## House panel grills Twitter over Kunal Kamra tweets

New Delhi, Nov. 19: A parliamentary committee questioned Twitter on Thursday over the recent "obscene" tweets by standcomedian Kunal Kamra targeting the Supreme Court and the Chief Justice of India (CJI), and sought reply from the social media giant over the matter within seven days, said the chairperson Meenakshi Lekhi.

"It is shameful that Twitter is allowing its platform for obscene remarks like the one by stand-up comedian Kunal Kamra against the Supreme Court and the CJI," Ms Lekhi told reporters here.

She said members of the committee across the political spectrum, including Congress MP Vivek Tankha, BSP MP Ritesh Pandey and BJD MP Bhatruhari Mahtab, grilled Twitter representatives on this issue.

Ms Lekhi also said that Twitter's explanation about banning handles and tweets was found to be inadequate.

Kunal Kamra faces contempt cases over his tweets attacking the Supreme Court for granting TV anchor Arnab Goswami reprieve after his arrest in an abetment to suicide case. Eight people, mostly lawyers, have filed cases against him.

Mr Kamra has refused to retract his controversial tweets against the Supreme Court or apologise for them, saying he believes they "speak for themselves" - Agencies ■ More on Page 3 **Yeddy at DKS' family function**

## HC notice to Centre on same-sex marriages

AGE CORRESPONDENT NEW DELHI, NOV. 19

The Delhi high court asked the Centre to respond to a PIL seeking a declaration recognising same sex marriages under the Hindu Marriage Act (HMA) and Special Marriage Act (SMA). Issuing notice to the Centre, a bench of Justices Rajiv Sahai Endlaw and Asha Menon asked it to file a counter affidavit within four weeks. It also asked the Centre to respond to the points raised by the petitioners in an additional affidavit. Petitioner Abhijit Iyer Mitra and three others have contended in the petition that marriages between same sex couples are not possible despite the Supreme Court decrimiconsensual nomosexual acts.

The bench tagged this petition with two other pleas — one filed by two women seeking to get married under the SMA and challenging provisions of the statute to the extent it does not provide for same sex marriages, and the other by two men who got married in the US but were denied registration of their marriage under the Foreign Marriage Act. All three petitions are now listed together for hearing on

January 8, 2021. The court had earlier sought responses from the Centre and the Delhi government on the plea filed by the two women and also asked the Centre and the Consulate General of India in New York to respond to the petition by the two men. AGE CORRESPONDENT NEW DELHI, NOV. 19

The Delhi zoo has got a Royal Bengal tigress, the first in six years, from the Kanpur zoo for breeding proposes under an animal exchange exchange programme, officials said on Thursday. The tigress, Barkha, is six years old. She will form a pair with Karan, who is also aged around 6. The Delhi zoo did not have a Royal Bengal tigress for six years despite it being a participating zoo for the Conservation Breeding Programme of Bengal Tiger, according to its director Ramesh Pandey. According to the Central Authority,

Breeding Conservation Programme is a science of conserving a species by preventing imminent population collapse in the wild due to a large number of eliminative pressures such as habitat loss, habitat fragmentation, industrialisation, poaching, illegal trade and climate change, etc. The Delhi zoo had three Royal Bengal tigers till a vear ago.

One of the three tigers, eight-year-old Rama died at the zoo in September last year due to kidney failure. He was brought from the Mysore zoo in 2014. At present, the zoo has only one male Royal Bengal tigers — Karan and seven white tigers

Officials said 15-year-old Bittu was not in good health and reports suggest very high presence of crefunctioning of kidneys. Recently, the Delhi zoo acquired five species wild boar, black and grey partridge, golden pheasant, Eurasian dove and jungle cat — from Chandigarh's Chhatbir Zoo. A male rhino from Patna will be brought soon for breeding purposes. There are two female rhinos in the Delhi zoo at present, Pandey said.

SONU SHRIVASTAVA MUMBAI, NOV. 19

After its recent recruit asked the owner of "Karachi Sweets" shop in Bandra to change his outlet's name to something else, Shiv Sena has distanced itself from the demand. In a video that has gone viral, Nitin Nandgaokar, who joined Shiv Sena from the MNS in 2019, is seen asking the shop owner to change the outlet's name. Congress leader Sanjay Nirupam termed Nitin

Nandgaokar a senseless fellow. In the video, Mr Nandgaonkar was seen asking the owner of "Karachi Sweets" to rename it instead after his father or grandfather. "Don't use the name Karachi in Mumbai. We have problem with the name Karachi. Our jawan (died) on Bhai Dooj. Pakistan is a coun-try of terrorists," try of terrorists," Nandgaonkar said. He further told the owner that he will give him time to rename the shop.

In his post on Facebook, he added that the word Karachi should be dropped from all signboards in 15 days.

In a tweet in Hindi, Mr Nirupam said, "Chinese hotels in India have nothing to do with China, similarly Bandra's Karanchi Śweets has nothing to do with Pakistan. When will the senseless activists of Shiv Sena understand this truth? The threat of changing the name of the 70-year-old shop is wrong. Chief minister just not watch Tamasha, instead of protect it (Karachi Sweets)."

#### **K'TAKA BJP STIRS** TROUBLE WITH **MARATHA BODY**

**VINAY MADHAV** BENGALURU, NOV. 19

The BJP strategy in Karnataka to win the byelections by promising sops to the dominant community in each constituency is becoming counter-productive for the government.

The government announced the formation of the Maratha People Development Authority, just on the eve of the byelections to the Basavakalyana constituency, which has a sizable Marathi population.

This move has irked pro-Kannada organisations as Karnataka has a long border as well as water sharing disputes with Maharashtra. It has given a platform for Maharashtra not only to reiterate its claim on Belagavi, but also to extend it till Karawar Worsem even the Maharasthra Ekikarana Samithi in Belagavi has opposed the move to form the Maratha Development Authority.

Basavakalyana has over 30.000 Marathi speaking voters and the bypoll for the constituency is in offing. Soon after announcing this, the Lingayat community, which is the dominant community in the state. demanded a similar body for them. The government immediately announced the Lingayat Development Corporation, as the constituency has more than 35,000 Lingayats.

#### MNS TO HOLD STIR AGAINST 'INFLATED' **ELECTRICITY BILLS**

**BHAGWAN PARAB** 

The issue of inflated electricity bills is likely to escalate further in Maharashtra with Raj Thackeray-led MNS has announced statewide protests across the state, if the bills are not waived off till Monday. MNS leader Bala

MNS leader Bala Nandgaonkar said on Thursday, "The state govern-ment had promised to provide waiver in electricity bills. We met several people including Governor Bhagat Singh Koshyari and NCP chief Sharad Pawar on this issue. But nothing has happened. In the race in the MVA government to take credit for the waiver, people of Maharashtra are made to suffer."

