SENSEX HITS NEW RECORD, CROSSES 53K

Mumbai: The Sensex made a new high of 53,057 and crossed 53,000 mark for the first time on Tuesday but profit taking erased the day's gains as the index closed almost flat at 52,588.71 up 14.25 points or 0.03 per cent. Fifty-50 closed at 15,772.75 up 0.17 per cent or 26.25 points after touching 15,895 intraday. Strong global markets, record number of Covid vaccinations in a day, new daily Covid cases dropping below 50,000 and good rains cheered the market as it opened. Nifty-50 closed at 15,772.75 up 26.25 points.

AP seeks physical CBSE exam

SC warns of holding state responsible for death of students

PARMOD KUMAR | DC
NEW DELHI, JUNE 22

The Supreme Court on Tuesday declined petitions that challenged the Central Board of Secondary Education (CBSE) and Indian Certificate of Secondary Education (ICSE) decision to cancel Class XII board examinations, while upholding the evaluation scheme framed by the two boards for allocating marks to the students who were to appear in the cancelled exams.

A bench comprising Justice A.M.Khanwilkar

and Justice Dinesh Maheshwari said that the University Grant Commission will not commence the admission process in the universities and colleges till results by all the boards are declared.

The court brushed aside the Andhra Pradesh government's stand that they have in principle decided to hold Class 12 examination but have deferred the decision till the first week of July.

Telling the lawyer appearing for Andhra Pradesh to take a call and file the decision on exam

by Wednesday, the court said that it will hear the matter on Thursday.

Wondering whether Andhra Pradesh had the infrastructure to conduct Class 12 Intermediate exams involving five lakh students with all safeguards, the court said you will have to give very good reasons to hold Class 12 board examinations. If there is any fatality, we will hold the state responsible.

The top court's poser came as the lawyer appearing for Andhra Pradesh said that they will be accommodating 15

to 29 students in each examination room.

The court noted that Andhra Pradesh was the only state in the country which was insisting on holding the Intermediate board examinations amid the all-round concern in the wake of the second spell of the Covid-19 pandemic.

The court took on record Kerala governments affidavit conveying its decision to conduct the board examinations. The court will take up the issue of both the states — Andhra Pradesh and Kerala — on Thursday.

2 AP OFFICERS GET JAIL SENTENCE

DC CORRESPONDENT
VIJAYAWADA JUNE 22

The Andhra Pradesh High Court on Tuesday sentenced two IAS officials to one month's imprisonment and a fine of ₹1,000 each for not implementing court orders on the filling of certain vacancies in the horticulture department.

Dealing with a contempt petition, Justice B. Devanand observed that the two officials — panchayat raj commissioner Girija Shankar and horticulture commissioner Chiranjeevi Chowdary — willfully disobeyed the court directions and deserved punishment.

The judge called the two officials for their personal appearance on Tuesday. However, he withdrew his order after government special counsel Suman gave a commitment to the court that its orders would be implemented in the next two weeks. The horticulture department had in January, 2020, issued a notification to fill village horticulture assistant posts. It later issued an amendment deleting several eligibility parameters. Some 35 candidates challenged this in court.

The High Court scrapped the amended notification and gave an interim direction to the government to consider the candidatures of the 35 petitioners too.

The eight-party meet held at Maharashtra strongman and NCP supremo Sharad Pawar's residence here turned out to be "non-starter" for a united Opposition Third Front as was earlier being perceived. The meeting, that drew a lot of media attention as heralding the formation of a Third Front aga-inst the BJP juggernaut, was eventually termed as a "non-political meet" by the NCP.

Speaking to reporters, NCP leader Majeed Memon, who was among those present the meeting, said: "The meeting was called by Yashwant Sinha, not Sharad Pawar, this was not a political meeting. There are talks that the meeting was for a Third Front without the Congress, which is not the truth. There is no discrimination. We called all like-minded people. We also invited Congress leaders. They couldn't come. It's not true that we didn't invite the

Comparing Congress leader Rahul Gandhi with a "circus clown", the BJP on Tuesday claimed that whenever the country was at a crossroads in its battle against Covid-19, Mr Gandhi and the Opposition party try to derail the efforts by playing politics.

A day after over 86 lakh people got vaccinated in the country on the first day of the revised guidelines, Mr Gandhi attacked the Narendra Modi government for its

mismanagement of the Covid-19 crisis and also released a "white paper" on "what went wrong and how the nation can prepare for the imminent third wave".

Hitting back, the BJP said ever since the global pandemic hit India, the Congress has "really worked tirelessly to create hurdles and obstacles" to the Covid-19 management efforts and once again questioned whether or not the "Congress' first family" has been vaccinated.

Top officials favour selling state's stake to raise funds for AP's fishing harbour project

Panel examines Adani's offer to buy 10% stake in port

N. VAMSI SRINIVAS | DC
HYDERABAD JUNE 22

The empowered group of secretaries dealing with the divesting of 10 per cent equity in the Gangavaram Port, which held its first meeting on Tuesday, decided to ascertain the real valuation of its stake from more than one agency.

The committee had been constituted by the Andhra Pradesh government to oversee the disinvestment

in the port and the merger of Gangavaram Port Ltd into Adani Ports and Special Economic Zone by "following the available guidelines and recommendations of the SBICAP on disinvestment."

The SBICAP had recommended that the state government should go in for disinvestment as per the guidelines of disinvestment policy of GoI for a better price discovery and negotiations."

The APSEZ offered about

₹645 crore at ₹120 per share to the government on par with the price at which it bought 90 per cent stake, including 58.1 per cent from the original concessionaire D.V.S. Raju and family. The APSEZ, which enjoys the "first right of refusal" in the event of the state government selling its shares, made a suo moto offer to buy the same.

Chief Minister Y.S. Jagan Mohan Reddy reportedly decided, in principle, to

sell the stake and make use of the proceeds to build the proposed ports and fishing harbours. "Per se, disinvestment is not wrong and it will be very useful for the state to fulfill its equity obligation while going for project financing," a senior official said.

The other requests made by the APSEZ were already agreed upon by the government. These included permission to buy the stake of Private Equity Fund WarburgPincus and allow-

ing merger of GPL into APSEZ with a rider to set up a special purpose company which will enter into a fresh concession agreement with the same terms and conditions.

Though the central guidelines suggest a bidding process for a better price discovery, the concession as well as shareholders' agreements of GPL only talked of a willingness of both parties to transact and get a proper valuation done by the both parties as

the prerequisites for share purchase or sale.

"We also should take into consideration if other players are interested in entering APSEZ with an insignificant percentage of the stake that doesn't even confer the investor a place in the board of directors. World's leading PE investor, WarburgPincus, got its valuation done and SBICAPS also did its own valuation," a member of the group of secretaries said.

The APSEZ offered about ₹645 crore at ₹120 per share to the government on par with the price at which it bought 90 per cent stake, including 58.1 per cent from the original concessionaire D.V.S. Raju and family. The APSEZ, which enjoys the "first right of refusal" in the event of the state government selling its shares, made a suo moto offer to buy the same.

VIJAYAWADA, JUNE 22

With a view to encourage entrepreneurship among women, Chief Minister Y.S. Jagan Mohan Reddy on Tuesday released the second tranche of YSR Cheyutha, crediting ₹4,339.39 crore to the accounts of 23,14,342 women beneficiaries. Speaking on the occasion, he said that the government signed an MoU with major companies as Amul, Allana, ITC, HUL, P&G and Reliance and several banks to support women entrepreneurs in establishing grocery stores, dairy farms and other businesses.

YSR Cheyutha will provide financial assistance of ₹18,750 per annum to women belonging to SC, ST, BC and minorities in the age group of 45 and 60. The scheme will directly benefit around 23 lakh women from weaker sections to support their families financially. So far, the state government spent ₹8,943 crore on this scheme for the last two years, benefiting women by all means.

"Through this scheme, around 78,000 women have

started grocery stores, where the goods will be supplied at below the market price to help them earn an additional profit of around ₹10,000. Similarly, 1.19 lakh women have opted for the dairy sector and are getting an additional income of ₹5-15 on each litre of milk supplied to Amul. Also, around 70,000 women have shown interest in rearing sheep and goat units to increase their family income. In the first year, the state government provided financial assistance of ₹1,510 crore for beneficiaries of YSR Che-

yutha through banks," the Chief Minister said. The Chief Minister said that if any eligible beneficiary is left out of the scheme, she can apply at respective village secretariat and their applications will be verified immediately and the benefits provided.

In this regard, the government set up YSR Cheyutha Call Centre 0866-2468899, 9392917899 to connect beneficiaries with corporate companies and banks.

Modi defends Centre's Covid economic relief

New Delhi, June 22: Prime Minister Narendra Modi on Tuesday said the economic response to the Covid-19 pandemic was formulated to ensure that solutions do not follow a 'one size fits all' model, and asserted that "reforms by conviction and incentives" were undertaken on the back of "Centre-state bhagidari (partnership)".

In a post on social media platform LinkedIn, he said that in the backdrop of the financial crunch seen across the world, Indian states were able to borrow significantly more in 2020-21.

"It would perhaps pleasantly surprise you that states were able to raise an extra ₹1.06 lakh crore in 2020-21. This significant

increase in availability of resources was made possible by an approach of Centre-State bhagidari," the Prime Minister said in his post.

Noting that Covid pandemic has come with a whole new set of challenges to governments across the world in terms of policy-making, the Prime Minister said India was no exception and asserted that raising enough resources for public welfare is proving to be one of the biggest challenges.

Asserting that this nudge for reform is rare in Indian public finance, the Prime Minister said that it was a nudge, incentivising the states to adopt progressive policies to avail additional funds.

AP CABINET MEET
TO BE HELD
ON JUNE 30DC CORRESPONDENT
VIJAYAWADA, JUNE 22

The AP cabinet will meet at the secretariat in Velagapudi on June 30. Chief Secretary Adityanath Das issued an urgent note on Tuesday regarding it.

The note stated that all the departments of secretariat have been informed about the meeting. Special Chief Secretaries, Principal Secretaries and Secretaries are asked to send proposals in the prescribed format as detailed in the Cabinet Handbook to the GAD (Cabinet-I) by June 28 so as to brief the CM for placing them before the Council of Ministers for consideration.

According to sources, the cabinet would discuss a wide range of issues including Covid-19 situation and night lockdown relaxation.

HC ASKS WHY
SHRC HQ NOT
LOCATED IN APDC CORRESPONDENT
VIJAYAWADA, JUNE 22

The Andhra Pradesh High Court on Tuesday asked the YSRC government to explain why the state Human Rights Commission has been operating from Hyderabad and to submit details of the office, staff and infrastructure provided for the commission.

A division bench of Chief Justice A.K. Goswami and Justice N. Jayasurya stressed that people should find it convenient to approach the SHRC. "It is desirable that the commission's office is located within the state."

The bench was dealing with a petition filed by civil liberties activist Malleswara Rao complaining against the inaccessibility of the office and inability of the petitioners to file complaints since the panel sat in Hyderabad.

Petitioner's counsel Suresh Kumar said the government constituted the SHRC only after a contempt case was filed in the court, and it failed to provide staff and infrastructure to the commission members. "There is no mechanism as of now to receive complaints and process them," he said.

Government special counsel Suman explained to the court that bifurcation of some institutes including SHRC was yet to be completed as per the Reorganisation Act. The commission has taken up cases online and issued interim directions also, he said.

Advocate General S. Sriram claimed before the court that Lokayukta and AP state electricity regulatory commission had also been working from Hyderabad and their location away from the state "did not impact" their functioning.

BJP SEEKS HC
PROBE INTO LAND
GRABBINGDC CORRESPONDENT
VISAKHAPATNAM, JUNE 22

The state president of BJP, Somu Veeraj, said the AP government should appoint a sitting judge of high court to probe all the aspects of land grabbing in Visakhapatnam that has been projected as the administrative capital.

Addressing a press conference here on Tuesday, Veeraj said political leaders irrespective of party affiliation indulged in land grabbing. He blamed revenue officials who helped the leaders and took favours.

"To get clarity on the issue, the government should constitute an inquiry by a sitting high court judge and hand him the reports of both the SITs. The judge should take the opinions of all the political parties, individuals and officials before coming to a conclusion," he said.

Coming down on Y.S. Jagan Mohan Reddy government, he said the administration was not going in the right direction. He said the CM gave away ₹4,000 cash as welfare scheme but dragged his feet on paying the farmers the minimum support price for paddy, which required just ₹3,000 crore.

He said the CM was harassing the farmers and joining hands with rice millers who were jacking up the price of the rice in the retail market. He said on one hand the CM was giving thousands of crores as cash installments to the people and on the other was unable to pay ₹900 crore for the development of the industrial zone sponsored by the Central government.

Kakinada deep sea tuna fishing fibre boat operators face problems

VADREU SRINIVAS |
DC
KAKINADA, JUNE 22

Kakinada deep sea tuna fishing fibre boat operators are facing problems in getting anchorage and also facilities for selling their catch, purchasing ice and for other things at Visakhapatnam fishing harbour. They allege that some of the Vizag fishing harbour leaders are not allowing them to sell their catch and utilise the facilities there.

Fibre boats go on high seas, hundreds of kilometres away up to Odisha and Tamil Nadu as the Central and the state laws allow them to take up fish hunt anywhere in India.

These fibre boats mostly hunt tuna fish with big

● **FIBRE BOATS** go on high seas, hundreds of kilometres away up to Odisha and Tamil Nadu as the Central and the state laws allow them to take up fish hunt anywhere in India.

nets. However, some leaders in Vizag fishing harbour union are not allowing Kakinada deep sea fibre boat owners into their harbour on the pretext that the prices of their catch would fall.

