## Centre clears purchase of 83 Tejas Mk 1A for IAF

**HAL gets its largest-ever order, to boost aerospace industry**

**PAWAN BALI | DC**  
NEW DELHI, JAN. 13

In a big push to the government's Make-in-India campaign, the Cabinet Committee on Security (CCS) on Wednesday approved the procurement of 83 Tejas Mk-1A fighter jets for the Indian Air Force (IAF) from state-run defence firm Hindustan Aeronautics Limited (HAL). This is the largest ever indigenous military aviation deal worth around ₹48,000 crore. "The CCS today approved the largest indigenous defence procurement deal worth about ₹48,000 crores to strengthen the IAF's fleet of homegrown fighter jet 'LCA-Tejas'. This deal will be a game-changer for self-reliance in the Indian defence manufacturing," tweeted defence minister Rajnath Singh. The defence minister said India's indigenous Light Combat Aircraft (LCA) — Tejas — will be the backbone of the IAF fighter fleet in years to come. "LCA-Tejas incorporates a large number of new technologies, many of which were never attempted in India. The indigenous content of LCA-Tejas is 50 per

	INDIA'S TEJAS MK.1	US F-16C FIGHTING FALCON
Crew	1	1
Length	43.31 ft	49.21 ft
Width	26.9 ft	32.81 ft
Height	14.44 ft	15.75 ft
Payload	3,500 kg	4,315 kg
Installed power	20,200 lb	28,600 lb
Speed	1,975 kph	2,120 kph
Range	3,200 km	4,220 km
Ceiling	54,134 ft	50,000 ft

cent in Mk1A variant which will be enhanced to 60 per cent," said Mr Singh. Tejas Mk-1A deliveries are expected to begin in three years. The CCS approved the procurement of 73 Tejas Mk-1A fighter aircraft and 10 Tejas Mk-1 trainer aircraft at the cost of ₹45,696 crore along with design and development of infrastructure sanctions worth ₹1,202 crore. The IAF has already bought 40 Light Combat Aircraft (LCA) Tejas Mk-1 aircraft. Tejas Mk1A cleared by the CCS on Wednesday is more advanced than Mk-1 with around 40 improvements. The Light Combat Aircraft Mk-1A variant is

an indigenously designed, developed and manufactured state-of-the-art modern four-plus generation fighter aircraft. The aircraft is equipped with critical operational capabilities of Active Electronically Scanned Array (AESA) Radar, Beyond Visual Range (BVR) Missile, Electronic Warfare (EW) Suite and Air to Air Refuelling (AAR) which would be a potent platform to meet the operational requirements of IAF. According to the minister, the manufacturing of the Light Combat Aircraft by HAL will give a further push to Atmanirbhar Bharat initiative and boost indigenisation of defence production and the defence

industry in the country. "About 500 Indian companies, including MSMEs in the design and manufacturing sectors, will be working with HAL in this procurement. The programme would act as a catalyst for transforming the Indian aerospace manufacturing ecosystem into a vibrant Atma Nirbhar self-sustaining ecosystem," the minister said. "The HAL has already set-up second line manufacturing facilities at its Nasik and Bengaluru divisions. Equipped with the augmented infrastructure, HAL will steer Light Combat Aircraft Mk1A production for timely deliveries to the Indian Air Force," said Mr Singh.

## AP gets ready Covid-19 vaccination from today

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13

All is set for administration of Covid-19 vaccine Covishield at the rate of 100 doses each, one per person, at 332 session sites per day beginning from January 16 to 20 in Andhra Pradesh. As the state government received 4.99 lakh doses of vaccine including 4.77 lakh doses of Covishield and 20,000 doses of Covaxin from respective firms in the last two days, state health authorities distributed vaccine doses from the central vaccine store to districts and from there to select primary health centres by Wednesday afternoon. As per the state government's plan, administration of Covid-19 vaccine will be officially launched at the government hospital in Vijayawada and at the government

hospital in China Waltair on January 16. At the same time, health authorities will begin administration of the vaccine in other identified session sites all over the state. In addition to the administration of vaccine in AP, the state government will also supply 320 doses of Covid-19 vaccine to be administered in Yanam. Armed personnel in Visakhapatnam are also to be given the Covid-19 vaccine. As the vaccine doses

have reached the session sites, state health authorities advised the energy department to avoid any disruption in power supply to session sites in order to continue the cold chain without disruption. The vaccine is supposed to be stored in the cold chain at a temperature between 2 C and 8 C. The authorities also directed the officials taking care of the session sites to keep power back-up that is supposed to start automatically in case of any disruption in power supply. According to state health authorities, they will be administering 100 doses of vaccine at each session site for five days from January 16 to 20; which meant the health authorities will administer 500 doses of vaccine at each session site.

## NTR varsity to start PG course in public health

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13

After successfully conducting counselling for admissions to medical and dental courses for students qualified in UG NEET-2020 in colleges in AP, the NTR University of Health Sciences says it has several initiatives up its sleeves. The plans include starting master's degree in public health and entering into an MoU for research collaboration with reputed institutes like National Institution of Nutrition, Indian Institute of Public Health

Dr P. Syama Prasad

and Centre for Cellular and Molecular Biology shortly. Dr NTR University of Health Sciences Vice-Chancellor Dr P. Syama Prasad explained to *Deccan Chronicle* his efforts for development of

the university, marking completion of one year of his tenure. The VC said, "As I was involved in the state-level Covid-19 management programme in the early days of spread of the virus, I helped private medical colleges to set up Covid Care Centres and start RTPCR tests for the benefit of both infected and suspected cases. The move helped identify suspected cases and provide treatment, thus controlling the spread."

## Plea seeks to make adultery a crime for army Centre moves SC on adultery

**PARMOD KUMAR | DC**  
NEW DELHI, JAN. 13

The Centre on Wednesday moved the Supreme Court seeking to exclude armed forces personnel from the ambit of its 2018 judgment decriminalising adultery, who can be cashiered from service on the grounds of "unbecoming conduct" for committing adultery with a colleague's wife. A five-judge constitution bench had on September 27, 2018, in a landmark judgment, decriminalised adultery after striking

down a British era law — Section 497 of the Indian Penal Code — terming it as unconstitutional, archaic and manifestly arbitrary, with Just-ice Rohinton Fali Nariman saying that women can't be treated as "chattel". Issuing a notice on the Centre's application seeking clarification, Justice Rohinton Fali Nariman, heading a bench also comprising Justice Navin Sinha and Justice K.M. Joseph, said that since the clarification sought by the Centre is on a decision by a

constitution bench it would be better it goes before a five-judge bench. The three-judge bench directed the registry to place the matter before Chief Justice Sharad A. Bobde for appropriate orders. The Central government said that its judgment decriminalising adultery should not apply to armed forces where such acts amount to 'unbecoming conduct'. Under the Army, adultery is a ground for court-martial for unbecoming conduct. By its 2018 judgment, the

top court had said that Section 497 is a denial of the constitutional guarantees of dignity, liberty, privacy, and sexual autonomy, which are intrinsic to Article 21 of the Constitution. "Mere adultery can't be a criminal offence. It is a matter of privacy. Husband is not the master of a wife. Women should be treated with equality along with men," then Chief Justice Dipak Misra had said in his judgment also speaking for Justice A.M.Khanwilkar.

## 85 held for temple attacks, says DGP

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13

AP Director General of Police (DGP) Gautam Sawang on Wednesday announced that the department has solved 29 of the total 44 attacks on temples and has arrested 85 persons. The DGP said there have

been attempts to undermine religious harmony in the state, but police checked it by taking all possible measures. He said the AP police is first in the country to install CCTV cameras for round-the-clock surveillance at places of worship. Over 58,000 temples had

been geo-tagged and 43,824 CCTV cameras installed. Addressing the media, Gautam Sawang disclosed that attacks on temples in the state are being widely publicised with social media distorting facts and spreading false information. He said it is not right to make accusations against

nst police for political reasons. He found fault with certain people for que-tioning police as to what they are doing while temples are being attacked. Allegations had been made on the basis of caste and religion.

■ Page 2: No action based on caste or religion: DGP

## Students restless over loss of colleges' permit

**DC CORRESPONDENT**  
ANANTAPUR, JAN. 13

Students of three engineering colleges in Anantapur are bewildered after the AP State Council of Higher Education (APSCHE) cancelled their permission following the violation of AICTE norms. College managements, however, are sitting tight financially by converting playgrounds into real estate ventures. Permission was denied to the three colleges based

on a report submitted by the AICTE to the government on October 14 last. These colleges offered courses like MTech, BTech and Polytechnic. According to sources, the AICTE claimed that the colleges had not obtained affiliation from the university and have been making less than 25 per cent of allotted admissions for the last three years. In its show-cause notice, the Council had directed the management of these colleges to submit a writ-

ten explanation for failing to give admissions to the required number of students and running the colleges without maintenance of institutional and infrastructural standards. The managements, however, have converted college buildings and playgrounds into real estate ventures. Students who joined the colleges in previous years have been kept in the dark.

"Judge Arshad Hussain Bhutta awarded 15-and-half-year imprisonment each to Yahya Mujahid and Zafar Iqbal, and six-month term to Prof Abdul Rehman Makki," a court official said.

SHORT TAKES

CONDUCT PANCHAYAT ELECTIONS: TD

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13

Telugu Desam MLC P. Ashok Babu on Wednesday demanded the Jagan Mohan Reddy government to honour the all-party decision on conduct of panchayat polls and plead before the High Court on January 18 for vacating the stay to facilitate elections in a peaceful manner.

Addressing a press conference here, Babu strongly objected to the manner in which Chief Minister Y.S. Jagan Mohan Reddy has levelled vague allegations that some persons in 'political positions' were acting like coverts. He claimed that the SEC was not a political position and also not appointed by the TD and whereas, the TD was not in power for its leaders to act like coverts.

Babu claimed that it was the CM himself who had turned into a 'covert' by falling at the feet of the Prime Minister only to save himself from CBI and ED cases. He alleged that Reddy was stooping to new lows to save his relatives from the Vivekananda Reddy murder case. He said Reddy was changing his stand on the coronavirus epidemic to suit his party's convenience with utter disregard for the lives of the public.

**TD REGIME WAS ANTI-FARMER, SAYS YSRC**

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13

Terming Telugu Desam regime as a 'dictatorial and anti-farmer' rule, YSR Congress MLA Koluusu Parthasarathy said that N Chandrababu Naidu and his party members do not have any moral right to speak on issues concerning farmers, as they had abandoned and cheated them during their five-year term.

Addressing a press conference here on Wednesday, the former minister said that Naidu has been issuing baseless statements. After almost 18 months of getting rejected by the public, Naidu is saying that he is still unaware of defeat and the public has made a judgemental error. He said that Naidu always takes the side of dalits, BCs and minorities when he is in opposition but when in power he dumps them, Parthasarathy said.