The MNS would hold protests at all district offices in the state on Monday, if the electricity bills are not waived

off, he added. MNS leader Another Sandeep Deshpande tweeted, 'We have tried everything from statements, applications, meetings to pleas (to demand waiver in the electricity bills). but the government is not ready to move. Finally, to provide relief to people, we have to hit the streets to fight on

this issue.' Raju Shetti, the chief of Swabhimani Shetkari Sanghatana, one of the supporters of MVA government, has also appealed people not to pay the electricity bills.

Oxford Economics sees avg. 4.5% growth for 5 years

# **Analysts raise growth** forecast for next year

**SANGEETHA G** CHENNAI, NOV. 19

Ahead of the release of GDP data for the September quarter, rating agencies and investments banks are predicting a faster recovery India's economy for FY22. While some see lesser contraction for this fiscal than projected earlier, some are not that optimistic.

InvestorsMoody's Service has lowered the contraction rate for India's GDP to 10.6 per cent for 2020-21 from its earlier forecast of 11.5 per cent. It has also revised upwards its expectation for GDP growth rate to 10.8 per cent for 2021-22 from 10.6 per cent earlier. However, in the medium term economic growth is likely to settle around 6

per cent, it said. Moody's says the stimulus measures announced last week by the finance minister were aimed at increasing manufacturing competitiveness and creating jobs while supporting infrastructure investment and credit availabili-

ty to stressed sectors. "As such, they present potential upside to our current forecasts, a credit rating Better the positive," positive," the rating agency said. Better growth will also be supported by the falling of Covid-19 cases in the country, it said.

GDP forecast downwards to - 6.4 per cent from -6.0 per cent earlier.

Barclays expects the recent improvement in manufacturing to broaden to the services sector early next year. "We now see a better trajectory for the recovery of consumption as well as investment, given incrementally rising fiscal and monetary support," it said.

The recent stability in the health crisis has been accompanied by a faster return of the economy to normal, beyond the agricultural sector. Indicators for a number of manufacturing segments are now above pre-Covid levels. Growth in GDP will resume in Q4 20, a quarter ahead of the RBI's projections, it said.

However, Barclays has modestly revised its FY21 GDP forecast downwards to -6.4 per cent to reflect marginally weaker incoming data. It expects Q2 FY21 GDP released next

week to register a contrac-

tion of 8.5 per cent. Icra says the September quarter contraction would have narrowed to 9.5 per cent from 23.9 per cent in the June quarter. It believes the economy has recovered from the lows of pandemic-induced lockdown.

'A substantial recovery in manufacturing and construction is likely to underpin the expected improvement in the performance of the industrial Gross Value Added in Q2 FY21. Various sectors of manufacturing recorded an improvement in demand and volumes in Q2 FY2021, although the performance was admittedly uneven," said Aditi Nayar, principal econo-

mist, Icra. Nevertheless, the extent of the recovery in the

FY21 remains unclear, and we caution that trends in the same may not get fully reflected in the GDP data, given the lack of adequate proxies to evaluate the less formal sectors, she

Despite the predicted recovery, India will be the worst-affected among the world's major economies even after the pandemic wanes, with output 12 per cent below pre-virus levels through the middle of the decade, according Oxford Economics.

Balance sheet stress that had been building before the coronavirus outbreak will probably worsen, says Priyanka Kishore, head of economics for South Asia and South-East Asia. She projects potential growth for India at 4.5 per cent over the next five years, lower than 6.5 per cent before the virus.

"It's likely that headwinds which were already hampering growth prior to 2020—such as stressed corporate balance sheets, elevated non-performing assets of banks, the fallout in non-bank financial companies, and labor mar-ket weakness—will worsen," she said.

"All supply-side factors feel the effect, with only human capital's contribution unchanged from the pre-virus baseline," she said. "Capital accumulation takes the biggest hit because we expect bal-ance-sheet stresses to worsen following the crilengthening the investment recovery

## Pandemic hits income of 65% urban residents

SANGEETHA G CHENNAI, NOV. 19

Nearly two-thirds of the urban population seems to have had a negative impact on their income due to the pandemic and the resultant lockdown.

A whopping 65 per cent respondents of a survey by Paisabazaar.com said their incomes were hit by the pandemic. About 16 per cent of them claimed to have lost 100 per cent of their income, with another 28 per cent reporting income reduction of more than half. Over 8,500 respondents

between the age of 24 and 57 years from over 35 cities with a debt of Rs 1 lakh or more took part in the survey.
Almost 86 per cent of

the self-employed customers said the pandemic has adversely impacted their income and 25 per cent claimed that their income has come down to zero.

Among the salaried class, 56 per cent saw their income take a hit. Another 30 per cent said their salary has been

reduced by more than half from the pre-Covid levels and 12 per cent reported complete loss of

salary due to job loss.

Delhi and the NCR were the most impacted cities, with 70 per cent of their resident participants reporting a negative impact on income. Among these, 16 per cent of respondents from the NCR saw income coming down to zero.

Mumbai was worst with 26 per cent Mumbaikars reporting income plum-

meting to nil.

Mumbai also had the highest percentage of moratorium takers-65 per cent of the respondents. Further 52 per dents. Further, 52 per cent respondents in the megapolis said they cannot afford to pay their EMIs in full, with 15 per cent of them saying they currently have zero pay-

ment capacity.
Chennai was the least impacted city with 52 per cent seeing incomes coming down. Only 9 per cent of Chennai residents who participated in the survey suffered a 100 per cent income loss.

**NIDHI VERMA** 

Indian companies will spend Rs 10,000 crore (\$1.35 billion) over three vears on 1,000 liquefied natural gas (LNG) stations along main roads and industrial corridors and in mining areas, the oil minister said on Thursday, to cut diesel consumption.

Diesel accounts for about two-fifth of India's refined fuels consumption.

"Even if the LNG vehicle segment achieves 10 per cent market share in a fleet of 10 million trucks, it will have a positive impact on reducing emissions and substituting crude," Dhar-mendra Pradhan said at a foundation-laying ceremony for 50 LNG stations.

Use of LNG in heavy vehicles will cut fuel costs by 40 per cent compared with diesel and help contain inflation, he said.

LNG is suitable for longhaul trucks and buses as its higher energy density can help vehicles travel 700-900 km with one fill compared with about 300 km for a diesel vehicle, said V.K. Mishra, head of finance of Petronet LNG.

Companies will set up fuelling stations along a 6,000-km network of highways linking the four main metros, he said.