Though the problem has been faced by the Kakinada boat operators for the past two years, they are somehow managing it. But, after completing the conservation period, the Kakinada operators went on fish hunt and tried to anchor their boats at Visakhapatnam harbour, were not allowed to do so. "Nearly 250 fibre boats

from Kakinada are engaged in tuna fish hunting. Hardly 10 per cent of them go to hunt in Bay of Bengal. They are allowed both by the central and the state government laws to undertake fishing anywhere and it is not correct to stop them from anchorage at Visakhapatnam fishing harbour. The Kakinada boat operators have the fishing gear to go into the deep sea and fish there and they find it convenient to anchor at Visakhapatnam and sell the fish there. But some of the local fishermen at fishing harbour are not allowing them, saying

that the prices in the local market are affected," said Tummala Ramesh, an office-bearer of Dummulapeta, Parlopeta (Kakinada) deep sea tuna fishing fibre boat owners association.

He said that they catch tuna fish in the deep sea with their special fishing gear and, therefore, there is no competition between the tuna fish and other fish at Visakhapatnam harbour. He said that in 2016, a similar problem arose, but it was sorted out by the officials. He requested both the officials of both districts to intervene and resolve the issue.

The association submitted a memorandum to the Joint Director of Fisheries at Kakinada.

Chiru's tweet sparks speculation
about Rajya Sabha seat for himDC CORRESPONDENT
VIJAYAWADA, JUNE 22

Megastar K. Chiranjeevi has showered praises on Chief Minister Y.S. Jagan Mohan Reddy and his government for vaccinating 13.72 lakh people in a single day during the mega vaccination drive in Andhra Pradesh.

The praise appearing on Chiranjeevi's Twitter handle on Tuesday has fuelled speculation that the megastar's chances of being nominated to Rajya Sabha by YSRC are bright. Chiranjeevi in his Tweet, said, "So

happy at the fabulous feat of vaccinating over 13.72 lac people in a single day by Health teams in #AndhraPradesh. Your efforts fill confidence in everyone about defeating the Covid monster! More Power to You! Congrats to Y.S. Jagan for inspiring leadership."

According to political circles, Chiranjeevi is planning to get back into active politics after completing his existing film commitments. His relations with the CM have been cordial and whenever Jagan Mohan Reddy does something good, the

megastar makes it a point to openly publicise his appreciation.

Four Rajya Sabha seats from Andhra Pradesh will be falling vacant towards June end. It is said the Chief Minister has already decided to resend Vijayasai Reddy to the upper house. Keeping various equations in mind, Jagan Mohan Reddy is contemplating to accommodate Chiranjeevi in the Rajya Sabha to attract Kapu community towards YSRC. This will help the CM further decrease the impact of Jana Sena in the 2024 elections.

Telugu Desam chief N. Chandrababu Naidu on Tuesday said multiple failures of Jagan Mohan Reddy government need to be exposed, including its failure in containing Coronavirus pandemic.

Addressing a meeting of key party leaders and assembly constituency in-charges, he accused the YSRC regime of not carrying out Covid-19 vaccinations properly. This was evident from how AP government did

not vaccinate people for over seven days, but attempted to cover up its failure by holding a single-day inoculation programme.

Naidu described Chief Minister Y.S. Jagan Mohan Reddy as "fake CM", who is trying to divert public attention from his failures by spending hundreds of crores on false publicity campaigns.

He accused the state government of committing irregularities in Group-1 jobs without protecting the interests

of genuine candidates. Expressing concern over the future of youth, the TDP chief said the current government is incapable of attracting industries and create jobs for the unemployed. He charged that there is wholesale corruption going on in the state, where sand, soil, liquor and mining mafias are ruling the roost.

Naidu said in reality, revenues of AP have gone down drastically, while income of YSRC leaders has increased multiple times.

are tracing the whereabouts of old offenders including the 'blade batch' that used to wander along the banks of Krishna during night hours.

The police installed a picket at Seethanagaram Pushkar Ghat and arranged lighting as a preventive step. According to the sources, two culprits belonging to Seethanagaram are involved in the rape incident.

AP hails historic verdict
on Vamsadhara disputeDC CORRESPONDENT

Chief Minister Y.S. Jagan Mohan Reddy has welcomed the judgement of Vamsadhara Tribunal permitting Andhra Pradesh to construct Neradi barrage across the Vamsadhara river and directed the officials to focus on the construction of the barrage once the gazette is released.

The Chief Minister instructed the officials to prepare an action plan for the construction. He said the judgement would be beneficial to both Andhra Pradesh and Odisha states. He would invite Odisha Chief Minister and other public representatives for the foundation ceremony of the barrage. He said the policy of Andhra Pradesh government is to move forward with mutual cooperation.

Vamsadhara is a 254-km river that originates in the Kalahandi district of Odisha and gets drained in the Bay of Bengal at Kalingsapatnam in Andhra Pradesh. Of the 265-km stretch of the river, it flows for 154 km in Odisha, forms the border between two states for 29 km, and completes the remaining 82 km stretch in AP. It receives an average rainfall of 1,400mm of which an estimated 115 tmcft water is available for use. Under an agreement between the two states, the water is used by the two states on 50:50 basis.

The AP government in order to utilise its share of water proposed to construct Gotta reservoir and Neradi barrage. Gotta barrage was completed in 1977. Neradi barrage was pro-

CM to lay stone for
Neradi barrage soonDC CORRESPONDENT
VISAKHAPATNAM, JUNE 22

The Minister for Animal Husbandry and Fisheries, Seediri Appalaraju, said Chief Minister Y.S. Jagan Mohan Reddy would soon lay the foundation for the Neradi barrage.

Speaking to the reporters after participating in the CM's video conference on the second phase of YSR Cheyutha in Srikakulam on Tuesday, he said all the obstacles were cleared and the second phase of Vamsadhara project would be completed soon. He said it was good that the tribunal allowed the construction of head sluice to the right of the barrage that would benefit the state in getting 8,000 cusecs. "The district will turn green with the tribunal allowing AP to draw water from June 1 till November end," the minister said. He said the CM fulfilled the dream of late CM Y.S. Rajasekhara Reddy who initiated the

Polavaram project. Now the Vamsadhara project would be another feather in his cap.

Answering a question on the irregularities in sanctioning of Matyakara Bharosa scheme in Sompeta and other mandals, he said he asked the officials concerned to conduct a probe into the irregularities. He said under the third phase of Bharosa, 1.19 lakh fishers benefited in the state. Names of another 23,000 could not be incorporated due to technical problems.

Meanwhile, Speaker Tammineni Sitaram welcomed the tribunal decision to allow the state to build Neradi Barrage in Srikakulam district. He said the water stored in the barrage can be supplied to Singidi and Parapuram balancing reservoirs. In case of drought, the water from Neradi could be pumped to Gotta barrage by which every cent of land would get water throughout.

posed to be constructed 48 km upstream of the Gotta barrage. But as the proposed project will submerge parts of farmland on the eastern bank of the river, Odisha raised objections.

As an attempt to resolve the issue, the two states tried to resort to mutual discussions that lasted over five decades. But as these

discussions were fruitless, Odisha demanded a tribunal to resolve the matter. It filed a complaint against AP in the tribunal and the tribunal gave its verdict in favour of AP towards the construction of Neradi Barrage, which has come as a big relief to the Jagan Mohan Reddy government.

'Naidu making it
Reddys Vs Rajus'DC CORRESPONDENT
VIJAYAWADA, JUNE 22

The minister for housing, Ch. Sriranganatha Raju, has refuted the allegations of TD chief N. Chandrababu Naidu in the MANSAS trust issue and alleged that Naidu is trying to create differences in the name of caste, provoking Kshatriya community with false propaganda.

Addressing a press meet here on Tuesday, the minister lashed out at the opposition leader for conspiring to create rift among castes in the state. He said that Naidu had been trying to portray that there were conflicts between Reddy and Raju communities and using YSRC rebel MP K. Raghuram Raju for it.

He flayed Naidu for writing a letter on behalf of Kshatriyas without mentioning any name on it claiming that the feelings of Kshatriyas were hurt in

issues related to MANSAS trust. He urged Naidu not to create a rift among Kshatriya community for his vested interests.

Raju said Naidu used the classification of Dalits issue for creating rifts among Dalits and also created rifts between BC communities and Kapus by promising that the latter would be recognised as BCs in the past. He further said that in the present, Naidu was trying to drive a wedge between Reddy and Kamma communities and added that he was also using Ramakrishna Raju to create conflicts between the Reddy and the Raju communities.

He slammed the YSRC rebel MP for not visiting his constituency for the last 15 months and said he had been staying in Delhi and Hyderabad and criticising the government unnecessarily for his personal interests.

against 2 IPS officialsDC CORRESPONDENT
VIJAYAWADA, JUNE 22

Telugu Desam national general secretary Varla Ramaiah has appealed to Governor Biswabhusan Harichandan on Tuesday to take immediate action against two top police officials in the state for "undermining the Constitution by their objectionable activities."

"AP CID additional DG Sunil Kumar and Krishna district ASP Moka Satti Babu are making statements in praise of divisive activities," Ramaiah said in a letter to the governor here.

Ramaiah said there is the need for filing a sedition case so as to prevent these senior cops from carrying out activities aimed at "inciting" dalits. Ramaiah said Sunil Kumar has set up an organisation called Ambedkar India Mission (AIM) and is carrying out "divisive activities" under the banner of AIM.

The TD leader said that in one of the meetings of the AIM organised by Sunil Kumar, some unethical comments had been passed by Moka Satti Babu in support of terrorists. "He drew the example of terrorists that

hit the twin towers in the US with an aeroplane and asked the youth here to have such a sense of commitment to their causes. 'Only a commitment to die, parallel to that of a terrorist, will help', he had said."

Similarly, a statement by Sunil Kumar that the British brought education and health to the dalits has undermined the Constitution. Such statements misled the youth in general and Dalits in particular on the vision of Dr Ambedkar and his struggle for the uplift of the deprived sections of the society, the TD leader said.

Ramaiah asserted that the above statements by the police officers could attract Sections 124A, 153A and 295A of the IPC. Also, the two officers violated Rules 3(2)(i),(ii),(vi) & (x), 5, 7 and 13(2) of the All India Service (Conduct) Rules, 1968.

Ramaiah told the governor that, in this backdrop, an appeal was submitted on June 17 to state DGP to initiate action but in vain. He urged the Governor to direct the DGP for appropriate action against the two police officers.

VISAKHAPATNAM, JUNE 22

The Visakhapatnam police arrested one person and looking for another who threatened a victim at knife point and injured him and robbed his car.

The arrested was identified as Bevara Venkatesh (34), a resident of Madhurawada area in Vizag city while the other was N. Gowri Shankar, a resident of Peda Waltari area in Vizag city who is still absconding.

DCP (Crimes) V. Suresh Babu said that B. Sandeep Kumar, who has been staying in Qatar, gave a loan of Rs 78,000 to Ravuri Enosh Joseph, a native of Daspalla Hills area in Vizag city. Kumar asked his friends Bevara Venkatesh and N. Gowri Shankar to collect the money from Joseph.

The duo went to Joseph and threatened him with a knife. They took his car and two mobile phones on Monday.

Based on a complaint from Joseph, the Three-Town police registered a case and nabbed Bevara Venkatesh and recovered a Hyundai car and one mobile phone from him.

The police also launched a manhunt for Gowri Shankar, the other accused.

THOTA THANKS CM
FOR MLC POST
DESPITE CHARGESDC CORRESPONDENT
KAKINADA, JUNE 22

New MLC Thota Trimurthulu has thanked Chief Minister Jagannathan Reddy for giving him the post despite strong objections from many quarters over allegations that he had indulged in criminal acts.

The former MLA who was sworn in as MLC a day ago returned to Mandapeta on Tuesday to a warm welcome by his followers. He told the media that, faced with complaints, Jagan convinced the governor that his MLC post was justified.

“Jagan now gave me the YSRC party responsibility for Mandapeta constituency that was won by TD candidate Vegulla Jogeswar Rao.

I will ensure the victory of YSRC in the constituency whenever the next election is held,” he said.

Trimurthulu was taken in a convoy of cars by his followers and YSRC cadre from Vijayawada to Mandapeta and Ramachandrapuram. Flower petals were showered on him through the journey at Eluru, Ravulapalem etc.

A flower nursery farmer had supplied six tonnes of flowers for this purpose, it is learnt.

FORWARD BLOC
SAYS THOTA NOT
FIT TO BE MLCDC CORRESPONDENT
KAKINADA, JUNE 22

Meanwhile, the All India Forward Bloc (AIFB) East Godavari unit expressed concern over YSRC giving the MLC post to Trimurthulu.

Forward Bloc's 82nd Foundation Day celebrations were held here on Tuesday, chaired by its leader K Chittibabu. Chittababu said criminal cases are pending against Trimurthulu, linked to dalit atrocity, like tonsuring the head of some Schedule Caste youths in Venkatayapalem village.

The CM should not have given the MLC post to Trimurthulu until he got out of the case, he said.

The FB also urged the state government to abolish GO MS No. 267/2019 and 488/2019, which cancelled the reservations in allotment of housing to SC, ST, BC and Minorities. The Bloc pleaded that 50 per cent of the house sites should be allocated to SCs and STs.