He criticised the former chief minister for making false accusations that the government had abandoned farmers. He said that Naidu presumed that agriculture sector was non-profitable and does not boost the economy, and thus completely neglected it. He stated that Naidu has a history of ditching farmers,

**NO HAPPINESS AMONG FARMERS: TULASI REDDY**

**DC CORRESPONDENT**  
KADAPA, JAN 13

Though Sankranti is a farmers' festival, there is no happiness among the farmer families, said Andhra Pradesh Congress Committee Working President Dr. N.S. Tulasi Reddy said. He alleged that the YSRC government in the state had committed a number of anti-farmer activities during the last 19 months of its rule. He set fire to copies of Government Order No. 22, which aims to install electricity meters in agricultural pumpsets, on Wednesday.

TEMPLE | RENOVATION

Ancient Rama temple of Chola times to get facelift

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13:

Renovation of an ancient Rama temple in the port town Motupalli in Prakasam district dating back to the Chola period (9th century to the 13th) is under active consideration of local agencies as part of the all-round development of the region, according to Motupalli Parirakshana Samithi president Ronda Dasaratha Rami Reddy.

"Motupalli was an international port since the Chola times and it remained so during the Kakatiya, Vijayanagara and Qutub

Shahi periods," says Dr. E. Sivanagi Reddy, historian and CEO of the the Cultural Centre of Vijayawada and Amaravati.

The Rama temple having the garbha griha, antarala, arthamandapa and mahamandapa is in a dilapidated state and requires immediate restoration.

The Parirakshana Samithi has finalised plans for its restoration by adherence to archaeological norms and invited Sivanagi Reddy to offer his expertise on heritage conservation.

Historian, Vidwan Dr Jyoti Chandramouli, also visited the temple. Dr Reddy visited

the Rama temple on Tuesday and started his works to prepare a detailed project report (DPR).

Sivanagi Reddy said celebrated Italian traveller Marco Polo visited Motupalli in 1287. It was a busy international port with both exports and imports. He met empress

Rudramadevi of the Kakatiya dynasty. He explained to her that Motupalli was known worldwide for its unique and the only-one-of-its-kind inscription on Marine insurance for sea-born traders, issued by the Kakatiya emperor Ganpati Deva in 1234AD, and engraved on four sides of a pillar at the local

Veerabhadra Swamy temple, known as Abhaya Sasanam. This was renovated by Anavemareddy and Vijaynagara emperor Devaraya.

Sivanagi Reddy said that the detailed project report would be submitted to YV Subba Reddy, chairman of the Tirumala Tirupati Devasthanam for obtaining financial and technical support to implement the restoration and developmental works.

The works will include removing of sand, construction of pradakshinapatha, fixing the leakage in the roof, removing colours from

the architectural members, reconstruction of the Dwaramandapam and installation of the Dwajhashthambham and the Bhajipeetham including the Kalyanamandam.

The villagers hope Tirumala Tirupati Devasthanam would take up the works so that the temple could attract tourists from all over the state. Sivanagi Reddy and Dr Jyoti Chandramouli felt the need for an open-air archaeological museum to showcase the scattered historical sculptures so that their safety and security could be ensured.

Rooster fights dens arranged at Kuchipudi in Pongal celebrations in Vijayawada on Wednesday.

Naidu used Amaravati as ATM, alleges Botsa

Ex-CM never distributed house pattas to the poor: Minister

**DC CORRESPONDENT**  
VIZIANAGARAM, JAN. 13

Former chief minister Nara Chandrababu Naidu used Polavaram and Amaravati as two ATM cards and now he is asking the people to forgive him, said Minister for Municipal Administration Botsa Satyanarayana.

Addressing a press conference here on Wednesday, the minister alleged that Naidu had always been far from the opinions and wishes of the people. He is still misleading the public with his crooked mind to gain their sympathy and stay in the limelight.

Botsa Satyanarayana

"It's very funny to know that even after 18 months being out of office, the leader of the opposition does not know why he was defeated. Even today he is not regretting his failures," Satyanarayana said.

He stated that Naidu

never distributed house pattas to the poor during his 40 years of political career. He called agriculture a worthless profession but is now shedding crocodile tears for Amaravati farmers. Naidu and his henchmen purchased huge lands at Amaravati before announcing it as the capital city. He is crying foul when the new government announced Vizag as the capital because he is worried his business partners would lose a lot in Amaravati. On promises of providing jobs, except Lokesh, no others could get employment during his government, he said.

The State debts

increased as he was obsessed with creation of assets for himself and to implement welfare schemes but not for others.

On the MANSAS issue, the minister said, "Naidu never knew the history of the trust. It was P Ashok Gajapathi Raju, who wrote to the then government to merge MANSAS Trust with the State government because he could not reckon with his elder brother Ananda Gajapathi Raju being chairman of the trust. But on the request made by Ananda Gajapathi Raju, the new government had kept it as an autonomous society, he added

Naidu tells people: 'Forgive me if I committed a mistake'

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13:

In an innovative protest, the Opposition Telugu Desam burned alleged "anti-farmer" orders of the YSR Congress government in the Bhogi festival's bonfire on Wednesday while party chief N Chandrababu Naidu lambasted the Jagan Mohan Reddy government by saying it betrayed all sections of the people in the past 19 months.

Naidu asked the people to forgive him if he had committed any mistake in an address of people while taking part in the Bhogi festival programme at Paritala in Krishna district where he consigned five "anti-farmer GOs" to flames. These were the orders relating to fixing of

meters on farm pump sets, 'sunna vaddi', zero budget farming etc.

Naidu expressed concern that no farmer was happy and comfortable under the rule of Jagan. "People had believed in the lies of Jagan and voted for him as they were in the grip of a mass hysteria," he said. "I don't know what mistake I have committed. I have strived hard for the development of the state. Forgive me if what I have done is a mistake." Naidu said meters should be fixed not on farmers' pump sets but at the offices of the YSRC ministers and MLAs all over the state to know of real looting of the state, done also by the sand, liquor, mining, betting, house-site and other mafias. "No section of the

society is happy and the farm coolies are badly hit as they have no work. "There was no compensation though the farmers suffered losses in over seven successive natural calamities including the Nivara cyclone."

Naidu has alleged that the YSRC's bankrupt policies have now caused a burden of Rs 70,000 on every citizen in AP. "Under this, a four-member family carries a debt burden of Rs.2.8 lakh and this is forcing the people to do life-long slavery to get rid of this debt burden". Stating that all promises of the YSRC were thrown to winds, Naidu said the CM betrayed the voters by giving them "kisses at the time of elections and now giving them blows".

V-C credits CM for reducing fee

FROM PAGE 1

The NTR health university vice-chancellor said counselling for admission into the first-year medical and dental courses for students qualified in UG NEET-2020 under convener quota has been completed. This helped all deserving candidates to get admission without causing any trouble to any student.

This was done by keeping

in mind the GO issued by the state government and with support from a team of experts, he said.

The VC said that by January 15, they would complete admissions to categories under B and C. The VC gave credit to CM Jagan for reducing the fee structure, benefitting students even from the poor and the middle-class families, helping them realise their dream of becoming a doctor.

He said they were provid-

ing Under-Graduate Student Research Scholarships 2020 worth of ₹50 lakh to promote interest in research works among students. The university also received and processed 44 PhD applications. The VC said, "We are offering training on communication skills and soft skills to first-year students for a brief period to enable them confidently communicate with all stakeholders."

Age-old Sankranti traditions on verge of disappearance

**MD ILYAS | DC**  
VIJAYAWADA, JAN. 13

Age-old traditions of Sankranti festivities featuring Haridasulu and Gangiredduvallu appear to be fading from the mainstream of society due to changing times. These two communities had been a constant feature of the three-day harvest festival of Bhogi, Sankranti and Kanuma. But new generations within these communities are reluctant to continue their hierarchical roles.

Haridasulu with Akshayapatra (utensil to collect alms) on head, musical instrument "tambura" on right shoulder and "chidatalu" (cymbals) in left hand chanting "Rama keertans" had been a regular feature. They visited every house during the three-day festival to collect alms.

This year, hardly any Haridasulu have been seen wandering the streets, reflecting poor patronage to the ancient tradition.

Another feature is instead of walking the

streets singing keertans, some Haridasulu are now seen going around on mopeds fitted with mini recorders playing keertans. The Akshayapatra has moved from the head to the stand of moped.

Haridasu D. Govardhan said there was a time when they started their wanderings chanting Sankeertans a month before Sankranti. But the new generation is reluctant to follow the tradition. As a result, the art is gradually disappearing. Govardhan said earlier children in their families used to learn Sundarakanda, Bhagavatam and other religious Keertans. The present generation is not interested in them. He pointed out that Dasari community and its sub-castes were the traditional Haridasulu. These groups now have the reservation facility. The younger generation prefers education and jobs, particularly in government sector, than take up the traditional role.

Priest Matham Venkateswarlu explained that in the Kingdom of Lord

Rama, people had been prosperous. There was none to receive "alms". So, Rama created Haridasulu, who just chanted keertans and received alms. Venkateswarlu said since past 15 years, Haridasulu have been gradually disappearing from the scene. There are 20-30 Haridasulu going around this year. Similar is the case of community with Gangireddulu. The community members would adorn their bulls in fineries and bells, visiting every house to collect alms during Sankranti festivities. The bulls would dance on instructions of their masters, a scene enjoyed by kids and elders alike. S. Ramulu, a Gangireddula community elder, lamented that the present generation is "ashamed of collecting alms". Thus only a few old people are continuing the tradition. Ramulu sought protection of traditions followed by Haridasulu and Gangiredduvallu, as they will let future generations know our ancient traditions and rich cultural heritage.

No action based on caste or religion, says AP DGP

FROM PAGE 1

"No one has ever made such allegations against police during my 35 years of service. Police does not act on the basis of caste or religion," he underlined.

The DGP said police are working with dedication in safeguarding the integrity of the state. "The Antarvedi incident in September last year was unfortunate. There have been some untoward incidents in the state after Antarvedi incident. The government has ordered a CBI probe into it," he pointed out. He recounted that there have been 44 major incidents of alleged attacks on temples during 2020-2021, 38 involving theft of idols and desecration, two cases of chariot burning and four instances of temple premises being dug up. He said 85 persons have been arrested in 29 incidents. Culprits in 15 cases are

yet to be traced.

Details of temple attacks: Providing details, Gautam Sawang said among the 29 incidents, six have been the handiwork of property offenders looking for treasure in Anantapur, Kurnool, Chittoor, and Prakasam districts. Guntur rural district reported two cases. One case was registered in Pathikonda. Investigation into it showed that the offender resorted to the crime to divert attention from two political groups entering into a quarrel. Three cases were owing to disputes over ownership, one each in YSR Kadapa, West Godavari and East Godavari districts.

The DGP said three cases originated from superstitions at Allagadda, Srikalahasti and Pithapuram. One incident was because of a wild animal in

Battuvanipalli. Mentally unsound persons were involved in two cases reported in Bitragunta and Nakapalli. Four cases at Adoni, Gudivada, Kakinada and Yelamswaram were the work of drunks. Seven cases of false propaganda were reported in Anantapur, Prakasam, Guntur Rural, Rajahmundry Urban, Visakhapatnam Rural and two cases surfaced in Srikakulam district. Two cases in Kurnool and Visakhapatnam districts were accidental. He said investigations are in progress in 15 undetected cases. Culprits will be nabbed and stern action taken against them.