## Adani Green has no firm customer for \$6 bn project

NEHA ARORA & SUDARSHAN VARADHAN NEW DELHI/CHENNAI, NOV. 19

Adani Green Energy's record \$6 billion solar power project announced ın June nas no guaranteed customer, its deal with India's main solar-adoption agency shows, and may expose the company to higher financial risk.

Shares in the firm, controlled by billionaire Gautam Adani, have soared three-fold since the signing of the 8 gigawatt (GW) multi-plant deal, which Adani hailed as the "largest of its type, ever"

and a landmark for India. However, details of the agreement between Adani Green and Solar Energy Corp of India Ltd (SECI) reveal the agency has no "legal or financial obligation" to support the project if SECI fails to find

This would be the first major SECI project without a state-guaranteed power purchase agreement (PPA), which analysts say has been key to building up the renewable energy sector.

When SECI floated the tender for the project in

June 2019, it had said a PPA would be assured, but it withdrew the clause in the deal signed a year later. "There shall not be any legal or financial implication to SECI in relation to such (unsold) quantum including associated quantum of manufacturing facilities," the agreement, reviewed by

Reuters, says.
Adani Green has said 2 GW of generation capacity will come onstream by 2022, while the rest will be added in annual 2GW increments through 2025.

There are no buyers lined up for the project yet and it is unclear when SECI will be able to find buyers, a process that typically takes months.

Auctions by the SECI usually attract greater participation because of the assurance of power purchase and payments. But the lack of such a

guarantee could undermine investor and lender confidence, raising financing costs in a market like India where power demand growth has repeatedly fallen short of expectations amid a broader economic slowdown.

The quality of "federal government-guaranteed contracts with cashflow payment certainty provide investors the confidence to deploy tens of billions of dollars", said Tim Buckley, director at the Institute of Energy Economics and Financial Analysis.

Adani Green has said it would receive interim funding for the project from a consortium of foreign banks, and later with money raised from the capital markets.

It has reassured investors of its ability to tap markets citing its sover-eign grade rating. It declined to comment on the project on Thursday.

"We have full visibility and we would be in a posi-tion to inform the market shortly," the group's chief financial officer. Jugeshinder Singh, said earlier this month. —Reuters

K. J. M. VARMA BEIJING, NOV. 19

Chinese president Xi Jinping said on Thursday that China is set to change its development model from next year, relying more on domestic consumption than export-reliant growth which propelled it to become the world's second largest economy next only to the United

"From next year on, China will embark on new journey toward fully building a modern socialist country," 67year-old Xi said while addressing the Asia-Economic Pacific Cooperation (APEC) CEO Dialogues via

said.
"The new development paradigm is a strategic decision we have made based on the current stage and conditions of development in China and with full consideration given to economic globalisation changes in the external environment," he said.

Last month, a key conclave of the ruling Communist Party of China headed by Xi adopted his proposals for the formulation of the 14th Five-Year Plan (2021-2025) for National Economic and Social Development and the Long-Range Objectives Through the Year 2035.

## **LAMBORGHINI HURACAN STO UNVEILED**

**MICHAEL GONSALVES** PUNE, NOV. 19

Italian super sports car maker Lamborghini has introduced the new Huracan STO (Super Trofeo Omologata) which is a track focused racing car. Lamborghini plans to commence the deliveries of the Huracán STO next year but the price has not been revealed vet.

Drawing inspiration and technical learnings

from the Huracán Super

Trofeo Evo and successful GT3 racing models, the Huracan STO is effectively a road-homologated version of the racer that won the 24 Hours of Daytona three times.

The new STO is powered by a naturally aspirated 5.2-litre V10 engine making 640hp and 565Nm. It sprints from 0-100km in an eye-blinking three seconds with a top speed of 310kmph.

The firm is yet to reveal its India launch plans.

Amidst reports of a data centre policy on the anvil, India is increasingly attracting investments in data centres this year.

Data centre projects eceived \$396 million received between January and September 2020, which is 40 per cent of the total investments that came in during the last 12 years.

The Indian data centre industry has attracted close to \$977 million in private equity and strategic investments since 2008, of which nearly \$396 million was infused in the first

nine months of 2020. These investments will

help the construction of at least 28 large hyper-scale data centres over the next three years. These will span over 16 million sq. ft. with at least 1,400 MW of

## Let Cong show humility, call for wider dialogue

fter the Mahagathbandhan in Bihar, of which the Congress was the second largest component, was pipped to the post by NDA, the party's dissidents who had formed a group of 23 or G-23 last August have come to the surface with vigour.

The prominent lawyer and former Union cabinet minister Kapil Sibal, who has virtually emerged as the G-23 spokesman, asserted in a recent interview that the Congress was "in decline", that the way forward was in sight but the presumed leadership (meaning interim president Sonia Gandhi and her son Rahul) was not visible, and that experienced, senior folk weren't being

Much of this is valid, although Mr Gandhi has hardly been inactive. Indeed, it is hard to think of any leader of any party who has emerged as a harder or more frontal critic of this government, of PM Narendra Modi, and the RSS, especially from the liberal, secular perspective.

The core of the dissidents' argument pertains to the field of and these are not without merit

But the former Congress chief does give the impression that he has gone solo. There is hardly any semblance of a functioning organisation that he built when he was formally at the helm. This is no way to run a party, especially party organisation one with an ambition to make its influence felt nationwide.

Mr Sibal has sought to rub his point in by pointing to the Congress' none too bright show-ing in the recent Bihar election and the byelec-

tions in Madhya Pradesh, Gujarat, UP and Karnataka. In fact, were it not for these reverses, it is unlikely he would have sprung to life the way he did. However, the criticisms around the poll reverses do not appear well-grounded. In the byelections, the ruling parties did well everywhere, including Jharkhand where the Congress came good. As for Bihar, it is true that the bulk of the share of seats that fell in the Congress' share to fight were those that no

Mahagathbandhan party had won in three decades. So, probably these would have fallen in NDA's kitty even if the resurgent RJD fought on them.

All these arguments are in the nature of garnishing, however. The core of the dissidents' argument pertains to the field of party organisation and these are not without merit, even if the G-23 are people who had thrived in a party built on nominations when the going was good and the Congress was in power.

Even if Mrs Gandhi has got into motion a process for AICC elections, a key requirement for organisation-building and daunting task at the best of times, no one really knows what's going on. Since the G-23 are experienced and senior folk, although none amongst them can claim to be a mass leader or ground-level politician, it would have been in the fitness of things if they too had been associated with this exercise and consulted routinely. Instead, it

seems they have been cast aside. It was singularly distasteful of Congress Lok Sabha leader Adhir Ranjan Chowhury to suggest that Mr Sibal either float his own party or join another party instead of speaking out aloud. This is not the way of democratic parties. and others — should not forget that even P. Chidambaram has criticised the Congress' performance in Bihar and asked that experienced hands be consulted. The Congress would do well to summon some humility.

ome old-timers feel that it's just not cricket. But Anil Kumble took it in 2004, followed by Gautam Gambhir and Rahul Dravid in 2009, Rohit Sharma in 2018 and Joe Root earlier this year. And now skipper Virat Kohli officially asked for it and got it! The Board of Control for Cricket in India's grant of paternity leave to Kohli during his team's upcoming Oz tour is a sure sign of changing times.