Covid help, guidance
just a call away in AP

As many as 5,217 doctors working with 104 call centre

DC CORRESPONDENT
VIJAYAWADA, JUNE 22

The 104 Covid call centre helps people get Coronavirus treatment and facilitates tele-consultations in the 13 districts of the state. As many 5,267 doctors are on the network of the 104 Tele Consultation centre. They include 1,017 specialist doctors.

The call centre came in handy during the Covid second wave to address health issues related to the Coronavirus.

According to officials, a unit of it was set up on April 16 at HCL campus, Gannavaram, and on May 13 another was set up at APIIC Building,

● **1,389 calls** were attended by the call centre from Monday 4 pm to Tuesday 4 pm by 333 staff including 27 doctors working in 3 shifts at both HCL and APIIC campuses. Calls include 125 test results, 5 registrations, 165 vaccine calls, 4 CVC location calls, 191 Covid test calls, 798 Covid information calls.

Mangalagiri, to take appropriate measures to handle the evolving situation in the state that yielded good results.

As per the state details disclosed by the Covid command control centre 1,389 calls were attended by the call centre from Monday 4 pm to Tuesday 4 pm by 333 staff including 27 doctors working in 3 shifts at both HCL and APIIC campuses.

The calls include 125 test results, 5 registrations,

165 vaccine calls, 4 CVC location calls, 191 Covid test calls, 798 Covid information calls and 101 hospital admission calls.

In all, a total of 5,15,982 calls were processed by the call centre since April 1. It includes 71,523 calls for test results, 27,146 for vaccine, 2,941 for CVC location, 1,05,814 for Covid tests, 2,10,372 for Covid information and 93,412 for the hospital admissions. Doctors were hired to con-

duct remote tele consultation and evaluate 104 callers for Covid-19 symptoms, to do virtual triaging and provide advice on the further course of action such as testing, medical advice with or without prescription and hospital admission etc. Training was provided on Covid 19 protocols to all doctors and the 104 Tele Consultation mobile application was also provided to all the doctors.

A total of 18,563 patients spoke to the doctors through the tele consultation under various categories up to 4 pm on June 21 and cumulatively 8,20,051 calls were made to patients so far since May 1.

We say no to violence
against women: ExpertKANIZA GARARI I DC
HYDERABAD, JUNE 22

Dr S. Shantha Kumari, a senior gynaecologist hailing from Telangana state, will take over the post of president of the Federation of Obstetric and Gynaecological Society of India (FOGSI) on June 27.

Dr Kumari will be the first president of the society from both the Telugu states. She has completed her MBBS at Gandhi Medical College and specialised in Obstetrics and Gynaecology at Kasturba Medical College in Manipal. She is attached with Yashoda Hospitals in Hyderabad.

She is the 60th president of FOGSI and the event will be held in HICC, Hyderabad. In an interview with this newspaper, Dr Kumari explains the need for gynaecologists to be socially involved in women's issues and a strategic role that they can play.

Q. *What efforts made you realise that gynaecologists can be a part*

Dr Shantha Kumari

of addressing women's issues?

In 2015, I was in the working committee of the International Federation of Gynaecology and Obstetrics and realised that gynaecologists could play an important role in saying no to violence against women.

Gynaecologists are the point of contact for women and their families and we are against any violence on women. It was decided to sensitise the medical fraternity and that is how project Dheera was shaped. It is an ongoing project and we have created awareness through cyclathon, street plays, bikeathon, marches, flash mobs, posters and also used our resources to sensitise families.

Q. *How are you looking at your tenure in the ongoing pandemic?*

We have collaborated with World Health Organisation, UNICEF and other agencies where the focus will be on respectful abortion care, reducing stillbirth, nutrition and reducing maternal mortality. There are many events which we are planning online and offline keeping the pandemic in mind.

Q. *How many women were able to reach out online during this pandemic?*

There have been challenges but the hospitals for women are operating 24/7. We are looking at shaping our programmes, keeping the pandemic in mind. Hence there will be online and offline events with the focus on overall improvement of women's health, both medical and social.

3 Missing children found
dead in village tankDC CORRESPONDENT
VIJAYAWADA, JUNE 22

Three children belong to two families who went missing on Monday were found dead in a local water tank in Eedara village in Agiripalli mandal in Krishna district on Tuesday.

Kagga Sasank, 11, Kagga Chandrika, 9, daughters of Kagga Jyothi and Kagga Murali, and another child G. Jagadish, a son of Pagidamma, drowned in the tank.

According to Agiripalli police, the three went missing from their homes on

● **Entire village** was plunged in shock following the tragic death of little children. Agiripalli police collected the CCTV footage and are investigating.

Monday afternoon. After the parents lodged a complaint, the police suspected that Murali, the estranged husband of Jyothi, could have kidnapped the children and started their probe in that direction. Murali separated from his wife and lives in Vijayawada. Jyothi lives in the village along with her children.

The police, parents and local villagers searched intensively for the missing children but in vain. Later, on Tuesday, the locals found the bodies in the tank and informed the parents. The bodies were identified by the shocked mothers Jyothi and Pagidamma. The entire village was plunged in shock following the tragic death of little children. Agiripalli police collected the CCTV footage and are investigating. The villagers suspect the children went to water tank to swim in it and drowned by accident.

Vizag district gets
two aqua hubsDC CORRESPONDENT
VISAKHAPATNAM, JUNE 22

Visakhapatnam district has been allocated to operate two aqua hubs, said a release from fisheries department on Tuesday. An official from the department said 100 aqua hubs were sanctioned for the entire state of which 25 would be grounded in the first phase. The idea of these hubs is to increase the per capita consumption of fish products.

The hubs would sell value added fish products of various types and ready-to-eat dishes at the kiosks and mini outlets.

Each hub is designed at a cost of ₹1 crore.

The official said along with consumption, production would also be increased to meet the demand that

would create additional employment. A website would also be launched soon to facilitate online fresh and ready to eat products. They would be delivered at home on the lines of other foods.

He said two hubs have been sanctioned for Visakhapatnam and each would cost around Rs 1 crore.

In addition, ten live fish stationery vending machines each costing ₹20 lakh, two insulated vehicles each costing Rs 20 lakh, 10 kiosks each costing Rs 10 lakh and two rickshaws each costing Rs 3 lakh have been sanctioned.

He said women and SC, ST category beneficiaries would get a subsidy of 60 percent and general category 40 per cent on each aqua hub.

2.25 L women in
EG get CheyuthaDC CORRESPONDENT
KAKINADA, JUNE 22

As many as 2,25,789 women in the age group of 45-60 years belonging to Schedule Castes, Schedule Tribes, Backward Classes and minority communities in East Godavari district have received a total benefit of Rs 423.35 crore under the YSR Cheyutha scheme the second tranche of which was launched by Chief Minister Y.S. Jagan Mohan Reddy from Tadepalli on Tuesday.

District Collector D. Muralidhar Reddy said that each woman beneficiary

gets Rs 18,750 per annum and there were 60,858 beneficiaries of SC, 12,129 STs and 3,707 minorities and 1,49,095 belonging to Backward Classes. He suggested the benefits be utilised for various businesses such as kirana, dairy and other units for their financial empowerment. He said that for the empowerment, the government reached MoUs with Amul, Reliance, P&G and other firms. Kakinada MP Vanga Gita, MLC Pandula Ravindrababu, Joint Collector (Welfare) G. Rajakumari and others were present.

Diesel stolen, RTC
buses stop midwayDC CORRESPONDENT
KAKINADA, JUNE 22

Miscreants have stolen 234 litres of diesel from two RTC buses at Ravulapalem depot on Monday night and the depot manager, T. Ajitha Kumari, lodged a complaint with Ravulapalem police on Tuesday. Ravulapalem ST P.

Bujjibabu visited the depot and said that diesel worth ₹20,000 was stolen from the buses, though the depot was under the supervision of a special security officer. The RTC buses left the Ravulapalem depot on Tuesday morning, and after going for some distance, they suddenly stopped due to lack of fuel.

220 more beds to
tackle third waveDC CORRESPONDENT
KAKINADA, JUNE 22

Joint Collector (Development) Keerthi Chekuri instructed the Government General Hospital officials here to make arrangements to set up 20 beds with triage and 200 special beds at the paediatric ward and the ICU in view of the impending third wave of the Covid-19. Accompanied by GGH Covid special nodal officer G. Surya Pravin Chand, she reviewed the arrangements for the third wave at GGH on Tuesday. She said that in order to face the challenge of the third wave, all facilities like operation theatre, 'X' Ray machine, Ultrasound machine, paediatric ventilators, ECG equipment and others should be purchased, if necessary.

She said the hospital management can make use of funds from Aarogyasri, hospital CSR funds and Covid-19 accounts. She said though the second wave of Covid-19 was subsiding, the officials should not show negligence and prepare to render good treatment during the third wave.

She informed that 369 Covid active cases and 126 black fungus cases were being treated at the GGH at Kakinada. GGH superintendent Dr R. Mahalakshmi, resident medical officer Dr Giridhar, Dr Anitha, CSR MO Dr Padma Sasidhar and others were present.

School functioned even during time of Covid19

Model school for others

DC CORRESPONDENT
KADAPA, JUNE 22

A single teacher, through his hard work and efficient teaching methods, has turned his school into a model for others in the Kadapa district to follow. So much so, some parents prefer sending their children to this school than the nearby private schools.

Three years ago, the number of students at the Pittikunta Mandal Parishat Primary School in Avadhuta Kashinayana mandal had been mere three. It was in the list of government schools earmarked for closure. Parents preferred sending their kids to private schools in nearby town

of Porumamilla. But everything turned out totally different after Gannapeta Ramanareddy was appointed as teacher at this school for all classes.

His teaching methods are unique, so much so kids studying from class 1 to 5 in this primary school pick up their lessons fast. Ramanareddy teaches English based on lesson from the internet. The other key subject – Mathematics, is taught in a manner that children grasp it easily. Surprisingly, within one month of his appointment, word spread fast and the number of students in the primary school went up to 30.

Six government employees have pulled

out their children from private schools in Porumamilla and admitted them into the Pittikunta school. The school functioned even during times of Coronavirus, with students of one class being educated on a day. Ramanareddy himself bought sanitizers and masks for his students at his own expense.

The popularity of the school increased so much that the strength of students in the school went up to 105. As a result, state government appointed two more teachers to the school. Ramanareddy, from a single-school teacher, has now turned into a headmaster of the school.

Speaking to Deccan

Chronicle, Ramanareddy said currently, there is only one classroom. It would be great if additional rooms are sanctioned. Toilets though have already been sanctioned under the scheme Nadu-Nedu scheme being implemented by the government.

Ramanareddy pointed out that 10 students of the school have been selected for admission into the AP Model School. Some students have also written the National Science Talent Examination. But its results are awaited. He expressed confidence that some of them are quite likely to get scholarships.

MAN DRILLS HOLES IN WALL OF BANK, ROBS OVER ₹55L

New Delhi, June 22: A 34-year-old man was arrested for allegedly burgling over ₹55 lakh after breaking into a bank from an adjoining under-construction building in east Delhi's Farsh Bazar area, police said on Tuesday.

Without knowing about the accused, the bank officials had earlier entrusted him the task of fixing a hole in the wall inside their premises that he had himself drilled for committing the crime, police said.

The accused was wearing a helmet at the time of the burglary to hide his identity, they said. Police also said another person was arrested who received some amount of the stolen money. The two accused men have been identified as Hariram and Kalicharan (39), both residents of Vishwas Nagar, they said.

On Monday around 10.15 am, police received information regarding a burglary in a bank in Vishwas Nagar area.

Police inspected the spot and found that a hole was made in a wall of the server room of the bank from the adjacent under-construction building. Another hole in the wall of a strong room in the basement was made and cash worth ₹55,03,330 was stolen from the vault, a senior police officer said.

SCINDIA DUCKS QUESTIONS ON CABINET INDUCTION

RABINDRA NATH CHOUDHURY | DC BHOPAL, JUNE 22

Amid growing buzz about the possible expansion of Union cabinet ahead of monsoon session of Parliament, BJP leader and Rajya Sabha member Jyotiraditya Scindia on Tuesday ducked the question whether he would be inducted in the Narendra Modi ministry, saying, "I am a *sevak* (servant) (of people)".

Talking to reporters at Shivpuri, nearly 300 km from here, on the sidelines of his visit to the district hospital, Scindia indicated that he was keen to take up issues of people than hold any position.

"I have been serving the people for the last 17 years and I will continue to do so", Scindia said.

Replying to a question if he has changed his style of politics by trying to take his 'rivals' along with him, Scindia who joined BJP after snapping his nearly two decades long ties with Congress in March 2020, said, "I always carry everyone in the party with me".

Scindia was seen visiting local BJP leaders, not known to belong to his camp, in their houses in Gwalior-Chambal region in Madhya Pradesh during his recent visits to the state, generating curiosity among the party workers.

Earlier during his visit to Gwalior, Scindia slammed Congress for demanding to rechristen the formerly princely estate as "Virangana Laxmibai", describing it 'politically motivated'.

ARNAB NAMED IN TRP SCAM CHARGESHEET

SHAHAB ANSARI | DC MUMBAI, JUNE 22

The Mumbai police has named Arnab Goswami, Editor-in-chief of *Republic TV* as an accused in the Television Rating Points (TRP) scam in its supplementary chargesheet.

The chargesheet was submitted before the Esplanade Metropolitan Magistrate's court by the police's Crime Intelligence Unit (CIU), which is conducting investigation into the case.

The police named Goswami and four others from ARG Outlier Media (that owns *Republic TV*) in their 1800 page supplementary charge sheet submitted before the court.