Replying to a question, DGP Sawang said as many as 109 policemen have died due to Coronavirus. Andhra Pradesh Police Department has also received over 100 awards in the technology category.

STATE'S TAX HIKE GOES, FARM LAWS BURNT IN BONFIRE

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13

AP Urban Citizens Forum (APUCF) made a Bhogi bonfire of AP government's GOs increasing property taxes as well as the three agricultural laws enacted by the BJP-led government at the centre. Protesting APUCF leaders felt this Sankranti has turned bleak after huge taxes had been imposed on people, who have already been suffering due to severe financial crises in the wake of lockdown because of Coronavirus pandemic. Leaders of APUCF, CITU, farmers' organisations and women's associations gathered at Besant Road in Vijayawada on Wednesday and burnt the copies of GOs in the Bhogi bonfire.

Bhogi celebrated at Srisailam shrine

**DC CORRESPONDENT**  
KURNOOL, JAN. 13

Bhogi celebrations started amid the biting chill in the early hours of Wednesday at the Srisailam Bhramaramba Mallikarjuna Swamy temple in a traditional manner. As part of the seven-day Sankranti Bhramotsavams, temple officials performed Pratakala Puja, Maha Mangala Arathi, and then organised Bhogi mantalu in front of the main gate of the temple near the Gangadhara mandapam as per tradition. Later, a

massive Bhogi Pandlu programme was organised led by temple executive officer K.S. Rama Rao. On this occasion, Rama Rao said that Bhogi is a key festival event during the Makara Sankranti season and it is synonymous with discarding the old and bringing in the new, observed by piling up and burning some old wood. Sankranti brings happiness and prosperity in the lives of the people and farmers, he added. In the evening, Vahana Seva to Swamy Ammavaru was organised.

MUSLIMS CELEBRATE SANKRANTI IN TRADITIONAL MANNER

**DC CORRESPONDENT**  
VIJAYAWADA, JAN. 13

Muslim community celebrated Bhogi festival at Vijayawada in an ingenious way under the aegis of Muslim Samkshema Samiti (MSS) on Wednesday.

They organised the Bhogi bonfire in Hindu tradition along with sankeertanas of Haridasu. They also distributed sweets to their Hindu brethren, apart from greeting them on occasion of the three-day festival.

MSS state president Mukhtar Ali, sub-inspector Nageswara Rao, minority leaders Rehana Nouheed and others participated in the traditional Bhogi rituals.

Mukhtar Ali said "unity in diversity" is the culture and tradition of our country. People belonging to different

religions have been living together in communal harmony for centuries.

He maintained that celebration of festivals by all and honouring each other's religions find true reflection only in India.

The Muslim Samkshema Samiti state president lamented that a few anti-social elements are trying to disturb communal harmony and are turning out to be a big menace for the society.

He pointed out that Sankranti is a festival of harvest and MSS celebrates it every year in the traditional manner.

New Generation Association K. Vinay and leaders of various organisations participated in the Bhogi celebrations organised by MSS and conveyed their Sankranti wishes to all.

## State hasn't got Covaxin yet, says health director

FROM PAGE 1

Given the number of vaccine doses received so far, the health authorities planned accordingly. Initially, only Covishield will be used as AP received 4.77 lakh doses. If a beneficiary is given the first dose of Covishield, he or she has to be given the same vaccine as the second dose with a gap of 28 days.

"Until we receive further doses of Covaxin, we will use only Covishield for

Until we receive further doses of Covaxin, we will use only Covishield for

jabs," officials said.

Director of health Dr. T. Geeta Prasadini said, "We have planned meticulously for administration of Covid-19 vaccine to all targeted beneficiaries from January 16 to 20, initially and we are holding consultations with all stakeholders to identify issues, if any, and resolve them."

# Reopen schools, says Edu forum convener

Narava asks education minister to reopen primary schools

DC CORRESPONDENT  
VISAKHAPATNAM, JAN. 13

Andhra Pradesh state convener of Right to Education Forum Narava Prakasha Rao has appealed to education minister Adimulapu Suresh and School Education Monitoring Committee chairman Kantha Rao to reopen primary schools that have remained closed since the outbreak of Coronavirus in March

last year.

In a letter to the minister, Prakasha Rao said the pandemic has created an unprecedented crisis in the country, especially in the education sector. As a result, children have been deprived of their fundamental entitlements like right to education, food and protection. He observed that Covid-19 cases among students and teachers have been lower and fears in this regard are unfounded.

Many experts have pointed out that continued closure of schools will affect well-being of children, especially in tribal and village areas, where poverty may drive them to work. In case of girls, they could be forced into marriage. Prakasha Rao said AP government has already permitted schools from 6th to 10th classes to run while adhering to Covid-19 protocols. Attendance in these

schools has been increasing every day. Considering these facts, the government should restart primary schools in the state while enforcing health and safety guidelines.

He suggested that teachers and parents be briefed about taking care of children properly. Further, a separate grant could be made for purchase of masks, sanitisation of primary schools and cleaning of toilets.

## AP RECORDS 203 COVID-19 CASES

DC CORRESPONDENT  
VIJAYAWADA, JAN. 13

AP registered 203 new Covid-19 cases, scaling up tally to 8,85,437 and one death raising toll to 7,134. Covid-19 bulletin released here on Wednesday reporting that out of 44,679 samples tested, 203 persons were found infected.

with Coronavirus. Out of a total number of 1,24,41,272 samples tested so far in the state, 8,85,437 persons were found infected with Coronavirus and of them 8,75,921 were recovered during the course treatment while 2,382 persons are still active with the virus.

Among daily cases of confirmed Coronavirus, Guntur topped the state with 41 followed by 30 in Krishna, 27 in East Godavari, 23 in Anantapur, 22 in Visakhapatnam.

## Vaccine stocks for 4 districts arrive in Vizag

DC CORRESPONDENT  
VISAKHAPATNAM, JAN. 13

Vaccine stocks for first phase inoculation for four districts of Visakhapatnam, East Godavari, Vizianagara and Srikakulam arrived here on Wednesday morning and dispersed to respective districts.

Briefing the media personnel, district collector of Visakhapatnam V. Vinay Chand said in the first phase beginning from January 16 around 45,000 health workers belonging to the government and private hospitals would be given the first dose of the vaccine.

The process would be taken up in 32 centres across the district. He said from January 17

onwards, the vaccine would be given through 222 centres. Every mandal would have a committee comprising tahsildar, MPDO and sub-inspector of police and assisted by staff appointed by them.

He said the second phase for police, revenue and sanitary workers of municipalities and panchayats would get the first dose on January 26.

In Srikakulam district, the vaccine would be given in 18 centres. In the first phase 21,980 of the total 26,500 health workers have uploaded their names in the vaccine App.

Health officials in Vizianagara have identified 15 centres for vaccination and the first dose would be given to 17,000 health workers.

14 JANUARY 2021

## Election fever grips TN as early hustings begin

It is a bit early for Tamil Nadu to go into election mode with at least four more months left for the All India Dravida Munnetra Kazhagam (AIADMK) to relinquish power. But it has happened as the principal contender to the throne, the DMK, launched an all-out war to storm Fort St George quite early, forcing the ruling dispensation to quickly respond. Thus, the battle lines have been drawn between the two traditional rivals, who have been ruling the state alternately since 1967, after that indistinct threat that loomed for about a year in the form of actor Rajinikanth dissipated and the other actor, Kamal Haasan, with his Makkal Needhi Maiam, is not expected to play a big role.

Of course, Mr Haasan is around and has already started going around spouting rhetoric and another actor, Seeman, with his Naam Tamilar Katchi is, as usual, spewing chauvinistic vitriol. But there is no scope for a third front to take on the might of the DMK and AIADMK as a plethora of smaller parties in the state, which include the BJP and the Congress that are otherwise political giants at the national level, have started rallying around the Dravidian majors, in the run-up to the state Assembly elections. But the same small parties are now promising to provide scope for some political drama.

**Another thorn in the flesh of the AIADMK is the PMK bargaining for an assurance to provide 20 per cent exclusive reservation for the Vanniyar community that it represents to remain in the alliance**

The rumblings of discontent in the two coalitions, forged during the 2019 Lok Sabha elections, are signs of potential wrangling, triggered by the overt ambitions of the two lead parties that want to rule the state. Both the DMK and the AIADMK are keen on contesting in an extremely high number of seats, as both are averse to sharing power with allies. For them, alliances are for winning elections and not ruling the state and hence they expect at least a simple majority to form the government on their own. And the fallout is allies not getting the desired number of seats.

In the past, as it happened in 2016, disillusionment over seat allocation had united small parties to form alternative alliances. But this time there is no sign of such rebellions as the small parties seem to be prepared to accept whatever is given, though they have started asserting themselves in a different way. Almost all the parties want to retain their individual identity by contesting in their own symbols and names. Since that goes against the wishes of both the alliance leaders, who want smaller allies to opt for their popular election symbols, thus marking ally candidates, at least in Election Commission records, as their representative, there is bound to be friction and action.

Another thorn in the flesh of the AIADMK is the Pattal Makkal Katchi (PMK) of Dr S. Ramadoss bargaining for an assurance to provide 20 per cent exclusive reservation for the Vanniyar community that it represents to remain in the alliance. How the AIADMK deals with the belligerent PMK and how both the lead partners coax their allies to settle for a smaller number of seats would form the next act of the long-drawn electoral drama, whose climax is, as said earlier, four months away.

## Policy not court's domain

The value of the committee of four experts appointed by the Supreme Court in arbitrary fashion in an effort to defuse the national political crisis caused by the prolonged agitation by tens of thousands farmers is questionable.

The farmers are knocking on Delhi's gates to protest three farm laws recently passed by the Narendra Modi government. In such haste was the regime that it first brought the legislations in the form of ordinance — or executive fiat — in mid-June and then rushed these through Parliament in three days flat by the end of September, short-circuiting and bypassing norms and procedures.

The top court waded into the delicate situation caused by the agitation, which has attracted world attention, when neither the government nor the farmers called for its help, although during negotiations the government's ministers did tell the farmers' representatives to try their luck in the Supreme Court if they weren't satisfied with what the government was offering. The farmers didn't take the bait. But the court stepped in anyway.

The Supreme Court has held the three laws in abeyance. Maybe, this is in order to appear even-handed. But this is not cutting ice outside government circles. The farmers' demand is the repeal of the laws, which they see as bad policy, adversely impacting their lives. Evidently, the top court does not understand this. Nor does the Supreme Court see that it has no role in determining policy, which is the exclusive domain of the executive.