At present, fathers who are government servants are permitted 15 days of leave to be availed within six months of the birth of the child under Rule 43A of the Central Civil Services (Leave) Rules, 1972. Similar provisions can be found in the leave rules of state governments. It is only about eight per cent of the 182 days allowed to mothers. But private companies like Zomato, Ikea, Amazon and Novartis as well as tech giants Facebook, Deloitte and Microsoft play a big role in defining workplace cultures and they allow longer leaves.

Blinkered to shifting realities, possibly due to an ivory tower consciousness. then woman and child development minister Maneka Gandhi in 2016 scoffed at the idea of legislating for paternity leave. She was convinced that "Indian men' would turn "it into a holiday". The truth is that even where rules are in place fathers are shamed into not availing it or otherwise subjected to pressures by We need more teeth in our labour laws for employers accountable. Not only in high-profile jobs or for executives in general, paternity leave should be the norm for peons, clerks and blue-collar workers. But that can only happen if there is political will to honour the cultural change

Although it was women who first argued for work-life balance, a term that originated in the UK during the Industrial Revolution, allowing moderate amounts of leave to employees has been seen to improve both quality of output and prevent burnouts. An egalitarian policy of parental leaves will direct social — promote participation of women in the labour force, currently at 26 per cent, thus drawing in their diverse skills and vision, optimise our gross domestic product as well as create friendlier workplaces.

They must also be made aware that humans have overcome many perilous situations in the past; therefore, we can believe with reason that the present condition is only temporary. # Can KCR's gameplan stop Modi juggernaut?

municipal way in Hyderabad might have a political significance nationally, if TRS chief and Telangana chief minister K. Chandrashekar Rao's (KCR) strategy helps his party trounce the newest challenger to power — the Bharatiya Janata Party. If KCR succeeds in nipping the saffron party's surge in the bud, he might reveal a perfect playbook to counter the seemingly unstoppable juggernaut of Prime Minister Narendra

It is only of footnote value, not headline material, that the Congress, which ruled India for two based on the strength of members of Parliament Telugu people sent to Lok Sabha, and which enacted and implemented the formation of Telangana, is rapidly declining in the state. The interesting part is KCR Congress, the principal challenger to TRS as recently as the 2018 Assembly elections, from the general ward into the ICU.

In that election, which the TRS had foresight to schedule ahead of completion of term, and delink state elections from national elections to avoid having to face the Modi wave, the pink party retained power with a bigger majority, winning 88 out of 119 seats. The Congress returned as the principal Opposition party, with 19 seats, while the BJP secured a lone seat. The MIM, ever friendly to whoever is the ruling

party, won seven seats. Ignoring the mandate for over two months, without even declaring a cabinet, the TRS boss ensured defections from the Congress, till it was finally split by over two-thirds, and Congressman Mallu Bhatti Vikramarka lost the status as leader of the Opposition. The void left by the Congress proved to be a signal to the BJP to make it an all-out direct battle with the TRS for the

The TRS lost two of its advantages in this possibly irreversible decline of the Congress and consequent rise of the BJP — a split in anti-incumbency votes will cease and a party with a more effective election machinery will

have to be faced.

The BJP has shown it has the striking firepower.

Debutant D. Arvind defeated sitting MP K. Kavitha, daughter of KCR, in Lok Sabha elections for Nizamabad, a hurt the TRS still nurses. The recent snatching of Dubbaka by elections by the BJP has consolidated a perception Telangana is now a predominantly two party state, notwithstanding the factor X that is Owaisi-led

The BJP has already

pushed the TRS into a spot by making the elections to eater Hyderabad Muni cipal Corporation (GHMC) about nationalist Hindutva, a template the TRS has not really been tested against. The BJP has declared that the GHMC elections are between them and the MIM, accusing the TRS of appeasing Muslims, especially Owaisi brothers, and being their sidekicks. The TRS could laugh off charges of nepotism, family rule and corruption when they were hurled by the Congress, but the same attack from the BJP could have a sharper bite. Above all, the TRS cannot armtwist the BJP the way it

could do the Congress. With the reputation and political future of TRS working president K.T. Rama Rao, son of KCR, heavily invested in the urbane electoral climes of hi-tech Hyderabad, CM Rao is taking nothing to chance because in Indian politics, like in many Indian families, the loss to a daughter is painful, but

the loss to the image of a son, that too heir apparent, is nearly politically fatal.

Taking the reins into his own hands, KRC has firstly declared that his party would fight both the BJP and the MIM based on secular values. KCR has announced that none of their party leaders or candidates would visit temples, mosques, churches or any other places of wor-ship as part of their cam-paign. Wearing of religious identity won't be a votewinning tactic of the TRS.

This will be backed by giving a second lease of life to the idea of a Federal Front, a non-Congress, anti-BJP national front and making it about a confrontation between

KCR Narendra Modi as principal rivals on the national scene. This seems congruent with the perception that KCR will hand over the reins of the state to his son soon and take a one-way fight to Delhi.

Just as the TRS has seldom faced a tough rival like the BJP at the statelevel head-on, Mr Modi and BJP, too, has not yet seen a challenge as KCR can alone mount in India. KCR understands the value of rhetoric and optics as few in Indian politics, besides the Modiduo. He believes in disruptive moves and being unpredictable, keeping everyone guessing. He would seldom waste a stone to kill one bird.

KCR would like to take on the BJP pan-India with a front which would acquire the image of India itself — a union of states hence the KCR-initiated front would be a union of state-level parties and lead-Kashmir, Uttar Pradesh, Bihar, Bengal, Tamil Nadu, Odisha, besides neighbouring Andhra Pradesh, are early potential recruits for this

Making every state election about Modi versus his front will be crucial to KCR's strategy — make every election harder for the BJP across the country, by involving every part of the whole, all the time, leading to 2024. Thus, even a loss in, say Delhi or Jharkhand, which BJP presently dismisses as a local loss with no impact at nation level, would henceforth become a win for the anti-Modi front, and thus a

KCR will likely pitch secular federalism, marked with good governance, high on welfare and development, with a strong stress on inclusivity as key ideological differentia-"true". KCR believes this will reduce the ability of the BJP to coerce Opposition leaders with other means, aka, use of Central agencies.