So far the police had chargesheeted 15 people in the case, including former CEO of Broadcast Audience Research Council (BARC) Partho Dasgupta and *Republic TV*'s CEO Vikash Khanchandani.

The alleged fake TRP scam came to light in October last year when the rating agency Broadcast Audience Research Council (BARC) filed a complaint through Hansa Research Group (HRG), alleging that certain television channels were rigging TRP numbers.

Hence the charges invoked on the case relate to cheating, forgery, criminal conspiracy etc.

90% of deaths in 2nd wave were needless, says Rahul

Rahul releases white paper, says Modi's tears can not wipe families' tears

DC CORRESPONDENT NEW DELHI, JUNE 22

The Congress on Tuesday released a white paper on the Covid-19 and its impact on India. Releasing the document, Congress leader Rahul Gandhi accused the government of having failed to prevent the second wave and warning that the third wave was impending. He said that 90 per cent of Covid-19 deaths in the second wave were "needless".

Attacking Prime Minister Narendra Modi he said, "90 per cent of people who died (in the second wave) could have been saved. Biggest reason (they died) was lack of oxygen. PM's tears can't wipe families' tears... his tears can't save them, oxygen can. But he didn't take it seriously as his focus was on Bengal (elections)," He demanded a

A health worker escorts an elderly woman to receive a dose of Covid-19 vaccine at a vaccination centre in Thiruvananthapuram on Tuesday.

— PTI

commission to look into "what went wrong" in the government's strategy and emphasised that a Covid-19 compensation fund must be created to help families who lost their bread-earners.

Gandhi said consultations with experts had yielded a four-pronged approach or four pillars. "Central pillar is vaccination. It is very important we have aggressive, 100 per cent vaccination," he

said.

The second pillar, he said, is to ensure adequate numbers of hospital beds and medical resources, including oxygen (and oxygen plants), medicines and equipment like ventilators.

On the question of pace of vaccination Gandhi did have praise for the government, after a record 86.16 lakh vaccine doses were administered on Monday he appreciated the work and said, "Yes... good work happened yesterday, but the government has to make this process work not just for one day but every day... until we've vaccinated our whole population," he stressed, adding, "The government must not view states as BJP-ruled or opposition states. There must be no bias."

After releasing the white paper Rahul Gandhi maintained that the intention

was not to point fingers but help India tackle the third wave.

He added, "The government should not repeat the mistakes it did in the first and second waves. It should be ready with infrastructure to tackle the third wave." Reacting to the Centre's plea in the Supreme Court that it doesn't have money to compensate for Covid-19 deaths, Gandhi said the government must announce a compensation package for the poor. An economic assistance process is also a significant part of the white paper published on Tuesday by the Congress.

He said, "Covid is an economic and social disease too. We have given NYAY concept...if PM doesn't like the name he can change it but the aim is to have money reach the poor people."

'Delta Plus' found making inroads

VINEETA PANDEY | DC NEW DELHI, JUNE 22

Just as it was recovering from the sting of the mutated "Delta" variant of SARS-Cov-2, another mutated variant of the virus — "Delta Plus" — has been found to be making inroads in India. So far 22 cases of the "Delta Plus" variant have been found in genome sequenced samples from Maharashtra's Ratnagiri and Jalgaon; Palakkad and Pathanamthitta in Kerala; and Bhopal and Shivpuri districts of Madhya Pradesh. Maharashtra alone has 16 of these cases which the Union health secretary Rajesh Bhushan said is a "variant of concern."

However, sources in government said these numbers of Delta Plus cases are higher than 22 as some other states too are having infections of 'Delta Plus'.

They added that the only thing is that in MP, Maharashtra and Kerala these cases are found in clusters.

INSACOG, a consortium of 28 laboratories of the government, has informed that the Delta Plus Variant, currently a Variant of Concern (VOC), has the certain

characteristics like increased transmissibility, stronger binding to receptors of lung cells and potential reduction in monoclonal antibody response.

The 'Delta Plus' mutant has in total been found in nine countries — India, the United States of America, the United Kingdom, Portugal, Switzerland, Japan, Poland, China and Russia. The 'Delta' variant is now in 80 countries.

"Based on the recent findings of INSACOG, the Union health ministry has alerted and advised Maharashtra, Kerala and Madhya Pradesh regarding the Delta Plus variant of Covid-19 being found in some districts in these States. The Centre has sent an advisory to these states today explaining what kind of public health response should initiate to address this issue which presently looks fairly small in terms of numbers. But we would not like these to assume significant proportions and take a bigger form," said Bhushan.

He added genome sequencing of 45,000 samples has been done so far and the scientists are constantly monitoring the virus and its mutations.

Odisha: Vaccine certificate must

AKSHAYA KUMAR SAHOO | DC BHUBANESWAR, JUNE 22

As part of its preventive measures against Covid-19, Odisha's Ganjam district administration on Tuesday advised all shopkeepers, vendors and other retailers to display their vaccination certificate in front of their shops.

District collector Vijay Amruta Kulange said the initiative would be helpful in checking transmission of the deadly virus and create confidence among the customers. He cautioned that enforcement will keep a strict vigil on implementation of the order.

"We request all shopkeepers, vendors and other professionals to display Covid vaccination

certificates (single/final dose) in front of their shops. It will create confidence among customers and help stop infections. It will be checked by the enforcement team," the Collector said.

Meanwhile, Lord Jagannath's Snana Yatra or bathing ceremony, an important ritual that precedes the annual Car Festival of the deity at Odisha's Puri, will this year be performed without congregation of devotees to avoid the possibility of Coronavirus infection.

On Tuesday, Puri district administration imposed prohibitory orders under Section 144 of the Code of Criminal Procedure (CrPC) in the city, asking the devotees not to visit the place on the Snana Yatra day.

CLASS XII EXAM STAY CANCELLED, REITERATES SC

PARMOD KUMAR | DC NEW DELHI, JUNE 22

The Supreme Court on Tuesday declined petitions challenging the Central Board of Secondary Education (CBSE) and Indian Certificate of Secondary Education (ICSE) decision to cancel XII standard board examination while upholding the evaluation scheme framed by two boards for allocating marks to the students who were to appear in the cancelled exams.

The court said that the University Grant Commission will not commence the admission process in the universities and colleges till results by all the boards are declared.

"We hold that there is no need to interfere with the scheme propounded by CBSE/ICSE. It takes into account the concerns of all students" said a bench comprising Justice A.M. Khanwilkar and Justice Dinesh Maheshwari further said that, "Boards have decided to cancel exams in larger public interest. The policy adopted by CBSE was adopted by an expert body of 13 experts." Having endorsed the evaluation scheme of two boards, the court rejected the plea that the students should be permitted to exercise the option at the beginning itself whether they wanted marks on the basis of the assessments of their performance in X, XI and XII (unit, mid-term and pre-board) standard examinations or they want to appear and write exams in physical conduct of examinations.

Former CM Badal questioned by SIT

Chandigarh, June 22: Former Punjab chief minister Parkash Singh Badal was on Tuesday questioned at his official residence here by the SIT probing the 2015 Kotkapura police firing incident in Faridkot.

The Punjab Police Special Investigation Team (SIT) reached Badal's Sector 4 MLA flat and questioned him for nearly two-and-a-half hours.

The Punjab government had formed the new SIT led by additional director general of police L.K. Yadav to probe the Kotkapura police firing incident following the directions of the Punjab and Haryana High Court.

Senior SAD leaders including Maheshinder Singh Grewal, Prem Singh Chandumajra, Daljit Singh Cheema, besides SGPC chief Jagir Kaur were present at Badal's residence.

Addressing the media,

the SAD leaders said Badal cooperated with the SIT, like he had done when a previous investigation team had questioned him two years ago.

They said that at the time of the previous SIT, whose report was quashed by the Punjab and Haryana High Court, the investigations were conducted in a politically motivated manner and even now the agenda was allegedly politically driven.

The SIT had rescheduled the questioning after the 93-year-old Badal had expressed his inability to appear before it at a rest house in Mohali on June 16, saying he is not keeping good health. Still not in good health, Badal, however, is keen to fulfil his legal and constitutional duties as a law abiding citizen of the country, Harcharan Bains, principal adviser to SAD president Sukhbir Badal, said. — PTI

Bengaluru, June 22:

Karnataka Chief Minister B.S. Yediyurappa on Tuesday said the government will consider opening higher educational institutions in a phased manner after vaccinating students and teachers, following recommendations from the Dr Devi Shetty-led expert committee on possible Covid-19 third wave.

He said the committee has advised accelerating vaccinations as vaccines are the solution for Covid control.

"The committee has supported the relaxations in Covid curbs announced by the government, and have suggested opening up educational institutions in the days to come, starting with higher education colleges, after vaccinating," Yediyurappa said.

Speaking to reporters after meeting with the committee, he said with

● **NO DISCUSSION** has been taken with regard to opening schools as those below 18-years are not yet vaccinated.

regard to opening schools and colleges, the committee has suggested giving priority to students and teachers in vaccination, to start classes in a phased manner by reopening colleges for students above 18 years to begin with, after vaccinating them.

"The government is considering opening higher educational institutions in a phased manner after vaccinating students and teachers," the Chief Minister said in response to a question.

No discussion has been taken with regard to opening schools as those below 18-years are not yet vaccinated, and clinical trials are on to vaccinate them.

The Karnataka government had recently constituted a 13-member expert committee headed by eminent cardiologist and founder of Narayana Health Dr Devi Shetty to analyse and advise to control a possible third Covid-19 wave in Karnataka.

The committee met the Chief Minister on Tuesday and submitted an interim report.

"We have had detailed discussions regarding preparations for the Covid third wave. It is being said that children will be infected in a bigger number during the third wave and in this backdrop the committee has made some recommendations," Yediyurappa said.

Listing some recommendations made by the committee, the Chief Minister said, it has asked for setting up of HDU, ICU units for children at taluk and

district hospitals and also at medical college hospitals, and to set up children hospitals.

The committee has given some suggestions aimed at securing human and financial resources and to get help from experts to control the third wave, he said. They include getting help from various medical organisations, resolving the shortage of doctors and nurses, getting support from voluntary organisations, resource mobilisation with the help of corporate bodies, and most importantly public participation.

Noting that the committee has suggested giving priority towards getting rid of malnutrition, the CM said it has suggested providing psychiatric service at every hospital aimed at increasing the morale of children infected by Covid. — PTI

NEW | METHODS

The decision sparks sharp reaction from IMA-U'khand unit, terms it 'illegal'

U'khand ayurvedic docs can prescribe Allopathy

Dehradun, June 22: The ayurveda-versus-allopathy debate has taken a new turn with the Uttarakhand government deciding to allow ayurvedic doctors to prescribe select allopathic medicines to patients in emergencies.

Making the announcement on the sidelines of a programme to mark the International Day for Yoga at the Uttarakhand Ayurvedic University here on Monday, Ayush Minister Harak Singh Rawat said the decision

was taken for the benefit of the people living in the state's remote hill areas, where the primary health centres mostly have ayurvedic doctors.

There are around 800 ayurvedic doctors in Uttarakhand and as many ayurvedic dispensaries, of which 90 per cent are located in the remote hill areas, he said.

The decision, which requires changes in the Uttar Pradesh Bharatiya Chikitsa Adhiniyam, will help people living in the

● **THERE ARE** around 800 ayurvedic doctors in Uttarakhand and as many ayurvedic dispensaries.

disaster and accident prone hill areas who are deprived of proper healthcare facilities, the minister said.

However, the announcement sparked a sharp reaction from the Indian Medical Association (IMA), Uttarakhand, which termed it "illegal". "It is illegal and falls into

the category of mixopathy," IMA, Uttarakhand secretary Ajay Khanna said.

"Mixopathy will only harm patients in an emergency. The Supreme Court and the high courts are very clear on this. Ayurvedic doctors cannot practise allopathy as they are not qualified for it," he said.

"How can ayurvedic doctors prescribe allopathic medicines without knowing about allopathy?" Khanna asked.

However, Bharatiya Chikitsa Parishad, Uttarakhand vice president and senior physician J.N. Nautiyal welcomed the decision, saying 80 per cent of the state's population, which is deprived of healthcare facilities, is going to benefit immensely from it.

On the IMA's reaction to the announcement, Nautiyal said, "The IMA has double standards. Ayush doctors work in the ICUs and emergency wards of hospitals. The IMA has no

problem with that. But now, when something is going to benefit such a large number of people in the hills, they have a problem." The ayurveda-versus-allopathy debate began in the country last month when Ramdev questioned the efficacy of allopathic drugs in the treatment of Covid, prompting the IMA's Uttarakhand unit to serve a defamation notice to the yoga exponent and demand a compensation of ₹1,000 crore from him. — PTI

SHORT TAKES

JUDGE DISMISSES
BID TO LOCK UP
FUJIMORI

Lima, June 22: A Peruvian judge on Monday dismissed a prosecutor's request for the detention of corruption-accused presidential hopeful Keiko Fujimori while the country awaits the outcome of June 6 elections in which she vied for the top job.

Fujimori, who narrowly trails leftist rival Pedro Castillo according to the unconfirmed vote count, risks an imminent corruption trial if she loses the race. If she wins, it will be delayed until after her term.

Fujimori has already spent 16 months in pre-trial detention on charges of taking money from scandal-tainted Brazilian construction giant Odebrecht to fund failed presidential bids in 2011 and 2016.