As per the Supreme Court, the committee it has brought into being will hear all sides and help the apex court understand whether the farm laws are in the "public interest". This self-given assignment is outside the top court's remit. The job of the Supreme Court is to determine the constitutionality or otherwise of a legislation, not whether it is in the public interest. That is for the people to decide. When court-appointed experts seek to do so, it is the ayatollah syndrome that looms.

For the sake of record, all the four experts in the committee are strongly pro-government on the agri laws, and yet the Chief Justice of India expects farmers' representatives to appear before this committee. Instead of seeming the honest broker, the CJI may be courting disdain. What a pity!

## Is 'new normal' really a return to the old ways?

**Patralekha Chatterjee**  
Dev 360

Poverty. Inequality. Precarity. Vulnerability. These are mere words, until they hit us directly or confront us in a way which makes it difficult to look away.

A flood of images of migrant workers walking down national highways burst into middle class India's living rooms following the nationwide lockdown announced by Prime Minister Narendra Modi in March last year. The lockdown came into effect with barely four hours' notice. All economic activity came to a grinding halt; and there was no transport.

Those searing images of migrant workers — men and women reduced to collateral damage for the State in its battle against the coronavirus — jolted many people.

Suddenly, everyone was talking about the heart-breaking conditions in which all daily wage earners — the face of the country's vast informal sector — lived and worked.

For a fleeting while, optimists wondered if the Covid-19 pandemic had sledgehammered some fundamental lessons about the need for solidarity between the "formal" and "informal" sectors, if not for anything else but enlightened self-interest.

Almost a year down the line, as we get ready for the vaccine rollout and for the economy to recover fully, what really has changed?

Are we trying to do science and fix the economy in a way that factors in the needs and rights of our most vulnerable? Or is our "new normal" really going back to the old ways?

Last week, once again, images of precarity and poverty came together through the testimonies of desperately poor people who had volunteered to participate in the ongoing clinical trial of Bharat Biotech's Covid-19 vaccine candidate, Covaxin, in Bhopal.

Covaxin, as everyone knows by now, has been cleared by India's drugs controller for restricted emergency use. This means, along with Covishield, the Serum Institute of India's coronavirus vaccine, it is part of the vaccine rollout.

Hyderabad-based Bharat Biotech has given safety and immunogenicity data. But there is no efficacy data yet. This data is expected in a couple of months.

Meanwhile, the ongoing trial has attracted a lot of public attention after the allegations of irregularities and violations of ethics. Many questions are being asked about the manner in which People's Hospital in Bhopal, one of the trial sites, enrolled participants for the Covaxin trial.

Once again, we are face to face with stark images of vulnerability.

The video testimonies arranged by a Bhopal-based human rights group in the wake of the death of a participant in the trial made it clear that those who had signed up to participate in the trial had little idea of what it entailed. Bharat Biotech says the post-mortem analysis has revealed that the death was not related to the vaccine. The family of the deceased feel differently.

Most of those who offered their testimonies on camera are victims of the horrific Bhopal gas tragedy, the world's largest industrial disaster in December 1984; and many said that they could not read or write.

What leaps out from among the many statements they made is the stark reality of "informed consent" when it comes to poor people with no education and little bargaining power.

As is widely known, there are four key parts of informed consent in a clinical trial — information, comprehension, voluntariness and documentation. "Giving information does not mean it

has been comprehended. According to the new clinical trial rules in India, there should be an 'impartial witness' while informed consent is being taken from an illiterate participant," says Dr Anant Bhan, a well-known researcher in global health and bioethics.

Additionally, for vulnerable participants, there is a requirement for audio-visual documentation of the process, Dr Bhan points out.

"The recent testimonies of volunteers, many of whom are illiterate and poor, for a Covaxin trial site in Bhopal, show big gaps in oversight in the regulatory process," he adds.

Doing science must not mean playing with the basic human rights of vulnerable people, says Dr Bhan emphatically. Clearly, this is in no one's interest and will also raise questions on the quality of data coming out of such trials.

"The seriousness of the allegations made by some volunteers in public in full view of the national media raises a question about whether audio-visual recordings of the informed consent process were done in line with the protocol laid down by the Central Drugs Standard Control Organisation (CDSCO)," says Amar Jesani, another leading expert on ethics, rights and health systems and editor, *Indian Journal of Medical Ethics*.

"This is not filming a wedding party," says Jesani acerbically. "There is a specific protocol on how these situations need to be filmed. Many of the volunteers are from highly vulnerable groups who did not know their rights. But just because someone does not know his/her rights does not mean rights don't exist."

There are many legitimate questions. Do audio-

**What leaps out from among the many statements in the Bhopal Covaxin trial is the stark reality of 'informed consent' when it comes to poor people with no education and little bargaining power**

visual recordings of the informed consent process exist for all trial participants from vulnerable groups? Or was it done for only a few? Why?

"This also raises questions about the role of the local ethics committees. Have they investigated whether the audio-visual recordings were done and according to protocol? If such video recordings exist, they can be made public by blanking the face and identity of participants who have not on their own publicly identified as participants," Jesani adds.

The face of vulnerability is equally stark when it comes to the green shoots of economic recovery.

"There are reasons to fear that economic recovery from the pandemic, like the 'growth story', will be shouldered by precarious labour. An already deep employment crisis is worsening further," wrote SOAS academic Dr Subir Sinha in a recent essay in *Open Democracy*, a website covering international affairs.

So, is there any reason for hope?

Mukta Naik, an architect and urban planner working with the Centre for Policy Research, acknowledges that many informal workers face "worse terms" as the Indian economy seeks to recover. The images of the long march of migrant workers, she says, sensitised many among India's middle class, but sadly, the lockdown months made them retreat into their individual bubbles.

However, she points out, many states are now talking about social protection for the vulnerable. There is an appetite for discussion on the subject.

But pathways and mechanisms to operationalise this vision are still not clear, Ms Naik says.

That much-needed clarity could make all the difference.

India doesn't have to let millions lead a precarious existence. It could use its resources to build back better.

### LETTERS

#### BEATING THE FAT

During the eight-month lockdown, not just children but also grown-ups, confined to home, put on weight due to lack of exercise. *(More eating, no exercise in lockdown days, DC, Jan. 13).* We have to order a few uniforms for our children when schools reopen, as they grow quickly. To maintain fitness, I have been playing with a balloon instead of a ball while locked at home. It is good exercise and it is fun too.

#### CATCH THE CULPRITS

The temples imbroglio in Andhra Pradesh should not be allowed to escalate into a communal weapon in the Tirupati Lok Sabha byelection where the BJP may play the card: choose between a 'Bible candidate' or a 'Bhagwad Gita candidate,' thus highlighting the Christian faith of Chief Minister Y.S. Jagan Mohan Reddy. The Chief Minister should run two extra miles to nab the culprits who have desecrated idols in many temples in the state.

#### FARMER ROW

Forty-one farmer unions of Punjab and Haryana are not answerable to anyone in this democratic country, but are a law unto themselves *(Farmers say members of SC panel on agri laws pro-govt, DC, Jan 13).* They have no faith in the Centre, the Supreme Court and the panel to solve their one point programme of repeal of farm laws. The situation may be complicated if farmer unions in the rest of India come forward in support of three farm laws. The agitating farmers must be amenable to reason.

## K'taka home secy shunted out for calling Safe City 'scam'

IPS officer D. Roopa, who was the first woman home secretary of Karnataka has been transferred as the managing director of Karnataka State Handicrafts Development Corporation amid her public spat with another IPS officer Hemant Nimbalkar, who, too, was transferred. Mr Nimbalkar was the additional commissioner (administration) in Bengaluru before being transferred to the internal security department.

Public spat is rarely pretty and the one between these two senior IPS officers of Karnataka over the tender process to procure CCTVs has brought out in the open the intense rivalries in the service. The two IPS officers locked horns after Ms Roopa accused Mr Nimbalkar of irregularities in the tender process of the ₹619 crore Bengaluru Safe City project under the Nirbhaya scheme. Mr Nimbalkar, on the other hand, accused Ms Roopa of interfering with the tender process without jurisdiction.

Ms Roopa had written to state chief secretary T.M. Vijaya Bhaskar alleging that Mr Nimbalkar was trying to favour a private company in the Bengaluru Safe City Project and demanded a probe against Mr Nimbalkar, alleging, in turn, that while the Home Department has started an enquiry against her, it has hesitated to do the same against Mr Nimbalkar, even after months since the CBI sought sanction for his prosecution.

According to sources, Ms Roopa wrote to the chief secretary after media reports that suggested she was under investigation by the chief secretary for allegedly "impersonating" the home secretary and interfering with the tendering process for the multi-core project. It is unclear where the question of impersonation arises, as Ms Roopa was the home secretary of Karnataka! The content of the report is on the lines of a complaint written by Mr Nimbalkar to

the Karnataka chief secretary.

As the two trade charges, sources say that the government has started an inquiry in the matter. Expect more salvos in the days ahead!

#### KHEMKA DIGS IN HIS HEELS

Haryana IAS officer and whistle-blower Ashok Khemka never gives up on his first principles.

Now principal secretary in the state's archaeological department, the indefatigable Mr Khemka continues to pursue the case which brought him into the national limelight. Last year, Mr Khemka had appealed to the Haryana State Information Commission under the Right to Information Act.

He had sought information relating to the inquiry commission that probed the grant of change of land use licences in Gurugram during the Congress government's tenure, including the alleged role of Robert Vadra, son-in-law of Congress interim president Sonia Gandhi. He informed the information com-

mission that the complete information sought had not been provided to him.

The commission has now issued notice to the office of chief secretary (political department) and the town and country planning department to give their response to the rejoinders filed by Mr Khemka. Sources say that the IAS officer has sought "penal action" under Section 20 of the RTI Act against those who failed to provide the information he had sought, claiming there is a "cover-up attempt". This, too, is the letter of the law.

#### J&K BABUS DEFY INSTRUCTIONS

The government has taken serious note of several IAS officers of the Jammu and Kashmir cadre openly flouting instructions on the online filing of immovable property returns (IPRs). Non-compliance can lead to disciplinary proceedings and denial of vigilance clearance.

According to sources, online fil-

ing of IPRs was introduced in 2017. In terms of the extant rules, the babus have to necessarily file IPRs electronically as there is no provision for manual submission.

But much to the disappointment of the department of personnel and training (DoPT) and the general administration department (GAD), several IAS officers have not acted on the instructions issued repeatedly since 2017. Now, sources say, the commissioner secretary of GAD, Manoj Kumar Dwivedi, has issued a circular stating that failure to comply would "constitute good and sufficient reason for the institution of disciplinary proceedings". The IAS officers have been advised to follow the instructions in letter and spirit or face the consequences. The government has clearly decided that it will not give further leeway to the defaulters.