It is his calculation that the long-term incarcera-tion of leaders in Kashmir would have become impossible, if leaders of all states had stood up with them, together. Drawing a leaf from Lincoln, KCR will now put his marketing skills to convince all state leaders to the mantra — let us hang together, lest we

be hanged separately.
The TRS has a great understanding of how to build a narrative and sustain it through innovative programmes schemes. It is hardened in social media battles. It can come out with attractive slogans and put up a convincing counter narrative. It can lure, or coerce, the media. Above all, KCR can put Telangana's own success in input investments for farmers, water as a right for all Indians, jobs, infrastructure and univer sal heathcare as rival models — the Hyderabad model versus the Gujarat model.

His timing is perfect, too. The Congress is at its weakest and can be dictated to support the front at any later date. Most regional leaders are also too weak to resist; they will happily follow anyone giving them hope against

Modi's BJP. But will KCR emerge the Pied Piper or end up doing an encore of 2019, when his high vision was reduced to gallantry of Don Quixote class, will start becoming clear when Hyderabad votes for its 150 municipal wards on December 1, and its results are declared on December 4.

With a final caveat — it will be by paper ballot. Does a low-tech election in a hi-tech city finally hold the key to a different result in the next Lok Sabha? KCR will hope the answer

#### IN BRIEF **HOUSTON: 5 SHOT AT IN DOMESTIC VIOLENCE, 2 DEAD**

**Houston, Nov. 19:** Five people were shot Wednesday, two fatally, in what investigators say was a case of domestic violence in western Houston, police said.

Officers went to a house in response to a report of an "active shooter" about 2:45 pm Wednesday and arrived to find the body of a man in the driveway of the house he's believed to have owned, Assistant Police Chief Larry Satterwhite

Upon entry, they found a wounded man with a gun beside him, whom police suspect was the gunman, and a wounded woman believed to have been the complainant, Satterwhite said. Upstairs, they found two women, one dead and the other wounded.

A 3-month-old child appeared unharmed. All involved appeared to have been related to one another, Satterwhite said, but no motive was immediately determined.

#### **IRAN LAUNCHES CRAFT-CARRYING HEAVY WARSHIP**

Tehran, Nov. 19: Iran's paramilitary Revolutionary Guard said it launched a heavy warship Thursday capable of carrying helicopters, drones and missile launchers amid ongo-

ing tensions with the US. Photographs of the ship, named after slain Guard naval commander Abdollah Roudaki, showed it carrying trucklaunched surface-to-surface missiles and anti-aircraft missiles. It also carried four small fast boats, the kind the Guard routinely uses in the Persian Gulf. Sailors manned deckmounted machine guns.

The Guard said the ship has a length of 150 metres (492 feet). By comparison, a US Nimitzclass aircraft carrier has a length of 332 metres (1,092 feet). The Guard's ship does not have a runway, but includes a

landing pad for a helicopter. The commander of the Guard's navy, Adm Ali Reza Tangsiri, suggested his forces wanted to move beyond the waters of the Gulf into deep-water patrolling.

#### **US HOUSE PASSES TIBET BIPARTISAN** RESOLUTION

Washington, Nov. 19: A bipartisan resolution recognising the cultural and religious significance of an autonomous Tibet and seeking peaceful solutions to the conflict has been passed the US House Representatives. The resolution recognised the significance of the genuine autonomy of Tibet and the Tibetan people, and the work done by 14th Dalai Lama to promote global peace,

harmony and understanding. Passed by a voice vote, the resolution determined that it would be beneficial to convene a bipartisan, bicameral forum, either through a Joint Meeting of Congress, a teleconference broadcast at the Capitol Visitor Center, or roundtable, between Members of Congress and His Holiness the Dalai Lama to discuss peaceful solutions to international conflicts.

It also noted that there is overwhelming bipartisan Congressional support for the Tibetan people's aspirations for internationally recognised human rights.

#### **ETHIOPIA: WHO CHIEF BACKING TIGRAY REGION**

Nairobi, Nov. 19: Ethiopia's government is accusing the head of the World Health Organisation, a fellow Ethiopian, of lobbying neighbouring countries to come to the aid of the country's rebellious Tigray regional government with arms and other support.

Ethiopia's army chief, Gen Birhanu Jula, asserted to reporters on Wednesday that Tedros Adhanom Ghebreyesus had urged unnamed neighbours to "oppose the war and for (the Tigray People's Liberation Front) to get arms."

The army chief did not provide any evidence to support his claims. The TPLF has been clashing with Ethiopian federal forces for two weeks after the country's prime minister accused the heavily armed regional government of attack-

ing a military base. Each government regards the other as illegal after a monthslong falling-out amid political reforms. The army chief accused Tedros, a former Ethiopian foreign minister when the TPLF dominated Ethiopia's ruling coalition, of being a member of the TPLF.

Pakistan Prime Minister Imran Khan on Thursday met with Afghan President Ashraf Ghani on his maiden visit to Kabul and vowed to "do everything" to reduce violence in Afghanistan as the two leaders explored ways to deepen the bilateral ties and discussed the reconciliation process, amidst an uptick in violence that could jeopardise the peace push in the war-torn country.

## Australian special forces unlawfully killed 39 Afghans

Melbourne, Nov. 19: There is "credible information" that at least 19 serving and former Australian special forces allegedly committed up to 39 unlawful murders during the conflict in Afghanistan, according to a longawaited military report

into war crimes released on Thursday.

Australia launched the inquiry in 2016, amid reports from whistle-blowers and in the local media of the alleged killing of unarmed men and children in Afghanistan. The four-year inquiry by NSW Court Of Appeal Justice Paul Brereton found there was "credible information" of 23 incidents where Australian Defence Force (ADF) personnel were involved in the serious crimes, either carrying out the offences or at least being "accessories" to the incidents. There was "credible inf-

ormation" that 39 Afgha-

ns were allegedly murdered by Australian special forces in 23 incidents. There were also two incidents could be classified as the war crime of "cruel treatment", the report said. According to the Australian media, the latest report has been based on over 400 interviews with soldiers and officers from the SAS, a special forces unit, and Commandos, Afghan villagers, special forces interpreters and support staff. The inquiry found evidence some Australian troops in Afghanistan carried "throwdowns" such as weapons, radios and grenades not issued by the ADF but planted next to the bodies of Afghan civilians to suggest they were a "legitimate target"

Issuing an apology to Afghanistan people while releasing the report in Canberra, Australia's Chief of Defence Force Angus Campbell said:

"These findings allege the most serious breaches of military conduct and professional values. The killing, the unlawful killing, of civilians and prisoners is never acceptable." Campbell also apologised to the Australian people, saying he was sincerely sorry for any wrongdoing by members of the Australian Defence Force. Campbell said the report discloses a "disgraceful and a profound betrayal of the Australian Defence Force's professional standards and

expectations".
"Today the Australian
Defence Force is rightly held to account for allegations of grave misconduct by some members of our special forces community on operations in Afghanistan," he said. The public summary of the inquiry found that Australian soldiers summarily executed non-combatants and prisoners. — *PTI* 

## China perceives rising India as rival

**Washington, Nov. 19:** China perceives a rising India as a "rival" and wants to constrain its strategic partnership with the US, its allies, and with other democracies, the State Department said in a report, emphasising that Beijing intends to displace America as the world's foremost power.