SARKOZY FACES
JAIL TERM IN POLL
FINANCING TRIAL

Paris, June 22: The trial of former French President Nicolas Sarkozy concludes Tuesday in Paris, after a month during which the court sought to determine whether he broke laws on campaign financing in his unsuccessful 2012 re-election bid.

The verdict is expected to be rendered at a later date. Prosecutors have requested a six-month prison term, as well as a six-month suspended sentence and a fine of 3,750 euros (\$4,468). Sarkozy, France's president from 2007 to 2012, denies wrongdoing. He is accused of having spent almost twice the maximum legal amount of 22.5 million euros (\$27.5 million) on the re-election bid that he lost to Socialist Francois Hollande.

THREE, INCLUDING
OFFICER, SUSPECT
KILLED IN DENVER

Arvada (US), June 22: A gunman is believed to have shot and killed an officer and another person in a shopping district in a Denver suburb before being fatally shot by police, authorities said.

An officer responded to a call at 1:15 pm on Monday about a suspicious incident near the library in the city of Arvada, and about 15 minutes later, a 911 call came in about shots fired and the officer hit, Deputy Chief Ed Brady said at a news conference. Another person believed to have been shot by the gunman was taken to a hospital and died, police said. The attacker also was shot and killed. Authorities didn't immediately describe the circumstances of the shooting.

CARCASSES OF
TURTLES ON
LANKA SHORE

Colombo, June 22: Nearly a hundred carcasses of turtles with throat and shell damage, as well as dozens of dead dolphins and a blue whale, have washed ashore in Sri Lanka since a container ship burned and sank, raising fears of a severe marine disaster.

Ecologists believe the deaths were directly caused by the fire and release of hazardous chemicals while the Singapore-flagged X-Press Pearl burned for 12 days and sank last week off Sri Lanka's main port in the capital Colombo.

Government officials, however, said these causes were "provisionally" confirmed and the investigation was continuing. The fire started on the ship on May 20 and dead marine species started washing ashore days later. A ship manifest seen by *The Associated Press* said 81 of the ship's nearly 1,500 containers held "dangerous" goods.

The Sri Lankan navy believes the blaze was caused by its chemical cargo, most of which was destroyed in the fire. But debris, including burned fiberglass and tonnes of plastic pellets have severely polluted the surrounding waters and a long stretch of the island nation's famed beaches. Post-mortem analysis on the carcasses are being performed at five government-run laboratories and separately by the Government Analysts Department, said an official of the wildlife department who spoke on condition of anonymity as the official was not authorised to speak to the media.

Protest rocks Paris

Demonstrators stand on the top of a truck during a rally called by the National Federation of Mines and Energy — General Confederation of Labour (FNME-CGT trade union) — in Paris on Tuesday. The workers are protesting against the Hercule project which is aimed at restructuring the French energy group Engie.

Oli's appointment of
20 ministers quashed

Unconstitutional, rules SC as Nepal's political crisis worsens

Kathmandu, June 22: (PTI) In a major blow to beleaguered Nepal Prime Minister K.P. Sharma Oli, the Supreme Court on Tuesday ruled that the appointment of 20 ministers by him was unconstitutional, invalidating his two recent Cabinet expansions after the dissolution of the House of Representatives.

A division bench of Chief Justice Chandra Shumsher Rana and Justice Prakash Kumar Dhungana ruled that Cabinet expansions after the dissolution of the House were unconstitutional and hence, the ministers cannot discharge their duties, a report in the *Kathmandu Post* said.

Two deputy Prime Ministers, Rajendra Mahata from Janata Samajwadi Party and Raghubir Mahaseth from Oli's CPN-UML were among those who

lost the posts. Mahaseth was also the Minister for Foreign Affairs. With the order, there are only five ministers left in Oli's Cabinet, including the Prime Minister. The ministers include Deputy Prime Minister and Finance Minister Bishnu Poudel, Education Minister Krishna Gopal Shrestha, Physical Infrastructure Minister Basant Nembang and Law Minister Lilanath Shrestha. The court passed the

judgement on petitions filed on June 7 by six individuals, including senior advocate Dinesh Tripathi, demanding that the Cabinet expansions by the caretaker government of Oli be quashed.

Oli, 69, who is heading a minority government after losing a trust vote in the House last month, expanded his Cabinet on June 10 and June 4, inducting 17 ministers, amid widespread criticism and the ongoing political crisis in the Himalayan nation. Three state ministers were also appointed.

"The Supreme Court has issued an interim order asking not to allow the ministers appointed after the House dissolution to function," said senior advocate Tripathi.

The Supreme Court has cited Article 77 (3) in its ruling to quash the appointments.

It states if the Office of the Prime Minister falls vacant after the prime minister fails to win a vote of confidence or resigns, the same Council of Ministers shall continue to act until another Council of Ministers is constituted, the report said.

The petitioners had argued that since the government has already turned into a caretaker status following the announcement of the elections, the Constitution does not allow such a prime minister to appoint new ministers. The development comes when the Supreme Court is hearing the case regarding the reinstatement of the 275-member House of Representatives, which was dissolved by President Bidya Devi Bhandari on May 22 at the recommendation of Prime Minister Oli.

US chambers seeks to
double H-1B visa quota

Washington, June 22: The powerful US Chambers of Commerce has launched a massive campaign to address the acute shortage of skilled and professional workforce in America, prominent among which includes urging the Biden administration and Congress to double the number of H-1B visas and eliminate per-country quota for the Green Card.

The most sought-after H-1B visa is a non-immigrant visa that allows US companies to employ foreign workers in speciality occupations that require theoretical or technical expertise. Technology companies depend on it to hire tens of thousands of employees each year from countries like India and China.

The demand to increase the H-1B quota, which currently is at 65,000 and another 20,000 for those who have higher studies from the US, is part of the America Works campaign launched by the US Chambers of Commerce early this month.

We must arm workers with the skills they need, we must remove barriers that are keeping too many Americans on the sidelines, and we must recruit the very best from around the world to help fill high-demand jobs

— SUZANNE CLARK
President, US Chamber of Commerce

"As we stand on the cusp of what could be a great American resurgence, a worker shortage is holding back job creators across the country," US Chamber of Commerce president and CEO Suzanne Clark said.

Through the America Works Agenda, the US Chamber is calling for doubling the cap on employment-based visas, doubling the quota on H-1B and H-2B visas and implementing other reforms to the legal immigration system to help employers meet the demand for high-demand jobs in labour-strapped

sectors.

It is also calling for growing federal investments in employer-led job education and training programmes and expanding access to childcare for working parents.

"We must arm workers with the skills they need, we must remove barriers that are keeping too many Americans on the sidelines, and we must recruit the very best from around the world to help fill high-demand jobs," Clark said.

The Chamber called for changes to be made on the issuance of employment-based immigrant visas including doubling the cap on employment-based immigrant visas from 140,000/year to 280,000/year. Eliminate the practice of counting spouses and minor children under the annual Green Card quota, which, if done alone, would practically double the amount of employment-based immigrant workers our nation admits every year, it said.

— PTI
Eliminate the Per-

Pak won't host US
bases, says Imran

Islamabad, June 22: Prime Minister Imran Khan has ruled out hosting American bases in Pakistan for military action inside war-torn Afghanistan, fearing it might lead to his country being "targeted in revenge attacks" by terrorists.

In an opinion piece in *The Washington Post* newspaper ahead of US President Joe Biden's meeting with top Afghan leaders at the White House later this week, Khan also questioned the efficacy of such US bases in Pakistan. "We simply cannot afford this. We have already paid too heavy a price, Khan said, amid reports that the US continues to focus on Pakistan for a military base in the region.

Elaborating the reasons for not giving the nod to the US to have bases in Pakistan, which were earlier allowed after 9/11 to

coordinate operations in Afghanistan, he said, If Pakistan were to agree to host US bases, from which to bomb Afghanistan, and an Afghan civil war ensued, Pakistan would be targeted for revenge by terrorists again."

According to media reports, the US used the Shamsi air base in Balochistan to carry out drone strikes since 2008 that focused on suspected Al Qaeda operatives in mountainous tribal areas, but also crossed the border into Afghanistan. "If the US, with the most powerful military machine in history, couldn't win the war from inside Afghanistan after 20 years, how would America do it from our bases?" Khan asked.

He, however, underlined that Pakistan and the US have the same interests in Afghanistan: a political settlement, stability, economic development and

Kim Yo Jong

KIM'S SISTER:
NO CHANCE OF
TALKS WITH U.S.

Seoul, June 22: The powerful sister of North Korean leader Kim Jong Un dismissed prospects for an early resumption of diplomacy with the United States, saying Tuesday that US expectations of talks would "plunge them into a greater disappointment." Kim Yo Jong's blunt statement indicates that the diplomatic impasse over North Korea's nuclear programme is likely to continue unless the North suffers greater economic and pandemic-related difficulties, some experts said.

Hope for a restart of nuclear talks flared briefly after Kim Jong Un said last week that his country must be ready for both dialogue and confrontation, though more for confrontation. US National Security adviser Jake Sullivan called Kim's comments an "interesting signal".

On Tuesday, Kim Yo Jong derided Sullivan's response. "It seems that the US may interpret the situation in such a way as to seek a comfort for itself," the official Korean Central News Agency quoted her as saying.

OZ FIGHTS U.N.
DOWNGRADE OF
BARRIER REEF

Canberra, June 22: Australia said Tuesday it will fight against plans to downgrade the Great Barrier Reef's World Heritage status due to climate change, while environmentalists have applauded the UN World Heritage Committee's proposal.

The committee said in a draft report on Monday that "there is no possible doubt" that the network of colourful corals off Australia's northeast coast was "facing ascertained danger". The report recommends that the world's most extensive coral reef ecosystem be added to Unesco's List of World Heritage in Danger, which includes 53 sites, when the World Heritage Committee considers the question in China in July. The listing could shake Australians' confidence in their government's ability to care for the natural wonder and create a role for Unesco Hq in devising so-called "corrective measures", which would include tougher action.

Those refusing vax go to India: Duterte
Deaths in nursing homes up
32% in 2020 amid pandemic

Singapore, June 22: Warning that the second wave of the pandemic would be disastrous for the Philippines, President Rodrigo Duterte has threatened to arrest the Filipinos who don't want to get vaccinated against Covid-19 and asked them to leave and "go to India if you want or somewhere, to America".

Speaking during a pre-recorded televised public address on Monday, Duterte said that the country is facing a national emergency and "we must triple our efforts" to contain the virus, according to media reports from Manila. "Don't get me wrong. There is a crisis being faced in this country. There is a national emergency. If you don't want to get vaccinated, I will have you arrested. And I will inject the vaccine in your butt. You are pests. We are already suffering and you're adding to the burden," Duterte was quoted as saying by *INQUIRER.NET*.

"So all you Filipinos listening, watch out. Don't force my hand into it... I have a strong arm for that.

Washington, June 22: Deaths among Medicare patients in nursing homes soared by 32% last year, with two devastating spikes eight months apart, a government watchdog reported Tuesday in the most comprehensive look yet at the ravages of Covid-19 among its most vulnerable victims.

The report from the inspector general of the Department of Health and Human Services found that about 4 in 10 Medicare recipients in nursing homes had or likely had Covid-19 in 2020, and that deaths overall jumped by

169,291 from the previous year, before the coronavirus appeared.

"We knew this was going to be bad, but I don't think even those of us who work in this area thought it was going to be this bad," said Harvard health policy professor David Grabowski, a nationally recognised expert on long-term care, who reviewed the report for *The Associated Press*.

"This was not individuals who were going to die anyway," Grabowski added. "We are talking about a really big number of excess deaths." Investigators used a generally accep-

Nobody likes it. But if you won't get vaccinated, leave the Philippines. Go to India if you want or somewhere — to America. But as long as you are here and you are a human being that can carry the virus,

get yourself vaccinated," Duterte, known for his flamboyant and controversial remarks, said.

The Philippines is one of the worst-hit countries in South East Asia with more than one million cases and

over 20,000 deaths linked to Covid-19. According to studies cited in local media, more than half of Filipinos are unwilling to get vaccinated against Covid-19 over fears the shots are not safe.

RODENT | SCOURGE

Carcasses, excrement are polluting farmers' water tanks

Oz to evacuate prison after mice attack

Canberra, June 22: A plague of mice that has ravaged vast swathes of eastern Australia has forced the evacuation of a prison while authorities repair air gnawed electrical wiring and clear dead and decaying mice from walls and ceilings.

Around 200 staff and 420 inmates will be transferred from the Wellington Correctional Center in rural New South Wales state to other prisons in the region during the next 10 days

while cleaning and repairs take place, Corrective Services Commissioner Peter Severin said on Tuesday.

"The health, safety and wellbeing of staff and inmates is our No. 1 priority so it's important for us to act now to carry out the vital remediation work," Severin said.

Millions of mice have caused havoc in the grain-growing region of Australia's most populous state for months, devouring crops and haysta-

cks as well as invading homes, businesses, schools, hospitals and prisons.

The most common complaint about the plague is an ever-present stench of mice urine and decaying flesh. People report being bitten by mice in bed.

Mouse carcasses and excrement in roof guttering are polluting farmers' water tanks and causing sickness. The remediation work at the prison will include investigating ways to protect the facility from

future mice plagues, which are a phenomenon largely unique to Australia.

Plagues usually happen when rain follows several years of drought. The current plague is the worst that many can remember in some areas. Severin said the mice infestation was worst in prison buildings that weren't built from concrete.

"The mice have got into... wall cavities, into roof spaces. They're dead

but then they start obviously decaying and then the next problem is mites," Severin told *Australian Broadcasting Corporation*.