IN BRIEFS

MP hooch tragedy toll mounts to 20

**Bhopal:** The death toll in Tuesday's hooch tragedy in Morena district has mounted to 20 with 8 more people, who had fallen ill after consuming spurious liquor, succumbing in the hospital on the intervening night of Tuesday and Wednesday. All the 20 deceased hailed from the villages of Manpura under Baghchini police station and Pahawali under Sumaoli police station in the district, official reports reaching from Morena said on Wednesday. Preliminary police investigation has revealed that the victims had purchased liquor from an authorised person, who was also hospitalised after consuming the same liquor, at the rate of ₹50 per bottle. Chief Minister Shriy Singh Chouhan who took stock of the situation at a high level official meeting here in the morning, ordered transfer of Morena district collector Anurag Verma and local superintendent of police Anurag Sujatia.

Major blaze in Kolkata

**Kolkata:** A major fire broke out at a slum in Kolkata's Bagbazar area on Wednesday evening. At least 24 fire tenders were pressed into service as the blaze engulfed several houses in the slum on Kshirode Vidyavinode Avenue beside the Bagbazar Women's College near the Chitapore Lock Gate Bridge. Blasts were heard in the slum which police suspect to be of gas cylinders at the houses on fire, officials said. There were no reports of any casualty as most of the people were evacuated on time, they said. The blaze also spread to the adjacent Sarada Mayer Bari as the firefighters escorted the saints out, an officer of the fire department said. "The reason for the fire is not yet known. The firemen are fighting it tooth and nail and hopefully, it will soon be under control," an officer of the Kolkata Police said.

BADAUN CASE: PRIEST REMANDED TO POLICE CUSTODY

**Badaun (UP), Jan. 13:** A temple priest and his accomplices accused of raping and killing a 50-year-old woman here have been remanded to one-day police custody by a local court. Circle officer of Bilsli, Anirudh Singh, said on Wednesday that, "The three accused persons in the Ughaiti incident have already been sent to jail. But there are some questions which need to be answered. For this, it is necessary to take the three accused on remand". A request through video conferencing was made to the court of the chief judicial magistrate for police remand on Tuesday and the request was granted. The family members of the woman had accused the temple priest and his accomplices of raping and killing the woman, an anganwadi worker. A case was registered against the accused and two of them identified as Vedram and Jaspal were arrested on January 5. Later the priest was also arrested.

150-m cross-border tunnel found in J&K

This is the 3rd tunnel unearthed by alert BSF guards

**Jammu, Jan. 13:** A 150-metre tunnel constructed along the International Border (IB) to facilitate infiltration of terrorists into Jammu and Kashmir from Pakistan was detected by Border Security Force (BSF) personnel in Hiranagar sector of Kathua district on Wednesday, officials said. This is the third tunnel unearthed by alert border guards along the IB in the twin districts of Samba and Kathua in Jammu region over the past six months and ninth in the past decade. "A nearly 150-metre-long tunnel was detected by a BSF patrol party during an anti-tunnelling operation in Bobiyaan village of Hiranagar sector on Wednesday morning," Inspector General of BSF, Jammu frontier, N.S. Jamwal told reporters at the scene. He along with other senior officers rushed to Bobiyaan soon after the detection of the tunnel. "The opposite of this side is Pakistan's Shakergarh which is notorious for having launch pads and bases of terrorists. We have inputs available with us as a result of that we are sensitive to whatever is happening here," the BSF officer said, assuring that all necessary measures are in place to counter Pakistani designs. He said sand bags with Pakistani markings are evidence of the hand of Pakistani establishment in the construction of this tunnel, which is identical to the previously detected tunnels hav-

Security officers investigate near the mouth of a 150-metre underground tunnel, constructed allegedly by Pakistan beneath IB, at Hiranagar sector of Kathua district on Wednesday.

ing a depth of 25 to 30 metre with two to three feet diameter. Asked whether this tunnel was recently dug or it's an old one, the BSF officer said it is a matter of investigation. However, he said some of the sand bags recovered from the tunnel have 2016-17 year of manufacture which suggest that it is an old tunnel. "We were searching for this tunnel for a long time and its detection was the effort of the anti-tunnelling operation which is underway all along the IB. Whether any infiltration had taken place through this tunnel in the past can be said after completion of our investigation," he said. Jamwal, however, said the BSF is sure that no infiltration had taken place through this tunnel in the recent past. "We are undertaking some development works here and have strengthened the security in view of the anti-tunnelling drive, he said. Referring to the killing of two Pakistani infiltrators in Surankote area of Poonch district and an encounter in Srinagar last month, the IG said Pakistan is always looking for an opportunity to push terrorists into Jammu Kashmir, whether it is through Line of Control (LoC) or

IB. "They are continuing with the attempts but we are fully alert to the situation. Our alertness resulted in detection of underground tunnels and shooting down of a Hexa-copter loaded with a huge cache of arms and ammunition," he said, adding the border protection grid comprising army, BSF and police are working jointly to scuttle Pakistan's attempts to push terrorists and weapons into this side. Last year, the BSF detected two such tunnels in Samba district on August 28 and November 22 following successful infiltration by two groups of terrorists who were subsequently neutralised in separate encounters along Jammu-Srinagar national highway while they were enroute to Kashmir in trucks. While three Pakistani terrorists affiliated with Jaish-e-Mohammad (JeM) were eliminated in a gunfight in Nagrota area near Jammu after they were intercepted aboard a Kashmir-bound truck in January last year, another group of Pakistani terrorists armed with weapons and a large quantity of grenades were killed at the same spot on November 19. Investigations suggested both the groups infiltrated into this side through underground tunnels. Meanwhile, Pakistani Rangers violated ceasefire by resorting to unprovoked firing on forward posts and villages in the Border Outpost area of Gurnam in Hiranagar sector, the officials said.

Airline official's murder in Patna raises political heat

NAYEAR AZAD | DC PATNA, JAN. 13

Nitish Kumar led NDA government facing attack over rising crime graph in Bihar was in for another setback when a private airline official Rupesh Kumar Singh was gunned down in Patna Tuesday evening. The incident occurred outside his residential complex in Patna's crowded Punaichak area under Shastri Nagar police station. According to the police, he had returned from the airport after duty and was entering into his residential building when criminals started firing indiscriminately and pumped at least six bullets from the window of the car. He was rushed to a hospital for treatment where doctors declared him brought dead. While investigating the case police found that CCTV of the building was not working and the security guard was not

present when the incident occurred. According to police officials, "A special investigation team has been formed to probe the case. We are also trying to find a motive behind the killing". However, according to reports, the police on Wednesday found some vital clues in the murder of Rupesh Kumar Singh. Sources said that CCTV from the nearby building suggests that there were two motorcycle-borne assailants and they appeared to be following him from the airport. The incident has triggered sharp reactions from across the political spectrum in Bihar. BJP leader and Rajya Sabha

MP Vivek Thakur raised questions on the law and order scenario of the state said that "the police should either reach some conclusion or hand over the case to the CBI without delay". BJP is a part of Nitish Kumar government in Bihar. The harsh statement issued by the ruling alliance leader has aroused political temper- ature in the state. On the other hand RJD leader, Tejashwi Yadav on Wednesday demanded Chief Minister Nitish Kumar's resignation over his failure in controlling rising crime graph in the state. "Criminals protected by those in power in Bihar killed airport manager Rupesh Kumar Singh in Patna outside his residence. He was affable and friendly. I am deeply saddened by his untimely death. It seems that now criminals are running the government in Bihar", Tejashwi said in a tweet.

HC: Mandate of 30 days notice under Spl Marriage Act optional

**Lucknow, Jan. 13:** In a judgement that is likely to bring relief to inter faith couples, the Allahabad High Court on Wednesday declared as optional the mandatory publication of notice of intended marriages under the Special Marriage Act, saying it violated the right to privacy. Making such publication mandatory would invade in the fundamental rights of liberty and privacy, the Lucknow bench of Allahabad High Court said. It would also affect the couple's freedom to choose

marriage "without interference from state and non-state actors", Justice Vivek Chaudhary said. He said it shall be optional for the parties to the intended marriage to make a request in writing to the marriage officer to publish or not to publish such a notice. If the couple did not intend so, the marriage officer has to solemnise their marriage forthwith without publication of 30 days notice, the court said. A section of the Special Marriage Act, 1954, requires

an inter-faith couple to give written notice of the marriage to the district marriage officer. The court was considering a habeas corpus petition alleging that an adult girl is being detained against her wishes to marry her lover who belongs to a different religion. The judgement comes against the backdrop of a recent controversial law enacted by the Uttar Pradesh government which prohibits forcible conversion for the sake of marriage. —PTI

Mother of murdered 5-year-old moves SC

AKSHAYA KUMAR SAHOO | DC BHUBANESWAR, JAN. 13

In a development in the case involving the brutal murder of a five-year-old girl from Jadupur village in Odisha's Nayagarh district, the mother of the victim on Wednesday moved the Supreme Court seeking Central Bureau of Investigation CBI investigation. Admitting the petition, the apex Court sent notices to the Odisha government and the Central Bureau of Investigation (CBI) to put forth their views. Saudamini Sahoo, the mother of the victim filed a writ petition under Article 32 of the Constitution of India in exercise of her right to Constitutional remedies. Soudamini has been opposing the investigation into the case launched by a Special Investigation Team (SIT) of the Odisha Crime Branch apprehending a shoddy probe on account of the alleged involvement of influential politicians belonging to the ruling party in the crime. She had earlier raised doubts over the veracity of the probe, especially when the sleuths overlooked her complaint in bringing the "main accused" under the ambit of the investigation. She had identified Babuli Nayak, a close associate of

● **ADMITTING THE** petition, the apex Court sent notices to the Odisha government and the CBI to put forth their views. ● **SAUDAMINI SAHOO**, the mother of the victim, has been opposing the investigation into the case launched by a SIT of the Odisha Crime Branch apprehending a shoddy probe on account of the alleged involvement of influential politicians.

Minister Arun Sahoo as the "main accused" behind the crime who, she said, was not properly investigated by the SIT. She had repeatedly punched holes in the findings of the SIT and alleged that the probe team had falsely implicated a juvenile in the case while the real culprits were moving scot-free. The little girl, daughter of Ashok Sahoo and Soudamini Sahoo, was allegedly kidnapped on July 14 while playing in front of her house in the afternoon. Her skeletal remains were recovered from the backyard of her house on July 23. The parents of the girl alleged the girl was kidnapped and killed by one Babuli Nayak, a close aide of minister Arun Nayak. Ashok alleged that Babuli ran an organ trade racket in the area.

NCB SUMMONS MAHA MIN'S SON-IN-LAW

BHAGWAN PARAB | DC MUMBAI, JAN. 13

In a major embarrassment for the senior NCP minister Nawab Malik, the Narcotics Control Bureau (NCB) summoned his son-in-law Samir Khan on Wednesday in connection with an alleged drugs case. The NCB's action came after its arrest of one of the co-owners of the Muchhad Panwala shop in Mumbai. Samir Khan is the husband of Nilofer, the daughter Malik, who is a minister of minority affairs and skill development in the MVA government in Maharashtra. He is also the chief spokesperson of the NCP. According to the NCB sources, the agency summoned Khan for questioning in an alleged drug procurement case and recorded his statement. Khan's name came up during the interrogation of British national and drug peddler Karan Sajani. There is an online transaction of ₹20,000 between Sajani and Khan. "Samir Khan has been called to verify the same. We want to verify credentials of this transaction and, hence, summoned him," an official said.