Coming ahead of the transition of power from Donald Trump's administration to President-elect Joe Biden's administration after the November 3 US presidential election, the detailed policy document highlights that China is undermining the security, autonomy and econations in the region.

'China perceives rising India as a rival and seeks to impel it to accommodate Beijing's ambitions by engaging economically while constraining New Delhi's strategic partnership with the US, Japan, Australia and its relations with other democracies," the report said.

'China is undermining the security, autonomy, and economic interests of many others in the region — such as member states of the Association of Southeast Asian Nations (AS-EAN), including those in the vital Mekong Region, as well as the nations of the Pacific Islands," the report added.

## **FACE HONG KONG REALITY, CHINA TELLS 'FIVE EYES'**

Beijing, Nov. 19: China on Thursday rejected the latest attack on its Hong Kong policy by the US and several of its allies, saying they "should face up to the reality" that the former British colony has been returned to China.

Foreign ministry spokesperson Zhao Lijian was responding to a statement on Hong Kong issued by the US, UK, Australia, Canada and New Zealand, which together make up an intelligence partnership known as the Five Eyes. "No matter if they have five eyes or 10 eyes, if they dare to harm China's sovereignty, security and development interests, they should beware of their eyes being poked and blind-ed," he said at a daily briefing. -AP

Coronavirus vaccine developed by teams at the University of Oxford has been shown to trigger a robust immune response in healthy adults aged 56-69 and those over 70 years of age. The findings published in Lancet on Thursday based on 560 healthy adult volunteers shows that the ChAdOx1 nCoV-19 vaccine 'safe and well tolerated with a lower reactogenicity profile in older adults than in younger adults, meaning the older age groups could build immu-

nity to the disease. "These findings are encouraging because older individuals are at disproportionate risk of severe Covid-19 and so any vaccine adopted for use against SARS-CoV-2 must be effective in older adults,' the researchers note.

The team is also testing whether the vaccine stops people developing Covid-19 in larger Phase 3 trials and early results from this crucial stage are expected in the coming weeks. "We were pleased to see that our vaccine was not only well tolerated in older adults, but also stimulated similar immune responses to those seen in younger volunteers," said Dr Maheshi Ramasamy, an investigator at the Oxford Vacci-

According to Johns Hopkins University, the US has now reported 250,537 deaths and over 11.5 million confirmed cases. It has more reported infections and a higher death toll than any other country worldwide. #### **CLIMATE: EU LEADERS TALK BUT NO DEAL**

Brussels, Nov. 19: A summit of European Union leaders this week is not expected to yield a deal on a new climate target. according to draft documents and EU officials, likely pushing to December a decision on how deeply the bloc will cut

emissions this decade.

The meeting of the leaders of the 27 EU countries in Brussels on Thursday and Friday will be their first talks on a plan to upgrade the EU's

2030 climate goal.

The EU's executive, the European Commission, wants to reduce net greenhouse gas emissions by at least 55% this decade from 1990 levels, to steer the bloc towards climate neutrality by 2050. The 2030 target now is a 40% cut.

To fix the target in law, EU mon position, then reach a deal with the European Parliament, which wants an even more ambitious goal.

Draft conclusions for the summit do not include a specific 2030 target. EU leaders will "return to the issue" at a December summit to seek agreement on the goal by yearend, the draft said. Draft conclusions for a meeting next week of EU environment ministers, who hold parallel talks on the issue, do not include a specific 2030 target.

#### **CRANES' WINTER MIGRATION TO ISRAEL DELAYED**

Hula Lake, Israel, Nov. 19: The sun is setting on the lake and thousands of cranes perform a mating dance, bobbing their black and white heads while flapping large grey wings and hopping on long legs.

Like every winter, the redcrowned Eurasian birds are back on Israel's Hula Lake some for a stop-over en route from Russia, Finland and Estonia to Ethiopia's Lake Tana, and others here for the

entire cold season. This year, however, some of the 100,000 cranes flew in a little late, with global warming a possible reason for the delay.

The first birds arrive at the end of September. This year it was two weeks late. One of the reasons, we think, is because September was very warm and they had no reason to move to the south," said Inbar Shlomit Rubin, content and instructors manager at the Hula nature

Bird migration is like nature's clock, said Yaron Charka, chief ornithologist for the Jewish National Fund, the organisation that runs the site nich sees the migration of half a billion birds a year.

#### **CLIMATE ACTION INVESTOR GROUP TARGETS ARAMCO**

London, Nov. 19: One of the world's leading investor groups pushing for more corporate action on climate change said it has added Saudi Aramco, the world's largest oil producer, to its list of target companies.

Climate Action 100+, the 450 members of which manage more than \$47 trillion in assets, seeks to engage with the companies responsible for much of the world's greenhouse gas emissions in order to encourage the transition to a low-carbon

Specifically, it wants each company to commit to emissions cuts in line with the Paris Agreement on climate change, implement strong climate governance frameworks and impr-

ove climate-related disclosures. The group has already achieved some success with its strategy, including at oil majors Royal Dutch Shell RDSa.L and BP BP.L, which this year announced long-term strategies in

response to climate change. Climate Action 100+ has accelerated engagement with impressive results, the group's chair, Laetitia Tankwe, said after it announced the new

additions to its list of targeted companies. "Tĥese additions present a strategic opportunity to fur-

ther curb emissions and enable the transition to a net-zero future by 2050," she said. "We welcome the opportunity

to support signatories in these new engagements."

In a periodic review of the companies covered by the inititative, CA100+ said it had added eight others to the focus list, including copper miner Grupo Mexico GMEXICOB.MX and Colombian industrial company Grupo Argos ARG.CN.

## 38 killed as lota leaves thousands homeless

## Biggest Atlantic storm of 2020 has unleashed mudslides

Iota's death toll rose to 38 on Wednesday after the year's biggest Atlantic storm unleashed mudslides, tore apart buildings and left thousands homeless across Central America, revisiting areas devastated by another hurri-

cane just two weeks ago.