Government mouse researcher Steve Henry said mice numbers had begun to plateau as the species always stops breeding during the Southern Hemisphere winter. But numbers could explode again if conditions are right in the spring.

DECCAN Chronicle

23 JUNE 2021

Yes we can: Jab milestone proves poor policy villain

India crossed a new milestone in its vaccination programme against Covid-19 pandemic on Monday when it administered 88.09 lakh doses, a record till now. The day also marks the launch of the revised vaccination policy that provides for the procurement of 75 per cent of the total vaccine available by the Union government for distribution to the states, scrapping the “Liberalised Vaccination Policy” which handed over the responsibility of inoculating people aged between 18 and 44 to the state governments. The government also had dropped its insistence on the people registering themselves on the CoWin app for being eligible for vaccination and instead made walk-ins possible where the health workers would register them. The twin measures would have immensely contributed to the surge in the vaccination numbers. Allegations of some of the BJP-ruled governments having planned the sudden spike notwithstanding, the success of the campaign, in fact, proves the point that India

The success of the campaign proves the point that India has the logistical wherewithal to set higher vaccination targets and meet them and the government's tardy planning was the real villain

has the logistical wherewithal to set higher vaccination targets and meet them and that the government's tardy planning was the real villain.

As it stands today, India has vaccinated about 25 per cent of all its adults with at least one dose of the vaccine; every one in two persons above 45 have also been given at least one dose. Given that India will have to administer 82.1 lakh doses a day if we were to vaccinate all its adults by December 31, 2021, this momentum must be sustained. It is important that the Union government supported the states to maintain the tempo. It may be remembered that several states had to close down the vaccination camps they had opened. It must be

ensured that all the camps are reopened now and that the vaccine supply chain does not suffer for lack of doses.

There are no definite reports about a third wave and who it will impact the most despite experts cautioning of its arrival in 8-12 weeks from now and the need to inoculate children, too. The World Health Organisation has advised all the south Asian countries to rev up the healthcare infrastructure in anticipation of a fresh wave. The WHO advisory should be seen as an endorsement of the demand which experts have been making for some time now about the need to upgrade our systems, especially in the rural areas. The second wave shook the nation by exposing the deep fissures in our healthcare delivery mechanism and their shortcomings, accentuated by an all-pervading ill-preparedness. Far too many precious lives have been lost, that too in tragic situations such as shortage of oxygen and essential drugs. It was not that there were no early warnings but the decision-makers sat on them.

The Union budget for 2021-22 had seen a substantial hike in financial allocation for the health and family welfare ministry — from ₹94,000 crore to ₹2.23 lakh crore. A part of the money is aimed at spending on projects with a span of several years, but the government should consider front-loading it and ensure that we are well-prepared for a third wave.

‘Dream team’ to advise TN govt

The state of Tamil Nadu, piloted by chief minister M.K. Stalin, has drafted a bevy of big name economists in its five-member Economic Advisory Council. Two macroeconomists, two development economists and a former Union finance ministry secretary are in a council that includes the Nobel laureate Ms Esther Duflo, feted for her work in poverty alleviation. The out-of-the-box thinking in putting together such a distinguished panel of honorary advisors upholds the primacy of the power of seasoned professionals to guide the state's overall development.

It is said in jest that an economist is an expert who will know tomorrow why the things he predicted yesterday didn't happen today. And at least two economists were not fully at ease with the larger scheme of things in India where they had major roles as RBI governor and chief economic adviser. The difference could lie in how accepting Tamil Nadu will be in putting into practice the advice on re-floating an economy hit by the pandemic.

Raghuram Rajan had an exceptional record in going against the tide and warning the US of the 2008 subprime crisis while others were busy fuelling what became globally the biggest economic meltdown until the pandemic of 2020. An optimistic surmise is that the highly industrialised state, the second wealthiest in the country in terms of GDP (estimated at \$290 billion in 2020-21), could get very sound advice. The state has also done well in the competitive environment of finding domestic and foreign investment for industry and services.

A reflection of the depth of thinking behind getting the new regime up and running is seen in proposals for an annual budget exclusively for agriculture, a separate ministry for management of water resources and a promise to use data to support decision making, especially in allocating scarce resources among competing claims. How much of financial resources will there be for public spending as the economy reopens may determine outcomes. No one can make water flow uphill but they have shown they are capable of putting thought into action.

Subhani

China is many things, but it's definitely not 'lovable'

Abhijit Bhattacharyya

The apparent recent volte face by Beijing's imperial overlord Xi Jinping, who called for the creation of a fresh, “favourable” image of a “lovable” and “humble” Middle Kingdom reminds one of a popular Bengali saying: “*Bhoote mukhe Ram naam*”. (It is not a translation, but it has some of the same meaning as “the devil quoting scripture”.) The Hindu belief of the absurdity and impossibility of an evil and foul spirit of a dead man remembering Lord Ram, the ultimate in purity and pristine divinity — seen in the context of the People's Republic in relation to the rest of the world — takes the whole scenario into the realm of farce. It can never be!

As long as Beijing and its 1.4 billion-plus population remains under the yoke of Emperor Xi and the ruthless and heartless Communist Party of China, which marks its centenary on July 1, the image of “love and humbleness” will prove elusive. Xi, who has been his nation's paramount leader since 2012 (first as CPC general secretary, then as President), has followed a policy of avoidable aggression against the whole world, including all of China's neighbours such as India, but with little to show for it. This so-called “change of heart” is just a tactical shift, in line with traditional Chinese deception as advocated in Sun Tzu's *Art of War* and Chairman Mao Zedong's *Military Writings*. Xi, like his mentors, tried to deploy the traditional tricks of the Dragon's offensive-defence deceit: “Two steps forward, one step back”.

It will, therefore, be foolhardy to fall for Xi's “charm offensive”; instead, we should study what lies behind the CPC's new strategy. Can China's diplomats and

soldiers truly shed their much-practised “wolf warrior” tactics and turn a new leaf? Unlikely. Playing to the gallery and muttering a few catch words like “lovable” and “humble” can't convert the Han warriors into apostles of love, virtue, piety, piety and mercy as advocated by Lord Buddha or philosopher-king Ashoka's initiative to spread peace, harmony and universal brotherhood after the devastation of Kalinga. Can Xi really spread Buddhism, the religion of peace, with his diplomatic “wolves” across the world? As they say, “charity begins at home”, and so can Beijing's overlord make a start in Xinjiang and Tibet, in Taiwan and Hong Kong, with his new mantra of love and togetherness? Can we see the effects first in the Ladakh Himalayas and as non-Chinese vessels exercise their right of passage through the South China Sea to know that “lovable” China is for real?

To this writer, China's motives and machinations stand brutally exposed due to the Wuhan-origin virus, which has devastated the demography of the entire planet. In all this, it is important to understand the way that some Chinese (Han) people — especially all who belong to the imperial durbar in Beijing and those who take their cues from them — look at the rest of the world. To them, China is the “sole civilisation” and the rest of the world are “barbarians” who are inferior — and thus need to be subjugated. The “barbarians” deserve contempt and should be made to kowtow before the Beijing durbar! Those who can't be bullied should be conquered with cash, backed up by the PLA's ever-expanding forces on land, sea and cyberspace — with its troll army spreading

its tentacles. The aim is to buy up every possible strategic asset overseas, by resorting to hostile takeovers of foreign tech companies, luring foreign politicians with cash or kind and manipulating the media by any or every means to build the image of the “lovable” Chinese.

A single country's example will demonstrate this. The United Kingdom is a particular target of the CPC's unwelcome attention, mainly due to its colonial history with a much-weakened Middle Kingdom — the Opium War (1839-1842), the retention of Hong Kong by London as a coveted commercial base up to 1997, the loot of the Chinese Emperor's Summer Palace (1860) by British forces (which included a fair number of Indian soldiers), and the loss of almost all Chinese ports to the combined might of the West and Japan's subjugation of Chinese territory in the early twentieth century. Britain's strategic assets are thus a prime target for the CPC (like the “Carthage must be destroyed” psyche) for long.

Little wonder then that a top UK daily flagged in May 2021: “How China is buying Britain”. It showed how Chinese investors amassed a portfolio of UK businesses, infrastructure, property, and other assets worth nearly 135 billion pounds, almost twice as previously suspected. What shook the British establishment was the “swift and largely unnoticed buying spree which included purchases worth at least 44 billion pounds by Chinese state-owned-enterprises, linked to the PLA or CPC, or both. Alarmingly, over 80 of the 200 Chinese investments uncovered were since

The CPC's economic/commercial invasion of London is a clear warning. ‘The Chinese are coming’ is no longer a slogan, what is real is that the ‘Chinese have come to corner all’.

2019, a time when London-Beijing ties started growing tense. Wasn't that a “hostile takeover bid”? These included critical British infrastructure providers like Thames Water, UK Power Networks, Heathrow Airport; in addition to shares in FTSE, 100 companies, prime property in London and at least 17 private schools. *New Statesman* reported in July 2020: “Weak rules allowed China to acquire significant stakes in British nuclear power, oil, steel, water, and transport.” In a classic reversal of historical forces, the “East Asian Company of China” was taking revenge on the old “East India Company” of our history books.

The CPC's economic/commercial invasion of London is a clear warning. “The Chinese are coming” is no longer a slogan, what is real is that the “Chinese have come to corner all”. All nations in the world should heed the danger signs — because the threat is real. And many have begun to wake up and started taking steps to protect themselves from the “China virus” in virtually every sector — from health to hydrology, commerce, industry, technology, and much more. The “total war” has begun, and it's not the way the CPC had envisaged. The Belt and Road Initiative is no longer looking so attractive to foreigners, and many are challenging the Chinese, posing a serious threat to the CPC overlord's grand plans. Hence his call to his minions to make China a “lovable” nation!

Post-script: As Xi's New Delhi ambassador Su Weidong urged India — “Let's cooperate, not confront each other” — came some other news: In one, “Chinese scam cheats 5 lakh Indians of crores”; and in another, “Dangerous Chinese spy-cum-criminal caught on India-Bangla border”. Are these the actions of a “lovable” country?

The writer is a Supreme Court advocate. The views expressed here are personal.

LETTERS

MANGO GLUT

Due to consumer resistance, lack of cold storage facilities and perishable nature of fruits, distressed farmers get rid of them at unremunerative prices or leave it to rot. Government must look into this annual loss.

Parthasarathy Mandadi
Tirupati

HOSPITALS

This is another googy by the Chief Minister Y.S. Jagan Mohan Reddy if it can hit the target (*CM: Govt hosps to match put hosps in service quality, June 22*). It's a very coveted but an ambitious mirage-like picture for the hospitals — looking at the present scenario of inadequacies in all areas of hospital management to meet the quality standards of a corporate hospital. If Jagan is really serious, he must set up a task force dedicated entirely for this purpose with adequate financial powers.

K. Nehru Patnaik
Visakhapatnam

THIRD FRONT

While launching the Rashtra Manch in January 2018, Yashwant Sinha claimed that the manch would be a non-party political action group. Now with NCP leader Shard Pawar throwing his weight behind the manch, it has become a political entity. As of now there is no leader, not even Rahul Gandhi, to match the charisma of Narendra Modi today. A triangular contest would always be advantageous to the ruling party.

I-T filing mess: Why try to ‘fix’ a system that wasn't broken?

At a time when eking out new tax revenues in a shrinking economy is the only goal, an unwarranted self-goal has a lot of knickers in a twist in North Block. The question that's hovering over Raisina Hill is, why fix something that isn't broken? That's a question everyone seems to be now asking when the new e-filing website of the income tax department, lauded and much tooted about, turned out to be a non-starter. I-T officials had announced that the new portal was even designed to be “taxpayer-friendly” and would help ease the filing process and reduce dependence on tax advisors.

Numerous glitches in the software have now left irate taxpayers stranded — they have reported even basic issues such as login problems and complain that old tax filings critical to users are not visi-

ble on the new portal. Meantime, the old reliable website has been unfortunately shut down and the new one doesn't work. A ripe old mess that comes at a really inconvenient moment.

And since even finance minister Nirmala Sitharaman has tweeted about it, I-T officials are in a frenzy trying to salvage the situation with Infosys, the corporate supplier outsourced with this task. A testing time for the newly-appointed acting chairperson of CBDT Jagannath Mohapatra to show his leadership skills. He took over his new assignment after his predecessor P.C. Mody hung up his bat after a prolonged and much extended innings that ended almost apocryphally on the very day the old website was shut down!

Hectic efforts are being made to fix the snafu — the vendor management tax babus are in talks with

Infosys and we are told that furious efforts are expected to ensure that the glitches will be removed very shortly. The taxpayers certainly hope so. Meanwhile, revenues are awaited.

GOVT TACKLES BABU CRITICS WITH FOOTBALL TACTIC

Football teams often employ a technique known as one-to-one marking during a game, in which a player is deputised to stop a rival player from taking possession of the ball for too long. Something along these lines is now in the works as the Centre's sets about tackling the rising tide of insiders turned dissenters, especially if they happen to be retired babus who were once part of the ‘System’ but are now freely speaking their mind on issues that they feel strongly about.