COVID | FIGHT Maha says it has got fewer doses of the vaccine than it requires

States all set to start vaccination

DC CORRESPONDENTS HYDERABAD, JAN. 13

Ahead of the January 16 vaccination deadline, states have started receiving the vaccines from the Central government to be administered to the frontline health workers on priority basis among others.

MAHARASHTRA

Even before the inoculation of Covid Vaccine began, Maharashtra health minister Rajesh Tope on Wednesday alleged that the state has received less doses of the vaccine than its requirement. Mr Tope said that the state has received only 9.63 lakh vials of Covishield vaccine from the SII (Serum Institute of India) and only 20,000 vials from the Bharat Biotech, while the require-

ment of the vaccines in Maharashtra is 17.5 lakh in first phase.

KERALA

With the first consignment of Covishield vaccine from Serum institute of India arriving in Kochi on Wednesday, the state is all set to launch its vaccine drive. Kerala will receive a total of 4,33,500 doses of Covishield.

ASSAM

Assam government has completed the preparation for rolling out the vaccine on January 16 as it received the first consignment of the vaccine at the Lokpriya Gopinath Bordoloi International Airport. A SpiceJet freighter ferried over 730 kg of cargo in 20 boxes having doses to be

distributed for Assam and Meghalaya. A senior health official said that in the first lot the state got 2,01,500 doses.

ODISHA

A day after receiving 4.08 lakh doses of Covid-19 vaccine Covishield from Serum Institute of India, Odisha on Wednesday got the first consignment of Bharat Biotech's Covaxin dispatched from Hyderabad. The consignment of 20,000 doses of Covaxin landed at Biju Patnaik International Airport.

MADHYA PRADESH

The first consignment of 94,000 doses of Covishield vaccine reached Bhopal airport from Mumbai on Wednesday. The vaccine vials were transported to

the state vaccine Centre in Bhopal from Raja Bhoj airport in an insulated van of state health department, an official of state public relations department said.

CHHATTISGARH

As many as 3.23 doses of Covishield reached Raipur in Chhattisgarh from Pune on Wednesday afternoon to kick off the first phase of vaccination in the state. "The vaccine vials were shifted in refrigerated vans to the state vaccine Centre in Raipur", Chhattisgarh's Mission Director for National Health Mission Priyanka Shukla said.

WEST BENGAL

A vehicle carrying Covid-19 vaccine was stuck in a traffic jam in Burdwan

East of West Bengal on Wednesday for a long time due to a massive demonstration led by Trinamul Congress minister and Jamiat Ulema-e-Hind state chief Siddiqullah Chowdhury against the three farm laws. The incident took place a day after the first consignment of Covid-19 vaccine reached the state.

Mr Chowdhury however said, "It was not intentional. The truck with the vaccine was stuck at the end of a long queue of vehicles. The police, soon after coming to know about it, helped it pass by through a different route."

## US Covid toll hits new daily record of 4.5K

Washington, Jan. 13: The US death toll from Covid-19 hit a new daily record of nearly 4,500, Johns Hopkins University said Tuesday evening.

As the health crisis rages out of control in the US, this was the first time the toll in the country hardest hit by the pandemic surpassed 4,000 in 24 hours. The US recorded more than 235,000 new cases of Coronavirus infection and 4,470 deaths, according to the Johns Hopkins tally as of 8:30 pm (0130 GMT).

Around 131,000 people are now hospitalised in the US with Covid-19, said the Covid Tracking Project. The weekly average of fatalities is at its highest level since the pandemic started, it said.

Faced with these grim numbers and the presence of the new, more contagious Covid variant, authorities announced Tuesday that people wishing to fly to the US must show proof of a negative Covid test prior to departure.

The country, where health restrictions vary drastically between states and compliance can be spotty, is ultimately counting on a massive vaccination campaign begun in mid-December to bring the health crisis to an end.

But the effort is running behind, with just 9.3 million people having received the first of two injections of the two vaccines authorized in America. That is less than 10 percent of the population. —AFP

## VIRUS TEST FOR PASSENGERS LANDING IN U.S.

New York, Jan. 13: Anyone flying to the US will soon need to show proof of a negative test for Covid-19, health officials have announced. The Centers for Disease Control and Prevention requirement expands on a similar one announced late last month for passengers coming from the United Kingdom.

Covid is already widespread in the US, with more than 22 million cases reported to date, including more than 375,000 deaths. The new measures are designed to try to prevent travellers from bringing in newer forms of the virus that scientists say can spread more easily.

The CDC order is to take effect in about two weeks, on January 26. It requires air passengers to get a Covid-19 test within three days before their flight departs to the US, and to provide written proof of the test result to the airline. Travellers can also provide documentation that they had the infection in the past and recovered.

Airlines are ordered to stop passengers from boarding if they don't have proof of a negative test or a prior infection. "Testing does not eliminate all risk," CDC Director Robert R. Redfield said. —AFP

## Despite threats, Navalny to fly home

Moscow, Jan. 13: Top Kremlin critic Alexei Navalny said Wednesday he would go home to Russia over the weekend despite the Russian prison service's latest motion to put him behind bars for allegedly breaching the terms of his suspended sentence and probation. Navalny, who has been convalescing in

Germany from an August poisoning with a nerve agent that he has blamed on the Kremlin, charged that Russian President Vladimir Putin was now trying to deter him from coming home with new legal motions. The Kremlin has repeatedly denied a role in the opposition leader's poisoning. —AP

## SEARCH ON FOR VOICE RECORDER

Jakarta, Jan. 13: Divers searching for a crashed jet's cockpit voice recorder were sifting through mud and plane debris on the seabed of Indonesian islands on Wednesday to retrieve information key to learning why the Sriwijaya Air jet nosedived into the Java Sea over the weekend.

Indonesian navy divers on Tuesday recovered the flight data recorder from the jet that disappeared on Saturday, minutes after taking off from Jakarta with 62 people aboard. The information on both black boxes will be key to the crash investigation.

The 26-year-old Boeing 737-500 had resumed commercial flights last month after almost nine months out of service because of flight cutbacks caused by the Covid pandemic. The US Federal Aviation Administration sent an airworthiness directive requiring operators of various Boeing 737 aircraft models, including the 737-500, to carry out engine checks before they can be flown again after being out of service.

The order followed reports of engines shutting down in mid-flight because of corrosion in a key valve. Director General of Air Transportation Novie Riyanto said the plane was inspected on December 2, including checks for engine corrosion, and was declared airworthy by Indonesia's Transportation Ministry on December 14. It resumed commercial flights on December 22, according to ministry data.

After returning to service, the plane made 132 flights, including the last one, according to aviation-data firm Flightradar24. Aviation experts said planes that are parked for long stretches can be returned to flight safely. —AP

# Pence refuses to invoke 25th Amendment

Washington, Jan. 13: US Vice President Mike Pence told House leaders Tuesday he does not support invoking the 25th Amendment process to remove Donald Trump, all but guaranteeing an impeachment vote against the besieged president. "With just eight days left in the President's term, you and the Democratic Caucus are demanding that the Cabinet and I invoke the 25th Amendment," Pence wrote to House Speaker Nancy

Pelosi, referring to the process that would declare Trump unable to fulfill his duties and install Pence as acting president for the remainder of the term. "I do not believe that such a course of action is in the best interest of our nation or consistent with our Constitution," he said. Democrats mobilised rapidly to begin the process to have Trump removed after he encouraged his supporters last Wednesday to

"march" to the US Capitol and "fight." In a violent insurrection, the rioters stormed past outnumbered police, rampaged through and ransacked the building, and interrupted Congress as it was certifying Joe Biden's election victory. The Democratic-controlled US House of Representatives, which is rushing ahead towards impeaching Trump over the unprecedented Capitol Hill attack, has passed a resolu-

tion urging Vice President Mike Pence to invoke 25th Amendment to remove him from office.

The resolution was voted by 223 to 205 votes on Tuesday night. The voting was mostly on party lines, with one Republican voting in favour of the resolution and five abstaining.

Earlier in the day Trump said the 25th Amendment was of "zero risk" to him.

## CAPITOL HILL RIOTERS: 160 FBI PROBES

Washington, Jan. 13: The FBI has opened more than 160 investigations against the January 6 Capitol Hill rioters, officials said here, and asserted this is just the tip of the iceberg. The agency has worked hand-in-hand with the United States Attorney's Office and law enforcement partners in DC and across the country to arrest and charge multiple

individuals who took part in last week's breach of the US Capitol, FBI Washington Field Office Assistant Director In-Charge Steven M D'Antuono said.

"In six days, we have opened over 160 case files, and that's just the tip of the iceberg," he said, adding the FBI has received more than 100,000 pieces of digital media. —PTI

Foxconn sets up  
auto arm as  
Apple car looms

Apple Inc's Taiwanese partner Foxconn Technology Group is setting up a car venture, strengthening its automotive capabilities amid reports that Apple is considering making its own electric vehicles. Many technology companies are looking to expand in vehicles. Foxconn is joining forces with Chinese carmaker Zhejiang Geely Holding Group Co to provide production and consulting services to global automotive enterprises.

Adani Green's  
promoter sells  
₹1,840-cr shares

Adani Trading Services LLP, a promoter entity of Adani Green, sold 2 crore shares of Adani Green Energy Ltd worth over Rs 1,840 through open market transactions. Block deal data with the BSE shows Adani Trading Services had divested 2,00,96,000 scrips in the price range of Rs 906 to 916.15, amounting to Rs 1,840.20 crore. The shares were purchased by Acme Trade and Investment Ltd.

Registration fee  
for investment  
advisors reduced

The Sebi has cut down application and registration fees for individuals and corporates seeking a registered investment advisor status. Now, individuals and firms (partnership) will have to pay Rs 2,000 while applying for an investment advisor certificate instead of Rs 5,000 so far. The application fee for corporates, including LLPs, has been brought down to Rs 10,000 from Rs 25,000.

CESC net profit  
increases 25% to  
₹328 crore in Q3

CESC Ltd posted a 25 per cent jump in consolidated net profit at Rs 328 crore for December quarter against Rs 263 crore in the year-ago quarter. Total income rose to Rs 2,581 crore from Rs 2,377 crore. The board declared an interim dividend of Rs 45 per equity share, or 450 per cent. The board has also decided to reorient and reorganise the distribution business under Eminent Electricity Distribution Ltd, a subsidiary.

■ Q3 net profit rises 17% to ₹5,200 cr  
Infy raises FY21  
revenue outlook

New Delhi, Jan. 13: Infosys on Wednesday posted a 16.6 per cent rise in consolidated net profit at Rs 5,197 crore for the December 2020 quarter, and increased its revenue growth guidance for FY21 to 4.5-5 per cent on the back of large project wins and strong deal pipeline.

The Bengaluru-based company, whose large deal total contract value rose to an all-time high of \$7.13 billion in the quarter under review, had registered a net profit (after minority interest) of Rs 4,457 crore in the year-ago period.