Iota plowed through the coast packing furious winds of 155 miles (260 kilometres) per hour on Monday evening, and forecasters have warned of more "life-threatening" conditions despite clear-

ing conditions. Eighteen people are confirmed dead in Nicaragua, where the storm made landfall at its peak strength, with seven chil-

dren among the toll.

"My house was destroyed by the hurricane, it left me only sand and water," said Diana Moore Poveda of coastal Bilwi city, near where Iota hit. "What you can see is what it left me."The Atlantic has seen a record storm season this year, including 13 hurricanes, and scientists say that warmer seas caused by climate change are making

Bogota, Nov. 19: Floods caused by a particularly intense rainy season have killed at least five people and left six others missing in northwestern Colombia, authorities said

damaged. The flooding brings the death toll from more than two months of torrential rains ravaging Colombia to 27, with thousands of people flooded out of their homes.

The government said 26 of Colombia's 32 departments have been affected by the rains, responsible for 154 separate flooding events, 143 landslides and 56 tornados.

Authorities link the catastrophic rains to the climate phenomenon known as "La Nina".

Zapata said.

Thousands had been left homeless, electricity and water services were destroyed, while trees were downed and roofs ripped off houses, according to Nicaragua's disaster man-

agement agency Sinapred. Another 14 were killed in neighbouring Honduras, including five members of the same family whose home was swept away in a landslide. Authorities in both countries had rushed to evacuate thousands of

people from coastal areas ahead of the storm.

Two people died on Colombia's offshore islands, two more were recorded dead in Guatemala, and one woman was killed in an indigenous community in Panama. El Salvador presidential

official Carolina Recinos said timely evacuations prevented the country suffering a higher toll.

One motorcyclist died after being struck by a tree in that country, over which the storm was gradually dissipating on Wednesday. Winds had slowed to 30 miles per hour by Wednesday morning, forecasters from the NHC said.

But forecasters warned that parts of Central America would face "life-threatening flash flooding" through Thursday. with heavy rains expected from Iota's tail.

"Flooding and mudslides across portions of Honduras, Nicaragua and Guatemala could be exacerbated by saturated soils in place, resulting in significant to potentially catastrophic impacts," the NHC said.

## Nevada fire: 1K returning home

Nevada roared through a neighbourhood in Reno and destroyed at least five houses, more than 1,000 people who were forced to evacuate — including the mayor - started returning home Wednesday.

Another fire about 100 miles (160 kilometres) south and across the border in California also exploded in strong winds Tuesday, killing one person, driving hundreds from their homes and destroying 80 structures in and around a small including community,

Rains overnight helped tamp down the flames in both places, but crews in Reno feared a forecast that called for another lashing of strong winds that could revive the fire, which damaged 15 other structures on the edge of the Sierra Nevada foothills. "We're looking at 40 mph (64 kph) winds in the valleys again today, 70 mph (112 kph) over the ridgetops, so that will be a concern for us,"

Fire Department incident commander Mark Winkelman said. Two firefighters were injured while battling the blaze over 2 square miles (5 square kilometres) but have been treated and released. One suffered an allergic reaction, and the other injured a leg while helping evacuate 1,300 residents. Extremely dry conditions helped fuel the blaze in rugged, hard-toreach canyons that run between homes in the densely populated neighborhood, Reno Fire Chief David Cochran said.

"Even though there was literally snow on the ground in some areas, a wind-driven fire like that

> is almost impossible to stop," Cochran said.

Investigators from the state and Reno fire marshal's office as well as the utility NV Energy were trying to find the cause of the fire. Winkelman said it started about 200 yards (183 meters) from the ori gin point of a November 2011 fire that destroyed 27 homes. That blaze was ignited by arcing power lines at a substation in strong winds, he said.

The so-called Caughlin Fire in 2011 was one of the first in the area to make it clear that dangerous wildfires no longer were confined to hot, dry summer months, said Cochran, the fire chief.

"That was sort of a watershed mark nine years ago where we realised there is no fire season — fire season is year-round," he said, adding that vege tation has become drier and burns easier. On Tuesday, the wind made it impossible to send up aircraft to help fight the flames, with support from local and federal agencies in northern Nevada and neighbouring California critical before wet weath er moved in later, authorities said. "It takes a village, as it were, to put out something like this."

## Recount order in 2 Wisconsin counties

Madison (US), Nov. 19: The Wisconsin Elections Commission issued an order on Thursday to recount more than 800 000 ballots cast in two heavily liberal counties at President Donald Trump's request. The order, required by law after Trump paid \$3 million for the recount. was agreed to after rancorous debate for more than five hours Wednesday night that foreshadows

the partisan battle ahead. "It's just remarkable the six of us in a civilised fashion can't agree to this stuff," Democratic commissioner Mark Thomsen said hours into the debate. The commission is split 3-3 between Democrats and Republicans. The recounts in Milwaukee and Dane counties, where Joe Biden outpolled Trump by a more than 2-to-1 margin, will begin Friday and must be done by December 1. Biden won statewide by 20,608 votes.

Trump's campaign has cited "irregularities" in the counties, although no evidence of illegal activity has been presented. We understand the eyes of the world will be on these Wisconsin counties over the next few weeks," Meagan Wolfe, Wisconsin's top elections official, said on Thursday.

"We remain committed to providing information about the process and assisting our clerks by providing facts on the mechanics of a recount and status updates." The commission argued over changes to its manual that provides guidance to local elections officials over how to conduct recounts.
Ultimately, they decided

not to reference the manuin the order, but the did update some parts to reflect accommodations for the coronavirus pan-demic. The commissioners deadlocked on making changes to the manual that Democrats and elections commission staff said would bring the guidance into line with current state law.

Republicans balked, saying the guidelines should not be changed after Trump filed for the recount. Their inability to agree leaves in place guidance that says absentee ballot applications must be approved as part of the recount, even though commission staff said that's not required under the law. Democratic commissioners said they were certain the recount was headed to court even though Trump's claims were without merit. ## **WILLIAM HAILS NEW PROBE INTO DIANA INTERVIEW**

London, Nov. 19: Prince William has "tentatively welcomed" an independent investigation into the circumstances surrounding a BBC interview in 1995 with his mother, Princess Diana, royal officials said Thursday.

William, who is second in line to the throne, said in a statement that the probe is "a step in the right direction." He added that it "should help establish the truth behind the actions" that led to the interview as well as "subsequent decisions taken by those in the BBC at the time." The BBC announced Wednesday it has appointed a retired senior judge to lead an investigation into the 1995 interview after Diana's brother, Charles Spencer, made renewed complaints this month that journalist Martin Bashir used false documents and other dishonest tactics to convince Diana to agree to the interview.