What may perhaps be more

galling to the Centre is that the authors of these contrarian views are venerable ex-bureaucrats who were well-known for their administrative skills and subject expertise during their civil service career — former adviser to governor of Punjab and former ambassador to Romania Julio Ribeiro, former Cabinet secretary K.M. Chandrasekhar, former culture secretary Jawahar Sircar, former foreign secretary Shyam Saran and other similarly notable and “non-partisan” former civil servants. Their words carry weight. Collectively and individually they have written on wide-ranging subjects, including the PM Cares Fund, the farmers' agitation, Article 370, the handling of the Covid pandemic, human rights abuses, the controversial Central Vista etc. They write edit page articles but also dash off open letters to

Kesoram Inds. suspends work at rayon factory

BK Birla Group company Kesoram Industries Ltd suspended work at its rayon factory in West Bengal's Hooghly district due to fall in demand. The company management blamed the slump in demand due to Covid-led disruptions for the suspension of work till further notice. The company employs 2,500 people in the loss making plant. Rayon division contribution is negligible for the company.

Sun settles patent litigation with Celgene

Sun Pharma said it has reached an agreement with Celgene Corporation, a subsidiary of Bristol Myers Squibb, to resolve the patent litigation regarding generic version of cancer drug Revlimid (lenalidomide capsules) in the US. As per the terms of the settlement, Celgene will grant Sun Pharma a licence to Celgene's patents required to manufacture and sell certain limited quantity of generic lenalidomide capsules in the US in 2022.

EV makers laud Gujarat policy with subsidy

Companies like Tata Motors, Mahindra and Hero Electric lauded the Gujarat government for bringing a new electric vehicle policy in the state. Chief minister Vijay Rupani unveiled the 'Gujarat Electric Vehicle Policy 2021', which has been designed to see at least 2 lakh electric vehicles on the state roads in the next four years. The state will provide subsidies ranging from Rs 20,000 to Rs 1,50,000 to buyers of vehicles.

NMDC's Q4 profit after tax zooms to ₹2,838 crore

India's largest iron ore producer NMDC said its profit after tax for the March quarter was 708 per cent higher at Rs 2,838 crore compared to Rs 351 crore during the year-ago quarter. Turnover stood at Rs 6,848 crore compared with Rs 3,187 crore a year ago. Sumit Deb, CMD, NMDC, said, "This has been an excellent year for the iron and steel sector and it gives me great pride to share these impressive results."

NCLT approves resolution plan Jet Air to get wings again

FC BUREAU with agency inputs NEW DELHI, JUNE 22

The National Company Law Tribunal (NCLT) has ruled that Jet Airways India Ltd can resume operations under a new owner more than two years after it collapsed under heavy debt burden, according to Ashish Chhawchharia, the tribunal-appointed resolution professional.

Jet Airways, once the country's biggest private carrier, needs to apply for slots within 90 days and the aviation regulator will make a final decision on allotting them, reports said.

Describing the NCLT nod for the resolution plan as one of the biggest turnaround events for the troubled aviation sector, Chhawchharia hoped that the carrier will be back in the skies by the end of this year provided everything goes well.

The NCLT Mumbai bench, chaired by Mohammed Ajmal and V. Nallasenapathy, has approved the resolution plan for Jet Airways that will have to be implemented in 90 days starting from June 22.

"We are delighted with the go-ahead to the plan. Certainly, we are quite hopeful of the airline's revival. And if all go well, we hope that by the end of this year, we can see some Jet Airways flights in the skies again," Chhawchharia, a partner at Grant Thornton Bharat

LLP, said.

The airline fell into bankruptcy in 2019 after failing to repay debts. A rescue plan was laid out last year by Dubai-based businessman Murari Lal Jalan and Kalrock Capital Management Ltd, a London-based financial advisory and alternative asset manager.

They pledged in December that Jet Airways would fly again by this summer, operating its historic domestic slots as well restarting international routes. The revival plan included a dedicated freighter service and hubs in smaller cities beyond Delhi, Mumbai and Bengaluru, according to a Bloomberg report.

Though it is difficult to say by when the issues of slots will be resolved, Chhawchharia said he was hopeful since the effective date for implementation of the plan is 90 days from the date of approval.

"Everyone will work towards that (resolution of the slot issue as well)," he noted.

In a separate statement, Chhawchharia said the

NCLT approval will pave the way for the revival of Jet Airways 2.0 even as there are a few concerns related to the availability of routes/slots for the airlines to fly again.

Even before Covid-19 crushed demand for air travel, the country was a tough place to make money in aviation. Bruising fare wars and high costs made it difficult for many carriers to survive. Kingfisher Airlines Ltd, once the country's second-largest domestic carrier, collapsed in 2012, and flag carrier Air India Ltd is saddled with debt and has been searching for a buyer for years.

Jet Airways has almost 21,000 creditors seeking claims of around \$6 billion. It has lost most of its landing slots in the time it hasn't been flying.

Investors remained optimistic about the airline successfully emerging from a restructuring, sending its shares soaring 316 per cent in 2020 despite the industry being plunged into crisis. Jet Airways rose 5 per cent on Tuesday.

SENSEX CROSSES 53K-MARK BEFORE RETREATING

RAVI RANJAN PRASAD MUMBAI, JUNE 22

The Sensex crossed the 53000-mark for the first time and made a new high of 53,057 on Tuesday in intraday trade, but profit taking erased the day's gains as the index closed almost flat at 52,588.71, up 14.25 points. The Fifty-50 closed at 15,772.75, up 26.25 points.

Market volatility remained high ahead of the monthly derivative contracts expiry on Thursday.

Strong overnight global markets, record number of Covid vaccinations in a day, daily Covid cases dropping below 50,000 and good monsoon rains coverage cheered the market as it opened. But there was profit taking as valuations are looking stretched.

The market reaching all-time high is great news for hundreds of thousands of small investors who entered the stock market over the last 12-15 months, as they are sitting on pretty strong gains right now.

But analysts warned investors who entered the market during the pandemic period against the inherent risks. "Nearly every stock has a certain intrinsic value and with markets at all time highs, more and more stocks are trading close to or even higher than their carefully estimated intrinsic values," said Rahul Shah, co-head of research, Equitymaster.

The market is likely to see volatile trading till Thursday as equity derivative expiry and index heavy weight Reliance Industries annual general meeting are scheduled on June 24.

FPIs were net sellers of equities worth Rs 1,027.94 crore.

Confidence levels drop for working women, young pros

New Delhi, June 22: The second wave of the pandemic has left young Indian professionals and working women increasingly vulnerable to the economic uncertainty, says a survey.

According to LinkedIn's latest Workforce Confidence Index, the plight of India's working women has worsened after the second Covid-19 wave, as the Individual Confidence Index scores of female professionals fell from 57 in March to 49 in early June—a 4x decline compared to working men (58 in March to 56 in June).

Further, the pandemic's recent peak in India has amplified the importance of work experience and professional connections, as young Indians were found twice as worried as their older cohorts about the impact of Covid-19 on their careers.

Nearly 30 per cent of Gen Z professionals and

26 per cent of millennials are troubled due to lack of jobs, in comparison to 18 per cent of Baby Boomers, said the survey based on responses of 1,891 professionals from May 8 to June 4. Gen Z refers to those born between 1997 and 2015. Millennials are those born between 1981 and 1994/6 and Baby Boomers are born between 1946 and 1964.

"As India slowly begins to come out of the second wave of Covid-19 cases, we see the year-over-year hiring rate recover from a low of 10 per cent in April

to 35 per cent at the end of May. Despite this modest revival, confidence levels of working women and young professionals are amongst the lowest in the workforce today," said Ashutosh Gupta, country manager, LinkedIn.

Gupta said "twice as many working women are concerned with job availability compared to working men, and 30 per cent of Gen Z professionals worry due to lack of jobs."

The survey said, India's overall workforce confidence has declined after peaking in early March, with a composite score of 54 (down 4 points from 58 in March).

This decline in confidence is reflected strongly across professionals from creative industries such as entertainment, design, and media and communications, who expressed being uncertain about the future of their employers.

YouTube wins user copyright fight in EU

FOO YUN CHEE LUXEMBOURG, JUNE 22

Google's YouTube won its latest copyright-infringement challenge after Europe's top court said online platforms are not liable for users uploading unauthorised works unless the platforms failed to take quick action to remove or block access to the content.

The case marks the latest development in a long-running battle between Europe's \$1 trillion creative industry and online platforms, with the former seeking redress for unauthorised works that are uploaded.

It is also part of the wider debate on how much online platforms and social media should do to police the posting of unauthorised, illegal or hateful content, an issue that European Union regulators are targeting with tough new rules that could come into force next year.

"As currently stands, operators of online platforms do not, in principle, themselves make a communication to the public of copyright-protected content illegally posted online by users of those platforms," the EU Court of Justice said.

"However, those operators do make such a communication in breach of copyright where they contribute, beyond merely making those platforms available, to giving access to such content to the public," judges said.

Not against flash sales that benefit consumers: Govt

SANGEETHA G CHENNAI, JUNE 22

The government on Tuesday clarified that discount sales will continue on e-commerce platforms, but not "fraudulent flash sales". The government stated that it will not seek disclosure of flash sales, but did not provide clarity as to how it will ascertain whether a flash sale is fraudulent.

Discount sales that benefit maximum to consumers will continue, but not fraudulent flash sales on the e-commerce platforms, Nidhi Khare, additional secretary in the consumer affairs ministry told the media.

"Such competition actually helps the business overall to bring goods at better prices to consumers. We are not against that," she said. However, in Monday's notification the ministry had defined "flash sale" as "a sale at significantly reduced prices, high discounts or any other such promotions or attractive offers for a pre-determined period of time on selective goods and services or otherwise with an intent to draw a large number of consumers". This definition applies to all sales events organised by e-commerce players.

Without elaborating on what is defined as "fraudulent flash sales", she said that in western countries many times shell companies organise flash sales without any inventory, which is against the interest of consumers and limits fair competition.

Ankur Pahwa, partner and e-commerce sector leader, EY India, said, "In some of the western countries there are companies which put up only rejected and low quality products for a few hours or single day. They dupe customers by not having any return policy or product guarantee. In India, there are some very small e-commerce companies which do such fraudulent sales."

ONLINE CHANNELS SELL 45% MOBILES

New Delhi, June 22: Online channel accounted for about 45 per cent of the mobile phone sales in the country in 2020, according to Counterpoint Research.

Online sales accounted for about 26 per cent share of the global mobile phone market last year.

"Covid-19 had a big role in this change in consumer behaviour. By major country, India showed the highest online share at 45 per cent, followed by the UK

at 39 per cent and China at 34 per cent," the report said.

Online sales accounted for 31 per cent share in Brazil, 24 per cent in the US, 16 per cent in South Korea and 8 per cent in Nigeria, as per the report.

The share of online handset sales (global) in 2020 increased by nearly 6 per cent points compared to the previous year, while it increased by more than 10 per cent in terms of market size, it added.

—PTI

Department for Promotion of Industry and Internal Trade (DPIIT) is the main regulator.

When asked why there is no regulation on cheap discount sales offered in offline markets, Khare said: "That is not true. Today, you have features of product liability for stores and anybody can sue them. Consumers can file if their rights are infringed."

Pahwa said, "Even now online companies are under the purview of consumer courts. Consumers can approach these courts for products bought both online and offline. I do not understand why Consumer Protection rules should try to regulate e-commerce companies."

The Consumer Protection (E-commerce) Rules, 2020 were first notified in July last year. Their violations attract penal action under the Consumer Protection Act, 2019.

"E-commerce is set to gain greater market share from an overall retail market perspective. And while regulations are certainly needed to govern this channel, they need to be devised comprehensively and holistically to be consistent in their application to various retail channels and finally be governed by a single law vs various regulations," said Pahwa.

BMW DRIVES IN 3 CARS UNDER MINI BRAND

MICHAEL GONSALVES PUNE, JUNE 22

Mini India on Tuesday launched the all-new Mini 3-Door Hatch, the all-new Mini Convertible and the all-new Mini John Cooper Works Hatch priced at Rs 38 lakh, Rs 44 lakh and Rs 45.50 lakh, respectively at pan India showroom.

This updated Mini range will be available in petrol engines as completely built-up units (CBUs). Mini has updated the models for 2021. The cars get a large radiator grille that stretches over the bumper, giving them a distinct look. The rear features new LED tail lamps with the 'Union Jack' detailing and a redesigned bumper.

HYBRID | SPACE It's not just office and home. There could be a satellite office too

Tata explores 'third place' in workplace model

SARITHA RAI JUNE 22

The pandemic has changed the nature of work, accelerating the adoption of digital technologies by at least a decade and ushering in a hybrid model where work extends beyond offices and engages more women, Tata Sons chairman Natarajan Chandrasekaran said.

While the office remains a critical hub and staff will gradually return, the world won't return to its pre-Covid norm, Chandrasekaran, head of

India's biggest private-sector employer, said during the Qatar Economic Forum on Tuesday. The Indian executive, joined by fellow employers such as Iwg Plc CEO Mark Dixon, said workplaces will benefit from allowing staff greater leeway with the help of technology.

When the pandemic hit India in early 2020, the 150-year-old steel-to-airlines conglomerate scrambled to adapt to lockdown restrictions. At Tata Consultancy Services Ltd—its largest company by employee numbers and profitability

N. Chandrasekaran

—nearly half a million workers began working from home within weeks, continuing to deliver software projects and support to Wall Street banks,

retailers and airlines.

TCS declared early on it expects only a fourth of its workforce to be in the office on any given day by 2025. Yet many of its employees asked for a return to the office. Companies will have to adopt a model somewhere in-between, Chandrasekaran said during a session about the future of work.

"If the hybrid model has to work, let's not think of it as only office and home," he said. "There's going to be a concept of a third place. I call it a 'third place,' you may

want to call it a satellite office."