Infosys' revenue grew 12.3 per cent to Rs 25,927 crore in the quarter ended December 2020 from Rs 23,092 crore in the year-ago period.

Buoyed by the strong performance, Infosys increased its FY21 revenue growth forecast to 4.5-5 per cent in constant currency terms from its previous guidance of 2-3 per cent growth.

"We have had an exceptionally strong quarter across multiple dimensions..We achieved the highest large deals win in our history with the deal value of \$7.1 billion. This includes the largest deal in our history and what we believe is the largest deal in the history of the Indian IT services industry," Infosys CEO and MD Salil Parekh told reporters in a virtual conference.

He added that overall large deal value for the nine-month period of this financial year was at more

## WIPRO Q3 NET PROFIT UP 20.8%

New Delhi, Jan. 13: IT services major Wipro on Wednesday posted an about 21 per cent increase in consolidated net profit at Rs 2,968 crore for the December 2020 quarter. The net profit attributable to shareholders in the year-ago period was at Rs 2,455.9 crore.

Its revenue from operations grew nearly 1.3 per cent to Rs 15,670 crore from Rs 15,470.5 crore.

Wipro, which gets a bulk of its topline from IT services, said it expects revenues from that business to be in the range of \$2,102 million to \$2,143 million in the March 2021 quarter. This translates into a sequen-

than \$12 billion, and the net new large deal value for the same period was over \$8 billion which positioned the company "very strongly" for the quarters ahead.

"Looking ahead, we continue to see momentum in our business, strong mar-

tial growth of 1.5 per cent to 3.5 per cent for the March quarter.

For the December quarter, IT services revenue grew 3.9 per cent sequentially to \$2,071 million, exceeding the forecast of 1.5-3.5 per cent that had been given by the company in October.

"Wipro has delivered a second consecutive quarter of strong performance on order booking, revenue and margins. Five of our sectors grew over 4 per cent sequentially. We closed our largest ever deal win in Continental Europe," Wipro CEO & MD Thierry Delaporte said in a statement. —PTI

Amazon starts ₹89/month  
mobile video plan with AirtelSARITHA RAI  
JAN. 13

Amazon.com Inc. is starting its first mobile-only Prime Video plan, targeting the hundreds of millions of entertainment-hungry smartphone users in India as the country's streaming market surges. The single-user plan is available to wireless carrier Bharti Airtel's prepaid customers for as low as Rs 89 (\$1.20) a month after a 30-day free trial. The streaming plan comes with 6 gigabytes of data, which can also be used on other services.

Amazon and rivals Netflix Inc, Google's YouTube and Walt Disney Co are ramping up streaming services in the world's second-biggest smartphone market, where mobile internet prices are among the lowest on the planet. The companies are plowing hundreds of millions of dollars into creating original shows in multiple lan-

AMAZON ACADEMY  
TO COACH FOR JEE

Chennai, Jan. 13: Amazon has entered into edu-tech space with the launch of Amazon Academy to help students preparing for the Joint Entrance Examination (JEE) for entrance to engineering colleges. In addition to the JEE, those preparing for BITSAT, VITEEE, SRMJEEE, and MET exams will also benefit from the free content resources.

—FC Bureau

guages and buying rights to Bollywood film premieres and cricket games.

"We want to democratise the access to content and through this unique offering reach hundreds of millions of users," Gaurav Gandhi, director and India head for Amazon

Prime Video, said in a phone interview. About 85 per cent of internet access in India is via mobile devices and nearly 90 per cent of all mobile users that access data are on prepaid plans, he said.

Prime Video already has customers in more than 4,300 cities and towns in India and the new plans will help Amazon push deeper into the hinterland. In the next few years, India will have as many streaming-service users as TV viewers and that calls for innovation on the product and distribution fronts, Gandhi said. The Seattle-based e-commerce giant's streaming service is available in about 240 countries and territories while its Prime membership is available in 19 countries including India. The nation of 1.3 billion is the first where a Prime Video standalone plan is available aside from the Prime membership. —Bloomberg

TEXTILE SALES  
RECOVERING  
EVEN AFTER  
FESTIVE SEASONSANGEETHA G  
CHENNAI, JAN. 13

The domestic textile sector, which started recovering during the festive season, is keeping up the momentum even in Q4.

"People are buying on e-commerce platforms and they have started going out also. Vaccine is acting as a feel-good factor. The recovery momentum would continue till the end of the fiscal," said Sidharth Rajagopal, executive director of Texprocil.

Rating firm Icria too finds that the recovery will be supported by the opening up of economies and markets, improved consumer confidence levels and continued pick up in discretionary spending. This builds on the growth seen in the recent months due to pent-up demand and festive buying.

However, the growth in some segments involving discretionary spends or aspirational buying such as formal, party wear and mid to high-value casual wear, is likely to remain lower compared to other essential product categories such as active/lounge wear and affordable-to-medium value casual apparels, given the shift witnessed in consumer usage and preferences. Within fabrics, the cotton knitted fabric segment as well as blended fabrics are likely to perform better, given their higher usage in casual or lounge wear.

PAYTM MONEY  
TO OFFER  
F&O TRADING

New Delhi, Jan. 13: Paytm Money, a subsidiary of fintech major Paytm, on Wednesday said it will provide futures & options (F&O) trading on its platform, as it eyes facilitating daily turnover of Rs 1.5 lakh crore in next 18-24 months.

The platform—which also offers services around stocks, direct mutual funds, ETF, IPO, NPS, and digital gold—is focussed on bringing "wealth services to 100 million Indians," Paytm founder and CEO Vijay Shekhar Sharma said during the online launch of the F&O trading service.

"We are on a mission to bring wealth services to 100 million Indians and this launch will provide further acceleration. This product has been made keeping in mind the mobile-first experience," he said.

Paytm Money will charge brokerage at Rs 10 for all F&O trades, which is in line with its intraday charges of Rs 10 and free for delivery.

Sebi bans CNBC Awaaz  
show host from market

New Delhi, Jan. 13: Regulator Sebi on Wednesday barred CNBC Awaaz show host Hemant Ghai, his wife and mother from the capital markets for indulging in fraudulent trading practices.

Hemant Ghai had the advance information about the recommendation to be made on the "stock 20-20" show, co-hosted by him, and that he directly or indirectly used it to his advantage, Sebi said in an interim order.

The show features recommendations on certain stocks to be bought and sold during the day.

In addition, he has been directed to cease and desist from undertaking any activity related to giving investment advice, publishing of research reports related to the securities market, till further directions.

Hemant Ghai

Further, the Sebi has also directed to impound the proceeds of Rs 2.95 crore generated by fraudulent trades.

Sebi, prima facie, found that Hemant along with his wife Jaya Hemant Ghai and mother Shyam Mohini Ghai employed a scheme to conduct fraudulent or unfair trading based on the advance information pertaining to recommendations to be

made in the show "stock-20-20".

On analysis of the trading pattern in the trading account of Jaya Hemant Ghai and Shyam Mohini Ghai for the period between January 1, 2019, and May 31, 2020, high correlation of their trades was observed with the stocks recommended in the show. It thereby generated the proceeds of Rs 2.95 crore by carrying out fraudulent trading in respect of recommended stocks.

The regulator found that shares were consistently purchased in the trading accounts of Hemant Ghai's wife and mother, one day prior to the day of recommendation on the show.

Hemant was prima facie using the trading accounts of his wife and mother. —PTI

## Global export growth seen at -5.6%

SANGEETHA G  
CHENNAI, JAN. 13

The United Nation's trade body has upwardly revised its projection of global merchandise trade for 2020 from a double-digit decline to a single-digit drop. However, it would still be the lowest growth for merchandise export volumes since the 2008 financial crisis.

In June, Unctad had predicted that merchandise trade would see an annual decline of 20 per cent in 2020. In the second quarter, trade had dropped by 27

per cent. However, there has been a recovery in the third quarter and the fourth quarter over the previous quarters. Taking this recovery into account, Unctad now predicts that global merchandise export values and volumes for 2020 are expected to be -5.6 and -8.7 per cent lower than levels seen in 2019.

The third quarter saw a robust recovery in values, which grew by 20.1 per cent from the bleak second quarter. Third quarter official statistics have not yet been released for merchandise export volumes, for

which growth is nowcast by Unctad at 8.1 per cent quarter-over-quarter.

The recovery in merchandise export values and volumes is likely to continue in the fourth quarter, though not at quite the same pace. Values and volumes are nowcast to grow in the fourth quarter by 11.6 and 3.3 per cent quarter-over-quarter, respectively. This growth comes despite the continuing spread of Covid-19, especially in the US and Europe, which has necessitated the reinstatement of lockdown measures.

RBI sets up panel  
on digital lendingFALAKNAAZ SYED  
MUMBAI, JAN. 13

After warning borrowers on availing loans from unregulated digital lending websites and mobile apps last month, the Reserve Bank of India (RBI) on Wednesday announced that it is forming a working group (WG) to study all aspects of digital lending activities in the regulated financial sector as well as by unregulated players so that an appropriate regulatory approach could be put in place.

The group has to evaluate digital lending activities and assess the penetration and standards of outsourced digital lending activities in RBI regulated entities, identify risks posed by unregulated digital lending to financial stability, regulated entities and consumers, suggest regulatory changes to promote orderly growth of digital lending, recommend measures for expansion of specific regulatory or statutory perimeter and suggest the role of various

regulatory and government agencies, recommend a robust fair practices code for digital lending players, insured or outsourced, suggest measures for enhanced consumer protection; and recommend measures for robust data governance, data privacy and data security standards for deployment of digital lending services.

The group has to submit its report within three months.

Recently there were several incidents where borrowers committed suicides due to harassment from the recovery agents of these digital lending platforms.

The working group will consist of both internal and external members and will be chaired by Jayant Kumar Dash, executive director, RBI.

The external members of the panel are Vikram Mehta, co-founder, Monexo Fintech and Rahul Sasi, cyber security expert and founder of CloudSEK.

IRFC's mega  
IPO opens  
on Jan. 18RAVI RANJAN PRASAD  
MUMBAI, JAN. 13

The Indian Railway Finance Corporation's Rs 4,600-crore initial public offering will open for bidding on January 18. The issue, in the price band of Rs 25 to Rs 26 per equity share of Rs 10 face value, will close on January 20.

IRFC is the dedicated market borrowing arm of the Indian Railways. It raises financial resources for the expansion and running of Indian Railways through capital markets and other borrowings.

The IPO of over 178.20 crore equity shares comprises a fresh issue of over 118.80 crore shares and an offer for sale (OFS) of up to 59.40 equity shares.

The public issue will constitute up to 13.64 per cent of the post-issue paid-up capital. The net proceeds from the fresh issue will be utilised for augmenting the firm's equity capital base.