The investigation will consider if the steps taken by the broadcaster and Bashir were appropriate, and whether those actions influenced Diana's decision to give the interview.

It will also look into how much the BBC knew about the "mocked-up bank statements" that Charles Spencer claimed Bashir produced, purporting to show payments made to staff working for Spencer and the royal family. The 1995 interview, in which Diana famously said "there were three of us in this marriage" referring to Prince Charles' relationship with Camilla Parker-Bowles — was watched by millions of people and sent shockwaves through the monarchy. Diana divorced from Charles in 1996 and died in a Paris car crash in 1997.

## CRIME I PUNISHMENT Proceedings held govt leaders responsible for slaughter of innocents

## Nuremberg trials: Germany marks 75th anniversary

**Berlin, Nov. 19:** Seventy-five years ago, the dock of Courtroom 600 of the Nuremberg Palace of Justice was packed with some of the most nefarious figures of the 20th Century: Hermann Goering, Rudolf Hess, Joachim von Ribbentrop and 18 other highranking Nazis. They weren't yet known as war criminals — it was a charge that didn't exist until the Nuremberg trials began on November 20, 1945, in what is now seen as the birthplace of a new era of international law.

The proceedings broke new ground in holding government leaders individually responsible for aggression and

slaughter of millions of innocents. In addition to establishing the offense of war crimes, it also produced the charges of crimes against peace, waging a war of aggression, and crimes against humanity, whose legacies live on in the International Criminal Court of today.

Nuremberg was the city where Adolf Hitler reviewed torchlight Nazi party rallies and promulgated the race laws of 1935 that paved the way for the Holocaust. Filmmaker Leni Riefenstahl's famous propaganda movie "Triumph of the Will," with its sweeping aerial photography and other pioneering techniques, brought the

1934 Nuremberg Nazi Party Congress to the world, with footage of top officials speaking to massive crowds of followers at the Bavarian city's Luitpold Arena and the sweeping Zeppelin Field.

The Congress Hall begun by the Nazis near the parade grounds was never finished, and today houses a documentation centre about Nuremberg's history during the Nazi era. The choice to use the city's

Palace of Justice for the trials was less symbolic than pragmatic, as it was one of the few large buildings left undamaged by Allied bombing during the war. The testimony of hundreds of witnesses was heard over 218 trial days. One of them was Rudolf Hoess, the Auschwitz death camp commandant, who "reacted to the order to slaughter human beings as he would have to an order to fell trees, wrote US prosecutor Whitney R Harris.

Robert Jackson and his colleagues also had the Nazis' own meticulous records to work from, quoting document after docu-

ong with 11 others, including Martin Bormann, Hitler's deputy, who was tried in absentia. Bormann is now known to have died in Berlin in 1945 as he tried to flee the Soviets. Seven drew long prison Chief US prosecutor sentences and three were acquitted. Fifteen days later, the condemned men were hanged in the courthouse's adjacent prison.

## Italy and Belgium book Nations League final berths

Paris, Nov. 19: Romelu Lukaku helped fire Belgium into the UEFA Nations League finals by scoring twice in a 4-2 win over Denmark on Wednesday, while Italy also secured a place in the last four with victory away to

Bosnia and Herzegovina.

The world's number one-ranked side, Belgium only required a draw from their last League 'A', Group 2 game at home to Denmark behind closed doors in Leuven and took an early lead through Youri Tielemans.

Jonas Wind equalised for Denmark, but Lukaku got a second-half double and Kevin De Bruyne made sure of the victory for Roberto Martinez's side after Thibaut Courtois allowed a Nacer Chadli back-pass to squirm under his leg and in for an own goal.

Italy secured first place in Group 1 with a 2-0 triumph in Sarajevo thanks to a goal in each half from Torino's Andrea Belotti and Domenico Berardi of Sassuolo.

That ensured they finished a point ahead of the Netherlands, who came from behind to beat Poland 2-1 away with captain Georginio Wijnaldum scoring the winner after Memphis Depay's penalty cancelled out Kamil

Jozwiak's opener.

Italy and Belgium join Spain and World Cup holders France in a final tournament which is expected to be held in Italy in October next year.

England have more than one eye on that tournament, with the semi-finals and final scheduled for Wembley, and Gareth Southgate's team rounded out their Nations League campaign with a 4-0 win over Iceland.

Declan Rice and Mason Mount scored in the first half and Manchester City's Phil Foden got his first international goals with a late brace as England had three players aged 21 or younger score in the same match for the first time since 1883.

#### Wales move up, Scotland miss out

Wales won promotion to League A' with a 3-1 win over 10-man Finland in Cardiff that allowed them to top Group B4.

Despite manager Ryan Giggs being missing after his recent arrest on suspicion of assaulting his girlfriend, Wales came good with goals from Harry Wilson, Daniel James and Kieffer Moore.

Teemu Pukki netted for Finland, who had left-back Jere Uronen sent off after just 12 minutes. Winning their group also improves Wales' chances of securing a place in the 2022 World Cup qualifying play-offs, as the two best group winners in the Nations League are guaranteed play-off places if they don't make it via the usual route.

While Wales go up, Scotland missed out on promotion from League B, Group 2 after losing 1-0 in Israel, their second consecutive loss since clinching qualification for Euro 2020. Manor Solomon's first-half goal sunk the Scots.

## Djokovic loses big at Tour Finals

London, Nov. 19: Daniil Medvedev is enjoying the ATP Tour Finals a lot better in his second appearance. Medvedev secured a spot in the semifinals of the tournament by dominating five-time champion Novak Djokovic 6-3, 6-3 on Wednesday for his second straight win of the group stage.

Medvedev, who lost all three of his group matches last year on his tournament debut, has now beaten Djokovic in three of their last four meetings. The topranked Serb can still advance if he beats 2018 champion Alexander Zverev in a winnertakes-all match on Friday.

Medvedev broke Djokovic three straight times to go from 3-3 in the first set to a 3-0 lead in the second.

The first break came after a marathon game when the Russian finally converted his third break point when Djokovic missed a forehand after a long rally. -AP

## IPL over, it's football now for India

Bambolim (Goa), Nov. 19: Behind closed doors and with a raft of health safety measures in place, football's Indian Super League (ISL) will kick off here on Friday and become the country's first major tournament to be organised

since the enforcement of a Covid-19 lockdown eight months ago. Former champions ATK Mohun Bagan and Kerala Blasters will start the proceedings with what is expected to be a blockbuster clash at the GMC Stadium here. But the

season's first big game will undoubtedly be the one between ATK Mohun Bagan and SC East Bengal in Fatorda on November 27, the two heavyweights renewing their more-than-a-century-old rivalry in a new avatar. — PTI