In India's case, it could also see improved workplace diversity, another positive outcome of a hybrid model, Chandrasekaran said. "Only 23 per cent of women who could be potentially working are in the workforce because issues like commuting, the lack of social infrastructure like child care," he said. "We should not miss this opportunity, it is not just good for GDP and growth, but also it is the right thing to do."

—Bloomberg

Replying to a shareholder's query on the preparedness of the company in case of a third wave of the pandemic, Mehta said, "Now we have made the supply chain much more agile, we have taken a number of initiatives to improve efficiency. We have added much more flexibility in our supply chain by adding 30 per cent more capacity, and we aim to preserve resilience through alternate sourcing."

"We also continue to invest in technological capabilities, and we have invested in creating a very safe environment for our workforce through tiered protocols," he added.

HUL's supply chain is undergoing a massive transformation across the verticals and the company is digitising upstream sourcing network which allows optimisation of cost, Mehta said.

SHORT TAKES

Karnam Malleswari

Malleswari VC of Sports Varsity

New Delhi: The Delhi government on Tuesday appointed former Olympic medalist weightlifter Karnam Malleswari as the first Vice Chancellor of Delhi Sports University. “The Lt Governor, who is also Chancellor of Delhi Sports University, is pleased to appoint the Padmashri awardee as first Vice Chancellor of the university,” said an official order. Malleswari is the first Indian woman weightlifter to bring home an Olympic medal. She created history at the Sydney Olympics in 2000 by lifting 110 kilogram and 130 kilogram in the ‘snatch’ and ‘clean and jerk’ categories. Born in Voosavanipeta near Amadalavalasa in Andhra Pradesh, Malleswari started her career when she was 12, under coach Neelamshetty Appanna. In 1997, she married a fellow weightlifter Rajesh Tyagi, and settled down in Delhi. In 1995, she received the Rajiv Gandhi Khel Ratna, India’s highest sporting honour, and in 1999, the civilian Padma Shri award. The Delhi Assembly had in 2019 passed a bill to set up a Delhi Sports University (DSU), which will offer graduation, post-graduation and doctorate degrees in cricket, football, and hockey among other sports. — PTI

Handball prez Jagan for Games

Hyderabad: Handball Federation of India president Arishanapally Jagan Mohan Rao has been nominated to attend the Tokyo Olympics as an Indian representative. With the Indian Olympic Association naming him in the Indian delegation to Tokyo, Mr Rao is the first official from Telugu states at the Tokyo Olympics so far. After receiving the official letter from IOA secretary Rajiv Mehta on Tuesday, Mr Rao expressed happiness at the opportunity to watch the Olympics.

A. Jagan Mohan Rao

Maharaj bowls SA to series victory

Gros Islet: Keshav Maharaj completed just the second hat-trick by a South African in Test history as the Proteas completed a 158-run victory over the West Indies on the fourth day of the second Test of the two-match series at the Daren Sammy Cricket Ground in St Lucia on Monday. In the penultimate over before lunch the left-arm spinner removed Kieran Powell, Jason Holder and Joshua da Silva in successive deliveries to join fast bowler Geoff Griffen, who achieved the feat at Lord’s in 1960, in the record books. Maharaj then followed up with two of the last three to fall to finish with 5 for 36. — AFP

Brief scores: South Africa 298 & 174 bt West Indies 149 & 165 in 58.3 overs (Kieran Powell 51, Keshav Maharaj 5/36, Kagiso Rabada 3/44).

SHAMI KABAB

Mohammed on fire as India bowl Kiwis out for 249

Southampton, June 22: Mohammed Shami’s artistry was on full display as India bowled New Zealand out for 249 on the fifth day of the World Test Championship final here.

India were 64 for two with a lead of 32 runs at stumps.

Pacer Tim Southee removed both the openers, Shubman Gill and Rohit Sharma.

The finale is tantalisingly poised with the contest now spilling into the reserve day.

New Zealand showed more intent on keeping the scoreboard ticking with Kyle Jamieson (21) and Tim Southee (30) throwing their bats around for useful runs which certainly put the pressure back on India going into the final session of the day.

The tea break was called after the fall of last New Zealand wicket.

Mohammed Shami (4/76), after a mesmerising morning spell, got a couple of more wickets in the post-lunch session. He dismissed Colin de Grandhomme with a delivery angled in and Jamieson with a bouncer.

During the final half-an-hour, India’s senior-most player Ishant Sharma (3/48) denied half-century to a dogged skipper Kane Williamson (49) with a classic Test match dismissal — delivery rearing up and shaping out which was edged to Virat Kohli at third slip.

Sensing that mere survival would spell doom,

India pacer Mohammed Shami celebrates a New Zealand wicket during Day 5 of the World Test Championship final in Southampton on Tuesday.

New Zealand scored 114 runs in the post lunch session even as Shami and Ishant remained standout performer bowling their hearts out.

Jamieson and New Zealand’s all-time third highest six-hitter Southee got some easy runs at the

pace end which could prove to be useful in the final context.

But no amount of praise is enough for Shami, who brought India back in the match before New Zealand could press its foot on the pedal.

Such was his domina-

tion that Williamson managed only seven runs in an entire session of play.

Ross Taylor (11) was dismissed as Shami reaped the rewards for finding the fuller length which enticed the batsman to go for a drive.

30 DAYS TO GO

Final countdown begins for Tokyo

Tokyo, June 22: The Tokyo Olympics have weathered a historic postponement, an unprecedented ban on overseas fans and persistent domestic opposition, but with one month to go, the finish line is finally in sight.

The journey to this year’s Games has involved a long list of complications that sometimes threatened to make them the first modern Olympics cancelled in peacetime.

Now, just four weeks remain until the opening ceremony on July 23, and while the mood is far from jubilant, organisers might just have cause to celebrate.

The first Olympic teams are already in Japan, along with key officials and some overseas media. And polls suggest long-standing public opposition to the Games may be weakening as D-day approaches.

“We are in the full delivery phase,” International Olympic Committee chief

Thomas Bach said on Monday.

“Athletes are beginning to arrive in Tokyo, ready to make their Olympic dreams become a reality.”

It has been an uphill battle since the unprecedented decision to postpone the Games in March 2020, as the scale of the pandemic started to emerge.

NO CHEERING, NO HIGH-FIVES

Even with some spectators in the stands, there’s no doubt this year’s Games will be a pale imitation of Olympics past.

Cheering will be banned, and athletes can’t hug or high-five. They must wear masks at all times except when eating, sleeping or competing, and are only allowed to move between the Olympic Village and their venues. Punishments for violating the rules will range from verbal warnings and fines to being kicked out of the Games altogether. — AFP

Indians at Games

Golfer Lahiri makes the cut

Seasoned pro Anirban Lahiri qualified for his second successive Olympic appearance after finishing as the best-placed Indian golfer in the final Tokyo Games Rankings for men released on Tuesday. The Indian made the cut at the 60th spot, the last available quota in the Games rankings. India was eligible for one spot and Lahiri was the highest-placed in the latest official world golf rankings at the 340th position. “Best surprise I have got in a while. @Tokyo2020 can’t believe I will have the opportunity once again to represent the tricolor,” Lahiri tweeted. Aditi Ashok is also in contention to make the cut.

SFI nominates 2 swimmers

The Swimming Federation of India has nominated Srihari Nataraj and Maana Patel to compete in the Olympics via the Universality places qualification system, which allows countries to recommend their two highest ranked swimmers for the showpiece if none makes the cut through the regulation process. The Universality quota allows one male and one female competitor from a country to participate in the Olympics.

Manpreet to lead India

India on Tuesday named incumbent Manpreet Singh as the skipper of the men’s hockey team for the upcoming Tokyo Olympics where he will have two deputies in defenders Birendra Lakra and Harmanpreet Singh. India had announced a 16-member team for the showpiece event last week but refrained from naming the team’s leadership group. “I am humbled to have this opportunity of representing India at the Olympics for the third time, this time as team Captain. It is a very proud moment for me to be given this charge,” Manpreet said.

Rijiju hopes for best Olympic show ever

DC CORRESPONDENT

HYDERABAD, JUNE 22

Sports Minister Kiren Rijiju threw his weight behind Indian athletes on Tuesday, eve of International Olympic Day, promising all support from the government as they gear up to do the country proud at next month’s Tokyo Olympics. “We need to galvanise the country in cheering our athletes. They need our support as they set out for the biggest sporting competition,” Rijiju said in an online interaction with media while

announcing the launch of a slew of programmes to pump up the Indian contingent ahead of the tough task in Tokyo.

“India’s presence at the Olympics must be big. For that we have short, medium and long term targets,” he said, setting off the 30-day countdown.

Asked about medal expectations, he did not put a number to it but said: “India should do better than what it has in the previous editions. We are looking forward to a new standard and record (in terms of medal count). I am very hopeful.”

Kiren Rijiju

“Our athletes have been provided the best platforms to practice, some of them are training abroad, others in important and well-equipped centres in

India. The government has been providing full support and reaching out to the athletes. The total funding through Annual Calendar and Training Competition (including TOPS — Target Olympic Podium Scheme) in the last four years has been ₹1,100 crore for the training of athletes,” he informed.

Speaking about the tough conditions imposed on the Indian contingent by Japan, Rijiju said “as per the Olympic charter there cannot be any discrimination against any country.”

“I have already conveyed to the Indian Olympic Association to register our concern with the Organising committee in Japan that it will not be acceptable to us. They (the IOA) have already written to the organising committee. We will strongly raise any issue which affects our athletes’ preparation and chances,” he added. The Minister also said that an Olympic Cell has been created in the Indian Embassy in Tokyo to assist athletes. “We will provide them all the necessary back-up support,” he said.

DANISH DELIGHT

Denmark thrash Russia to reach Last 16, Austria edge through

Paris, June 22:

Denmark powered into the last 16 of Euro 2020 with a brilliant 4-1 thrashing of Russia at a raucous Parken Stadium on Monday, helping to send five other teams through in the process. It was a joyous night in Copenhagen as goals from Mikkel Damsgaard, Yussuf Poulsen, Andreas Christensen and Joakim Maehle saw the hosts through in style, as Belgium scored two late goals to beat the Finns.

Kasper Hjulmand’s men will meet Wales in the last 16 in Amsterdam on Saturday.

“The most important (thing) is that we are now united as Denmark,” Maehle told Danish broadcaster DR after the win in front of a 25,000-strong crowd.

The results in Group B also saw Switzerland, who finished third in Group A, the Czech Republic, England, Sweden and France — all yet to play their final group games — move into the knockout phase.

AUSTRIA CLINCH HISTORIC WIN

Austria edged to a 1-0 win over Ukraine to beat their opponents to a spot in the last 16. Christoph Baumgartner’s 21st-minute goal proved enough for Austria to secure second place in Group C behind the Netherlands, who saw off North Macedonia 3-0 in a dead rubber in Amsterdam.

Austria will face Group A winners Italy at

Denmark’s Mikkel Damsgaard (right) celebrates after scoring his team’s first goal against Russia during a group match in Copenhagen on Monday.

Wembley on Saturday for a quarter-final berth. “We wanted to write history,” Austria coach Franco Foda told uefa.com.

FINLAND ON THE BRINK OF EXIT

Belgium scored two late goals to see off a valiant Finland 2-0 on Monday, pushing their opponents to the brink of a group-stage exit.

Finnish goalkeeper Lukas Hradecky’s 74th-minute own goal and Romelu Lukaku’s third strike of the tournament ensured

Roberto Martinez’s Belgium finished top of Group B. The world’s number-one-ranked side will face a third-placed team in the next round on Sunday in Seville. — AFP

CHAMPIONS PORTUGAL TAKE ON FRANCE, FACE RISK OF SHOCK EXIT

Budapest, June 22: Germany can secure a place in the last 16 of Euro 2020 on Wednesday, but holders Portugal are at real risk of crashing out despite a prolific start to Group F by Cristiano Ronaldo.

France top the section with four points heading into their final game against Portugal, a repeat of the Euro 2016 final, despite an underwhelming 1-1 draw with bottom side Hungary in Budapest.

Germany and Portugal are locked on three points apiece but Joachim Loew’s side crucially have the head-to-head edge follow-

Paraguay’s Angel Romero takes a free-kick against Argentina during their Copa America match in Brasilia on Monday.

— AP

Argentina, Chile enter QF

Brasilia, June 22:

Argentina and Chile on Monday booked their places in the Copa America quarter-finals, ending top of Group A after low-scoring matches that left the other two spots up for grabs. Argentina logged its second win in three group matches played, beating Paraguay 1-0, with Alejandro “Papu” Gomez scoring the sole goal of a lacklustre match in Brasilia in the ninth minute.

The win placed Lionel Messi’s La Albiceleste top of Group A with seven points — enough to secure its spot in the next phase of the tournament being played in empty stadiums in coronavirus-battered Brazil.

The match marked a personal milestone for Messi, who tied Javier Mascherano’s record for the most games played for Argentina — 147.

COPA RESULTS

| | |
|--|---|
| Argentina (Alejandro Gomez 10) | 1 |
| Paraguay | 0 |
| Uruguay (Arturo Vidal 66-og) | 1 |
| Chile (Eduardo Vargas 26) | 1 |

But it was not a night of glory for Messi or his team, who in the second half seemed to resign themselves to defending a spirited, but ultimately fruitless, Paraguayan attack.

In the other match Monday, Chile drew 1-1 with Uruguay to end the day with five log points.

With four matches left to play in Group A, Paraguay has three points, Uruguay one, and Bolivia zero, meaning they all still stand a theoretical chance to go to the quarter-finals. — AFP
