Casting and Machining of steel products. Although, there is a significant impact, on account of demand destruction, in the short term, the management believes that there may not be significant impact of the pandemic on the financial position and performance of the Company, in the long-term. The Company expects the economic scenario to recover without there being a major impact business of the Company based on information available on current economic conditions. These expectations are subject to uncertainty and may be affected by the severity and duration of pandemic. The extent to which the pandemic will impact the Company's future results will also depend on developments, which are highly uncertain, including amongst the other things, any new information concerning the severity of the pandemic and any action to contain its spread or mitigate its impact whether government mandated or elected by the company.
14. The aforesaid un-audited Standalone and Consolidated Financial Results for the quarter and half year ended on 30th September, 2020 are available on the website of the Company i.e., www.amtek.com/ail.php and on the website of BSE i.e. www.bseindia.com and NSE i.e. www.nseindia.com.

Notes:

1 The audited financial information of the Company has been prepared by the management in accordance with the recognition and measurement principles, laid down under Indian Accounting Standard 34 - Interim financial reporting, prescribed under Section 133 of the Companies Act, 2013, read with (Indian accounting standards) Rules, 2015, as amended from time to time and other accounting principles generally accepted in India.

2 The above results have been reviewed and recommended for Board approval by the Audit Committee and approved and taken on record by the Board of Directors at the meeting held on 13 November 2020 and audited by the statutory auditors.

3 Pursuant to Rule 18(7) of the Companies (Share Capital and Debentures) Rules, 2014 read with the Companies (Share Capital and Debentures) Amendment Rules, 2019, for listed companies, Debenture redemption reserve (DRR) is not required in case of public issue of debentures or private placement of debentures. Since the Company has issued listed securities through private placement, the Company is not required to create DRR.

4 The outbreak of COVID-19, which was declared a global pandemic on 11 March 2020 by the World Health Organisation continues to spread rapidly across the globe and has affected the world economy including India leading to significant decline and volatility in financial markets and decline in economic activities.

To alleviate the lingering impact of COVID-19 pandemic, the Reserve Bank of India (RBI) has issued guidelines relating to COVID-19 Regulatory Package dated 27 March 2020 in accordance therewith, providing moratorium of three months on the payment of all principal amounts and interest falling due between 01 March 2020 and 31 May 2020. Further, vide Statement on Developmental and Regulatory Policies dated 22 May 2020, RBI extended the moratorium on loan instalments by another three months, i.e., from 01 June 2020 to 31 August 2020. Accordingly, the Company granted moratorium option to its customers for the period 01 March 2020 to 31 August 2020.

The Company has managed its credit risk through effective monitoring of the collections during the pandemic period, also the Company has separately incorporated estimates, assumptions and judgements specific to the impact of the COVID-19 pandemic and the associated support packages in the measurement of impairment loss allowance. The days past due (DPD) calculation had been kept in suspension for the accounts opting for moratorium at the same level that existed on the date of commencement of their moratorium period, in line with the guidelines issued by RBI on 22 May 2020 through the statement on development and regulatory policies.

Based on the current indicators of future economic conditions, total provision recognised towards COVID-19 impact on the Company's financial assets is Rs. 159.41 millions (Rs. 89.99 millions for half year ended 30 September 2020), in addition to the existing impairment loss allowance.

However, the impact assessment of COVID-19 is a continuing process given its nature and duration. The Company will continue to monitor for any material changes on account of future economic conditions.

5 On 1 October 2020, Orange Clove Investments B.V (an affiliate of Warburg Pincus) entered into an agreement with the existing shareholders and the Company for investment through a combination of secondary sale by existing shareholders and primary fund raise (Rs. 750 millions) - total comprising 25.64% of shareholding (on post issuance basis). Further, pursuant to the share subscription and purchase agreement (SSPA) and subject to receipt of RBI approval, Orange Clove has agreed to purchase equity shares from certain existing shareholders, aggregating to 5.04% of the paid up share capital of the Company (on a post-issuance basis).

6 Figures of previous period have been regrouped and/ or reclassified wherever considered necessary.

NOTES TO THE FINANCIAL RESULTS:

1 The above results have been reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on November 12, 2020.

2 The Board of Directors of the Company at its meeting held on May 30, 2018 had approved the Scheme of Amalgamation with Sterlite Power Transmission Limited, immediate holding company with appointed date of April 1, 2017 ("the Scheme"). National Company Law Tribunal ("NCLT") vide its order dated May 22, 2020 sanctioned the Scheme. The Company has received certified copy of the order on October 21, 2020 and is in the process of completing the conditions precedent ("CPs") mentioned in the Scheme including consent, approval or permission of the National Electric Energy Agency (ANEEL), Brazilian Electricity Regulatory Agency as may be applicable for it to become effective. Based on a legal opinion obtained by the Company, the Scheme can be made effective only after compliance with all the CPs. Accordingly, these results do not include any adjustments arising from the Scheme.