## DOOMSDAY | GOSPEL

Book that forecast US's decline due to domestic conflicts 30 years ago now sells for \$2,500

## America against America is most sought after book in China

Jan. 13: After chaos engulfed the US Capitol last week, some Chinese intellectuals found themselves searching for copies of an out-of-print book to make sense of events. "America Against America" forecast the US's decline due to domestic conflicts more than 30 years ago.

Among the things driving demand was the author: Wang Huning, the Communist Party's No. 5 leader and top political theorist to three Chinese presidents. Some copies have surged to more than 16,600 yuan (\$2,500) on Kungfuzi, an online marketplace for antiques. That's more than 3,000 times its original asking price in 1991, when Japan was more widely seen as America's big economic rival.

"The interest in the book is the result of a renewed desire to understand a US that is in the midst of a civil cold war," said Wang Wen, executive dean

of Renmin University's Chongyang Institute for Financial Studies. "China's doubts about the US will certainly increase in light of recent events."

The Capitol Hill turmoil is being read in Beijing as the most powerful sign yet that societal fissures in the US are behind increasingly erratic foreign policy shifts. That's feeding Chinese apprehension about reaching agreements on trade or other politically charged disputes with president-elect Joe Biden.

"The instability of a negotiation partner means that its public credibility is on the decline and the risk of breaking contracts or promises is greater," Wang Wen said on Tuesday.

Such skepticism illustrates how Washington's political strife is compounding Biden's challenge of stabilising US relationships around the world after four years of shocks and

surprises under President Donald Trump. Among his most difficult tasks will be convincing China's Xi Jinping to make concessions that go beyond the "phase one" trade deal announced by Trump a year ago.

Not only did that agreement fail to address most of the Trump administration's biggest trade grievances, including government support for strategic industries and stronger action on state-run enterprises, but China has purchased little more than half of

the \$172 billion worth of US goods it agreed to buy last year under the deal. Disputes between the two countries have since spiralled into everything from microchips to Taiwan, as Trump increasingly sought to blame China for his election year difficulties.

Meanwhile, Xi appears to have moved on, buoyed by early success against the coronavirus and a resilient economy. Xi has lately emphasised "self-sufficiency" and girded for a prolonged struggle, urging local officials earlier this week to "not only dare to fight, but also be good at fighting," according to the official Xinhua News Agency. State media accuses the US of abandoning four decades of engagement in favour of containment.

As Washington was gripped by one of the most divisive presidential transitions ever, Xi finalised a long-sought investment deal with the European

Union that touches on many of the issues left out of the US pact. The agreement had been championed by German chancellor Angela Merkel, a key American ally who early in the Trump presidency declared that Europe could no longer rely on others.

"While both sides have paid a price for the trade war, the US will suffer more in the long run because it damaged its position and reputation as the central pillar of global trade and commerce," said Mei Xinyu, who is with a research group under the Ministry of Commerce in Beijing.

Wang Huning's book, which was written during an academic visit to the US in 1988, predicted that America's emphasis on "individualism, hedonism and democracy" would eventually cause rifts that sapped its competitive drive. Countries like Japan—built on "collectivism, selflessness and author-

itarianism"—had the upper hand, said Wang Huning, who's now one of seven people on the politburo's supreme Standing Committee.

That thesis hasn't stood up so well over the past three decades: of the US's two main rivals of that era—Japan and the Soviet Union—one collapsed and the other saw its economy stagnate. That left the US as the world's undisputed superpower, and today it still boasts the world's most powerful military and biggest economy, powered by waves of successive innovation-driven technology booms.

But confidence is growing in China that the balance may be shifting. Besides the transition chaos, the US's struggles against the coronavirus, racial justice protests and gun violence—subjects featured prominently in China's state-run media—have fed the narrative of American decline.

## SHORT TAKES

## Saina, Srikanth win, Kashyap hurt

**Bangkok:** Shuttleer Saina Nehwal and former world number one Kidambi Srikanth entered the second rounds of their respective events but Parupalli Kashyap made an early exit from the Thailand Open Super 1000 tournament here on Wednesday.

Saina got the better of Selvadurai Kisona of Malaysia 21-15, 21-15 in the women's singles opening round to set up a clash with Thailand's Busanan Ongbamrungphan.

Earlier in the day, Srikanth took just 31 minutes to prevail over compatriot Sourabh Verma 21-12, 21-11 in the men's singles, but Kashyap was forced to retire midway in his opening-round match against Jason Anthony Ho-Shue of Canada after pulling his calf muscle while trailing 8-14 in the third game.

Kashyap had lost the first game 9-21 before making a comeback to take the second 21-13. — PTI

## Manchester Utd on EPL table top

**Burnley:** Paul Pogba sent Manchester United to the top of the English Premier League by scoring with a deflected volley in a 1-0 win at Burnley. United came into the match at Turf Moor knowing at least a point would move the team into first place for the first time at this stage of the season since Alex Ferguson was in charge of the title-winning 2012-13 side. Pogba met a cross from Marcus Rashford with a first-time effort from the edge of the box that deflected off Burnley defender Matt Lowton and through the legs of goalkeeper Nick Pope in the 71st. It gave United a three-point lead over Liverpool heading into their meeting at Anfield on Sunday.

The video assistant referee provided the main talking point, with Burnley's last man, Robbie Brady, avoiding sanction for bringing down Edinson Cavani outside the area because of a foul by United left back Luke Shaw. — AP

## Oz coach blames IPL

Langer says 2020 edition cause for growing injury list

**Brisbane, Jan. 13:** He loves the IPL but Australia coach Justin Langer on Wednesday questioned the timing of the last year's edition, which he believes could have been a contributing factor in the injury setbacks that both his and the Indian team have endured in the ongoing series.

The IPL was held in the September-November window in 2020 in the United Arab Emirates due to the Covid-19 pandemic. The lucrative tournament is usually held in India during the April-May window.

"It is really interesting how many injuries (it) has been throughout this summer. I can't help and think that the IPL this year (2020) was in really, probably wasn't ideal timing for anyone, certainly for such a big series like this," Langer said.

The latest addition to the Indian injury list is Ravindra Jadeja and Jasprit Bumrah. For Australia, David Warner was a big blow but he recovered in time for the last two Tests.

Langer was all praise for the IPL saying it helps in development of young players but was critical of the previous edition's timing. "I love the IPL, I look at IPL now like I used to look at county cricket for our young players. They go and play county cricket and it helps them (in) their cricket development enormously, I think it is the same with the IPL, helps their white-ball development. But the timing of it probably wasn't ideal, and I wonder whether that is having an impact on the injuries that we are seeing for both teams," he said.that. — PTI

## LIMPING INDIA TRAIN AHEAD OF BRISBANE TEST

**Brisbane, Jan. 13:** The injury-ravaged Indian team on Wednesday underwent their first training session at the Gabba here, hoping to field 11 fit players in the series-deciding fourth Test against Australia.

Ruled out of the last Test with an abdominal strain, pace spearhead Jasprit Bumrah still accompanied the visiting team for its training session.

The likes of Rohit Sharma, Shubman Gill, skipper Ajinkya Rahane and others were seen in their training kits. Bumrah, though, was not in his training outfit as he got involved in a discussion with bowling coach Bharat Arun.

"After an epic fightback in Sydney, it is time to regroup. We have begun our preparations for the final Test at the Gabba," the BCCI tweeted.

Chinaman bowler Kuldeep Yadav was seen bowling at the nets and there is a chance that he could be picked for the match with influential all-rounder Ravindra Jadeja, ruled out due to a fractured thumb.

Also at the session were seamer Shardul Thakur and all-rounder Washington Sundar. Either T. Natarajan or Shardul is likely to replace Bumrah in the playing XI at Gabba, forming a new-look pace attack alongside Mohammed Siraj and Navdeep Saini. — PTI

## Jaisimha and his lion-hearted battle in Brisbane

**DC CORRESPONDENT**  
HYDERABAD, JAN. 13

With the Indian cricket team battling injuries before the Brisbane Test starting on Friday, here's a Hyderabad connection to the venue as well as bruises. M. L. Jaisimha will be most remembered for his epic endeavour at Brisbane over half-a-century ago. His knocks of 74 and 101 saw the chase for India's first victory overseas fall agonisingly short by 39 runs.

Omitted from the original touring side for the

1967-78 series in Australia, he was called up after B. S. Chandrasekhar had to return home with an ankle injury. The lead-up to that leap across continents was anything but pleasant.

From the depths of despair to being hailed by doyens of cricket and its writing, the career-defining journey is recounted in *My way — The biography of M. L. Jaisimha* (Amazon, Apple Books).

Leg spin legend Bill O'Reilly noted: "Indian cricket must be possessing riches... if it could afford

M. L. Jaisimha

to overlook a performer so abundantly gifted as Jaisimha."

O'Reilly's Bodyline teammate Jack Fingleton was even more effusive.

"Jaisimha is a naturally good cricketer. He must be so to bat so assuredly today after not even one good net practice. Jaisimha is an extremely pleasant batsman to watch, with correct upright stance, free and flawless backswing of the bat with strokes on all sides. His footwork is exemplary. So one fell to wondering why this debonair and elegant batsman shaping excellently in a crisis was not in India's original side," he observed.

To later generations who

do not know the 'Victorious Lion,' that his name translates to, 'Jai' packed a panache all his own, be it as Test player, South Zone captain, Indian team manager, national selector and TV commentator.

His famed acumen always placed team interests above his own. Post-playing days, that same keen sense saw him alone forecast a tie in the 1986 Chennai Test against Australia. On July 7, 1999, the dashing Hyderabad took his last walk to that great pavilion in the sky.

## Punnaiah, Varun best performers

Ronald, Chaitanya, Kaustab, Nitesh, Takshit, Vidyanand also do well in top league

Sai Varun

G. Arjun

Chaitanya

Ronald

Vidyanand

**DC CORRESPONDENT**  
HYDERABAD, JAN. 13

Fast bowler B. Punnaiah hogged the limelight at the Hyderabad Cricket Association's A-1 division three-day league matches with an excellent eight-wicket haul on Wednesday.

Punnaiah of MP Colts ripped through the Cambridge XI line-up to bowl them out for a paltry 77 in the second innings but could not save his side from losing the game despite fantastic figures of 8-1-28-8 as Cambridge capitalised on their strong first innings total of 432.

Y. Sai Varun took the batting honours. He scored 150 in 119 balls with the help of 20 fours and two sixes to fashion Continental's win over Ensonce.

Leg-spinner G. Arjun took 4 for 32 to add to his first innings effort of 7 for 48 for a match haul of 11 wickets to bowl Balajji CC to victory over Charminar CC. Arjun has taken 26 wickets in three matches so far — 4/34 & 4/58 against Jai Bhagwathi, 7/13 vs Mahmood CC and 7/48 & 4/32 against Charminar CC.

Ronald Rodrigues (110) of Union Bank of India; Y. Chaitanya Krishna (107) of Central Excise; K. Nitesh Reddy (101) of R. Dayanand; Kaustab Rao (5/38) and A. Takshit Rao (101) of Secunderabad Nawabs and E. Vidyanand Reddy (5/42) of Deccan Chronicle were the other performers of the day.
